Ontario Energy Board Commission de l'énergie de l'Ontario

EB-2011-0249

IN THE MATTER OF the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, (Schedule B);

AND IN THE MATTER OF an application by Wellington North Power Inc. for an order approving just and reasonable rates and other charges for electricity distribution to be effective May 1, 2012.

DECISION AND ORDER

Wellington North Power Inc. ("WNP") filed an application with the Ontario Energy Board (the "Board") on April 13, 2012 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, (Schedule B), seeking approval for changes to the rates that WNP charges for electricity distribution, to be effective May 1, 2012. The Board has assigned the application File Number EB-2011-0249.

On May 24, 2012, the Board issued Procedural Order No. 1 wherein it established intervenor status and cost eligibility for Energy Probe Research Foundation ("Energy Probe") and the Vulnerable Energy Consumers Coalition ("VECC") and set dates for this proceeding including interrogatories and interrogatory responses. On June 22, 2012 the Board issued Procedural Order No. 2, granting WNP an extension to the date to file its responses to interrogatories. On July 18, 2012, the Board issued Procedural Order No. 3, which set dates for supplemental interrogatories and responses, and a settlement conference. A date of September 7, 2012 was also set for the filing of any proposed settlement agreement arising from the settlement conference.

The settlement conference took place on August 22, 2012. WNP, VECC and Energy Probe (collectively, the "Parties") participated in the settlement conference. Board staff also participated to ensure that all relevant information was brought forward and considered in the negotiations. The Parties reached a complete settlement on all issues in the proceeding.

On September 7, 2012 WNP filed a proposed Settlement Agreement with the Board. The Settlement Agreement is included as Appendix A to this Decision and Order.

WNP submitted detailed supporting material, including all relevant calculations showing the impact of the implementation of the proposed Settlement Agreement on WNP's revenue requirement, the allocation of the resulting revenue requirement to the classes and the determination of the final rates, including bill impacts and a proposed Tariff of Rates and Charges. On September 13, 2012, WNP submitted a corrected Tariff of Rates and charges which includes the Global Adjustment rate rider applicable to non-RPP customers.

Findings

The Board commends the parties on achieving complete settlement of all matters.

Having reviewed the proposed Settlement Agreement and the detailed supporting material, the Board accepts it in its entirety and further, accepts its cost and rate consequences as reasonable. WNP's new rates are to be effective October 1, 2012.

A Rate Order will be issued after the steps set out below are completed.

THE BOARD ORDERS THAT:

- Intervenors and Board staff shall file with the Board any comments on the draft Tariff of Rates and Charges set out in Appendix B and forward to WNP within 4 days of the date of issuance of this Decision and Order.
- 2. WNP shall file with the Board and forward to intervenors responses to any comments on the draft Tariff of Rates and Charges within **2 days** of the date of receipt of Board staff and intervenor comments.

Cost Awards

The Board may grant cost awards to eligible parties pursuant to its power under section 30 of the Ontario Energy Board Act, 1998. When determining the amount of the cost awards, the Board will apply the principles set out in section 5 of the Board's Practice Direction on Cost Awards. The maximum hourly rates set out in the Board's Cost Awards Tariff will also be applied.

- 1. Intervenors shall file with the Board and forward to WNP their respective cost claims within **7 days** from the date of issuance of the final Rate Order.
- 2. WNP shall file with the Board and forward to intervenors any objections to the claimed costs within **21 days** from the date of issuance of the final Rate Order.
- 3. Intervenors shall file with the Board and forward to WNP any responses to any objections for cost claims within **28 days** of the date of issuance of the final Rate Order.
- 4. WNP shall pay the Board's costs incidental to this proceeding upon receipt of the Board's invoice.

All filings with the Board must quote the file number EB-2011-0249, and be made through the Board's web portal at www.pes.ontarioenergyboard.ca/eservice/, and consist of two paper copies and one electronic copy in searchable / unrestricted PDF format. Filings must be received by the Board by 4:45 p.m. on the stated date. Parties should use the document naming conventions and document submission standards outlined in the RESS Document Guideline found at www.ontarioenergyboard.ca. If the web portal is not available, parties may e-mail their documents to the attention of the Board Secretary at BoardSec@ontarioenergyboard.ca. All other filings not filed via the Board's web portal should be filed in accordance with the Board's *Practice Directions on Cost Awards*.

All communications should be directed to the attention of the Board Secretary and be received no later than 4:45 p.m. on the required date.

DATED at Toronto, September 20, 2012

ONTARIO ENERGY BOARD

Original signed by

Kirsten Walli Board Secretary

TO DECISION AND ORDER

EB-2011-0249

Wellington North Power Inc.

Settlement Agreement

DATED: September 20, 2012

IN THE MATTER OF the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15, (Schedule B);

AND IN THE MATTER OF an application by Wellington North Power Inc. for an order approving just and reasonable rates and other charges for electricity distribution to be effective May 1, 2012.

WELLINGTON NORTH POWER INC. ("WNP") PROPOSED SETTLEMENT AGREEMENT FILED: SEPTEMBER 7, 2012 TABLE OF CONTENTS

1.	GENERAL	10
1.1	Has WNP responded appropriately to all relevant Board directions from previous	
	proceedings?	
1.2	Are WNP's economic and business planning assumptions for 2012 appropriate?	10
1.3	Is service quality, based on the Board specified performance assumptions for 2012,	
	appropriate?	
1.4	What is the appropriate effective date for any new rates flowing from this Application	n?
	If that effective date is prior to the date new rates are actually implemented, what	
	adjustments should be implemented to reflect the sufficiency or deficiency during the	e
	period from effective date to implementation date?	11
2.	RATE BASE	
2.1	Is the proposed rate base for the test year appropriate?	
2.2	Is the working capital allowance for the test year appropriate?	15
2.3	Is the capital expenditure forecast for the test year appropriate?	16
2.4	Is the capitalization policy and allocation procedure appropriate?	
3.	LOAD FORECAST AND OPERATING REVENUE	
3.1	Is the load forecast methodology including weather normalization appropriate?	
3.2	Are the proposed customers/connections and load forecasts (both kWh and kW) for t	he
	test year appropriate?	18
3.3	Is the impact of CDM appropriately reflected in the load forecast?	
3.4	Is the proposed forecast of test year throughput revenue appropriate?	23
3.5	Is the test year forecast of other revenues appropriate?	23
4.	OPERATING COSTS	
4.1	Is the overall OM&A forecast for the test year appropriate?	24
4.2	Is the proposed level of depreciation/amortization expense for the test year appropria 25	te?
4.3	Are the 2012 compensation costs and employee levels appropriate?	29
4.4	Is the test year forecast of property taxes appropriate?	
4.5	Is the test year forecast of PILs appropriate?	
5.	CAPITAL STRUCTURE AND COST OF CAPITAL	

5.1	Is the proposed capital structure, rate of return on equity and short term debt rate	
	appropriate?	
5.2	Is the proposed long term debt rate appropriate?	. 32
6.	SMART METERS	. 33
6.1	Is the proposed inclusion of the smart meter costs in the 2012 revenue requirement	
	appropriate?	. 33
6.2	Is the proposed disposition of the balances in variance accounts 1555 and 1556	
	appropriate?	. 33
6.3	Is the proposal related to Stranded Meters appropriate?	. 35
7.	COST ALLOCATION	
7.1	Is WNP's cost allocation appropriate?	. 36
7.2	Are the proposed revenue-to-cost ratios for each class appropriate?	. 37
8.	RATE DESIGN	. 38
8.1	Are the fixed-variable splits for each class appropriate?	. 38
8.2	Are the proposed retail transmission service rates ("RTSR") appropriate?	. 39
8.3	Are the proposed LV rates appropriate?	. 40
8.4	Are the proposed loss factors appropriate?	. 41
9.	DEFERRAL AND VARIANCE ACCOUNTS	. 42
9.1	Are the account balances, cost allocation methodology and disposition period	
	appropriate?	. 42
9.2	Are the proposed rate riders to dispose of the account balances appropriate?	. 44
10.	GREEN ENERGY ACT PLAN	. 46
10.1	Is WNP's Green Energy Act Plan, including the Smart Grid component of the plan	
	appropriate?	. 46

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 3 of 82

EB-2011-0249

IN THE MATTER OF the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15, (Schedule B);

AND IN THE MATTER OF an application by Wellington North Power Inc. for an order approving just and reasonable rates and other charges for electricity distribution to be effective May 1, 2012.

WELLINGTON NORTH POWER INC. PROPOSED SETTLEMENT AGREEMENT FILED: SEPTEMBER 7, 2012

INTRODUCTION:

Wellington North Power Inc. ("WNP") carries on the business of distributing electricity within the urban areas of the former town of Mount Forest, the former village of Arthur and the former village of Holstein.

