Dear Sir

re: Board File Number EB-2012-0365

Notice of Application and Hearing Application for
leave to Construct Transmission Facilities for Dufferin Wind Inc.

1. I, Harvey J. Lyon, request intervenor status at the proceedings conducted under File OEB-2012-0365. The 230 KV line planned by the Applicant immediately abuts some 1000m of my property. To date, I have participated fully through both written and oral argument in all phases of the review process for the project. I will be submitting written argument respecting the Applicant's proposal.
2. Although I will be submitting written argument, I strongly request that the Board designate the proceedings as an oral hearing. The oral hearing provides a more robust examination of the issues involved. This is particularly important considering the diverse interests of the parties involved and the vast number of people impacted.

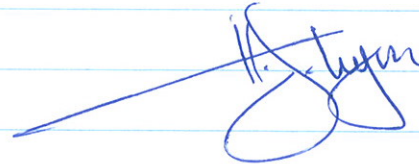

3. I am responding to the OEB's notice regarding these proceedings published in the Shelburne Free Press & Economist, of Thursday Oct 25, 2012. In view of the very short notice provided I reserve, without prejudice, my decision as to whether I will seek an award of costs.

4. I can be contacted as set out below:

H.J. Lyon
