

This is not a direct link to where the documents requested are found. This causes confusion and frustration to those who are attempting to review the information, particularly the documents that McLean's previously wanted kept confidential. After searching the website, the public would have to access the link called "Updated reports" to find the information.

This is the correct direct link that should have been supplied in the email.

<http://mcleansmountain.northlandpower.ca/index.cfm?pagepath=Reports&id=35619>

This link, once found, will bring the public to the proper reports page which contains the date the reports were filed.

Another matter Mr. Sidlofski raised in his letter of February 17th relates to the service of McLean's documents to requesting members of the public.

In relation to file size, at this point it seems that some MCSEA members or supporters have managed to deal with the file size. It is not necessary to reduce the file size as Mr. Sidlofski has offered.

We will accept CD's of the information requested and any other CD's updated with any additional materials as they are developed.

While some do, many of our First Nation and non First Nation members, supporters do not have computers, high speed computer access, or the training for skills required to navigate the information. Supporters have been required to travel and access hardcopies of McLeans information that was only available locally in one community at the NEMI TWP public library in the last EBR process.

We believe that our request for printed copies is compliant with the OEB's Letter of Direction dated Dec, 19, 2011, item 7, page 3.

"7. To immediately provide a copy of McLean's Application and pre-filed evidence, and any additional materials as they are developed, to any person upon request."

Mr. Sidlofsky's letter of February 17 suggests that they do not intend to send their material to all the concerned individuals identified on our list. This perplexes us, since the OEB's Letter of Direction dated December 19, 2011 does not appear unclear.

Here again is our list, with additional names added also.

We request, that the information requested be sent to all persons below, consistent with the Board's direction in the Letter of Direction dated December 19, 2011.

Delays in receiving this material have already jeopardized our ability to review and meet the March 2 deadline.
