AGREEMENT AMONG ASSOCIATED CANADIAN-CONTROLLED PRIVATE CORPORATIONS TO ALLOCATE THE BUSINESS LIMIT (2003 and later taxation years)

- For use by a Canadian-controlled private corporation (CCPC) to identify all associated corporations and to assign a percentage for each associated corporation. This percentage will be used to allocate the business limit for purposes of the small business deduction. Information from this schedule will also be used to determine the date the balance of tax is due and to calculate the reduction to the business limit.
- An associated CCPC that has more than one taxation year ending in a calendar year, is required to file an agreement for each taxation year ending in that calendar year.
- Column 1: Enter the legal name of each of the corporations in the associated group, including non-CCPCs and CCPCs that have filed an election under subsection 256(2) of the "Income Tax Act," not to be associated for purposes of the small business deduction.
- Column 2: Provide the Business Number for each corporation (if a corporation is not registered, enter "NR").
- Column 3: Enter the code that applies to each corporation:
 - 1 associated for purposes of allocating the business limit (unless association code 5 applies)
 - 2 CCPC that is a "third corporation" that has elected under subsection 256(2) not to be associated for purposes of the small business deduction
 - 3 non-CCPC that is a "third corporation" as defined in subsection 256(2)
 - 4 associated non-CCPC
 - 5 associated CCPC that is not associated for purposes of allocating the business limit because of a subsection 256(2) election made by a "third corporation."
- Column 4: Enter the business limit for the year of each corporation in the associated group that is computed at line 4 on page 4 of each respective corporation's T2 return.
- Column 5: Assign a percentage to allocate the business limit to each corporation that has an association code 1 in column 3. The total of all percentages in column 5 cannot exceed 100%.
- Column 6: Enter the business limit allocated to each corporation by multiplying the amount in column 4 times the percentage in column 5. Add all business limits allocated in column 6 and enter the total at line A. Ensure that the total at line A is equal to an amount in one of the following ranges, whichever applies:
 - from \$200,001 to \$225,000, if the calendar year to which this agreement applies is 2003;
 - from \$225,001 to \$250,000, if the calendar year to which this agreement applies is 2004;
 - from \$250,001 to \$275,000, if the calendar year to which this agreement applies is 2005; or
 - from \$275,001 to \$300,000, if the calendar year to which this agreement applies is 2006 or after.
- **Column 7:** Complete this column for a CCPC that has more than one taxation year ending in a calendar year, and is associated in more than one of those years with another CCPC that has a taxation year ending in the same calendar year. Enter the taxation year to which this agreement applies.

Business limit reduction under subsection 125(5.1)

The business limit reduction is calculated in the small business deduction area of the T2 return. One of the amounts used in this calculation is the "Large corporation tax" at line 415 of the T2 return. If the corporation is a member of an associated group of corporations in the current taxation year, the amount to be entered at line 415 of the T2 return is equal to 0.225% x (A - 10,000,000) where, "A" is the total of taxable capital employed in Canada^{**} of each corporation in the associated group^{***} for its last taxation year ending in the preceding calendar year.

* Each corporation will enter on line 410 of the T2 return, the amount allocated to it in column 6. However, if the corporation's taxation year is less than 51 weeks, prorate the amount in column 6 by the number of days in the taxation year divided by 365, and enter the result on line 410 of the T2 return.

- ** "Taxable capital employed in Canada" has the meaning assigned by subsection 181.2(1) or 181.3(1) or section 181.4 of the "Income Tax Act."
- *** The associated group includes the corporation filing this schedule and each corporation that has an "association code" of 1 or 4 in column 3.

Analysis of Balance at End of Year by Year of Origin

Include amount form 11 if taxable income is adjusted to claim unused (7)foreign tax credit for federal purposes.

(8) Amount in 709 must equal total of 829 + 839

(9) Total Capital Losses for a year is the excess of 100% of the Capital Losses in the taxation year minus 100% of the Capital Gains (less any reserves) in the taxation year. Total Capital Losses is before the inclusion rate has been applied.

(10) Commencing in the 2001 CT23 this column now refers to Total Capital Losses (100% of loss), whereas previously the column referred to Net Capital Losses (75% of loss or after the inclusion rate has been applied). Loss amounts that are not carried at 100% of the loss must be grossed back up to 100% by multiplying the balance by 1.3333333. No adjustment is required where losses are carried at 100% of the loss amount.
