Espanola Regional Hydro Distribution Corporation ("ERHDC") Draft Rate Order 2012 Cost of Service Rate Application EB-2011-0319

<u>Introduction</u>

Espanola Regional Hydro Distribution Corporation ("ERHDC") filed a cost of service application with the Ontario Energy Board on February 15, 2012. The Application was filed under section 78 of the *Ontario Energy Board Act, 1998* seeking approval for changes to the rates that ERHDC charges for electricity distribution to be effective May 1, 2012. The Board assigned the application file number EB-2011-0319

On March 2, 2012, the Board issued a letter to ERHDC identifying certain additional evidence that needed to be filed before the Board would consider the Application. ERHDC filed the requested additional evidence on March 7, 2012.

The Board issued a Notice of Application and Hearing on March 26, 2012. The Vulnerable Energy Consumers Coalition ("VECC") applied for and was given intervenor status and cost eligibility.

The Board issued Procedural Order No.1 and Order for Interim Rates on April 23, 2012. The Board made provision for ERHDC to file responses to all interrogatories. ERHDC filed responses to the interrogatories on June 8, 2012. Additional responses to the interrogatories were filed on June 28, 2012. Procedural Order No. 1 also established rates interim as of May 1, 2012 pending the outcome of this proceeding.

On June 29, 2012, the Board issued Procedural Order No.2 establishing dates for parties to provide submissions. Board staff filed its written submission on July 16, 2012 and VECC filed its written submission on July 20, 2012. Reply argument was filed by ERHDC on August 1, 2012.

ERHDC originally requested a service revenue requirement of \$1,810,263 (or a base revenue requirement of \$1,670,364) to be recovered in new rates effective May 1, 2012. The resulting requested rate increase was about \$15.41 on the monthly bill for a Residential customer who consumes 800 kWh per month. A GS < 50 kW customer consuming 2,000 kWh per month would experience about \$29.24 increase on the monthly bill. ERHDC's proposed rates are based on Modified International Financial Reporting Standards ("MIFRS").

In response to a Board staff interrogatory filed on June 8, 2012, ERHDC revised its service revenue requirement to \$1,788,572 (or a base revenue requirement of \$1,648,673). The updated proposed rates are set to recover a revenue deficiency of \$423,422.

In this Draft Rate Order based on the Decision and Order issued September 27th 2012, ERHDC further revised its service requirement to be \$1,778,702 (or base revenue requirement of \$1,636,303) The updated rates are set to recover a revenue deficiency of \$411,052.

ISSUES

The Board's Decision addressed the following issues:

- Operating Revenue;
- Operating, Maintenance & Administration Expenses ("OM&A");
- Rate Base and Capital Expenditures;
- Cost of Capital;
- Cost Allocation and Rate Design:
- Deferral and Variance Accounts;
- Smart Meters;
- Lost Revenue Adjustment Mechanism ("LRAM");
- Modified International Financial Reporting ("MIFRS");
- Rate Mitigation;
- Effective Date; and Implementation.

OPERATING REVENUE

The following issues are addressed in this section:

- Load Forecast;
- Customer Forecast; and
- Other Distribution Revenue.

Load Forecast

BOARD FINDINGS

The Board finds that ERHDC's approach for the load forecast is reasonable and notes that in general the proposed load forecast is consistent with the historic consumption. The Board therefore accepts ERHDC's proposed load forecast for the purpose of setting 2012 rates. The Board notes that the inclusion of 20% of the CDM targets into the load forecast was generally acceptable to the parties and agrees with VECC that ERHDC will implement a LRAM variance account as set out in the Board's CDM Guidelines.

In accordance with the Decision, there are no adjustments from the initial application to ERHDC's load forecast. The approved load forecast for 2012 is as follows:

Table 1 - Load and Demand Forecast

Rate Class	kWh	kW
Residential	32,680,721	
GS < 50 kW	11,265,899	
GS > 50 kW	17,442,772	44,045
Street Lighting	623,166	1,766
Unmetered Scattered Load	213,280	
Sentinel Lighting	24,161	66
TOTAL	62,249,997	

Customer Forecast

BOARD FINDINGS

The Board accepts ERHDC's proposed customer forecast for the purpose of setting 2012 rates.

In accordance with the Decision, there are no adjustments from the initial application to ERHDC's customer forecast. ERHDC's board approved customer forecast is 4,410 customers/connections (including Street Lighting and Sentinel Lighting connections).

