**RE: Social Housing Services Corporation, GM-2009-0195**

Dear Madam,

Further to advice from your office, we are submitting an amendment to our original gas marketer application, specifically, question 6a of the gas marketer application form. Housing Services Corporation (formerly Social Housing Services Corporation) runs a mandatory natural gas purchasing program, as prescribed by the Housing Services Act, 2011, for the 47 municipally owned and operated Local Housing Corporations (LHCs) in Ontario. All LHCs consume more than 50,000 m3 of natural gas annually and are therefore not low-volume customers, according to the definition laid out by the OEB.

We therefore confirm that we do not market to low-volume consumers and would like to correct our original application as such. We hope this letter is sufficient to proceed with our prior request of March 8, 2012 for a name amendment based on the legislative change which amended our legal name.

If you have any further questions, please don't hesitate to contact me.

Kind Regards,  
**HOUSING SERVICES CORPORATION**
