**IN THE MATTER OF the Application of
Waterloo North Hydro Inc. to the
Ontario Energy Board for its May 1, 2007
Rate Application**

STATUTORY DECLARATION OF PUBLICATION AND SERVICE

I, Gerardus Gilbert Hilhorst, make oath and say as follows:

1. That I am the Vice-President, Regulatory Affairs of Waterloo North Hydro Inc.
2. That the Notice of Application for an Electricity Distribution Rate Change, a copy of which is Exhibit "A" to this my Declaration, (the "Notice") was published and duly appeared on February 10, 2007 in The Record, an English-language local newspaper having the highest paid circulation in the service area
3. That the embedded distributor, Hydro One Networks Inc, was notified by email and responded on February 14, 2007 as per the attached copy of the email.

AND I make this solemn declaration conscientiously believing it to be true and knowing it is of the same force and effect as if made under oath, and by virtue of the Canada Evidence Act.

SWORN BEFORE ME at the City of Waterloo,)
in the Regional Municipality of Waterloo,)
this 15th day of February, 2007)

Gerardus Gilbert Hilhorst

A Commissioner, etc

NOTICE OF APPLICATION AND WRITTEN HEARING FOR AN ELECTRICITY DISTRIBUTION RATE CHANGE

AND NOTICE OF COMBINED PROCEEDING AND HEARING RELATING TO SMART METERS

WATERLOO NORTH HYDRO INC.

Waterloo North Hydro Inc. has filed an application with the Ontario Energy Board (the "Board"), received on January 25, 2007 under section 78 of the Ontario Energy Board Act, 1998, S.O. 1998, c.15 (Schedule B). The Board has assigned the application File No. EB-2007-0585. This Notice contains important information about participation in the hearing associated with the applicant's rate change application, and about participation in a combined proceeding relating to rate adjustments for smart meters ("smart meter combined proceeding").

Waterloo North Hydro Inc. has applied to the Board to change its distribution rates. The application has been filed on the basis of the guidelines set out in the December 20, 2006 "Report of the Board on Cost of Capital and 2nd Generation Incentive Regulation for Ontario's Electricity Distributors", available from the Board as described under "Need More Information?" below.

The standard electricity bill for residential and small general service customers has four line items: Electricity Delivery, Regulatory and Debt Retirement Charge. The rate change application affects only the Delivery line of that bill. If approved, a typical residential customer consuming 1,000 kWh per month would experience an approximate decrease of 0.2% in the electricity bill. A small general service customer consuming 2,000 kWh per month and having a monthly demand of 50 kW or lower would experience an approximate decrease of 0.1%.

Waterloo North Hydro Inc. may apply for a specific rate adjustment related to smart meters. This adjustment is referred to as a "smart meter adder", and represents temporary advance funding to facilitate the acquisition and installation of smart meters through the 2007 rate year. If a smart meter adder is applied for, the percentage decreases in the electricity bill referred to above do not include the amount of Waterloo North Hydro Inc.'s smart meter adder. The prudence of the amount requested by Waterloo North Hydro Inc. for its smart meter adder will not be examined as part of the rates proceeding. It will be dealt with in a separate process at a later date.

As a starting point to that future process, certain general principles will be the subject of a combined proceeding for which a hearing will be held after May 1, 2007. The combined proceeding will involve a number of electricity distributors, and may include or consider Waterloo North Hydro Inc.'s smart meter adder. Further information about the treatment of smart meter adders and the nature and scope of the combined proceeding may be found in the January 29, 2007 "Report of the Board on 2nd Generation Incentive Regulation for Ontario's Electricity Distributors: Addendum for Smart Metering Rates", available from the Board as described under "Need More Information?" below.

How to see Waterloo North Hydro Inc.'s Pre-filed Evidence

Copies of the application are available for inspection at the Board's offices in Toronto and on its website, and at the Waterloo North Hydro Inc. offices and on its website, if available.