WNP filed an application with the Ontario Energy Board (the "Board") on April 13, 2012 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15 (Schedule B), seeking approval for changes to the rates that WNP charges for electricity distribution, to be effective May 1, 2012 (the "Application"). The Board assigned the application File Number EB-2011-0249.

Two parties requested and were granted intervenor status: the Vulnerable Energy Consumers' Coalition ("VECC"), and Energy Probe Research Foundation ("EP"). These parties are referred to collectively as the "Intervenors".

In Procedural Order No. 1, issued on May 24, 2012, the Board approved the Intervenors in this proceeding, set dates for interrogatories and interrogatory responses and made its determination regarding the cost eligibility of the Intervenors.

In Procedural Order No. 3, issued on July 18, 2012, the Board set dates for supplemental interrogatories and responses (July 25 and August 8, 2012, respectively); a Settlement Conference (August 22, 2012, continuing August 23, 2012 if necessary); and the filing of any Settlement Proposal arising out of the

Settlement Conference (September 7, 2012). There is no Board-approved Issues List for this proceeding. WNP filed responses to both the original and supplemental interrogatories.

The evidence in this proceeding (referred to here as the "Evidence") consists of the application, including updates to the Application, and WNP's responses to the initial and supplemental interrogatories. The Appendices to this Settlement Agreement (the "Agreement") are also included in the Evidence. The Settlement Conference was duly convened in accordance with the Procedural Order No. 3, with Mr. Chris Haussmann as facilitator. The Settlement Conference was held on August 22, 2012.

WNP and the following Intervenors participated in the Settlement Conference:

- Energy Probe and
- VECC.

WNP and the Intervenors are collectively referred to below as the "Parties".

These settlement proceedings are subject to the rules relating to confidentiality and privilege contained in the Board's *Settlement Conference Guidelines* (the "Guidelines"). The Parties understand this to mean that the documents and other information provided, the discussion of each issue, the offers and counter-offers, and the negotiations leading to the settlement – or not – of each issue during the Settlement Conference are strictly confidential and without prejudice. None of the foregoing is admissible as evidence in this proceeding, or otherwise, with one exception: the need to resolve a subsequent dispute over the interpretation of any provision of this Settlement Agreement.

The role adopted by Board Staff in the Settlement Conference is set out in page 5 of the Guidelines. Although Board staff is not a party to this Agreement, as noted in the Guidelines, Board staff who did participate in the Settlement Conference are bound by the same confidentiality standards that apply to the Parties to the proceeding.

A COMPLETE SETTLEMENT HAS BEEN REACHED ON ALL ISSUES IN THIS PROCEEDING:

The Parties are pleased to advise the Board that a complete settlement has been reached on all issues in this proceeding. This document comprises the Proposed Settlement Agreement, and it is presented jointly

by WNP, EP and VECC to the Board. It identifies the settled matters, and contains such references to the Evidence as are necessary to assist the Board in understanding the Agreement. The Parties confirm that the Evidence filed to date in respect of each settled issue, as supplemented in some instances by additional information recorded in this Agreement, supports the settlement of the matters identified in this Agreement. In addition, the Parties agree that the Evidence, supplemented where necessary by the additional information appended to this Agreement, contains sufficient detail, rationale and quality of information to allow the Board to make findings in keeping with the settlement reached by the Parties.

The Parties explicitly request that the Board consider and accept this Proposed Settlement Agreement as a package. None of the matters in respect of which a settlement has been reached is severable. Numerous compromises were made by the Parties with respect to various matters to arrive at this comprehensive Agreement. The distinct issues addressed in this proposal are intricately interrelated, and reductions or increases to the agreed-upon amounts may have financial consequences in other areas of this proposal which may be unacceptable to one or more of the Parties. If the Board does not accept the Agreement in its entirety, then there is no Agreement unless the Parties agree that those portions of the Agreement that the Board does accept may continue as a valid settlement.

It is further acknowledged and agreed that none of the Parties will withdraw from this Agreement under any circumstances, except as provided under Rule 32.05 of the *Board's Rules of Practice and Procedure*.

It is also agreed that this Agreement is without prejudice to any of the Parties re-examining these issues in any subsequent proceeding and taking positions inconsistent with the resolution of these issues in this Agreement. However, none of the Parties will, in any subsequent proceeding, take the position that the resolution therein of any issue settled in this Agreement, if contrary to the terms of this Agreement, should be applicable for all or any part of the 2012 Test Year.

References to the Evidence supporting this Agreement on each issue are set out in each section of the Agreement. The Appendices to the Agreement provide further evidentiary support. The Parties agree that this Agreement and the Appendices form part of the record in EB-2011-0249. The Appendices were prepared by the Applicant. The Intervenors are relying on the accuracy and completeness of the Appendices in entering into this Agreement. Appendix I to this Agreement – Proposed Schedule of 2012 Tariff of Rates and Charges (Updated) – is a proposed schedule of Rates and Charges that WNP will use as the basis for its draft Rate Order following Board approval of this Agreement.

The Parties believe that the Agreement represents a balanced proposal that protects the interests of WNP's customers, employees and shareholder and promotes economic efficiency and cost effectiveness. It also provides the resources which will allow WNP to manage its assets so that the highest standards of performance are achieved and customers' expectations for the safe and reliable delivery of electricity at reasonable prices are met.

The Parties have agreed that the effective date of the rates resulting from this proposed Agreement is October 1, 2012 (referred to below as the "Effective Date"). The Parties agree that WNP may establish a rate rider that would allow it to recover that portion of the Revenue Deficiency that would have been recovered between October 1, 2012 and the Board-Approved implementation date for WNP's rates for the 2012 rate year.

ORGANIZATION AND SUMMARY OF THE SETTLEMENT AGREEMENT:

As noted above, there is no Board-approved Issues List for this proceeding. For the purposes of organizing this Agreement, the Parties have used the Issues List in the Guelph Hydro Electric Systems Inc. proceeding (EB-2011-0123) as a guide, as that Issues List addresses all of the revenue requirement components, load forecast, deferral and variance account dispositions, cost allocation and rate design and other issues that are also relevant to determining WNP's 2012 distribution rates.

The following Appendices accompany this Settlement Agreement:

- Appendix A Summary of Significant Changes
- Appendix B Continuity Tables (Updated)
- Appendix C Cost of Power Calculation (Updated)
- Appendix D 2012 Customer Load Forecast (Updated)
- Appendix E 2012 Other Revenue (Updated)
- Appendix F 2012 PILS (Updated)
- Appendix G 2012 Cost of Capital
- Appendix H 2012 Revenue Deficiency (Updated)
- Appendix I Proposed Schedule of 2012 Tariff of Rates and Charges (Updated)
- Appendix J 2012 Updated Customer Impacts (Updated)
- Appendix K Capitalization Policy
- Appendix L Cost Allocation Sheets O1 (Updated)
- Appendix M Revenue Requirement Work Form (Updated)
- Appendix N Feasibility Study of WNP Building Facilities
- Appendix O Heating and Air Conditioning Violation Report at WNP's Offices

UNSETTLED MATTERS:

There are no unsettled matters in this proceeding.

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 8 of 82

OVERVIEW OF THE SETTLED MATTERS:

This Agreement will allow WNP to continue to make the necessary investments in maintenance and operation expenditures as well as capital investments to maintain the safety and reliability of the electricity distribution service that it provides.

This Agreement will also allow WNP to: maintain current capital investment levels and, where required, appropriately increase capital investment levels in infrastructure to ensure a reliable distribution system; manage current and future staffing levels, skills and training to ensure regulatory compliance with Codes and Regulations; promote conservation programs including the Ministry of Energy directives as a condition of WNP's distribution licence; and continue to provide the high level of customer service that WNP's customers have come to expect.

The Parties agree that no rate classes face bill impacts as a result of this agreement that require mitigation efforts beyond those set out in this Agreement.

In this Agreement, except where otherwise expressly stated, all dollar figures are calculated and expressed using Canadian Generally Accepted Accounting Principles ("CGAAP"). The Parties acknowledge that WNP is not converting to International Financial Reporting Standards ("IFRS") in the 2012 Test Year, and that the Board is not requiring this conversion for the 2012 Test Year, as a result of the decision by the Canadian Accounting Standards Board to defer the mandatory changeover to IFRS to January 1, 2013, as discussed in the Board's correspondence to all licensed electricity distributors and transmitters and other interested parties dated April 30, 2012.

