Re: 2013 Cost of Service Re-basing Application EB-2012-0153

Dear Ms. Walli:

Northern Ontario Wires Inc. ("NOW Inc.") are writing to advise the Board that, despite our continuing best efforts, we will not be in a position to file our cost of service distribution rate application October 12, 2012. We continue to work toward a timely filing NOW Inc. recently changed- senior financial staff responsible for completing the cost of service application. This is compounded by review process of the IFRS requirements.

NOWI will be filing a complete and thorough application for its 2013 Cost of Service, and we plan to file that application on, or before, November 16, 2012.

Yours Truly,

Geoffrey Sutton
