Dear Mr. Moore:

**Re: Application for Amendment of Distribution Licence ED-2002-0500
Board File Number EB-2012-0181**

The Board has had an opportunity to consider your letter of May 16, 2012 and the response received from Hydro One on May 18, 2012. Procedural Order #1 of this proceeding, issued by the Board on May 16, 2012, sets out the timeline for the filing of interrogatories, additional evidence and submissions.

The content of your letter appears to try to circumvent the timeline established by Procedural Order #1 in that it asks questions, makes statements and requests information that should more appropriately be done in the regular course through the interrogatory process and the filing of submissions.

Moreover, the Board is concerned that your correspondence was delivered as "Privileged & Confidential". Unless there are reasons you can provide substantiating the need for confidentiality, you are free to present the substantive aspects of your letter in your interrogatories and final submission on the public record, at the proper time. Please refer to the Board's "Practice Direction on Confidential Filings" for the procedures for filing of confidential materials.

Yours truly,
