IN THE MATTER of the *Ontario Energy Board Act 1998*,
Schedule B to the *Energy Competition Act, 1998*, S.O. 1998, c.15;

AND IN THE MATTER of an Application by Oakville Hydro
Electricity Distribution Inc. to the Ontario Energy Board for an
Order or Orders approving or fixing just and reasonable rates with
respect to Smart Meters effective May 1, 2012.

Oakville Hydro Electricity Distribution Inc.

Draft Rate Order

Filed: August 29, 2012

Introduction

Oakville Hydro Electricity Distribution Inc. (“Oakville Hydro”) filed a stand-alone application (the “Application”) with the Ontario Energy Board (the “Board”) on April 3, 2012 seeking approval for the final disposition and recovery of costs related to smart meter deployment.

The Board issued its Letter of Direction and Notice of Application and Hearing on May 2, 2012. The Vulnerable Energy Consumers Coalition (“VECC”) received intervenor status and cost award eligibility. No letters of comment were received. Board staff and VECC filed interrogatories on June 1, 2012. Oakville Hydro filed its responses to Board staff and VECC interrogatories on June 15, 2012. Board staff filed its submission on June 29, 2012 and VECC filed its submissions on July 4, 2012. Oakville Hydro filed its reply submissions July 13, 2012.

The Board issued its Decision and Order on August 23, 2012 in this proceeding. In its Decision and Order, the Board approved Oakville Hydro’s request for an effective date of May 1, 2012 and determined that an implementation date of September 1, 2012 was appropriate. The Board

directed Oakville Hydro to establish the SMDRs based on a 20-month recovery period from September 1, 2012 to April 30, 2014, and to accommodate within the SMDR the applicable revenue requirement (SMIRR) amount related to the period from May 1, 2012 to August 31, 2012.

Revised SMDRs

In keeping with the Board Staff's comments and the Board's Final Rate Order in Cambridge and North Dumfries Hydro Inc.'s Application for Disposition and Recovery of Costs Related to Smart Meter Deployment, EB-2012-0086, Oakville Hydro has calculated the revised SMDRs as follows:

1. Interest on OM&A and depreciation expense:

Oakville Hydro divided the amount calculated in cell N29 on Sheet 8B of the Board's Smart Meter Model by twelve and multiplied it by eight to calculate the applicable interest for January 1, 2012 to August 31, 2012. See note 1 in the Smart Meter Disposition Rider table below.

2. Interest on SMFA revenues:

Oakville Hydro entered the applicable interest rate in cell C49 on Sheet 8 of the Board's Smart Meter Model to determine the interest to be applied to the closing balance of Account 1555 - Sub-account Funding Adder Revenues as at April 30, 2012 and multiplied the number by four to calculate the applicable interest from May 1, 2012 to August 31, 2012. See note 3 in the Smart Meter Disposition Rider table below.

3. Deferred SMIRR Revenue:

Oakville Hydro calculated the adjustment to the SMDR to recover the four months of SMIRR revenues for the period May 1, 2012 to August 31, 2012 by multiplying the SMIRRs by the number of customers and the number of months. This amount was then

added to the Net Deferred Revenue Requirement. See note 2 in the Smart Meter Disposition Rider table below.

4. Revised SMDR:

Oakville Hydro calculated the revised SMDR by dividing the revised Net Deferred Revenue Requirement by the number of customers in each rate class and by the number of months until Oakville Hydro’s next cost of service application. See note 4 in the Smart Meter Disposition Rider table below.

The results of these calculations are provided in the following table:

Smart Meter Disposition Riders				
Note	Residential	GS<50 kW	Reference	
Deferred Revenue Requirement (2006 to 2011)	\$ 2,747,107.29	\$ 647,402.72	Sheet 9, Cells G30 to Q30	
Interest on OM&A and Depreciation Expense to December 31, 2011	\$ 31,629.23	\$ 2,700.77	Sheet 9, Cells G32 to S32	
1 Interest on OM&A and Depreciation Expense Jan 1 to August 31, 2012	\$ 24,039.59	\$ 4,800.73	Sheet 8B Cell N29*8/12	
2 Deferred SMIRR Revenues (May 1 to Aug. 31/2012)	\$ 575,458.92	\$ 143,609.36	SMIRR X No. of customers X No. of months	
Less:				
SMFA Revenues (to April 30, 2012)	\$ 3,312,395.06	\$ 332,961.54	Sheet 9, Cells G40 to S40	
Interest on SMFA Revenues to April 30, 2012	\$ 85,564.38	\$ 10,014.94	Sheet 9, Cells G42 to S42	
3 Interest on SMFA - May 1 to August 31, 2012	\$ 16,230.72	\$ 1,631.52	Sheet 8 Cell M100 * 4	
Net Deferred Revenue Requirement to be recovered	\$ (35,955.13)	\$ 453,905.58		
Period to be recovered over (Months)	20	20	(September 1, 2012 to April 30, 2014)	
Number of customers	\$ 57,777	\$ 4,898		
4 Revised SMDR	\$ (0.03)	\$ 4.63		