Other Distribution Revenue

BOARD FINDINGS

The Board approves a revenue offset of \$142,399 to reflect a \$2,500 increase for the purpose of setting 2012 rates.

In accordance with the Board's decision, ERHDC will increase the Other Distribution Revenue by \$2,500 from \$139,899 to \$142,399. The Merchandising & Jobbing revenue will increase from \$2,500 to \$4,000 and the interest revenue will increase from \$0 to \$1,000.

Table 2 - Other Distribution Revenue

Account	Initial	Interrogatory	Decision	Final
	Application	Adjustments	Adjustments	
4235 – Specific Service Charges	68,500	0	0	68,500

4210 – Rent from Electric Property	38,000	0	0	38,000
4325 – Revenue from	2,500	0	1,500	4,000
Merchandising Jobbing etc.				
4375 – Revenue from non-utility	33,475	0	0	33,475
operations				
4380 – Expenses from non-utility	(27,686)	0	0	(27,686)
operations				
4405 – Interest and Dividend	0	0	1,000	1,000
Income				
Total	139,899	0	2,500	142,399

OPERATIONS, MAINTENANCE & ADMINISTRATION ("OM&A")

Transition to IFRS

BOARD FINDINGS

The Board accepts the removal of \$12,500 from the proposed OM&A for 2012 as stated in ERHDC's reply submission.

In accordance with the Board's decision, ERHDC reduced OM&A \$12,500 for transition to IFRS costs in the 2012 Test Year.

Table 3 - OM&A

Account	Initial	Interrogatory	Decision	Final
	Application	Adjustments	Adjustments	
Operations	249,345	0	0	249,345

Community Relations	1,000	0	0	1,000
Administrative and General	353,398	0	(12,500)	340,898
Total OM&A	1,372,624			1,360,124

Vegetation Management

BOARD FINDINGS

While the Board accepts ERHDC's proposed costs for vegetation management the Board finds it necessary to remind ERHDC that it has a responsibility to maintain a safe and reliable distribution system on an ongoing basis. It is not appropriate or acceptable to present known and existing safety hazards such as have been listed in ERHDC's reply in order to persuade the Board that its proposed vegetation management costs are reasonable. The grim state of affairs attributable to the lack of vegetation management cannot be justified on the basis of a revenue deficiency.

As an economic regulator the Board ensures that ratepayers are paying just and reasonable rates. It does so by periodically assessing the reasonableness of the utility's ongoing costs related to operations, maintenance, administration and its capital expansion and replacement programs. There is nothing in this regulatory ratemaking

framework that makes it acceptable for a distribution company to operate at anything less than an acceptable level of safety at all times.

It is clear to the Board that sufficient revenues are required to maintain a distribution system such that it is safe. That does not mean that an unsafe system can ever be justified due lack of funds. Where an undue risk to workers or the public exists ERHDC has a duty to remedy the situation. That duty is not conditional on the basis of affordability.

In accordance with the Decision, there are no adjustments from the initial application to ERHDC's vegetation management expenses included in OM&A. ERHDC's Board approved vegetation management expenses for the test year is \$186,001 as outlined in the table below.

Table 4 – Vegetation Management

Year		2008	2009	2010	2011	2012	2013	2014	2015

Payment in Lieu of taxes ("PILs")

BOARD FINDINGS

The Board notes that the level of PILs will be updated on the basis of the Board's findings regarding the rate base and operating expenditures. The draft Rate Order should provide sufficient details of the calculations. Subject to confirmation of the calculations in the draft Rate Order, the Board approves the PILs proxy proposed by ERHDC and as amended in interrogatories of \$9,329.

In accordance with the Board's decision, ERHDC revised the PILs amount to reflect the adjustments in the Board decision. The revised PILs amount is \$9,316. Table 5 below outlines the changes in the PILs requirement. A revised PILs workform is included after Table 5 and an electronic excel copy of the PILs workform will be filed with the draft rate order.

Table 5 - PILs

Account	Initial	Change	Interrogatory	Change	Decision
	Application		Amount		Amount

Depreciation

BOARD FINDINGS

The Board finds that the proposed depreciated rates are reasonable and approves a total depreciation expense of \$175,539 for the purpose of setting 2012 rates.

In accordance with the Decision, there are no adjustments from the initial application to ERHDC's depreciation expense. ERHDC's board approved depreciation expense is \$175,539.

RATE BASE AND CAPITAL EXPENDITURES

ERHDC requested approval of a rate base of \$4,246,610 in this Application, which represented a 46% increase from the 2010 actual amount and a 56% increase from the 2008 Board approved amount. The proposed rate base is based on Modified International Financial Reporting Standards ("MIFRS").

