

**Responses to Vulnerable Energy Consumers Coalition  
("VECC") Interrogatories**

**2012 IRM3 Electricity Distribution Rate Application**

**PowerStream Inc. ("PowerStream") EB-2011-0005**

**VECC Question # 1**

***Reference: Manager's Summary, LRAM Application, Page 11***

*Preamble:* *The evidence indicates that in PowerStream's 2011 IRM Application, PowerStream - Barrie sought an approval to recover LRAM for OPA 2006-2007 funded programs for the period January 1<sup>st</sup>, 2007 to December 31, 2008.*

- a) *Did the 2011 IRM LRAM claim also include CDM savings in 2008 from OPA 2008 funded programs?*
- b) *Please provide a summary of all other LRAM claims that PowerStream has previously applied for.*

**Response:**

- a. Yes, the 2011 IRM LRAM claim included CDM savings from OPA 2008 funded programs in 2008. PowerStream's 2012 IRM LRAM claim includes savings from those programs starting in 2009.
- b. The previously approved PowerStream LRAM claims are summarized in the table below:

**PowerStream Inc**  
**Lost revenue adjustment mechanism savings approved in previous applications, \$**

		Source of funding		Carrying charges	Total
		3rd tranche	OPA		
PowerStream South 2009 EDR application	EB-2008-0244	\$ 260,484		39,604	300,088
PowerStream 2011 IRM Application:					
PowerStream South	EB-2010-0110	89,422	399,153	28,224	516,799
PowerStream North (Barrie)	EB-2010-0365	27,568	169,671	12,581	209,820
<b>Total</b>		<b>377,474</b>	<b>568,824</b>	<b>80,410</b>	<b>\$ 1,026,708</b>

## VECC Question # 2

### **Reference: Manager's Summary, LRAM Application**

Preamble: PowerStream is seeking to recover \$554,020 of lost revenue (including carrying costs) for the PowerStream – Barrie rate zone only due to energy savings resulting from CDM activities over the period January 1, 2009 to December 31, 2011.

- a) Please confirm that the LRAM amounts PowerStream is seeking to recover in this application are new amounts not included in past LRAM claims.
- b) Please discuss PowerStream's plans for an LRAM recovery application for the PowerStream – South rate zone.
- c) Please confirm the load forecast underpinning PowerStream's current rates does not include any load reductions due to CDM programs.
- d) Please confirm this LRAM application does not include the recovery of any CDM activities funded through the 3rd tranche of MARR.
- e) Please provide the rationale for requesting lost revenues for 2011.
- f) Please provide the calculation of the LRAM Rate Riders for each applicable rate class to the end of 2010.
- g) Please provide the rationale for using forecast 2012 billing units.
- h) Please re-calculate the LRAM Rate Riders by customer class based on Board-approved billing determinants.

### **Response:**

- a. Confirmed.
- b. Presently, PowerStream focuses its efforts on delivering OPA-contracted province-wide CDM programs to achieve its CDM targets by 2014, as per the Ministry of Energy directive and the OEB CDM Code. PowerStream will follow any future OEB directions regarding LRAM recovery for those programs.
- c. Confirmed. The load forecast underpinning PowerStream – Barrie's current rates does not include any load reductions due to CDM programs.
- d. Confirmed.
- e. As per Section 5 of the OEB "Guidelines for Electricity Distributor Conservation and Demand Management" (EB-2008-0037), "LRAM is retrospective adjustment, which is designed to recover revenues lost from distributor supported CDM activities in a prior year". In the case of PowerStream's 2012 IRM application, PowerStream's interpretation of "prior year" is 2011, which is the last actual year before the 2012 rate year.

Moreover, as per section 3.2.4 of “Chapter 3 of the Filing Requirements for Transmission and Distribution Applications”:

*“It is the Board’s understanding that there may still be remaining distributors who have yet to apply to the Board for recovery of LRAM and/or SSM amounts related to CDM activities undertaken between 2005 and 2010.*

*Distributors intending to file an LRAM or SSM application for CDM Programs funded through distribution rates, or an LRAM application for CDM Programs funded by the OPA between 2005 and 2010, shall do so as part of their 2012 rate application filings, either cost-of-service or IRM. If a distributor does not file for the recovery of LRAM or SSM amounts in its 2012 rate application, it will forego the opportunity to recover LRAM or SSM for this legacy period of CDM activity. “*

Based on those guidelines, if PowerStream did not apply for LRAM recoveries of 2005-2010 CDM for 2011 in its 2012 IRM application, PowerStream would forego the opportunity to recover the lost revenues in this year. Since the intention of the LRAM is to remove the disincentive to implement CDM program for distributors, PowerStream considered these guidelines as a rationale for including 2011 in its LRAM claim.

- f. The table below shows the calculation of LRAM rate riders to the end of 2010:

Rate Class	LRAM before Carrying charges			Total LRAM	Carrying charges	Total claim	Billing Type	Billing Units (Fcst 2012)	Rate Rider
	2009	2010	2011						
Residential	\$ 94,588	\$ 120,733	\$ -	\$ 215,321	\$ 5,742	\$ 221,063	KWh	568,750,042	\$0.0004
GS<50 kw	\$ 57,185	\$ 73,193	\$ -	\$ 130,378	\$ 3,476	\$ 133,854	KWh	213,377,368	\$0.0006
GS>50 kw	\$ 940	\$ 1,461	\$ -	\$ 2,401	\$ 63	\$ 2,464	KW	1,946,359	\$0.0013
<b>TOTALS</b>	\$ 152,713	\$ 195,387	\$ -	\$ 348,100	\$ 9,281	\$ 357,381			

- g. PowerStream used forecast 2012 billing units for calculating the LRAM rate riders, as those provide the basis for PowerStream’s 2012 revenues, so the calculated rate riders would match the base on which the customers pay the charges. The “Board Approved” billing determinants are from the Barrie Hydro 2008 EDR application, are based on 2007 forecast of 2008 , and therefore are less representative of the current load in the PowerStream North service area.

