Dear Ms. Walli:

**EB-2011-0140 – The East-West Tie Line - Hydro One Networks Inc. Intervention Request**

In response to the Board's Notice of Proceeding dated February 2, 2012, Hydro One Networks Inc. requests intervenor status in EB-2011-0140.

While Hydro One Networks Inc. ("Hydro One") is not a registered transmitter in the East-West Tie designation proceeding (EB-2011-0140), Hydro One's intervention request relates especially to Items 12 and 13 in the Draft Issues List (circulated by Board Staff on February 29, 2012), which refer to Hydro One:

12. Should the Board clarify the roles of the IESO, the OPA, Hydro One Networks Inc. and Great Lakes Power Transmission Inc. in the designation process? If yes, what should those roles be?

13. Is any order from the Board required to compel production of information from Hydro One Networks Inc. and Great Lakes Power Transmission Inc.?

Hydro One is a subsidiary of Hydro One Inc. and operates extensive electricity transmission and distribution facilities throughout Ontario. Hydro One is a major stakeholder in the Ontario energy sector and a regulated Ontario electricity distributor and transmitter, and appears regularly before the Ontario Energy Board.

Hydro One requests that documents filed with the Board in this proceeding be served as follows:
