Dear Ms. Walli:

EB-2012-0383 – OEB Review of Cost Allocation Policy for Unmetered Loads – Hydro One Networks' Notice of Intention to Participate and Nomination.

In response to the Ontario Energy Board's October 1, 2012 letter to licensed electricity distributors, and other interested parties, I am writing to indicate Hydro One Networks ("Hydro One") would be interested in participating in the Ontario Energy Board's Review of Cost Allocation Policy for Unmetered Loads.

Hydro One nominates Mr. Henry Andre, Manager of Transmission and Distribution Pricing, as its representative on the Unmetered Loads Working Group the Board intends to establish. Mr. Andre participated on the working group that assisted the Board in preparing its Review of Electricity Distribution Cost Allocation Policy (EB-2010-0219) that identified the outstanding unmetered load issues, and he has the required technical expertise identified by the Board. However, due to the timing and resource commitments related to Hydro One's Transmission and Distribution rate applications currently before the Board, Hydro One will not be able to make Mr. Andre available until the beginning of 2013.

Hydro One notes that it is not eligible for costs under the Board's Cost Award Guidelines.

Hydro One requests that documents filed with the Board in this proceeding be served on Hydro One Networks as follows –