The revised Service Revenue Requirement for the 2012 Test Year is \$2,366,300 which reflects the updated cost of capital parameters (ROE and Deemed ST Debt rate) issued by the Board on March 2, 2012 applicable to applications for rebasing effective May 1, 2012. The long term debt rate was agreed to be 4.42%, for the purpose of settlement. Compared to the forecast 2012 revenue at current rates, of \$1,709,309, the revised Service Revenue Requirement represents a deficiency of \$506,999 which is \$215,186 lower than the revenue deficiency of \$722,184 set out in WNP's pre-filed evidence. The changes are detailed in the table below:

	Original as per	Settlement	Difference
	Application	Submission	
	(A)	(B)	(C = B-A)
Service Revenue Requirement	\$2,549,156	\$2,366,300	(\$182,856)
Revenue OffSet	\$141,585	\$149,992	\$8,408
Base Revenue Requirement	\$2,407,571	\$2,216,307	(\$191,263)
Revenue at Existing Rates	\$1,685,387	\$1,709,309	\$23,922
Revenue Deficiency	\$722,184	\$506,999	(\$215,186)

Through the settlement process, WNP has agreed to certain adjustments from its original 2012 Application and subsequent updated Evidence. Any such changes are described in the sections below.

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 10 of 82

1. GENERAL

1.1 Has WNP responded appropriately to all relevant Board directions from previous proceedings?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 1, Tab 1 Schedule 16

For the purposes of settlement the Parties accept the Evidence of the Applicant that there were no outstanding obligations or orders from previous Board decisions.

1.2 Are WNP's economic and business planning assumptions for 2012 appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 1, Tab 2, Schedule 2

For the purposes of settlement, the Parties accept WNP's economic and business planning assumptions for 2012.

1.3 Is service quality, based on the Board specified performance assumptions for 2012, appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 2, Tab 7 Schedule 1
	VECC IR #8

For the purposes of settlement, the Parties accept WNP's evidence with respect to the acceptability of its service quality, based on the Board-specified indicators.

1.4 What is the appropriate effective date for any new rates flowing from this Application? If that effective date is prior to the date new rates are actually implemented, what adjustments should be implemented to reflect the sufficiency or deficiency during the period from effective date to implementation date?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Settlement Agreement
	Energy Probe IR #1

For the purpose of settlement, the Parties accept that the appropriate effective date of the new rates flowing from this Application is October 1, 2012. The Parties accept that in the event that WNP's final rate order is not available in time for October 1st implementation, it would be appropriate to implement a rate rider over the remainder of the Rate Year that will enable WNP to recover or refund, as the case may be, the difference between the new Board-approved revenue, and its revenue at existing rates, for the

month(s) in 2012 in which its new rates are not in effect. It should be noted that WNP requested rates effective date of May 1, 2012 in the original Application.

In the event that WNP's final rate order is not available in time for October 1st implementation, WNP has calculated a foregone revenue rate rider based on an implementation date of November 1, 2012. The rate rider is shown in the following table, showing the recovery of one-month incremental revenue (October) over the six month period from November 1st 2012 through to April 30th, 2013:

By Class	Approved Annual	Monthly Total		Current	Proposed	Difference	Total	Forgone Revenue
-	Load Forecast			Rates	Rates		Forgone	Rate Rider over 6
	kWh						Revenue	months
							(Monthly)	
	(A)	(B)		(C)	(D)	(E=D-C)	(F = B*E)	(G = F/A/6 months)
Residential								
Customers	3,160	3,160	Fixed	\$13.88	\$18.00	\$4.12	\$13,010.67	\$0.69
kWh	24,876,519	2,073,043	Variable	\$0.0139	\$0.0180	\$0.0041	\$8,546.91	\$0.0001

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 13 of 82

2. RATE BASE

2.1 Is the proposed rate base for the test year appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 2, Tab 1, Schedule 1 Board Staff IR #4, #5, #6, #7 Energy Probe Supplementary IR #3

For the purposes of settlement, the Parties have agreed that WNP's Rate Base is \$7,489,318 for the 2012 Test Year under CGAAP. A full calculation of this agreed Rate Base is set out later in this section in the table titled "Rate Base".

The revised Rate Base value reflects the following:

- The Parties have agreed that WNP's Working Capital Allowance will be reduced from 15% of the sum of cost of power and controllable expenses to 14%. The calculation of the Working Capital Allowance is discussed in further detail below, under item 2.2. The revised value of the Working Capital Allowance is \$1,626,419.
- 2012 capital expenditures (net of contributions) for rate making purposes will be \$760,000 (CGAAP), as set out below in Section 2.3 "Capital Expenditure for Test Year".
- With respect to its Cost of Power, the Parties have agreed for the purposes of settlement to accept:
 - The Load Forecast as described in Section 3 of this Agreement.
 - The Cost of Power will be an RPP price of \$80.69/MWh and a Non-RPP price of \$78.77/MWh based on the April 2, 2012 Regulated Price Plan Price Report for May 1, 2012 to April 30, 2013. The \$80.69/MWh is outlined in Table E3-1 on

page 3 of the report and the \$78.77/MWh reflects the Forecast Wholesale Electricity Price of \$21.05/MWh plus the impact of the Global Adjustment (\$57.72/MWh) also shown in Table E3-1. Please see Appendix C for the detailed Cost of Power calculation.

Agreed-upon adjustments to WNP's proposed Rate Base under CGAAP are set out in the following table:

	Rate Base		
	Initial Application	Adjustments	Settlement Agreement
Gross Fixed Assets (average)	\$12,256,658	\$11,639	\$12,268,297
Accumulated Depreciation (average)	(\$6,453,505)	\$48,107	(\$6,405,398)
Net Fixed Assets (average)	\$5,803,153	\$59,746	\$5,862,899
Allowance for Working Capital	\$1,762,445	(\$136,026)	\$1,626,419
Total Rate Base	\$7,565,598	(\$76,280)	\$7,489,318

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 2, Tab 1, Schedule 1
	Board Staff IR #5
	Energy Probe IR #11
	VECC IR #6

2.2 Is the working capital allowance for the test year appropriate?

For the purposes of settlement, the Parties agree to the following Working Capital Allowance calculated based on 14% of the OM&A expenses of \$1,500,000 (CGAAP), plus property tax of \$12,006, and Cost of Power of \$10,105,275. The Parties have agreed that the following adjustments, reflecting the settled matters, will be made to WNP's Working Capital Allowance calculation:

Allowance for Working Capital			
	Settlement Agreement		
Controllable Expenses	\$1,716,475	(\$204,469)	\$1,512,006
Cost of Power	\$10,033,158	\$72,117	\$10,105,275
Working Capital Base	\$11,749,633	(\$132,352)	\$11,617,281
Working Capital Rate %	15%	-1%	14%
Working Capital Allowance	\$1,762,445	(\$136,026)	\$1,626,419

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 16 of 82

2.3 Is the capital expenditure forecast for the test year appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 2, Tab 5, Schedule 6
	Board Staff IR #8, #9, #10, #11, #12, #13
	Energy Probe # 7 and Supplementary IR # 15
	VECC IR # 1

For the purposes of obtaining complete settlement of all issues, the Parties agree that the 2012 Test Year net capital expenditures will be \$760,000 under CGAAP, a reduction of approximately \$223,000 from the Test Year net capital expenditures of \$983,803 proposed in the Application.

The Parties have agreed that the adjustment will be based on an "envelope" approach, so that any determination of potential budget reductions to reflect the Board-approved 2012 capital expenditures will be at the discretion of WNP. WNP has considered potential adjustments to its capital budget, and on a preliminary basis, and without prejudice to its discretion to adjust its capital expenditures as it may consider necessary and appropriate, WNP is considering withdrawing or re-scoping the following projects from its 2012 Capital Budget Plan:

2012 CapEx Project	Initial	Adjustment as a result of Settlement of	CapEx
	Application	Issues	Summary
Shop addition involving adding 2 bays to the	\$200,000	\$0	Application:
existing building to allow conversion of the west-		Removed from CapEx plan. TWNP has hired a structural engineer to assess the state of the	\$983,803
side shop for office space		buildings at its main office location at Mount	Less:
		Forest. This independent assessment has stated that the building needs to be gutted or a new-	\$200,000
		build is required due to the poor state of the	Balance:
		structure and internal components.	\$783,803
Installation of Security camera at the front	\$4,000	\$0	Less: \$4,000

counter and yard for staff and customer safety		Due to building renovation required	Balance: \$779,803
Garland watertight roof to install a new roof as the current roof is leaking	\$66,000	Reduced to \$15,000 to patch existing roof as an interim measure	Less: \$66,000 Add: \$15,000 Balance: \$728,803
Accessibility to make the building more accessible at the front Entrance, Close in Stairway to Operations, Washroom Alterations and Flooring stabilization	\$40,000	Reduced to \$10,000 to address urgent issues to ensure the safety of employees and customers	Less: \$40,000 Add: \$10,000 Balance: \$698,803
West shed insulation and heating for truck and inventory storage	\$12,000	Reduced to \$8,197 to insulate garage doors as an interim measure until a decision on whether to renovate or new-build at the site	Less: \$12,000 Add: \$8,197 Balance: \$695,000
<u>New Item:</u> Building repairs as an interim measure including separate furnace room and new furnace	\$25,000	Current furnace was condemned in July 2012 as unsafe, due to limited ventilation and not being housed in a separate room thereby causing a fire risk	Add: \$25,000 Balance: \$720,000
New Item; Building Renovation Engineering Assessment	\$40,000	Professional and independent assessment of WNP's main building at Queen St, Mount Forest. Independent assessment to assess whether the existing structure and foundations can be adapted to meet obligations and safety standards OR whether new-build is the more viable option	Add: \$40,000 Balance: \$760,000

2.4 Is the capitalization policy and allocation procedure appropriate?

Status:	Complete Settlement	
Supporting Parties:	WNP, EP, VECC	
Evidence:	Application: Exhibit 2, Tab 8, Schedule 1	

For the purpose of obtaining complete settlement of all issues, the Parties have accepted WNP's capitalization policy, as set out in Appendix K to this Settlement Agreement.