The table below compares 2008 PowerStream North “Board Approved” billing determinants with 2012 forecasted:

Rate Class	Billing determinant	2008 "Board Approved"	2012 Forecast
Residential	<i>kWh</i>	570,525,272	568,750,042
GS<50 kw	<i>kWh</i>	197,729,902	213,377,368
GS>50 kw	<i>kW</i>	2,044,226	1,946,359

h. The re-calculated rate riders are presented in the table below.

Rate Class	Total claim	Billing Type	Billing Units (Fcst 2012)	Rate Rider	Billing Units (2008 Board Approved)	Rate Rider (recalculated)	difference to original
			As per Application		VECC 2(h)		
Residential	\$ 342,221	<i>KWh</i>	568,750,042	\$ 0.0006	570,525,272	\$0.0006	\$ -
GS<50 kw	\$ 207,854	<i>KWh</i>	213,377,368	\$ 0.0010	197,729,902	\$0.0011	\$ 0.0001
GS>50 kw	\$ 3,944	<i>KW</i>	1,946,359	\$ 0.0020	2,044,226	\$0.0019	\$ (0.0001)
<b>TOTALS</b>	\$ 554,020						

### VECC Question # 3

#### Reference: Appendix G to Appendix K

- a) *Please tabulate by year for each program/measure, the # of units, measure life, unit energy savings, free-ridership rate, annual energy savings and contribution to LRAM. Reconcile to the values in K-3.*
- b) *List and confirm OPA's input assumptions for Every Kilowatt Counts (EKC) 2006 including the measure life, unit kWh savings and free ridership for Compact Fluorescent Lights (CFLs) and Seasonal Light Emitting Diodes (LED). Confirm some of these assumptions were changed in 2007 and again in 2009 and compare the values.*
- c) *Demonstrate that savings for EKC 2006 Mass Market measures 13-15 W Energy Star CFLs have been removed from the LRAM claim in 2010.*
- d) *Adjust the LRAM claim as necessary to reflect the measure lives and unit savings for any/all measures that have expired starting in 2009.*

#### Response:

##### Preamble:

Following the OEB guidelines (*"Chapter 3 of the Filing Requirements for Transmission and Distribution Applications"*), PowerStream used the net savings from the 2009-2010 final OPA annual reports as the basis for the LRAM claim.

Section 3.4.1 of OEB "Chapter 3 of the Filing Requirements for Transmission and Distribution Applications" states:

*"When calculating LRAM, the Board has stated in recent decisions that at the time of the third party review of CDM Programs, the most current Ontario Power Authority ("OPA") Measures and Assumptions lists, as updated by the OPA from time to time, represent the best estimate of losses associated with a distributor's CDM programs and should be used by distributors. The Board has also accepted finalized program evaluations delivered to distributors from the OPA in relation to OPA programs that the distributor has implemented as long as the distributor has included relevant documentation from the OPA in its application. "*

PowerStream included excerpts from 2008-2010 OPA Conservation and Demand Management Annual Reports for PowerStream and Barrie as part of this application in appendixes G – J and used the net savings values from those reports to calculate LRAM for PowerStream North rate zone.

- a. The tabulated information on the number of units, measure life, unit energy savings, free-ridership rate, and annual energy savings is presented in the OPA annual CDM reports for 2008-2010 and represents the basis on which OPA calculates the annual

savings for the province and for each utility. The net savings are calculated by the OPA and distributed to the utilities. The detailed information in those reports was not relevant for the calculation of LRAM and therefore was not filed as part of this LRAM application. The relevant excerpts from the OPA reports ("Finalized program evaluations"), showing the net savings by the year/program have been included as appendixes G-J. The detailed information could be found on the "Measures – LDC" tab of the corresponding OPA reports, filed as Appendix A with this response.

The savings values in Schedule K-3 are derived by allocation of total net savings for PowerStream as per OPA reports, between two rate zones. The allocation of savings between rate zones is based on the actual results or the OPA methodology, as shown in Schedule K-6.

- b. Some of the input assumptions for the EKC programs were changed in 2007 and later in 2009. However, these changes do not affect the calculation of PowerStream North 2012 LRAM, since this calculation is based on the net savings from OPA final 2009 and 2010 report, which incorporate the latest unit assumptions available.
- c. PowerStream has not removed the savings for EKC 2006 Mass Market measures 13-15 W Energy Star CFLs from its LRAM claim for 2010.  
PowerStream submits that only net savings as calculated by in the OPA 2009-2010 final reports were used to calculate the LRAM claim. For LRAM purposes, PowerStream has accepted the OPA calculated savings, which incorporate the revised OPA prescriptive measure lives and assumptions.
- d. PowerStream submits that only net savings as calculated in the OPA final 2009-2010 final reports were used to calculate the LRAM claim. For LRAM purposes, PowerStream has accepted the OPA calculated savings, which incorporate the revised OPA prescriptive measure lives and assumptions.

## OPA Conservation & Demand Management Programs

### Allocation Methodology

#	Initiative Name	Program Name	Program Year	Results Status	Allocation Methodology	Notes
1	Secondary Refrigerator Retirement Pilot	Consumer	2006	Final	Measure level allocation based on 2006 residential energy throughput by LDC	
2	Cool & Hot Savings Rebate	Consumer	2006	Final	Measure level allocation based on 2006 residential energy throughput by LDC