The following areas are addressed in this section:

- Capital Expenditures;
- Working Capital Allowance; and
- Green Energy Act Plan.

Capital Expenditures

BOARD FINDINGS

The Board approves ERHDC's proposed capital expenditures in 2012. The Board is of the view that the proposed capital expenditures, excluding smart meter costs, are consistent with the historic spending level. The Board finds that the update of 2011 actual capital expenditures is not necessary as it is not material and will not direct ERHDC to make this adjustment.

In accordance with the Board's decision there are no adjustments to the initial application. ERHDC approved expenditures is \$1,025,592 in 2012 including \$655,906 in smart meter expenditures.

Working Capital Allowance

BOARD FINDINGS

The Board agrees with ERHDC that using the default 15% working capital allowance is consistent with Chapter 2 of the Filing Requirements for Transmission and Distribution Applications issued June 22, 2011.

ERHDC calculated its Working Capital Allowance using the 15% allowance approach. In the interrogatories ERHDC proposed a \$1,139,885 Working Capital Allowance. In accordance with the decision, ERHDC decreased OM&A \$12,500 for the removal of the transition of IFRS costs in the test year. This resulted in a decrease in the Working Capital Allowance to \$1,138,010 in the draft rate order.

Table 6 – Working Capital Allowance

Distribution Expense	Initial	Interrogatory	Decision	Decision
	Application	Amount	Adjustment	Amount
Operations	249,346	0	0	249,346

Expenses				
Working Capital Allowance	1,139,885			1,138,010
15%				

Green Energy Act Plan

BOARD FINDINGS

The Board notes that ERHDC has filed its Basic Green Energy Act Plan with no cost recovery proposed, and no classifications on investments related to connection of renewable generation or to investment in smart grid were provided. The Board finds that the evidence provided does not allow for a proper approval of the GEA Plan.

The Board is of the view that ERHDC has met the requirements under the Board's Distribution System Planning Filing Requirements and no further action is required by ERHDC at this time.

The Board acknowledges that ERHDC intends to utilize the incremental capital module (ICM) to address the treatment of new capital needs. The Board will examine the prudence of the costs proposed by ERHDC upon filing of the ICM at a later date.

In accordance with the Board's decision there are no adjustments to the initial application for the Green Energy Act Plan.

COST OF CAPITAL

BOARD FINDINGS

The Board accepts ERHDC's updated rates to reflect the cost of capital parameters issued on March 2, 2012.

In accordance with the decision ERHDC's approved Cost of Capital parameters issued March 2, 2012 are used in the interrogatories and the draft rate order. The cost of capital parameters are in the table below:

Table 7 – Cost of Capital

Cost of Capital Parameter	Updated Value for 2012 Cost of Service Applications for rates effective May 1, 2012
Return on Equity	9.12%
Deemed Long-term Debt Rate	4.41%
Deemed Short-term Debt Rate	2.08%

COST ALLOCATION AND RATE DESIGN

The following issues are addressed in this section:

- Cost Allocation;
- Monthly Service Charges ("MSC");
- Retail Transmission Service Rates ("RTSR");
- Low Voltage Charges; and
- Loss Factors

Cost Allocation

BOARD FINDINGS

The Board finds that the proposed revenue-to-cost ratios are reasonable and consistent with the Board's revenue-to-cost ratio policy.

In accordance with the Decision, there are no adjustments from the initial application to ERHDC's revenue-to-cost ratios. The following table sets out ERHDC's current and approved revenue-to-cost ratios and the Board's targets, as established in the Board's Review of Electricity Distribution Cost Allocation Policy (EB-2010-0219).

Table 8 – Revenue-to-Cost Ratios

Customer Class	Updated Current Ratios	Approved Ratios in draft rate order for Test Year	Board's Target Range - Floor	Board's Target Range - Ceiling
Residential	93.4%	95.2%	85%	115%
GS < 50 kW	113.9%	115.9%	80%	120%
GS > 50 kW	135.7%	120.0%	80%	120%
Street Lighting	68.7%	70.0%	70%	120%
Sentinel Lighting	68.3%	80.0%	80%	120%
Unmetered Scattered Load	114.3%	114.9%	80%	120%

Monthly Service Charges ("MSC")

BOARD FINDINGS

The Board approves ERHDC's proposed MSC which maintains the existing fixed/variable proportions. The Board notes that the MSC for GS> 50 kW class exceeds the target ceiling, but recognizes that maintaining the fixed/variable proportions are consistent with the Board's past decisions.

