Ontario Energy Board
2300 Yonge Street, Suite 2700
Toronto, ON M4P 1E4

Dear Madame:

**Re: Grand Renewable Wind LP
Notice of Proposal under Section 81 of the *Ontario Energy Board Act, 1998*
Board File No.: EB-2012-0075**

We are counsel for Grand Renewable Wind LP ("GRW") in the above noted proceeding. GRW filed its proposal with the Board on February 24, 2012. The proposal was provided to all parties in GRW's Leave to Construct proceeding (EB-2011-0063, the "LTC"). We understand that no party intervened or otherwise requested the Board to conduct a review.

By letter dated April 19, 2012, the Board indicated that it will issue a notice of review of the proposal. As you are aware, s. 82(1) of the *OEB Act, 1998* provides that where the Board determines to hold a review, "it shall expeditiously proceed to review the proposal." An expeditious review is especially important here in that, construction of the transmission facility is scheduled to commence in September, 2012.

In light of all of these factors (the time that has lapsed since filing the notice, the lack of intervenor participation, the statutory requirement for expedition, and the construction schedule), GRW respectfully requests the Board to identify as soon as reasonably possible the issues that it believes should be addressed in the review so that GRW may provide responses to those issues.

All of which is respectfully submitted.

Sincerely,

signed in the original

George Vegh
