**Re: EB-2007-0862, Bluewater Power 2008 IRM Rate Application**

Dear Ms. Walli:

Bluewater Power Distribution Corporation ("Bluewater Power") received a Decision from the Ontario Energy Board ("Board") on March 18, 2008, and received an updated Excel model on March 20, 2008.

According to the Board directions in the Decision, Bluewater Power hereby submits the proposed Tariff of Rates and Charges sheet, and the supporting rate model. The following adjustments were made to the Excel model:

1. The Retail Transmission Service Rates were adjusted by -18% for the RTS – Network Service rate, and -5% for the RTS – Line and Transformation connection service rates for all customer rate categories.
2. Sheet 12 (Bill Impact summary) had the following adjustments made to it:
  - a. The GST in the 2008 bill was changed to 5% for all rate categories. Bluewater Power feels this better reflects the true impact when comparing the 2007 and 2008 bills.
  - b. The volume determinant for the Retail Transmission Service Rates (Network and Line and Transformation connection) was changed to a non-uplifted value as Bluewater Power does not uplift these values.

Additionally, electronic versions of the documents have been emailed to the Board.

Sincerely,

A handwritten signature in blue ink that reads "L. Dugas". The signature is written in a cursive style with a large, stylized "L" and a clear "Dugas".
