Subject: Application for an Electricity Distribution Rate Change

Dear friends at Ontario Energy Board:

I have found this "Notice of Application and Hearing for an Electricity Distribution Rate Change" by Hydro One.

This is total bunk.

I believe that Hydro One makes lots and lots of money from us ratepayers and there needs to be someone to defend us from these corporate "bad guys".

Tell them to back off.

We pay enough in our time of use hydro rates, thank you.

As well, the Ontario government should stop taxing energy as we in Ontario can experience very cold winters and very hot summers.

Michael Abramowitz
ratepayer