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 18 of 82

3. LOAD FORECAST AND OPERATING REVENUE

3.1 Is the load forecast methodology including weather normalization appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application, Exhibit 3, Tab 2, Schedule 1 Board Staff IR ##6, 14, #15, #16 Energy Probe IR #13, #14, #15, #16, #17 Energy Probe Supplementary IR #3, #17 VECC IR #9, #10, #11, #12, #13

For the purposes of settlement, the Parties accept WNP's load forecast methodology including weather normalization as contained in its Application and as modified through the settlement process, and its power purchased forecast of 106,961,099 kWh (before CDM adjustment) and billed consumption forecast of 99,815,269 kWh in the 2012 Test Year (before CDM adjustment). (The billed consumption forecast after CDM adjustment is 98,911,269 kWh in the 2012 Test.)

3.2	Are the proposed customers/connections and load forecasts (both kWh and kW) for the
	test year appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application, Exhibit 3, Tab 2, Schedule 1 Energy Probe IR #17 VECC IR #11, #39, #41, #42, #43, #44 Energy Probe Supplementary IR #3, #17

For the purposes of settlement, the Parties agree with WNP's customers/connections and load forecasts (both kWh and kW) for the 2012 test year, as modified through the settlement process with respect to all of WNP's customer classes including the three sensitive customers as set forth in Appendix D.

For the purposes of settlement, the Parties agreed with the kW / kWh ratios as illustrated in the table below. This supersedes Table 3-24 from Exhibit 3, Tab 2, Schedule 1 of WNP's Application and represents the kW /kWh ratios that were provided in WNP's response to Energy Probe Supplementary IR #6a:

kW / kWh Ratios - history based (2004 to 2010)				
Year	General Service 50 - 999 kW	General Service 1,000 - 4,999 kW	Streetlights	Sentinel Lights
2004	0.186%	0.219%	0.274%	0.278%
2005	0.192%	0.220%	0.274%	0.278%
2006	0.206%	0.232%	0.275%	0.278%
2007	0.298%	0.229%	0.229%	0.232%
2008	0.293%	0.240%	0.273%	0.282%
2009	0.310%	0.220%	0.275%	0.282%
2010	0.299%	0.229%	0.275%	0.278%
Average	0.255%	0.22689%	0.268%	0.272%

The table below summarises the kW (after CDM adjustment) that have been applied and agreed by all Parties:

	Information Agreed by all Parties at Settlement Conference		
	2012 Test Year		
	Billed kWh Billed kV		
	(after CDM adjustment)		
3 Sensitive Customers:	29,114,814	66,059	
Other Customers:			
Residential	2.,0.0,025		
General Service < 50 kW	10,703,832		
General Service 50 - 999 kW	19,816,501	50,979	
General Service 1,000 - 4,999 kW	13,654,427	31,867	
Street Lights	711,946	1,925	
Sentinel Lights	29,261	80	
Unmetered Loads	3,969		
Sub-total of Other Customers:	69,796,455	84,852	
Total	98,911,269	150,910	

For the Board's reference and as per WNP's Application Exhibit 3, Tab 3, Schedule 1, the LDC observed that three automotive manufacturing customers were affecting the Purchase Load volume for the year of 2009 as a consequence of the Global Economic recession. (These customers' consumption behaviour, shift pattern and hours of operation were altered in late 2008 and during 2009. It has taken until early 2011 for these customers to return to a stable / "normal" consumption pattern.) Consequently, for these three customers, WNP took the following approach to create a kWh Predicted Purchase for 2011 and 2012:

- Reviewed the actual usage for these customers for the period of 2004 to 2010 inclusive, using actual billed data;
- Calculated the average Billed kWh for 2004 to 2010 and re-confirmed that 2009 is reducing the average. In 2009, these three customers were affected by the 2008/2009 recession, namely their shift patterns were significantly reduced which in-turn reduced their energy consumption for this year;
- In view of the above point, calculated the average Billed kWh for 2004 to 2010, excluding 2009;
- Decided that billed amount is being held constant using the average of Billed kWh for 2004-2010 excluding 2009 to derive the Predicted Purchase Load for 2011 Bridge Year and 2012 Test Year;
- During the Interrogatory process, WNP were asked to present billed kWh data for these three customers in a variety of methods, including 2011 actual data; using annual averages and excluding 2004 year; and, using annual averages and excluding both 2004 and 2009 years. These techniques assisted in determining the most reasonable approach in creating a billed kW / kWh and purchase load forecast that could be applied for the 2012 Test Year;
- As a result of the settlement, it was accepted to use the Total Billed kWh actual data for the period May 2011 to June 2012 plus 4.5 GWh for these three sensitive customers. The update table below supersedes the information supplied in the WNP's initial Application and reflects the information accepted by all Parties:

		Average Billed kWh per	
Year	Total Billed (kWh)	customer	Predicted Purchase
rear	rotar Diffed (kwii)	(Total Billed / 3	kWh
		customers)	
2004	20,831,385	6,943,795	
2005	25,428,234	8,476,078	
2006	25,642,352	8,547,451	
2007	26,300,386	8,766,795	
2008	23,661,505	7,887,168	
2009	19,493,387	6,497,796	
2010	25,825,024	8,608,341	
· · · · · · · · · · · · · · · · · · ·		•	
2004 - 2010 Average	23,883,182	7,961,061	
2005 - 2010 Average			
(Excluding 2009)	24,614,814	8,204,938	
2011 Bridge	24,614,814	Total Loss Factor: 1.0699	26,335,390
2012 Test Year	29,114,814	Total Loss Factor: 1.0716	31,199,435
ote:			
012 Test Year is original appli	cation plus 4.5 GWh		
12 Test Year Predicted Purc	hase has had loss fac	tor of 1.0717 applied (derived f	rom Distribution Loss
actor of 1.0362 being applied	as agreed at Settleme	nt Conference)	

Table 3-15

Forecast applied for the Three Sensitive Customers:

Regarding all the "other" customers, WNP applied the methodology as described in Exhibit 2 of the LDC's application. The table below is a revised version of Table 3-14 of Exhibit 3, Tab 2, Schedule 1 of WNP's Application and is the method that was accepted by all Parties. This revised table is based upon 2011 actual purchase data, 2011 actual heating and cooling degree days and the inclusion of number of customers as an explanatory variable (as per WNP's response to Energy Probe Supplementary IR #3b):

Model F - All WNP portfolio excluding 3 x Sensitive customers					
Actual vs.	Predicted Pure	chases (kWh)			
Year Actual Predicted % Difference					
2004	72,890,680	71,756,001	-1.6%		
2005	71,971,867	73,201,167	1.7%		
2006	72,292,023	72,109,118	-0.3%		
2007	73,766,416	73,793,223	0.0%		
2008	75,194,816	74,271,879	-1.2%		
2009	72,559,407	73,825,625	1.7%		
2010	74,978,072	74,912,785	-0.1%		
2011 Bridge - Actual	76,384,759	76,168,243	-0.3%		
2012 Test		75,761,939			

For the Board's reference, WNP has provided its revised forecast at Appendix D - 2012 Customer Load Forecast.

