Dear Ms. Walli:

**Re: Application for Leave to Construct – EB-2011-0394
McLean's Mountain Wind Limited Partnership**

We are counsel to McLean's Mountain Wind Limited Partnership ("McLean's") in this matter.

Exhibit E, Tab 1, Schedule 5 of the pre-filed evidence ("Design Specifications And Operational Data: Overhead Line Design Drawings And Stringing Charts") was initially filed in confidence. McLean's placed it on the public record in this proceeding on February 17, 2012 and provided copies to the intervenors by courier last week as part of its delivery of paper and electronic copies of the non-confidential pre-filed evidence in response to Mr. Beaudry's recent request in that regard.

Among the drawings (which can be found at the 7th page of the pdf version of Schedule 5 – the 6th drawing after the cover page) is one titled "115 kV Transmission Overhead Line Site Plan" (the "Site Plan"). That drawing in turn identifies the locations covered by eight "115 kV Transmission Overhead Line Plan and Profile Drawings", which follow the Site Plan drawing in Schedule 5.

Yesterday, Mr. Beaudry advised that one of the 115 kV Transmission Overhead Line Plan and Profile Drawings (Sheet 3, or Drawing No.1106-P002-S03) had not been received. McLean's has determined that the drawing was inadvertently not included in the Schedule. McLean's regrets the omission. Please find accompanying this letter a copy of Drawing No.1106-P002-S03. This letter and the drawing are being sent by email to the intervenors. An electronic version will be placed on the McLean's web site, and hard copies will be provided to the Board.

Should you have any questions or require further information, please do not hesitate to contact me.

**Yours very truly,
BORDEN LADNER GERVAIS LLP**
