Attention: Ms. K. Walli, Board Secretary

Dear Ms. Walli,

Re: Great Lakes Power Transmission LP (“GLPT”) -- Application for Change to Electricity Transmission Revenue Requirement and 2013 and 2014 Transmission Rates (EB-2012-0300) -- Response to Submissions of Intervenors on the Draft Issues List and Confidential Filing

We are counsel to GLPT. Pursuant to the Board’s Procedural Order No. 1, these are GLPT’s responses to the comments submitted by Schools Energy Coalition (“SEC”) and Energy Probe on the draft issues list and confidential filing in the above noted proceeding.

With respect to the draft issues list, GLPT has no objections to adopting the issues list proposed by SEC and endorsed by Energy Probe.

With respect to the filing of confidential information, GLPT submits that it has filed this information in accordance with the Board’s Practice Direction on Confidential Filings. That is, in making the request for confidential treatment, GLPT filed the confidential information with the Board and a non-confidential summary of the information publicly. Therefore, GLPT disagrees with SEC that a further redacted version of the information should be made public. The appropriate redaction is what GLPT has already filed with the Board -- i.e., the Application and Pre-Filed Evidence with the confidential information carved out and provided in confidence to the Board.

Yours truly,

Tyson Dyck