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 22 of 82

3.3 Is the impact of CDM appropriately reflected in the load forecast?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application, Exhibit 3, Tab 2, Schedule 1, page 349 Board Staff IR #2 VECC IR #14 Board Staff Supplementary IR #56

For the purposes of settlement, the Parties agree that the CDM adjustments as presented in the Application are appropriate. The 2012 forecast has been adjusted to reflect 904,000 kWh savings at the power-purchased level from 2012 CDM programs. The forecast CDM volumes in kWh and kW as applicable, by rate class at the adjusted levels are provided in the table below:

CDM Billed kWh Adjustment (kWh)									
2011 2012									
Forecasted kWh Billed prior to CDM Adjustment	95,695,396	99,815,269							
CDM kWh Target Savings for 2011	-452,000								
CDM kWh Target Savings for 2012		-904,000							
Forecasted kWh Billed after CDM Adjustment	95,243,396	98,911,269							

The table below illustrates the allocation CDM savings across the rate classes by both kWh and kW:

		kWh			kW	
Customer Class	2012 Weather	CDM kWh	Adjusted Billed kWh	2012 Weather	CDM kW	Adjusted Billed kWh
Customer Class	Normal Billed kWh	Reduction	with CDM Applied	Normal Billed kW	Reduction	with CDM Applied
Residential	25,103,878	(227,359)	24,876,519			
General Service < 50 kW	10,801,659	(97,828)	10,703,832			
General Service 50 - 999 kW	19,997,614	(181,113)	19,816,501	50,979	(462)	50,517
General Service 1,000 - 4,999 kW	43,160,131	(390,890)	42,769,242	97,926	(887)	97,039
Street Lights	718,453	(6,507)	711,946	1,925	(17)	1,907
Sentinel Lights	29,529	(267)	29,261	80	(1)	80
Unmetered Loads	4,006	(36)	3,969			
	0					
	99,815,269	(904,000)	98,911,269	150,910	(1,367)	149,544
	2012 CDM Target	904,000 kV	Wh			

(Note: the above table represents kW / kWh ratios as described above in Section 3.2: "Proposed customers/connections and load forecasts".)

3.4 Is the proposed forecast of test year throughput revenue appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application, Exhibit 3, Tab 3, Schedule 1
	VECC IR #16

For the purposes of settlement, the Parties agree on the following throughput revenue:

Base Revenue Requirement:							
Service Revenue Requirement:	\$2,366,300						
Less: Revenue Offsets:	(\$149,992)						
Base Revenue Requirement:	\$2,216,307						

3.5 Is the test year forecast of other revenues appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application, Exhibit 3, Tab 3, Schedule 2, page 359
	VECC IR #45

For the purposes of settlement, the Parties accept WNP's test year forecast of a total of \$149,992 in Other Distribution Revenue, as set out in WNP's response to VECC IR #45.

For the Board's reference, WNP has reproduced its forecast at Appendix E – 2012 Other Revenue.

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 24 of 82

4. **OPERATING COSTS**

4.1 Is the overall OM&A forecast for the test year appropriate?

Status:	Complete Settlement						
Supporting Parties:	WNP, EP, VECC						
Evidence:	Application: Exhibit 4, Tab 2, Schedule 1 – 11 Board Staff IR #19, #20, #21, #63, #64 Energy Probe IR #3, #21, #23, #24, #25, #26 VECC #48						

For the purposes of settlement, the Parties agree that the 2012 OM&A for the Test Year should be \$1,500,000 (CGAAP). The Parties rely on WNP's view that it can safely and reliably operate the distribution system based on the total OM&A budget proposed. The Parties have agreed that the adjustment will be based on an "envelope" approach, so that any determination of potential budget reductions to reflect the Board-approved 2012 OM&A will be at the discretion of WNP.

As a result of the settlement, the OM&A Cost per Customer and FTEE is as shown in the table below:

OM&A Cost per Customer and FTEE										
	2008 Board Approved (Rebasing Year)	2008 Actual	2009 Actual (year 2)	2010 Actual (year 3)	2011 Bridge Year	2012 Test Year				
Number of Customers / Connections	4,502	4,479	4,478	4,519	4,546	4,597				
Total OM&A	\$1,186,866	\$1,188,784	\$1,148,466	\$1,254,152	\$1,565,813	\$1,500,000				
OM&A cost per Customer	\$263.63	\$265.40	\$256.48	\$277.54	\$344.47	\$326.27				
Number of FTEEs	10.5	10.5	10.5	11.5	12.5	13.5				
Customer / FTEEs	428.76	426.59	426.45	392.94	363.65	340.55				
OM&A cost per FTEE	\$113,035	\$113,217	\$109,378	\$109,057	\$125,265	\$111,111				

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 25 of 82

4.2 Is the proposed level of depreciation/amortization expense for the test year appropriate?

Status:	Complete Settlement						
Supporting Parties:	WNP, EP, VECC						
Evidence:	Application: Exhibit 2, Tab 3, Schedule 3 Board Staff IR #49 Energy Probe IR #28 Energy Probe Supplementary IR #14						

For the purposes of settlement, the Parties accept the useful lives proposed by WNP in the table below and the depreciation expense reported in the continuity schedules in Appendix B. The Parties have agreed that the proposed level of depreciation/amortization expense of \$387,630 for the 2012 Test Year is appropriate.

As cited in per WNP's Application, the LDC adopted the revised depreciation periods as indicated by the Kinectrics Study that was commissioned by the OEB. WNP has implemented the mid-range Typical Useful Life depreciation periods for its assets. WNP implemented this depreciation approach effective from January 2012 and applied it to the Test Year in its evidence. The table below on the following page summarizes the Kinectrics depreciation periods that WNP's has adopted.

WNP filed its 2012 Cost of Service rate Application using Modified IFRS, as directed by the Board, with the intention of transitioning to Modified IFRS on January 1, 2012. Since filing its Application, there have been communication updates from the OEB and the Accounting Standards Board (AcSB) regarding the transition to IFRS for regulated entities / utilities. As a result of these updates, WNP has decided to defer its transition to IFRS and is using CGAAP accounting principles for the 2012 Test Year.

It was agreed by all Parties that as WNP were operating under CGAAP accounting principles in the Test Year (not Modified IFRS), the LDC is not required to calculate and apply a PP&E adjustment.

	Model used for 2012 COS Application	Previous Dep'n (years)	Kinectrics Mid-range Depreciation Duration (years)

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 29 of 82

4.3 Are the 2012 compensation costs and employee levels appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 4, Tab 2, Schedule 2
	Board Staff IR #19, #20, #20
	VECC IR #25, #27, #28

For the purpose of settlement, and subject to the overall reduction in 2012 Test Year OM&A discussed above, the Parties accept WNP's forecast 2012 Test Year compensation costs and employee levels.

4.4 Is the test year forecast of property taxes appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 4, Tab 1, Schedule 1

WNP has forecasted an amount of \$12,006 in property taxes that will be payable in the 2012 Test Year.

For the purposes of settlement, the Parties have accepted WNP's 2012 Test Year forecast of property taxes.

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 30 of 82

4.5 Is the test year forecast of PILs appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 4, Tab 1, Schedule 1

For the purpose of settlement, the parties accept WNP's 2012 Test Year PILs forecast as set out in Appendix F to this Settlement Agreement. (As mention above in Section 4.2: "Proposed level of depreciation/amortization expense for the test year", it was also agreed by all Parties that for CCA, the closing UCC balances for 2011 are used as Opening 2012 UCC balances and for 2012, additions for computer hardware is attributed to CCA Class 50 (rather than Class10).

Please see Appendix F – 2012 PILs (Updated), for additional details.

5. CAPITAL STRUCTURE AND COST OF CAPITAL

5.1 Is the proposed capital structure, rate of return on equity and short term debt rate appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 5, Tab 1, Schedule 1
	Energy Probe IR #30, #31 and Supplementary IR #12
	VECC IR #30
	Board Staff IR #24, #65

For the purposes of settlement, the Parties have agreed that WNP's proposed capital structure of 56% long term debt, 4% short term debt, and 40% equity is appropriate.

This Settlement Agreement has been prepared using the Board's updated Cost of Capital Parameters for ROE (9.12%) and short term debt (2.08%) for cost of service applications for rates effective May 1, 2012, issued on March 2, 2012. These updated parameters will also be incorporated into the Draft Rate Order to be prepared following the issuance of the Board's Decision on the Settlement Agreement. . (Long-term debt is addressed separately in Section 5.2.)

Please refer to Appendix G – 2012 Cost of Capital.

	Deemed Capital Structure for 2012 Test Year						
		(%)	(\$)	(%)	(\$)		
	Debt						
1	Long-term Debt	56.0%	\$4,194,018	4.42%	\$185,18		
2	Short-term Debt	4.0%	\$299,573	2.08%	\$6,23		
3	Total Debt	60.0%	\$4,493,591	4.26%	\$191,42		
	Equity						
4	Common Equity	40.0%	\$2,995,727	9.12%	\$273,21		
5	Preferred Shares		\$ -		\$		
6	Total Equity	40.0%	\$2,995,727	9.12%	\$273,21		
7	Total	100.0%	\$7,489,318	6.20%	\$464,63		

5.2 Is the proposed long term debt rate appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 4, Tab 1, Schedule 1
	VECC IR #30
	Board Staff IR 24, #65

For the purposes of settlement, the Parties agreed to WNP's long term debt rate of 4.42%. The calculation of the long term debt rate is set out in Appendix G to this Agreement.

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 33 of 82

6. SMART METERS

6.1 Is the proposed inclusion of the smart meter costs in the 2012 revenue requirement appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 10
	Board Staff IR #30, #31, #58
	Energy Probe IR #37

For the purposes of settlement, the Parties accept WNP's proposed inclusion of Smart Meter costs in the 2012 revenue requirement as appropriate.

