**Re: Enersource Hydro Mississauga Inc.
Application for 2013 and 2014 Distribution Rates
Board File No. EB-2012-0033**

The Board in Procedural Order No.4 directed parties to prepare a hearing plan which would identify the issues that intervenors and Board staff intended to cross examine orally, including the estimated time required for each issue.

On August 20, 2012, the School Energy Coalition ("SEC"), on behalf of the intervenors filed a hearing plan. Enersource Hydro Mississauga Inc. had provided a list of witness panels and the issue responsibilities for each. The intervenors jointly assessed what is an issue for each witness panel and provided estimates of total cross-examination time for each panel. Board staff on August 22, 2012 notified parties of its time estimates for each panel.

The Board accepts the hearing plan as filed by SEC and thanks parties for their prompt attention to this matter.

Accordingly, the Board sees no need for the pre-hearing conference scheduled for August 24, 2012 and thereby cancels it.

Yours truly,
