Preserve Mapleton Incorporated (here on in referred to as "PMI"), respectfully requests an extension on the September 27th deadline with regards to written submissions for board file nos. EB-2012-0311 and EB-2012-0312.

Due to busy and conflicting schedules, PMI council has not had an opportunity to prepare a complete and meaningful submission to be considered, reviewed, and decided upon by the OEB. (Ontario Energy Board).

Thus being noted above, the council of PMI is requesting your consideration to provide PMI an extension for the following reasons:

-Many members of PMI's council are farmers, in the fields during daylight hours harvesting time sensitive crops. This leaves only evening hours available to complete written submissions.

-One week, or 5 business, simply is not adequate time for PMI to prepare accurate and up to date submissions.

-Council member Mr. Dunc Lamond, spoke to a board member via telephone, and was assured PMI would have ample time to complete a task as such.

We trust you will consider our above reasons, and reply to us at our above phone or fax number in a timely manner.

Sincerely,

Tyler Struyk & Elissa Krul
Council Members
