T2 CORPORATION INCOME TAX RETURN

Schedule 200

This form serves as a federal, provincial, and territorial corporation income tax return, unless the corporation is located in Quebec, Ontario, or Alberta. If the corporation is located in one of these provinces, you have to file a separate provincial corporation return.

Parts, sections, subsections, and paragraphs mentioned on this return refer to the Income Tax Act. This return may contain changes that had not yet become law at the time of printing. For more information on how to complete the return, see the *T2 Corporation – Income Tax Guide (T4012)*.

Send one completed copy of this return, including schedules and the *General Index of Financial Information* (GIFI), to your tax services office or tax centre. You have to file the return within six months after the end of the corporation's tax year. For more information on when and how to file T2 returns, refer to the Guide under the heading "Before you start."

NOTES TO THE FINANCIAL STATEMENTS AS AT DECEMBER 31, 2004

1. Accounting policies

The financial statements of the company are the representations of management. Since precise determination of many assets and liabilities is dependent upon future events, the preparation of periodic financial statements necessarily involves the use of estimates and approximations. These have been made using careful judgment based on available information. The financial statements have, in the opinion of management, been properly prepared within the framework of the accounting policies summarized below:

- (a) The financial statements are prepared in accordance with the Ontario Energy Board Accounting Procedures Handbook and directives.
- (b) Revenue is recognized on the accrual basis and includes unbilled revenue which is an estimate of electricity consumed by customers but billed in the following year.
- (c) Capital assets are stated at cost. Contributions received in aid of construction of capital assets are capitalized and amortized at the same rate as the related asset. Capital assets are depreciated over their estimated useful lives, using the straight-line method. Assets constructed by others and donated to the company are recorded at cost to the developer. Depreciation rates are as follows:

Buildings 2%
Distribution stations 3.33%
Other capital assets 6.67% to 20%

- (d) Significant restructuring costs related to qualifying transition factors are being amortized as allowed by the Ontario Energy Board for rate setting purposes. Transition costs related to industry restructuring that do not qualify for recapture through the rate setting process are recorded as Deferred charges restructuring transition and are being amortized on a straight-line basis over five years.
- (e) Regulatory liabilities represent variances in the purchase and sale of electricity which will be recovered from rates. Ontario Energy Board has authorized the recovery of 25% of the December 31, 2002 regulatory asset balances beginning in April 2004 and has put a process in place to address the future recovery of remaining asset balances over the following three years.
- (f) Payments in lieu of taxes are calculated using the taxes payable method as directed by the Ontario Energy Board. Under the taxes payable method, no provision is made for future income taxes arising from the temporary difference between the tax basis of an asset or liability and its carrying amount on the balance sheet. When unrecorded future income taxes become payable, it is expected that they will be included in the rates approved by the OEB and recovered from the customers of the company at that time. The unrecognized future tax asset is \$158,124 (\$124,264 2003) and the unrecognized future tax recovery is \$33,860 (\$12,264 2003) arising from differences between the carrying amount and tax value of capital assets.

NOTES TO THE FINANCIAL STATEMENTS AS AT DECEMBER 31, 2004

2. Related parties

The common shares of Wasaga Resource Services Inc., Wasaga Genco Inc. and Wasaga Distribution Inc. are owned by Geosands Inc. which is owned by the Town of Wasaga Beach.

A services agreement was struck between Wasaga Resource Services Inc. and the company. Included in this agreement is an adjustment to the initial base consideration of \$1,056,324 paid by the company for its services up to 80% of the change in customer count. Also included is a relief clause stating that if Wasaga Resource Services Inc. realizes substantially greater costs in providing any new services to the company, compensation can be renegotiated and it would be considered reasonable to have 90% of the costs incurred by the company. In 2004, the base consideration was adjusted upward by \$250,000 to \$1,306,324.

3. Note payable to the Town of Wasaga Beach

There are no fixed terms of principal repayment. Interest is determined on the principal amount outstanding on the 30th day following December 31st of each year in which principal is owing. The interest rate payable in any given year is the Government of Canada 10 year bond rate posted by the Bank of Canada on December 31st of each year. Interest may be payable in cash or in additional common shares issued by the company. The interest rate at December 31, 2004 was 4.39% (4.66% in 2003). For 2004, the Town of Wasaga Beach increased the interest rate for the note to 7.25%.

4. Financial instruments

The company's financial instruments consist of unbilled revenue, accounts payable and accruals, due to Wasaga Resources Services Inc. and long-term liabilities. It is management's opinion that the company is not exposed to significant interest, currency or credit risks arising from these financial instruments. Fair value does not vary significantly from recorded value.

5. Tax status

The company is exempt from income taxes under section 149 of the Income Tax Act. The company is required to make payments in lieu of tax calculated on the same basis as income taxes on taxable income earned and capital taxes.

6. Payments in lieu of tax reconciliation

	2004	2003

7. Supplemental cash flow information

Cash payments and (receipts) were as follows:

	2004	2003
	\$	\$
Interest Tax paid	167,446 666,626	175,352 15,480

8. Comparative figures

Certain comparative figures have been reclassified with regard to recording of retailer revenue to decrease both the sale of power and cost of power by \$570,525.

9. Other assets (liabilities)

Other assets consist of the following:

	2004	2003
	\$	\$
ualifying transition factors et regulatory liabilities	286,271 (285,118)	227,261 (247,820)
	1,153	(20,559)

NOTES TO THE FINANCIAL STATEMENTS AS AT DECEMBER 31, 2004

10. Contingent liability

A class action claiming \$500,000,000 in restitutionary payments plus interest was served on Toronto Hydro on November 18, 1998. The action was initiated against Toronto Hydro Electric Commission as the representative of the Defendant Class consisting of all municipal electric utilities in Ontario which have charged late payment charges on overdue utility bills at any time after April 1, 1981.

The claim is that late payment penalties result in the municipal electric utilities receiving interest at effective rates in excess of 60% per year, which is illegal under Section 347(1)(b) of the Criminal Code.

The Electricity Distributors Association is undertaking the defence of this class action. At this time it is not possible to quantify the effect, if any, on the financial statements of the company.

Due to the uncertainty of the outcome, no liability has been recorded. The company will treat this transaction as a current year expense when the liability is reasonably assured and the amount can be reasonably estimated.

11. Prior period adjustment

The 2003 balances have been restated as follows to adjust for an error in the calculation of unbilled revenue:

	Originally	Ϋ́	
Market Control of the	Stated	Restated	Change
	\$	\$	\$
Unbilled revenue	722,639	1,567,734	845,095
Other Assets/Liabilities	656,447	(20,559)	(677,006)
Retained income, beginning of year	(18)	168,071	168,089

There was no impact on 2003 net income.
