I oppose the rate increase requested by Enwin Utilities. I request that a public hearing be held in Windsor, Ontario.

If possible, further to these comments, I request permission to be able to make submissions within this matter.

Enwin Utilities Ltd. is wholly owned by a not for profit corporation. As such I understand that Enwin Utilities Ltd. pays from its profits a dividend in the neighbourhood of \$10,000,000.00, annually to the not for profit corporation.

I believe the OEB may want to ask itself, if it should allow Enwin Utilities Ltd. to make a profit as it is solely owned by a not for profit corporation.

If the OEB allows and aids Enwin Utilities Ltd. in making a profit that benefits the not for profit corporation, is it condoning and aiding in a practice that circumvents the laws governing not for profit corporations.
