Dear Ms. Walli,

**RE: EB-2011-0268 - Updated Comments of LPMA on Adjustment to Hydro One
2012 Transmission Revenue Requirement & Uniform Transmission Rate
Calculations**

This letter is a follow up to that filed on December 5, 2011. In that letter the LPMA had expressed a concern for the apparent difference in the revenue requirement for Great Lakes Power Transmission (GLPT) in EB-2010-0291 compared to that used by Hydro One in the calculation of the Uniform Transmission Rate.

The revenue requirement used by Hydro One is \$35,247,808 as compared to a figure of \$36,060,024 in the revenue requirement work form submitted by GLPT in EB-2010-0291. It has been pointed out by Board Staff that this amount has been adjusted by an amount shown in Appendix B to GLPT's November 17, 2011 letter. The resulting revenue requirement matches that used by Hydro One in its calculations.

As a result LPMA no longer has any concerns with the figures used by Hydro One to calculate the uniform transmission rate.

Yours very truly,

Randy Aiken
