

**Enersource Hydro Mississauga Inc.
Response to Interrogatories by Issue**

Interrogatory #30

Board Staff

3. Operating Revenue

Issue 3.2: Is the proposed forecast of other regulated rates and charges for 2013 and 2014 appropriate?

Reference. E1-T2-S1 p.16

Enersource updated its evidence on May 17, 2012 to reflect the 2012 IRM Decision (EB-2011-0100). In the updated evidence Enersource indicates that it is seeking approval to charge applicable customers for actual incremental costs incurred by Enersource in non-standard installation and reading of smart meters, and related non-standard communication infrastructure.

Please provide the reference in the EB-2011-0100 that supports this request.

Response:

Enersource filed updated evidence on May 17, 2012 in order to reflect the 2012 IRM Decision in EB-2011-0100, in addition to other purposes. One of the other purposes was to make a request for approval to charge applicable customers for actual incremental costs incurred by Enersource in non-standard installation and reading of smart meters, and related non-standard communication infrastructure.

There is no reference in EB-2011-0100 that addresses this request.
