NOTICE OF APPLICATION AND HEARING
HYDRO ONE NETWORKS INC.
APPLICATION FOR LEAVE TO CONSTRUCT
VANESSA - NORFOLK
TRANSMISSION REINFORCEMENT PROJECT

Hydro One Networks Inc. (the “Applicant” or “Hydro One”) has filed an application with the Ontario Energy Board, (the “Board”) dated March 13, 2008 under section 92 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15, Schedule B. The Applicant has applied for an order of the Board granting leave to construct transmission facilities for the Vanessa – Norfolk Transmission Reinforcement Project. The work involves reinforcing the existing 12 km 115 kilovolt (“kV”) single-circuit transmission line in Norfolk County between Vanessa Jct. and Norfolk Transformer Station (“TS”) by:

- replacing the existing conductors with higher capacity conductors;
- installing a new set of conductors to establish a second 115 kV circuit on the existing structures; and
- constructing a short (20 metre) line tap to connect Bloomsburg Municipal TS to the 115 kV line.

A map showing the location of the proposed facilities is included in this Notice.

The Applicant submits that the proposed facilities are categorized as “non-discretionary” and are needed to provide adequate transmission capacity and to meet reliability standards and guidelines for the electrical supply to Norfolk County.

The Applicant also advises that the land rights required to accommodate the proposed transmission facilities have already been largely acquired in connection with the existing transmission line facilities. No additional permanent land rights are expected to be required but temporary access rights may be required.

The estimated total cost of the proposed facilities is approximately \$3.6 million and the scheduled in-service date is April 2009.

The Board has assigned File No. EB-2008-0023 to this application.