6.2 Is the proposed disposition of the balances in variance accounts 1555 and 1556 appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 10 Board Staff IR #28, #29, #30, #31, #32; #33, #34, #35, #36, #37, #40 Board Staff Supplementary IR #66, #67

For the purposes of settlement, the Parties accept that WNP's proposed disposition of the balances in variance accounts 1555 and 1556 is appropriate. With respect to the methodology for calculating smart meter-related riders, the parties have agreed that WNP will calculate class specific Smart Meter Disposition Riders based on the actual Smart Meter Funding Adder revenues billed by each rate class (as calculated in response to WNP's response to Board Staff IR #67 and as per WNP's Smart Meter Model v2.17 August 3, 2012). The Parties have agreed that WNP will recover the residual deferred Smart Meter revenue requirement over a 19-month period on the basis provided in the following table:

Smart Meter Actual Cost Recovery Rate R (Calculated by SMFA rev			· · ·	r (S	MDR)
Allocators	Total		Residential		GS < 50kW
Smart Meter Unit Cost			\$224.18		\$735.94
Smart Meter Cost	\$1,067,966		\$708,459		\$359,508
Allocation of Smart Meter Costs	100.00%		66.3%		33.7%
Number of meters installed	3,649		3,160		489
Allocation of Number of meters installed	100.00%		86.6%		13.4%
Total Return (Deemed Interest plus Return on Equity)	\$ 118,163	s	78,386	s	39,777
Amortization	\$ 221,355	ŝ	146.841	s	74,514
OM&A	\$ 87,888	\$	76,122	\$	11,767
Total Before PILs	\$ 427,407	\$	301,349	\$	126,058
PILs	(\$4,764)		(\$3,359)		(\$1,405)
Total Revenue Requirement 2006 to 2011	\$ 422,642	\$	297,990	\$	124,653
Smart Meter Rate Adder (Calculated by SMFA Revenues billed by rate class)	(\$281,316)		(\$242,560)		(\$38,757)
Carrying Charge	\$ 4,698		\$4,051		\$647
Smart Meter True-up:	\$146,024		\$59,480		\$86,544
Metered Customers	3,649		3,160		489
	Total		Residential	(GS < 50kW
Recovery Period in Months	19		19		19
Rate Rider to Recover Smart Meter Costs	\$2.11		\$0.9906		\$9.3242

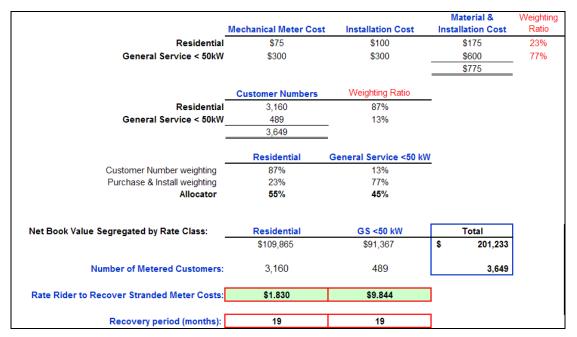

Smart Meter Disposition Rider Calculation

Through the settlement process, it was agreed by all Parties that WNP will recover the residual deferred Smart Meter revenue requirement over a two-year period. As indicated in Section 1.4, the Parties accept an effective date of October 1, 2012 for new rates. Consequently, in keeping consistency with the Board's approach of Rider's having an expiry date of April 30, all Parties agree that a recovery period 19 months is applied for the period of October 1, 2012 to April 30, 2014. The table above represents the recovery over 19 months.

6.3 Is the proposal related to Stranded Meters appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 10 Board Staff IR #38, #39 Energy Probe IR #38 VECC IR #37c

For the purposes of settlement, the Parties accept the stranded meter value of \$201,233 as presented in the following table. The Parties accept the proposal for recovery of that amount through a rate rider of \$1.830 per metered Residential customer per month, and a rate rider of \$9.844 per metered General Service < 50 kW customer per month over a 19-month period as illustrated below:

Through the settlement process, it was agreed by all Parties that WNP will recover Stranded Meter costs over a two-year period. As indicated in Section 1.4, the Parties accept an effective date of October 1, 2012 for new rates. Consequently, in keeping consistency with the Board's approach of Rider's having an expiry date of April 30, all Parties agree that a recovery period 19 months is applied for the period of October 1, 2012 to April 30, 2014. The table above represents the recovery over 19 months.

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 36 of 82

7. COST ALLOCATION

7.1 Is WNP's cost allocation appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 7 Board Staff IR #25, #26, #27

The Parties have agreed for the purposes of settlement that the revenue-to-cost ratios for the 2012 Test Year, reflecting the agreed-upon 2012 Test Year Revenue Requirement, will be as set out in the following tables:

Class	Re	Revenue equirement - 2012 Cost Allocation Model	2012 Base Revenue Allocated based on ropotion of Revenue at Existing Rates	A	Miscellaneous Revenue Allocated from 2012 Cost Allocation Model		Revenue Cost Ratio		Check Revenue Cost Ratios from 2012 Cost Allocation Model	Proposed Revenue to Cost Ratio
Residential	\$	1,233,157	\$ 1,130,849	\$	90,940	\$ 1	1,221,789	99.08%	99.08%	99.08%
GS < 50 kW	\$	455,611	\$ 378,454	\$	34,448	\$	412,903	90.63%	90.63%	95.36%
GS 50 - 999 kW	\$	257,181	\$ 350,626	\$	10,511	\$	361,137	140.42%	140.42%	120.00%
GS 1,000 - 4,999 kW	\$	319,770	\$ 260,643	\$	8,949	\$	269,593	84.31%	84.31%	95.36%

Residential	1,221,789	\$ 90,940	\$ 1,130,849	85%	115%
GS < 50 kW	434,484	\$ 34,448	\$ 400,036	80%	120%
GS 50 - 999 kW	308,618	\$ 10,511	\$ 298,107	80%	120%
GS 1,000 - 4,999 kW	304,942	\$ 8,949	\$ 295,993	80%	120%
Sentinel Lights	2,684	\$ 136	\$ 2,548	80%	120%
Street Lighting	93,585	\$ 4,990	\$ 88,595	70%	120%
Unmetered Scattered Loads	199	\$ 18	\$ 181	80%	120%
TOTAL	2,366,300	\$ 149,992	\$ 2,216,308		

Please see Appendix L – Cost Allocation Sheet O1for additional information.

7.2 Are the proposed revenue-to-cost ratios for each class appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 7

The Parties have agreed for the purposes of settlement that the revenue-to-cost ratios for the 2012 Test Year, as set out under issue 7.1, above, are appropriate.

For the purposes of settlement, the Parties have agreed that WNP will make certain adjustments to the cost allocation proposed in the Application. Specifically, the Parties have agreed that WNP will move outliers (in this case, the General Service 50-999 kW and Sentinel Lights whose revenue-to-cost ratios are above the approved ranges) to the upper boundaries of their ranges as applicable, after which adjustments will be made to the rate classes that have revenue to cost ratios below 100% to maintain revenue neutrality. The approach to be followed in this regard is that the rate class with the lowest revenue-tocost ratio will be increased to achieve revenue neutrality or to the level of the rate class with the next lowest revenue-to-cost ratio which ever occurs first. If the rate class with the lowest revenue-to-cost ratio is increased to the level of the rate class with the next lowest revenue-to-cost ratio, then the ratio of these two classes will be increased to achieve revenue neutrality or to the level of the class with the next lowest ratio, and this approach will continue until revenue neutrality is achieved. More specifically, in this case, as illustrated in the first table under Issue 7.1, above, the effect of this approach is that revenueto-cost ratios of the Unmetered Scattered Load, the GS 1,000-4,999 kW and the GS < 50 kW classes are being increased to match the 91.88% revenue-to-cost ratio of the Street Lighting class, and that ratio is then being increased to 95.36% for each of these four classes to achieve revenue neutrality. All movement of outliers to the upper boundaries of their ranges will take place in one adjustment in the 2012 test year. For the purposes of settlement, the Parties accept the revised proposed revenue-to-cost ratios with the adjustments referred to above.

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 38 of 82

8. RATE DESIGN

8.1 Are the fixed-variable splits for each class appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 8 Tab 1 Schedule 2, table 8-5 VECC IR#31

For the purposes of settlement, the Parties have accepted that the 2012 monthly service charge for each customer class (the "MSC") will maintain the current fixed-variable splits.

The Parties accept the customer charges and the fixed-variable splits for each class presented in the tables below.

