**Subject:** Re: Sault Ste Marie Public Utilities proposed increase in delivery charges

Regarding: Notice of application for an electricity rate change for Sault Ste. Marie Public Utilities Commision

I am a resident of Sault Ste Marie & a customer of the Sault Ste Marie Public Utilities Commission. I am sending this email to voice my concerns about a current increase in delivery charges to reflect the costs of the smart meters that were deployed. I do NOT support this price increase. I am a senior and prices have gotten out of control. We are already paying enough in delivery costs for our electricity & water. Please consider stopping this increase for the benefit of not only myself but so many others...

With thanks....Hazel Rainone