In accordance with the Decision, there are no adjustments from the initial application to ERHDC's fixed/variable proportions. The following table sets out ERHDC's monthly service charges. The proposed Monthly Service Charges by rate class are included in the table below:

Table 9 – Monthly Service Charge

	Monthly Service Charges				
Rate Class	Current	Interrogatory Amount	Decision Amount		
Residential	\$9.96	\$13.70	\$13.59		
GS < 50 kW	\$17.95	\$24.54	\$24.36		
GS > 50 kW	\$161.36	\$190.93	\$189.75		
Street Lighting	\$1.40	\$1.93	\$1.92		
Sentinel Lighting	\$1.29	\$2.09	\$2.07		
Unmetered Scattered Load	\$8.82	\$11.94	\$11.84		

Retail Transmission Service Rates ("RTSR")

BOARD FINDINGS

The Board accepts the revised Retail Transmission Service Rates proposed for 2012.

In response to a Board staff interrogatory, ERHDC updated its proposed RTSRs to reflect expiration of rate riders which are under a Hydro One Sub-Transmission classification. No further adjustments are required in the draft rate order. The updated RTSRs are shown in the following table:

Table 10 – Retail Transmission Service Rates (RTSRs)

	ERHDC RTSRs as per Interrogatories and Final Decision		
Rate Class	Class RTSR RTS		
	Network	Connection	
Residential (\$/kWh)	\$0.0056	\$0.0041	
GS < 50 kW (\$/kWh)	\$0.0052	\$0.0037	
GS > 50kW (\$/kW)	\$2.0890	\$1.4334	
GS > 50kW - Interval Metered (\$/kW)	\$2.3482	\$1.9855	
Street Lighting (\$/kW)	\$1.5755	\$1.1080	
Unmetered Scattered Load (\$/kWh)	\$0.0052	\$0.0037	
Sentinel Lighting (\$/kW)	\$1.5835	\$1.1312	

Low Voltage Charges

BOARD FINDINGS

The Board approves the LV costs of \$229,288 and acknowledges ERHDC's commitment that it will explore alternatives to reduce LV costs in the future.

In its original application, ERHDC forecasted its Low Voltage ("LV") costs to be \$144,544. In response to a Board staff interrogatory, ERHDC revised its LV costs to \$229,288 and indicated that the revised value is based on the current Hydro One rates. In accordance with the decision no further adjustments are required to the amounts proposed in the interrogatories. The low voltage charges are as follows:

Table 11 – Low Voltage Charges

Customer Class	Initial	Interrogatory	Decision
	Application	Amount	Amount
Residential	0.0024	0.0037	0.0037
GS<50	0.0022	0.0035	0.0035
GS>50	0.9355	1.4840	1.4840
Sentinel Lights	0.6735	1.0684	1.0684
Street Lights	0.6598	1.0466	1.0466
USL	0.0022	0.0035	0.0035

Loss Factors

BOARD FINDINGS

The Board will apply a DLF of 5% for the purposes of setting rates. ERHDC is of the belief that its line clearing operations will have a positive impact on it line losses. The Board draws no conclusions in that regard but nevertheless accepts ERHDC's proposal to set the DLF at 5%.

ERHDC applied for a Total Loss Factor ("TLF") of 1.0714 (for secondary metered customers < 5,000 kW), which is based on an underlying Distribution Loss Factor ("DLF") of 1.0527 and Supply Facility Loss Factor ("SFLF") of 1.0178. The proposed DLF and SFLF are based on the average of five historical years from 2006 to 2010. The current approved TLF for secondary metered customers < 5,000 kW is 1.0543. In accordance

with the Board decision, ERHDC's DLF will be deemed at 5%. Therefore, ERHDC will have a DLF of 1.0500 and a SFLF of 1.0178 for a TLF of 1.0687. The TLF of 1.0687 has been used in the draft rate order.

DEFERRAL AND VARIANCE ACCOUNTS

The following issues are addressed in this section:

- Balances Proposed for Disposition; and
- Review and Disposition of Account 1562: Deferred Payments in Lieu of Taxes.

Balances Proposed for Disposition

BOARD FINDINGS

The Board approves the disposition of the Group 1 and Group 2 deferral and variance account principal and interest balances as at December 31, 2010 and the forecasted interest through April 30, 2012 over a period that maintains a rate impact of less than 10% for all rate classes.

