Dear Ms. Walli:

**Re: EB-2011-0242 and EB-2011-0283, Renewable Natural Gas (“RNG”) Program Application**

Just Energy Ontario L.P. (“Just Energy”) respectfully submits the following Interrogatories for the above referenced application before the Ontario Energy Board (“OEB” or “the Board”) as submitted by Enbridge Gas Distribution Inc. (“EGD”) and Union Gas Ltd. (“Union”), collectively referred to as “the Applicants”, on September 30<sup>th</sup>, 2011.

1. Does the Board have the legal jurisdiction to approve EGD and Union’s Applications?
2. Provided that Board determines that it does have jurisdiction is it appropriate to consider this application?
3. Is it appropriate to purchase only Ontario based Renewable Natural Gas and is the proposed pricing model appropriate?
4. Are the Applicants suggesting that the sale of RNG should be offered by only rate regulated entities?
5. Do the Applicants believe that by including the sale of RNG within the regular system supply provided to natural gas consumers as a default service the Applicants are effectively subsidizing the generation of RNG in Ontario? Please explain the reason for your response.
6. Just Energy requests the Applicants please confirm that the integration of RNG within system gas will affect only the commodity supply cost presented to natural gas consumers and not other charges of a transportation or delivery nature.

Should you have any questions or comments in response to these Interrogatories please do not hesitate to contact Nola Ruzycski, Vice President Regulatory Affairs Canada, or Brandon Ott, Manager Regulatory Affairs Canada.

Yours truly,
