AND IN THE MATTER OF an application by Northland Power Solar Crosby L.P. for an electricity generation licence.

DECISION AND ORDER

May 24, 2012

Northland Power Solar Crosby L.P. (the “Applicant”) filed an application dated March 22, 2012 with the Ontario Energy Board under section 60 of the *Ontario Energy Board Act, 1998* (the “Act”) for an electricity generation licence as a Feed-In Tariff Program participant. The applicant applied for authorization to own the facility and stated that Northland Power Inc. will be the operator of the facility. Northland Power Inc. has confirmed that it will be applying to the Board to amend its existing electricity generation licence to include the operation of the Northland Power Solar Crosby facility.

The Board’s Notice of Application and Written Hearing for an electricity generation licence was posted on April 16, 2012. No parties responded to the Notice of Application and Written Hearing.

After considering the application, it has been found to be in the public interest to issue the electricity generation licence under Part V of the Act.

IT IS THEREFORE ORDERED THAT:

The application for an electricity generation licence is granted, on such conditions as are contained in the attached licence.
