Dear Ms. Walli:

**Re: Written Submissions – Consultation regarding Incentive Rate Making
Options for Ontario Power Generation’s Prescribed Generation Assets –
EB-2012-0340**

Enclosed please find two (2) hard copies of the Independent Electricity System Operator’s (the “IESO”) written submissions with respect to the above noted proceeding.

This is the IESO’s first submission on this matter and as a result, other parties may wish to have the opportunity to comment on this submission. The IESO has no objection to this and would be supportive of the OEB providing such an opportunity.

Yours truly,
