Attention Board Secretary

Re: File EB2007-0513

I object to this application for the following reasons:

- 1- You are asking the public to make a judgment on an investment with only half the information available. This should not proceed until the cost of installing a smart meter is available.
- 2- The notification is written in such an obscure manner that it is extremely difficult to understand.
- 3- The procedure for participating is sufficiently complicated to discourage input.