In accordance with the decision, there are no further adjustments required to the initial application for Group 1 and Group 2 accounts for disposition. The accounts and rate riders are outlined in Table 12, Table 13, and Table 14 below.

Review and Disposition of Account 1562: Deferred Payment in Lieu of Taxes

BOARD FINDINGS

The Board accepts Board staff's approach to Account 1562 to address the interest claw back issue and approves the disposition of a credit balance of \$28,245 which ERHDC had agreed to. The Board finds that the approved amount to be returned to customers is consistent with previous regulatory guidance and past decisions of the Board. ERHDC should include this balance in the Group 1 and Group 2 deferral and variance account balances to be refunded through rate riders resulting from this Decision.

For accounting and reporting purposes, the balance of Account 1562 shall be transferred to the applicable principal and interest carrying charge sub-accounts of Account 1595 pursuant to the requirements specified in Article 220, Account Descriptions, of the Accounting Procedures Handbook for Electricity Distributors. The

date of the journal entry to transfer the approved account balances to the sub-accounts of Account 1595 is the date on which disposition of the balances is effective in rates, which generally is the start of the rate year (e.g. May 1). This entry should be completed on a timely basis to ensure that these adjustments are included in the September 30, 2012 RRR data to be filed with the Board by November 30, 2012.

In accordance with the Decision, ERHDC adjusted the disposition for account 1562 to a credit balance of \$28,245. Table 12 and table 13 below outlines the accounts for disposition and the updated rate riders by rate class. As per the Board's decision ERHDC is to maintain a rate impact of less than 10% for all rate classes. As part of the rate mitigation plan ERHDC proposes to allocate the deferral and variance account rate rider recovery over a 4 year period. ERHDC proposes to change the 1 year disposition period for the Global Adjustment rate rider for Non-RPP customers to a 6 month disposition period from the implementation date November 1, 2012 to April 30, 2013.

Table 12 – Deferral and Variance Accounts

SMART METERS

ERHDC is requesting the approval of its smart meter capital and OM&A costs on a final basis to the end of 2011, a 24 month smart meter disposition rate rider ("SMDR") to recover the residual balance in the smart meter variance accounts, and a 24 month stranded meter rate rider ("SMRR") to recover the net book value of the removed from service stranded meters.

Prudence of Smart Meter Costs

BOARD FINDINGS

The Board notes that authorization to procure and deploy smart meters has been done in accordance with Government regulations, including successful participation in London Hydro RFP process, overseen by the Fairness Commissioner, to select (a) vendor(s) for the procurement and/or installation of smart meters and related systems. There is thus a significant degree of cost control discipline and distributors, including ERHDC, are subject to in the procurement and deployment of smart meters.

The Board finds that ERHDC's documented costs related to smart meter procurement, installation and operation, and associated equipment, are reasonable. As such, the Board approves the recovery of the costs for smart meter deployment and operation as of December 31, 2011.

In accordance with the Decision, there are no adjustments from the initial application to ERHDC smart meter costs.

Smart Meter Disposition Rate Rider

BOARD FINDINGS

The Board approves ERHDC's revised cost allocation methodology as it is consistent with the approach approved by the Board in PowerStream's smart meter cost recovery application (EB-2011-0128). The Board will approve the updated class-specified SMDRs to be collected over a period that maintains a rate impact of less than 10% for all customer classes. The Board will approve an effective date of May 1, 2012 and will approve an implementation date of November 1, 2012.

In accordance with the Decision, ERHDC will recover \$184,091 through a smart meter

disposition rate rider. In the interrogatory responses ERHDC requested the SMDR to be recovered over a 2 year period. The Board's decision states that the SMDR is to be collected over a period of time that maintains a rate impact less than 10% for all customers. As part of ERHDC's rate mitigation plan, it is proposed in this draft rate order to collect the SMDR over a 4 year period as discussed in Scenario 1 in the rate mitigation section.

Table 15 – Smart Meter Disposition Rider (SMDR)

Customer Class	Initial Application	Interrogatory Amount (over 2 Year Disposition)	Decision Amount (over proposed 4 year disposition
Residential	\$2.36	\$2.23	\$1.12
GS<50	\$2.50	\$2.68	\$1.34
GS>50	\$3.89	\$5.50	\$2.75

Stranded Meters

BOARD FINDINGS

The Board approves the proposed class-specified SMRRs to be collected over a period that maintains a rate impact of less than 10% for all customer classes. The Board will approve an effective date of May 1, 2012 and will approve an implementation date of November 1, 2012.

