Dear Ms. Walli:

**EB-2012-0246 – OEB Consultation on a Policy Review of Micro-Embedded Generation Connection Issues – Hydro One Networks' Intent to Participate**

In response to the Ontario Energy Board's letter of May 15, 2012, Hydro One Networks ("Hydro One") concurs with the Board that this is an appropriate juncture for the proposed policy review, and that this review would benefit from the experience that industry has gain in recent years. Hydro One therefore intends to participate in this consultation.

Hydro One is a subsidiary of Hydro One Inc., operates extensive electricity transmission and distribution facilities throughout Ontario and has successfully connected over 70,000 kW of micro-embedded generation.

Hydro One will not be seeking cost awards for our participation in this consultation.

Sincerely,
