**To: All Participants in Consultation Process EB-2012-0340
All Other Interested Parties**

**Re: Activities Eligible for Cost Awards - Consultation regarding Incentive
Rate Making Options for Ontario Power Generation's Prescribed
Generation Assets
Board File No.: EB-2012-0340**

By letter dated September 19, 2012, the Board gave notice of a change in this consultation process; specifically, the addition of an opportunity for participants to submit a second round of written comments in response to written comments received in a first round. This second round was not contemplated when the Board established the activities eligible for cost awards in this consultation, as set out in the Board's letter of July 31, 2012.

On October 19, 2012, Energy Probe Research Foundation filed a letter seeking clarification as to whether it is the Board's intention to provide cost awards in respect of the provision of a second round of comments. The Board has determined that cost awards will be made available to eligible participants for the provision of second round comments, to a maximum of 10 hours.

Any questions regarding this consultation process should be directed to Russell Chute at Russell.Chute@ontarioenergyboard.ca or at 416-440-7682. The Board's toll-free number is 1-888-632-6273.

Yours truly,
