Attention: Ms. Kirsten Walli, Board Secretary

Dear Sirs/Madam:

RE: EB-2012-0262

Please find attached our response to Board Staff questions with respect to the above Application.

If the interveners are satisfied with the approach in the response to Board Staff question the NRG will adjust the prices retrospectively based on this approach or whatever the Board decision on this QRAM application requests NRG to do.

It should be noted that due to time constraints of when we need a decision to implement the rates on July 1, the QRAM evidence cannot be altered at this time.

These have been emailed to the interveners in proceeding EB-2010-0018

Yours truly,
Natural Resource Gas Limited

RESPONSE TO BOARD STAFF QUESTIONS

NRG QRAM Application EB-2012-0262

In the Board's Decision and Order in Phase 2 of EB-2010-0018 dated May 17, 2012, specifically Schedule 1, page 5, lines 18-26, the Board allowed NRG to purchase a maximum annual quantity of 1.0 million cubic meters of natural gas at the rate of \$8.486 from NRG Corp. If this amount were to be pro-rated for the current fiscal year ending September 30, 2012 the quantities on a monthly basis would be as follows (in cubic meters):

May 17 – 31	38,356 (1,000,000 divide by 365 days x 14 days in May)
June	82,192 (1,000,000 divide by 365 days x 30 days in June)
July	84,931 (1,000,000 divide by 365 days x 31 days in July)
August	84,931
September	82,192

With any difference between this and the forecast amount being purchased at Union's landed price. Per the current QRAM has forecasted 200,000 cubic meters per month.
