RE: Intervenor Status, Board file number EB-2011-0327

Dear Ms. Walli:

Please accept this letter as EnerQuality's request for intervenor status as part of Union Gas Ltd's 2012-2014 DSM Plan proceeding. I realize that this is a late intervention request and the Board has proceeded with granting intervenor status but would still like to participate.

EnerQuality has been at the forefront of the design and delivery of energy efficiency programs to the housing sector in Ontario since 1998. Union Gas Ltd. has sponsored EnerQuality's programs and we have worked closely with Union Gas over the past several years. As such, EnerQuality would be directly affected by the outcome of this proceeding.

EnerQuality's stakeholders include our two non-profit shareholders: the Canadian Energy Efficiency Alliance (CEEA) and the Ontario Home Builders' Association (OHBA); our 600+ builder and renovator clients across the province; our government, utility and manufacturer partners as well as the energy services professionals (consultants, trainers and Certified Energy Evaluators) with whom we collaborate.

Thank you in advance for your consideration of our application. We will not be seeking an award of costs but look forward to participating in the proceedings.

Regards,

Corey McBurney
President

cc. Marian Redford, Union Gas Ltd.