In accordance with the Decision, ERHDC will recover \$87,767 as a smart meter disposition rate rider. In the interrogatory responses ERHDC requested the SMRR to be recovered over a 2 year period. The Board's decision states that the SMRR is to be collected over a period of time that maintains a rate impact less than 10% for all customers. As part of ERHDC's rate mitigation plan, it is proposed in this draft rate order to collect the SMRR over a 4 year period as discussed in Section 1 in the rate mitigation section.

Table 16 – Stranded Meter Rate Rider (SMRR)

Customer Class	Initial Application	Interrogatory Amount (over 2 Year Disposition)	Decision Amount (over proposed 4 year disposition
Residential	\$1.04	\$1.04	\$0.52
GS<50	\$1.37	\$1.37	\$0.68
GS>50	\$4.30	\$4.30	\$2.15

LOST REVENUE ADJUSTMENT MECHANISM ("LRAM")

BOARD FINDINGS

The Board approves the updated LRAM amount of \$152,728 which represents the effect of CDM programs implemented from 2006 to 2010 for the period 2006 to 2010. The Board agrees with Board staff that the recovery of the lost revenue for the persistence from 2006 to 2010 programs in 2011 and 2012 is premature to do so and inconsistent with the LRAM Guidelines.

In accordance with the Decision, ERHDC will recover a \$152,728 LRAM amount. In the interrogatory responses ERHDC requested the LRAM to be recovered over a 3 year period. The Board's decision states that revenue should be recovered over a period of time that maintains a rate impact less than 10% for all customers. As part of ERHDC's rate mitigation plan, it is proposed in this draft rate order to collect the LRAM over a 4 year period.

Table 17 - LRAM

Customer Class	Initial Application	Interrogatory Amount (over 3 Year Disposition)	Decision Amount (over proposed 4 year disposition
Residential (kWh)	0.0016	0.0016	0.0012
GS<50 (kWh)	0.0000	0.0000	0.0000
GS>50 (kW)	0.0000	0.0000	0.0000

MODIFIED INTERNATION FINANCIAL REPORTING ("MIFRS")

BOARD FINDINGS

The Board approves the revised PP&E balance of \$29,483 to be recovered over a four year period. The Board notes that the PP&E deferral account is designed to capture the PP&E difference caused by the transition from CGAAP to MIFRS and that ERHDC has calculated the balance in accordance with Board guidance on this matter.

In accordance with the decision, ERHDC revised PP&E balance in the draft rate order is \$29,483.

Table 18 – PP&E Account

PP&E	Initial	Change	Interrogatory	Change	Follow –up	Change	Decision
Account	Application		Amount		Interrogatory	made	Amount
					Amount (not	in draft	
					reflected in	rate	
					changes)	order	
	29,917	2,325	32,242	(2,759)	29,483	(2,759)	29,483

SUMMARY OF CHANGES

Rate Base

Table 19 - Rate Base

Distribution	Initial	Change	Interrogatory	Change	Decision
Expense	Application		Amount		Amount
Fixed Assets Opening	3,062,546	0	3,062,546	0	3,062,546
Bal.					
Fixed Assets Closing	3,150,903	0	3,150,903	0	3,150,903
Bal.					
Average Fixed Asset	3,106,725	0	3,106,725	0	3,160,725
Balance					
Working Capital	1,127,174	12,711	1,139,885	(1,875)	1,138,010
Allowance					
Rate Base	4,233,899	12,711	4,246,610	(1,875)	4,244,732

The rate base increased in the interrogatory responses by \$12,711 (\$84,744 x 15% = \$12,711) due to an underestimation of Low Voltage Charges as per Board Staff interrogatory question #23.

The rate base decreased in the draft rate order by 1,875 ($12,500 \times 15\% = 1,875$) due to the removal of the transition to IFRS costs of 12,500 as per the decision.

