

August 27, 2012

Ontario Energy Board
PO Box 2319
2300 Yonge St
Toronto, ON M4P 1E4
Attn: Board Secretary

**RE: Brant County Power Inc. (BCP) – Application for Disposition of Smart Meter
Variance Accounts – EB-2012-0265**

Brant County Power is writing to inform the Board that we will not be in a position to respond to Board Staff and VECC interrogatories on August 28, 2012 as instructed.

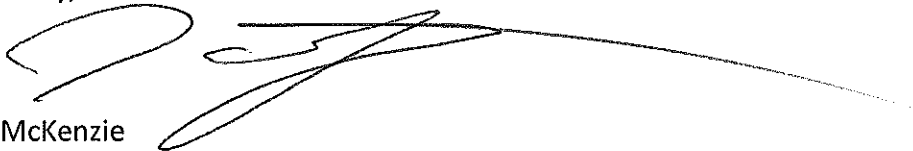

Brant County Power is ensuring that all questions are answered fully and accurately and do not wish to confuse this process with erroneous information.

Brant County Power will file the IRRs as soon as possible; however, request an extension to no later than September 11, 2012 (max. 2 week delay).

Brant County Power is cognisant of the Boards requirement to produce rates in a timely fashion and confirm that we will cease to charge our current Smart Meter Rate Adder as per our latest Tariff Sheet (set to expire on October 31, 2012). Any delay in the decision that our IRR delay causes will be to the detriment of Brant County Power and Rate Payers will be held harmless.

If you have any questions, please do not hesitate to contact me directly.

Sincerely,

Ian McKenzie
Director of Finance and Regulatory Affairs
