ONTARIO ENERGY BD

June 15 - 2012

To the Ontario Energy Board,

Dear sirs or madam,

We were disappointed to learn that Canadian Niagara Power Inc. had applied for an increase to its delivery charges beginning in January 2013.

Hydro rates keep going up. Times of use are dictated to us.

The government spends millions of dollars to pay the United States & Quebec to take the surplus power and we the struggling citizens of Canada keep paying out more & more. Where is the sense & fairness in all this?

We do not agree with this increase.

Mr. Mrs. Clarence Cole