How to Participate in the Rate Proceeding

The Board intends to proceed with Waterloo North Hydro Inc.'s rate change application by way of written hearing unless a party satisfies the Board that there is good reason for holding an oral hearing. If you object to a written hearing in this matter, you must provide written reasons why an oral hearing is necessary. Any objections to a written hearing must be received by the Board and copied to the applicant at the addresses below no later than 10 days from the date of publication of this Notice or, if you have been served this Notice directly, no later than 10 days from the date of service. The Board will not award costs in this matter.

Proceeding by way of written hearing, the Board requests interested parties to file submissions, in writing, setting out their views on the application. You must forward three paper copies and, if possible, an electronic copy in Word format and in searchable PDF format of your submission to the Board and one copy to the applicant at the addresses below. All submissions must be received by the Board and the applicant at the addresses below no later than 21 days from the date of publication of this Notice or, if you have been served this Notice directly, no later than 21 days from the date of service. If Waterloo North Hydro Inc. wishes to respond to a submission, the response must be filed with the Board and copied to the party that made the submission no later than 7 days from the date of receipt of the submission.

How to Participate in the Smart Meter Combined Proceeding

If you wish to participate in the smart meter combined proceeding, you must separately notify the Board of your intention to do so even if you are participating in the hearing on Waterloo North Hydro Inc.'s rate change application. Application for intervenor status and cost eligibility must be by letter and received by the Board no later than 10 days from the date of publication of this Notice or, if you have been served this Notice directly, no later than 10 days from the date of service. If you have notified the Board of your interest in the combined proceeding, you will receive further details regarding participation in, and the timing and conduct of, the combined proceeding once these become available.

How to Make Filings to the Board

All filings to the Board must quote File No. EB-2007-0585, and clearly state the sender's name, postal address and telephone number and, when available a fax number and e-mail address. All communications should be directed to the attention of the Board Secretary at the address below, and be received no later than 4:45 p.m. on the required date.

Need More Information?

Further information on how to participate may be obtained by visiting the Board's Web site at www.oseb.gov.on.ca or by calling our Consumer Relations Centre at 1-877-632-2727.

IMPORTANT

RATE PROCEEDING: IF YOU DO NOT FILE AN OBJECTION TO A WRITTEN PROCEEDING OR DO NOT PARTICIPATE IN THE PROCEEDING BY FILING A SUBMISSION IN ACCORDANCE WITH THIS NOTICE, THE BOARD MAY PROCEED WITH THE RATE PROCEEDING WITHOUT YOUR PARTICIPATION AND YOU WILL NOT BE ENTITLED TO FURTHER NOTICE IN THIS PROCEEDING.

SMART METER COMBINED PROCEEDING: IF YOU DO NOT NOTIFY THE BOARD OF YOUR INTENTION TO PARTICIPATE IN THE SMART METER COMBINED PROCEEDING IN ACCORDANCE WITH THIS NOTICE, THE BOARD MAY PROCEED WITH THE SMART METER COMBINED PROCEEDING WITHOUT YOUR PARTICIPATION AND YOU WILL NOT BE ENTITLED TO FURTHER NOTICE IN THIS PROCEEDING.

ADDRESSES

The Board:

Subject: Service of notice to embedded LDC

Hello Arthur,

As a result of the de-registration of the Wallenstien and Glen Allen delivery points in 2006, we are now a host distributor. While we do not have an approved rate for host distributor services, and one has not been applied for, the Ontario Energy Board has instructed us to provide notification to the embedded LDCs of our rate application.

WNH has not proceeded with a rate application for a Host distributor rate to date. We plan to make a separate application for a host distributor rate later in 2007. You will be provided with notice of application for Host distributor rate specific to that application when we proceed.

Please accept this as notification of application for 2007 rates for non Host distributor services. A copy of the OEB specified text is attached.

If you have any questions, please contact me.