The following table summarizes the changes to the SMDR. There is no change to the SMIRR as this is a monthly fixed charge based on the annualized revenue requirement until Oakville Hydro’s next cost of service application at which time the capital and operating costs will be incorporated into rate base.

Original and Revised SMDRs				
	Original	Final Submission	Draft Rate Order	
Residential	\$ (0.21)	\$ (0.45)	\$ (0.03)	
General Service < 50 kW	\$ (0.57)	\$ 2.61	\$ 4.63	

Bill Impacts

As detailed in Appendix A, the approved SMIRRs and the revised SMDRs result in a total bill increase of \$2.51 or 2.26% for Residential customers and an increase of \$12.16 or 4.25% for General Service < 50 kW customers.

Total Bill Impacts		
	\$ Change	% Change
Residential	\$ 2.51	2.26%
General Service < 50 kW	\$ 12.16	4.25%

Tariff of Rates and Charges

In accordance with the Board's direction, Oakville Hydro has provided a proposed Tariff of Rates and Charges as Appendix B that reflects the Board's findings in its Decision and Order in this proceeding.

Conclusion

Oakville Hydro respectfully requests the approval of its SMDRs and SMIRRs as per its proposed Tariff of Rates and Charges.

All of which is respectfully submitted on this 29th day of August, 2012.

OAKVILLE HYDRO ELECTRICITY DISTRIBUTION INC.

Proposed Tariff of Rates and Charges

Oakville Hydro Electricity Distribution Inc.
TARIFF OF RATES AND CHARGES
Effective Date May 1, 2012
Implementation Date September 1, 2012

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2011-0189
EB-2012-0193

RESIDENTIAL SERVICE CLASSIFICATION

This class refers to the supply of electrical energy to detached and semi-detached residential buildings as well as farms as defined in the local zoning by-laws. Where the residential dwelling comprises the entire electrical load of a farm, it is defined as a residential service. Where electricity is provided to a combined residential and business (including agricultural usage) and the service does not provide for separate metering, the classification shall be at the discretion of Oakville Hydro and shall be based on such considerations as the estimated predominant consumption. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges or assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

GENERAL SERVICE LESS THAN 50 KW SERVICE CLASSIFICATION

This class refers to customers who do not qualify as residential customers and whose monthly average peak demand in the preceding twelve months is less than 50kW. For new customers without prior billing history, the peak demand will be based on 90% of the proposed capacity or installed transformation. Note: Apartment buildings or multi-unit complexes and subdivisions are treated as General Service (Above 50 kW). Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

GENERAL SERVICE 50 TO 999 KW SERVICE CLASSIFICATION

This class refers to customers whose monthly average peak demand in the preceding twelve months is in the range of 50 to 999 kW. There are two sub categories within this class, those being non-interval and interval metered accounts. For new customers without prior billing history, the peak demand will be based on 90% of the proposed capacity or installed transformation. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

GENERAL SERVICE GREATER THAN 1,000 KW SERVICE CLASSIFICATION

This class refers to customers whose monthly average peak demand in the preceding twelve months is greater than 1,000 kW. These accounts will all be interval metered accounts. For new customers without prior billing history, the peak demand will be based on 90% of the proposed capacity or installed transformation. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges or assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less whose average monthly maximum demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, pedestrian X Walk signals/beacons, railway crossings, etc. The level of the consumption will be agreed to by the distributor and the customer, based on detailed manufacturer information/documentation with regard to electrical consumption of the unmetered load or periodic monitoring of actual consumption. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges or assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.
