The Independent Electricity System Operator ("IESO") is managing the development of the meter data management/repository to collect, manage, store and retrieve information related to the metering of customers' use of electricity in Ontario. The IESO has applied to the Ontario Energy Board ("OEB") for approval of a Smart Metering Charge ("SMC") of \$0.806 per Residential and General Service < 50 kW customer per month for the period July 1, 2012 to December 31, 2017. The OEB has commenced a proceeding on its own motion to determine the appropriate recovery and allocation of the SMC.