Revenue Deficiency

Table 20 - Revenue Deficiency

	Initial Application	Change	Interrogatory Amount	Change	Decision Amount
Total Deficiency	445,113	(21,691)	423,422	(12,370)	411,052

In accordance with the decision, ERHDC has included a revised Revenue Deficiency schedule below:

		ation
Revenue Deficiency D

Gross Revenue for	1,826,420	63,053	1,889,473	(12,370)	1,877,103
Rates					

The reduction in the gross revenue for rates in the draft rate order is as follows:

Increase to depreciation expense as a result of PP&E deferral	2,759
account	
Reduction in OM&A for transition to IFRS costs	(12,500)
Reduction in PILs	(13)
Reduction to regulated return on capital	(116)
Increase in Revenue Offsets	(2,500)
Total	(12,370)

The reduction in the gross revenue for rates in the interrogatories is as follows:

Increase to depreciation expense as a result of PP&E deferral	(2,326)
account	
Increase in Low Voltage Charges	84,744
Reduction in PILs	(847)
Reduction to regulated return on capital	(18,518)
Total	63,053

Rate Design

ERHDC made no changes to the allocation of the fixed and variance split. The updated rates are as follows:

Table 22 – Fixed Charge Analysis

		Fix	ced Cha	rge Analysis	}			
Customer Class	Current Volumetric Split	Current Fixed Charge Spilt	Total	Fixed Rate Based on Current Fixed/Variable Revenue Proportions	2011 Rates From OEB Approved Tariff	Minimum System with PLCC Adustment (Ceiling Fixed Charge From Cost Allocation Model)	Target Fixed Charge Split	Fixed Charge with Target Split
Residential	53.54%	46.46%	100.00%	13.59	9.96	19.73	46.46%	13.59

EFFECTIVE DATE AND FORGONE REVENUE

BOARD FINDINGS

The Board has determined that ERHDC's new rates will become effective May 1st 2012. In this decision the Board has made findings regarding the revenue requirement based partly on the apparent historic lack of sufficient maintenance of the distribution system. The Board has also expressed its expectation that ERHDC's rebased revenues will be used to correct for this historic neglect and that a recalibration of its revenue requirements at its next rebasing will be reflective of this next period of accelerated maintenance.

The Board notes VECC's submission regarding its concern that ratepayers should not bear the financial brunt of the applicant's late filing. While the Board generally agrees with VECC's views on this point, but in this case it will allow for the full period of recovery requested by ERHDC so as to allow the necessary works to be completed. The Board does so with the ratepayer in mind from a service delivery point of view.

The Board considers this to be an exceptional case; one where the Board found it necessary to remind the applicant of the tenets of ratemaking and of the inappropriateness of relying on the establishment of a revenue requirement to initiate works related to maintaining a sufficiently safe distribution system. The Board fully expects ERHDC to file its next rebasing application on time and based on a revenue requirement deigned to **maintain** (not create) a safe and reliable distribution system.

The Board has also determined that the implementation date will be November 1, 2012. The Board notes that there is an overall revenue deficiency that arises out of this Decision. The Board directs ERHDC to dispose of any deficiency arising from this Decision for the period May 1, 2012 to the implementation date by calculating class specific volumetric rate riders that would recover from customers the stub period amount over a period that maintains a rate impact of less than 10% for typical customers in all rate classes. If reducing the impact for all classes to less than 10% on total bill is not possible while maintaining a reasonable recovery period, ERHDC may provide an alternative mitigation plan as part of its draft Rate Order. ERHDC should also provide the detailed calculations of the rate riders in its draft Rate Order.

In accordance with the Board's decision, ERHDC has calculated the deficiency arising

EB-2011-0319 Espanola Regional Hydro Distribution Corporation Draft Rate Order Page 59 of 90

from this decision for the period May 1,2012 to the implementation date of November 1, 2012. The amount to be recovered by a volumetric rate rider for the forgone revenue is \$266,846 as in Table 24 below. The foregone revenue calculation includes the SMDR, SMRR, LRAM and deferral and variance rate riders. As part of the rate mitigation plan and to maintain a total bill impact of < 10% for all customers the rate riders were spread over 4 years from the effective date May 1, 2012. Therefore, the revised rate riders are included in the foregone revenue calculation for the 6 month stub period between the effective date and implementation date.

RATE MITIGATION

BOARD FINDINGS

While ERHDC has not provided a rate mitigation at this point, should ERHDC determine that rate impacts in its draft Rate Order would exceed the 10% total bill threshold for typical customers in any class, ERHDC should document this and propose a reasonable plan to address such a situation.

ERHDC has determined that the rate impacts in its draft rate order will exceed the 10% total bill threshold for typical customers. ERHDC analyzed the bill impacts with the SMDR, SMRR, LRAM, Deferral and Variance accounts, and foregone revenue rate riders over a 3.5 year recovery period until the next cost of service rate application and the average residential customer consuming 800 kWh was not under a 10% total bill impact. To mitigate the rate impacts ERHDC proposes 2 alternative scenarios.

