Dear Ms. Walli:

Re: Horizon Utilities Corporation - Application to Amend Licensed Service Area  
Board File No. EB-2012-0047 – Filing of replacement pages

Horizon Utilities Corporation (“Horizon Utilities”) is a licensed electricity distributor in Ontario and operates under Licence Number ED-2006-0031. Horizon Utilities serves the cities of Hamilton and St. Catharines.

Horizon Utilities filed the above-noted application (the “Application”) with the Ontario Energy Board (the “Board”) on June 15, 2012. Following the receipt of an acknowledgement letter from the Board that the Application was incomplete, Horizon Utilities filed two letters of response; the first was filed on July 27, 2012 and the second was filed on August 10, 2012.

As noted in Horizon Utilities’ correspondence dated August 10, 2012, Horizon Utilities is filing replacement pages to the Application. The revisions to the Application are primarily the result of Horizon Utilities’ very recent receipt of Hydro One Networks Inc.’s Offer to Connect the customer. Those replacement pages accompany this letter. Revisions to the original Application have been clearly marked, and hard copies will be delivered to you on coloured paper.

Horizon Utilities notes that in its August 10<sup>th</sup> letter, it provided a table for section 7.2.1 (c) - the fully allocated connection costs for supplying the customer. That table should have reflected Horizon Utilities’ revised Offer to Connect that was included with the July 27, 2012 letter. Instead, the table references the Offer to Connect that was included in the original June 15, 2012 Application. Horizon Utilities regrets this oversight and has corrected the table in section 7.2.1 (c) of the attached replacement pages. Aside from this change, the content in the replacement pages is consistent with the content of the August 10, 2012 letter to the Board.

Please do not hesitate to contact me if you require anything further.

Yours truly,
