Dear Mr. Sidlofsky:

**Re: McLean's Mountain Wind Limited Partnership  
Notice of Proposal under Section 81 of the *Ontario Energy Board Act, 1998*  
Board File No. EB-2011-0395**

On November 22, 2011, McLean's Mountain Wind Limited Partnership ("MMW"), filed a notice of proposal under section 81 of the *Ontario Energy Board Act, 1998* ("the Act").

The notice of proposal relates to the construction of a transmission line by MMW, an affiliate of a generator, to connect the McLean's Mountain Wind Farm.

This letter is to inform you that the Board does not intend to issue a notice of review of the proposal, pursuant to section 81 of the Act.

The construction of this transmission line is also currently the subject of a section 92 leave to construct application with the Board (EB-2011-0394). The Board notes that the leave to construct application has not yet been considered, and the issuance of this letter is in no way determinative of the outcome of the leave to construct application. It remains the applicant's responsibility to demonstrate to the Board that the leave to construct application satisfies the tests as described in the Act.

Yours truly,

*Original signed by*

Kirsten Walli  
Board Secretary