Scenario 1

The first scenario extends the recovery period for all rate riders (LRAM, SMDR, SMRR, and Deferral and Variance Accounts) to a 4 year period commencing May 1, 2012 and defers the recovery of the foregone revenue until the 2013 IRM application. PUC proposes to recover the forgone revenue over a 1 year period (May 1, 2013 to April 30, 2014) as a volumetric rate rider. The forgone revenue amount of \$266,846 would be recorded in a deferral account until disposal in the 2013 IRM application and no carrying charges would be applied.

Scenario 2

The second scenario extends the recovery period for the LRAM and Deferral and Variance Accounts for a 4 year period commencing May 1, 2012. The foregone revenue rate rider would be collected over a 3.5 year period starting November 1, 2012. The SMDR and the SMRR rate riders would be deferred until the 2013 IRM application. PUC proposes to recover the SMDR and SMRR over a 1 year period (May 1, 2013 to April 30, 2014) as a monthly fixed charge. The deferral would be \$237,885 and no carrying charges would apply.

Other Issues

Street Lights

The total bill impact for street lights is 16.7%. Extending the recovery period of the rate riders does not have a significant change in the bill impact for street lights. ERHDC proposes the impacts are reasonable for street lights due to the historically low revenue to cost ratios.

Sentinel Lights

The total bill impact for street lights is 19.41%. Extending the recovery period of the rate riders does not have a significant change in the total bill impact for the sentinel lights. ERHDC proposes the impacts are reasonable for sentinel lights due to the historically low revenue to cost ratios. ERHDC estimates that with an average increase of 19.41% a sentinel light customers total bill will increase from \$11.04 to \$13.18 which results in a \$2.14 monthly increase to a limited number of customers.

BILL IMPACTS SENARIO 1

For the purpose of the bill impacts, the average consumption of a typical ERHDC customer was used for each rate class. In addition, the bill impacts for a residential customer consuming an average of 800 kWh and the General Service < 50 kW consuming 2000 kWh is included.

<u>Deferred Revenue to the 2013 IRM Application</u>

The foregone revenue volumetric rate rider to be included in the 2013 IRM rate year to be recovered over a 1 year period from May 1, 2013 to April 30, 2014 is calculated as follows based on forecast distribution revenue:

Rate Class	Amount for Disposition	2012 Forecast Quantities	Billing Factor	# of Years	Volumetric Rate Rider	
Residential	163,150	32,680,721	kWh	1	0.0050	
General Service < 50	55,994	11,265,899	kWh	1	0.0050	
General Service > 50	35,232	44,054	KW	1	0.7997	
USL	1,262	213,280	kWh	1	0.0059	
Sentinel Lights	285	66	KW	1	4.3158	
Street Lights	10,922	1,766	KW	1	6.1847	
Total	266,846					

Bill Impacts in 2013 IRM Application

The bill impact for a typical residential customer consuming 800 kWh for the deferred foregone rate rider proposed to be recovered over a 1 year period in the 2013 IRM application is 3.60%. This impact is excluding any other adjustments resulting from the IRM application. The total bill impact is included below:

Bill Impacts

BILL IMPACTS SCENARIO 2

In scenario 2 the foregone revenue rate rider is included and recovered over 3.5 years starting November 1, 2012 until April 30, 2016. The calculation of the foregone revenue is included below:

Rate Class	Amount for Disposition	2012 Forecast Quantities	Billing Factor	# of Years	Volumetric Rate Rider
Residential	163,150	32,680,721	kWh	3.5	0.0014
General Service < 50	55,994	11,265,899	kWh	3.5	0.0014
General Service > 50	35,232	44,054	KW	3.5	0.2285
USL	1,262	213,280	kWh	3.5	0.0017
Sentinel Lights	285	66	KW	3.5	1.2331
Street Lights	10,922	1,766	KW	3.5	1.7671
Total	266,846				

In scenario 2 the SMDR and the SMRR recovery is deferred until the 2013 IRM application and recovered over a 1 year period from May 1, 2013 until April 30, 2014. The calculation of the SMDR and the SMRR monthly charge is included below:

Bill Impact of the Deferred SMDR and SMRR to 213 IRM Rare Application

The bill impact for a typical residential customer consuming 800 kWh for the SMDR and the SMRR, in the 2013 IRM application as proposed in scenario 2, to be recovered over a 1 year period is 5.20%. This impact excludes any other adjustments resulting from the IRM application. The total bill impact is included below:

Bill Impacts

Customer Class: Residential

Consumption 800 kWh
