Dear Ms. Walli:

**Re: Orangeville Hydro Limited – Application for Service Area Amendment
Response to Notice of Motion Filed by Hydro One Networks Inc.
Board File Number EB-2012-0181**

We act for Orangeville Hydro Inc. (“OHL”) in respect of the above-referenced proceeding.

OHL is in receipt of Hydro One Networks Inc.’s Notice of Motion in the above-mentioned proceeding which was filed with on June 27, 2012.

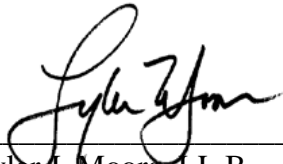

We submit that OHL provided sufficient information in its responses to the interrogatories referenced in the Notice of Motion and we request that the Board dispense with the motion out of hand. Moreover, it is OHL’s view that the steps contained in the Board’s Procedural Order are sufficient to allow for these issues to be explored without the need for the motion.

In the event that the Board determines that a hearing is necessary, we request that the Board schedule a quick hearing in order to accommodate the proposed timing for the development of the subject property.

All of which is respectfully submitted.

Yours very truly,
