Dear Ms. Walli:

**Re: EB-2012-0365 - Dufferin Wind Power Inc. - Application for leave to construct  
Transmission Facilities**

---

We are counsel to Conserve Our Rural Environment ("CORE"). We are writing this letter to seek intervenor status in the matter noted above for leave to construct certain electricity transmission facilities in the County of Dufferin.

The Shareholders of CORE own land in the County of Dufferin in close proximity to the proposed project and have a number of concerns with respect thereto.

On behalf of our client, we would like to receive copies of all evidence filed by the Applicant and any other communications sent in this matter to the attention of David Crocker at the address noted herein or through email at [dcrocker@davis.ca](mailto:dcrocker@davis.ca).

We note that the Board has ordered that the application proceed by way of written hearing. We are advised that Shareholders of CORE have been neither adequately consulted nor informed of this application and wish to raise those concerns orally and present their position as to whether the interests of consumers are furthered by this project specifically but not limited to electricity prices.

We look forward to hearing from the Board and responding to any questions which arise from this letter.

Yours truly,

**DAVIS LLP**