	Fixed Charge Analysis												
Customer Class	Current Volumetric Split	Current Fixed Charge Spilt	Total	Fixed Rate Based on Current		Fixed Rate Based on 2011 Rates Current From OEB ixed/Variable Approved Revenue Tariff		rom OEB pproved (Ceiling Fixed Charge From		Target Fixed Charge Split	with larget		
Residential	39.65%	60.35%	100.00%	\$	18.00	\$	13.88	\$	22.09	60.35%	\$	18.00	
GS < 50 kW	44.01%	55.99%	100.00%	\$	38.21	\$	27.88	\$	56.95	55.99%	\$	38.21	
GS 50 - 999 kW	56.29%	43.71%	100.00%	\$	268.64	\$	243.69	\$	140.45	43.71%	\$	268.64	
GS 1,000 - 4,999 kW	60.95%	39.05%	100.00%	\$	2,195.63	\$	1,491.13	\$	266.14	39.05%	\$	2,195.63	
Sentinel Lights	59.58%	40.42%	100.00%	\$	5.11	\$	16.11	\$	8.79	40.42%	\$	5.11	
Street Lighting	16.77%	83.23%	100.00%	\$	6.93	\$	5.14	\$	9.13	83.23%	\$	6.93	
Unmetered Scattered Loads	31.19%	68.81%	100.00%	\$	17.61	\$	10.30	\$	24.35	68.81%	\$	17.61	

The parties agree to the following fixed and variable rates.

2012 Test Year - Base Revenue Distribution Rates										
Customer Class	Connection	Customer	kW	kWh						
Residential	0.00	18.00	0.0000	0.0180						
GS < 50 kW	0.00	38.21	0.0000	0.0164						
GS 50 - 999 kW	0.00	268.64	3.5679	0.0000						
GS 1,000 - 4,999 kW	0.00	2,195.63	1.8423	0.0000						
Sentinel Lights	5.11	0.00	18.8680	0.0000						
Street Lighting	6.93	0.00	7.7198	0.0000						
Unmetered Scattered Loads	0.00	17.61	0.0000	0.0142						

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 39 of 82

8.2 Are the proposed retail transmission service rates ("RTSR") appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 8, Tab 2, Schedule 1, Table 8-7 VECC IR #32

For the purposes of settlement the Parties have agreed that the following Retail Transmission Service Rates ("RTSRs"), based on the updated Uniform Transmission Rates issued by the Board on December 20, 2011 in EB-2011-0268, are appropriate.

Rate Class	Unit	sed RTSR etwork	-	oosed RTSI onnection
Residential	kWh	\$ 0.0054	\$	0.0038
General Service Less Than 50 kW	kWh	\$ 0.0050	\$	0.0032
General Service 50 to 999 kW	kW	\$ 2.0539	\$	1.2703
General Service 1,000 to 4,999 kW	kW	\$ 2.1816	\$	1.3926
Unmetered Scattered Load	kWh	\$ 0.0050	\$	0.0032
Sentinel Lighting	kW	\$ 1.5568	\$	1.0026
Street Lighting	kW	\$ 1.5490	\$	0.9821

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 40 of 82

8.3 Are the proposed LV rates appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 8, Tab 7, Schedule 1 Table 8-12 Board Staff IR #26 VECC IR # 33 VECC Supplementary IR #46

For the purposes of settlement, the Parties have agreed that the following LV rates, as set out in the table below, are appropriate.

RATES - Low Voltage Adjustment											
Customer Class	LV Adj. Allocated			Volumetric Rate Type	LV / Adj. Rates/kWh	LV Adj. Rates / kW					
Residential	\$ 44,910.10	24,876,519	0	kWh	\$ 0.0018						
GS < 50 kW	\$ 16,190.26	10,703,832	0	kWh	\$ 0.0015						
GS 50 - 999 kW	\$ 30,841.18	19,816,501	50,979	kW		\$ 0.6050					
GS 1,000 - 4,999 kW	\$ 64,948.06	42,769,242	97,926	kW		\$ 0.6632					
Sentinel Lights	\$ 38.41	29,261	80	kW		\$ 0.4775					
Street Lighting	\$ 900.28	711,946	1,925	kW		\$ 0.4677					
Unmetered Scattered Loads	\$ 6.00	3,969	0	kWh	\$ 0.0015						
Total	\$157,834.29	98,911,269	150,910								

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 41 of 82

8.4 Are the proposed loss factors appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 8, Tab 8, Schedule 2 Table 8-14 Board Staff IR #27 VECC IR # 34

For the purposes of settlement, the Parties accept the Distribution Loss Factor of 1.0362 calculated using a 5 year average for the period 2007 to 2011 inclusive as shown in the table below (This represents a decrease from the Loss Factor of 1.0370 proposed by WNP in its Application.)

When the Supply Facility Loss Factor of 1.0341 is applied to the Distribution Loss Factor the resulting Total Loss Factor for secondary metered customers is 1.0716 as shown below:

	2005	2006	2007	2008	2009	2010	2011	<u>5 Year Total</u>

9. DEFERRAL AND VARIANCE ACCOUNTS

9.1 Are the account balances, cost allocation methodology and disposition period appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 9 Board Staff IR #45, #50, #51, #53, #73, #75 Energy Probe IR #36 VECC IR #20

For the purposes of settlement, the Parties have agreed that the account balances, cost allocation methodology and disposition period for the deferral and variance accounts as presented in the evidence cited above, adjusted for the matters discussed below, are appropriate

- The Parties have agreed that the balance in Account 1562 for PILS recovery of \$8,270 will be disposed of. The continuity schedule was revised to exclude interest related to customer deposits.
- The Parties have agreed that WNP has appropriately calculated the Stranded Meter Rider in the amount of \$1.83 per metered Residential and \$9.84 per General Service < 50 kW customer per month over a 19-month period, as discussed in item 6.3, above.
- The Parties have agreed that WNP has appropriately calculated the Smart Meter Disposition Rider in the amount of \$0.99 per metered Residential and \$9.32 per General Service < 50 kW customer per month over a 19-month period, as discussed in item 6.2, above.
- The Parties have agreed that the balance in Account 1521 for Special Purpose Charge will be refunded to customers disposal of \$(1,245).

- The Parties have agreed that the balance in Account 1592, sub account HST/OVAT ITC, in Group 2 Accounts will be refunded to customers disposal of \$(3,780) which takes in to consideration the 50% return disposal calculation being applied. It was also agreed by all parties that WNP would stop using Account 1592, sub account HST/OVAT ITC with effect from the date that the LDC's 2012 rates are approved).
- The Parties have agreed to WNP's recovery, in this proceeding, of the sum of \$14,118 currently tracked in Account 1508, representing its costs of transition to International Financial Reporting Standards as at December 31, 2010. The Intervenors further acknowledge that WNP may apply to the Board for the recovery of the balance of these transition costs at a later date, and that while their positions, if any, on the merits of that future application will be determined following the commencement of such a proceeding, they will not oppose the making of such an application by WNP.
- The Parties have agreed that in Account 1588 RSVA Power + Global Adjustment balance of \$(421,098) will be disposed of at this time.

The table below summarises the Parties' agreement with respect to the disposal of the balances of the accounts:

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 44 of 82

9.2 Are the proposed rate riders to dispose of the account balances appropriate?

Status:	Complete Settlement
Supporting Parties:	WNP, EP, VECC
Evidence:	Application: Exhibit 9 Tab 8 Board Staff IR #53, #74

For the purposes of settlement, the Parties accept the proposed rate riders to dispose of those account balances that are the subject of disposition at this time. The Parties have agreed to a disposition period of 19-month period. The Parties' acceptance of a 19-month period payout on DVA balances will allow WNP to return outstanding amounts to its customers while maintaining an appropriate cash flow position.

Through the settlement process, it was agreed by all Parties that WNP will dispose of Deferral and Variance accounts over a two-year period. As indicated in Section 1.4, the Parties accept an effective date of October 1, 2012 for new rates. Consequently, in keeping consistency with the Board's approach of Dispositions having an expiry date of April 30, all Parties agree that a disposition period 19 months is applied for the period of October 1, 2012 to April 30, 2014.

The rate rider calculations are set out in the table below and reflect the disposition period of 19 months:

Note:

In the table, the number of years is shown as 1.583. This has been calculated by:

[A] May 1, 2012 to 30 April, 2014	= 24 months
[B] October 1, 2012 to April 30, 2014	= 19 months
[C] Ratio [B] / [A]	= [19/24] = 0.79167
[D] 2 years x Ratio [C]	= [2 x 0.79167] =1.583

Note:

As part of the settlement process, it was agreed by all Parties that any reference to IESO Smart Metering Charge of \$0.81 would be removed from WNP's evidence. This was accepted by all Parties on the understanding that:

- A process and method to recover this charge will be issued by the OEB in due course;
- The recoverable monthly amount had not been finalized as at the date of this Agreement. (Reference: Notice of Application by Smart Metering Entity for Approval of a Smart Metering Charge (EB-2012-0100) and Notice of Proceeding to Determine the Appropriate

Recovery and Allocation of the Smart Metering Charge (EB-2012-0211)).

