To provide the impact on the deficiency of 100 degree day change in each of the Central, Niagara and Eastern regions

RESPONSE

An increase of 100 degree days for the Central, Eastern, and Niagara regions would result in the following decrease in the revenue deficiency assuming impacts for residential customers at rates effective April 1, 2012:

Revenue Deficiency Impact (\$M)

Central	4.0
Eastern	1.0
Niagara	<u>0.7</u>
Total	5.7
