Subject: EB-2012-0266

Good Day,

I am dissatisfied about the proposed fee in Waterloo, Ontario. Application # EB-2012-0266. The fact that they are billing us more than any other city in our Region.  
There is no valid reason for Waterloo residents to pay more than Kitchener , Cambridge or anyone else in Ontario. What exactly is the reason for Waterloo to ask for more per month? There is no valid reason to me.  
I am also against the City of Waterloo asking for the this to be paid retroactively from July 1, 2012. Cambridge installed 50,00 meters at \$8.2 Million and Waterloo installed 52,000 meters at \$10 million. Really, does installing 2,000 meters more than Cambridge warrant an additional \$ 1.8 million. I DON'T THINK SO!!!!!!

Sincerely  
Ingrid Miller