RESIDENTIAL SERVICE CLASSIFICATION

This classification refers to the supply of electrical energy to Customers residing in residential dwelling units. Energy is generally supplied as a single phase, 3-wire, 60-Hertz, having a nominal voltage of 120/240 Volts. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Codes, Guidelines or Orders of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code, Guideline or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any rates and charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or wholesale market price, as applicable.

It should be noted that this schedule does not list any charges or assessments that are required by law to be charged by the distributor and that are not subject to Board approval, such as the Debt Retirement, charges for Minister of Energy Conservation and Renewable Energy Programs, the Provincial Benefit and any applicable taxes.

Appendix K – Capitalization Policy

WNP DISTRIBUTION INC.

Intent

This policy has been developed to ensure that WNP Group of Companies properly accounts for the investment in its property, plant and equipment and the changes in such investments. These guidelines were written in accordance with Generally Accepted Accounting Principles (GAAP) and amended to include changes with respect to International Financial Reporting Standards (IFRS) where required, auditor requirements and Ontario Energy Board's Accounting Procedures Handbook.

Capitalization Guidelines

A capital asset is broadly defined as being one that will provide future economic benefits to the organization. The definition in the OEB Handbook includes items which:

- 1. are held for use in the production or supply of goods and services, for rental to others, for administrative purposes or for the development, construction, maintenance or repair of other capital assets;
- 2. have been acquired, constructed or developed with the intention of being used on a continuing basis; and,
- 3. are not intended for sale in the ordinary course of business.

Fixed assets have a useful life of more than one year and are subject to depreciation. Any directly attributable expenditures to acquire, construct or better that asset, should therefore be capitalized. All other expenditures should be expensed as a period expense in the year they occur.

Professional judgment must be used to determine when an expense is classified as capital or an operating expense. A betterment (capitalized) will enhance the service potential of an existing asset by increasing its service capacity, lowering the operational costs associated with the asset, extending the useful life of the asset, or improving the output of that asset. If the expenditure does not meet these tests, it will likely be considered an expense. Period expenses generally do not result in an improvement to the existing asset but rather, the expense is required to keep the asset operating in the same capacity as it was originally. In order to be capitalized, an item must meet the minimum threshold requirement of five hundred dollars (<u>\$500.00</u>) unless it is a small vital component in a larger capital asset (i.e. ties at the base of a pole), then the item should still be capitalized. The minimum threshold may be overridden, based on justified professional judgment.

Value

The value of a capital asset is the cash price equivalent at the purchase date. The cash price of a capital asset includes:

- a) its purchase price, including an importing duties and non-refundable taxes, after deducting trade discounts and rebates.
- b) any costs directly attributed to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the WNP Group of Companies.
- c) the initial estimate of the costs of dismantling and removing the item and restoring the site as a consequence of having used the item during a particular period for purposes other than to produce inventories during that period.

Residual Value & Useful Life

WNP Group of Companies will review at least annually the residual value and useful life of each asset. Reviews ensure that the carrying amount does not differ materially from what would be determined using fair value at the balance sheet date.

Increases and decreases in capital assets during reviews will be reported as a profit or loss in equity. If expectations differ from previous estimates the changes shall be accounted for as a change in estimate in accordance with IAS 8.

The following factors will be considered when determining the useful life of an asset:

a) Expected usage of the asset. Usage is assessed by reference to the asset's expected capacity or physical output.

- b) Expected physical wear and tear, which depends on operational factors such as the number of shifts for which the asset is to be used and the repair and maintenance program, and the care and maintenance of the asset while idle.
- c) Technical or commercial obsolescence arising from changes or improvements in production, or from a change in the market demand for the product or service output of the asset.
- d) Legal or similar limits on the use of the asset, such as the expiry dates of related leases.
- e) Kinectrics report published by the OEB, to assist in determining the typical useful lives under IFRS.
- f) Professional judgment

Acknowledgement & Agreement

I, (Employee Name), acknowledge that I have read and understand the Capitalization Policy of WNP Group of Companies. Further, I agree to adhere to this Policy and will ensure that employees working under my direction adhere to these guiding principles. I understand that if I violate the rules/procedures outlined in this Policy, I may face corrective action, up to and including termination of employment.

Appendix N – Feasibility Study of WNP's Facilities by Structural Engineer:

	Needs Study: Part 1 ton North Power Forest	BMRO	SS File No. 12045 ASA Job No. 12
EXEC	CUTIVE SUMMARY		
PURPO	SE OF THIS STUDY:		
Power a existing	ent of Part I of this study is to analyze and to identify deficiencies of the site facility meets current and projected mendations are offered to address d	and its buildings. It also e future needs of Wellington	xamines how well the North Power.
FINDIN	GS:		
a basic they aris	e years the main building at Wellingt level with minimal cost. Renovations se. There appears to have been little ng requirements of the Ontario Buildi	s have been piece-meal, re e future planning and no att	sponding to problems as
Major fi	ndings are as follows:		
•	Before construction work can begin, its actual current use The site is located in a low lying area information used to guide the desigr The existing main building is not des by the Building Code The heating, ventilating and air cond inadequate, do not meet the requirer for occupants The size of existing rooms and space and fall far short of what will be need The existing facility does not meet ba The sizting main building does not Code The existing main building does not - it lacks fire separations, adequate	a - potential flooding risks s in of any contemplated upgr igned to 'Post Disaster Bui itioning systems of the exis ments of the Building Code es do not meet basic need led in future arrier free requirements of t meet energy efficiency require comply with Building Code emergency exits and emergency	hould be evaluated and this ades Iding' standard as required iting buildings are and are at times unhealthy s of staff and customers he Building Code uirements of the Building requirements for life safety gency lighting
Building North P	s indicate that the buildings in this fa g Code. Neither does the facility mee 'ower. With expected increases in sta safe situation will only deteriorate furt	et the current accommodat aff numbers over the comin	ion needs of Wellington Ig years, this inadequate

EB-2011-0249 Wellington North Power Inc. Proposed Settlement Agreement Filed: September 7, 2012 Page 81 of 82

Facility Needs Study: Part 1 Wellington North Power Mount Forest

BMROSS File No. 12045 ASA Job No. 1203

IDENTIFIED NEEDS:

To provide a safe, adequate and efficient facility for staff and customers of Wellington North Power, both now and for the future, the following criteria need to be met:

- The size of existing buildings will have to be greatly increased to provide the extra
 accommodation required to meet current and future needs
- Major upgrades will be needed in the main building's energy efficiency and in its mechanical, electrical and life safety systems
- Existing buildings will have to be structurally upgraded to meet requirements for a 'Post Disaster Building' – any new construction will also have to meet these same requirements
- The site must be re-organized and upgraded significantly both to accommodate necessary site amenities as well as the larger buildings that will be needed

In light of the many and serious deficiencies with both buildings and the site, what is urgently needed is a well planned, comprehensive strategy for the future. Such a strategy should aim at providing a sustainable facility that meets both the current and projected future needs of Wellington North Power.

There are two options available by which to provide such a facility, and they are as follows:

Option 1: Renovation / Addition

Re-organize and upgrade the site, gut and renovate existing buildings to 'Post Disaster Building' standard. This would be supplemented by a large new building addition to provide needed space. The mechanical, electrical and life safety systems of the existing main building would be replaced.

Option 2: New Build

Demolish existing buildings, re-organize and upgrade the site. New and larger buildings would then be constructed to current standards, meeting the facility needs identified in this study.

RECOMMENDATIONS:

Based on the findings, we recommend the second option of providing an entirely new facility. This is likely the most cost effective and prudent option in the long term.

The cost of gutting and renovating the existing buildings to current standards would likely match or exceed the cost of equivalent new construction. On the other hand, the merit of new construction is that it can provide a better fit for the identified needs of Wellington North Power. If required, flexibility in financing the new facility could be provided by phasing the work over a number of years.

If the site is improved and the buildings replaced as recommended, we envision a facility that will successfully meet the present and foreseeable future needs of Wellington North Power.

TO DECISION AND ORDER

EB-2011-0249

Wellington North Power Inc.

Draft Tariff of Rates and Charges

DATED: September 20, 2012

Page 1 of 10

Wellington North Power Inc. TARIFF OF RATES AND CHARGES

Effective and Implementation Date October 1, 2012

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2011-0249

RESIDENTIAL SERVICE CLASSIFICATION

This classification refers to the supply of electrical energy to Customers residing in residential dwelling units. Energy is generally supplied as single phase, 3-wire, 60-Hertz, having a nominal voltage of 120/240 Volts. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

MONTHLY RATES AND CHARGES – Delivery Component

EB-2011-0249

GENERAL SERVICE LESS THAN 50 kW SERVICE CLASSIFICATION

This classification applies to customers in General Service buildings with a connected load less than 50 kW, and Town Houses and Condominiums that require centralized bulk metering. General Service buildings are defined as buildings that are used for purposes other than single-family dwellings. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

MONTHLY RATES AND CHARGES – Delivery Component
