NOTICE OF MOTION **(MOTION TO REVIEW DECISION ON COST AWARDS)**

THE INTERVENOR, Northwatch, will make a motion to the Ontario Energy Board (Board) requesting a review of the Decision on Cost Awards issued October 18, 2012 (Costs Decision).

PROPOSED METHOD OF HEARING: Northwatch proposes that the motion be heard in writing in accordance with Rule 8.02 of the Board's *Rules of Practice and Procedure*.

THE MOTION IS FOR:

1 An Order:

- (a) awarding Northwatch 100% of costs and disbursements plus HST submitted for recovery for this proceeding for Northwatch's consultant, Ms. Brennain Lloyd, and
- (b) such further and other orders as Counsel may request and this Board deem just.

THE GROUNDS FOR THE MOTION ARE:

1 The Board erred in its Costs Decision by reducing Northwatch's cost awards by \$3,350.63.

2 The Board made an error of fact in its Costs Decision by stating that Northwatch claimed 10 hours for time spent by a Northwatch staff member on consultation activities. The factual evidence is contrary to this point.

A. BACKGROUND

3 On November 14, 2011, Willms & Shier Environmental Lawyers LLP ("Willms & Shier"), solicitors for the Intervenor, Northwatch, submitted a letter to the Ontario Energy Board ("Board") seeking intervenor status on behalf of Northwatch and indicating Northwatch's intention to seek costs from the applicants in relation to Northwatch's participation in this proceeding.

4 On December 2, 2011, the Board determined that Northwatch was eligible for an award of costs for each of the five initiatives in this proceeding.

5 On March 28 and 29, 2012, Brennain Lloyd, in her capacity as a consultant to Northwatch, travelled to and attended the Stakeholder Conference in Toronto.

6 On July 11, 2012, the Board issued a Notice of Hearing for Cost Awards requesting eligible participants to submit their cost claims by July 25, 2012.

7 On July 25, 2012, Willms & Shier, on behalf of Northwatch, submitted its Application for Cost Award. Northwatch claimed \$22,010.40 in legal/consultant fees plus disbursements in the amount of \$903.95 plus 13% HST in the amount of \$2,978.87 for a total of \$25,893.22.

8 On August 3, 2012, Susan Frank, on behalf of Hydro One Networks Inc., one of the applicants in this proceeding, filed a letter providing comments on Intervenor Cost Claims. Ms. Frank wrote:

“I write to advise that Hydro One Networks Inc. has received and reviewed the cost claims from....Northwatch....and will raise no issues with their claims.”

9 On October 18, 2012, the Board released its Decision and Order on Cost Awards (“Cost Decision”).

B. COST DECISION

10 In the Board’s Cost Decision,

“The Board finds that Northwatch claimed 10 hours for time spent by a Northwatch staff member on consultation activities. The Board’s Practice Direction does not allow costs for time spent by employees of a participant. In addition, Northwatch claimed mileage at \$0.41 (which is not appropriate rate of \$0.40 per the Ontario Government) and ‘double-counted’ HST. Accordingly, the Board is reducing Northwatch’s claimed costs by \$3350.63.”

Brennain Lloyd is not an employee of Northwatch

11 Northwatch is a public interest organization concerned with environmental protection and social development in northeastern Ontario. Founded in 1988 to provide a representative regional voice in environmental decision-making and to address regional concerns with respect to energy, waste, mining and forestry related activities and initiatives, Northwatch has a long-term and consistent interest in electricity planning in Ontario.

12 In the Board’s decision dated December 2, 2011, the Board wrote:

“Cost awards are available in relation to the costs associated with external legal and/or expert consultant fees (among others) incurred specifically for

the purposes of participating in activities that are eligible for an award of costs. As stated in the Practice Direction, cost awards are not available in relation to time spent by employees or officers of a participant.”

13 Ms. Lloyd works on a contractual basis for Northwatch. Ms. Lloyd is not a staff member or employee of Northwatch. Ms. Lloyd is a consultant for Northwatch. In this capacity, Ms. Lloyd manages and coordinates cases and matters for Northwatch. Ms. Lloyd manages interaction between steering committee, legal counsel and technical experts. Other contracts relate to specific deliverables, such as public information products or events. Contracts are for discrete work packages.

14 In the Board’s Decision dated December 2, 2011, the Board granted Northwatch eligibility to claim costs for its “*proposed experts in all the initiatives for which [Northwatch has] requested eligibility*”, namely each of the five initiatives. In so doing, the Board granted Northwatch’s technical expert, William Marcus, eligibility for a cost award.

15 Northwatch went outside of Canada (California) to retain Mr. Marcus, an expert with the technical expertise needed to assist Northwatch in its submissions to the Board. Ms. Lloyd assisted Northwatch by providing expertise from a regional (northeastern Ontario) perspective. Ms. Lloyd assisted Mr. Marcus to apply his work to the regional planning context in northeastern Ontario, which is Northwatch’s focus.

16 Ms. Lloyd acts, and has acted, as a consultant to many organizations other than Northwatch, as listed in her *curriculum vitae*. In particular, Ms. Lloyd has acted as a consultant to many organizations through her position as Senior Consultant with Terratoire Environmental Consultancy (“Terratoire”), including the Ontario Health Communities Coalition, the Union of Ontario Indians, Mining Watch Canada, Environment Canada, Mushkegowuk Environmental Research Centre, Serpent River First Nation, and Great Lakes United.

17 Ms. Lloyd has over 23 years experience as an expert in environment and natural resource management.

18 Ms. Lloyd's role as Northwatch's consultant is to provide expertise on a regional level to address regional concerns with respect to energy, waste, mining and forestry related activities and initiatives. Ms. Lloyd assists Northwatch with policy work relating to electricity planning, including electricity generation and transmission in northeastern Ontario, conservation and efficiency measures, and rates and rates structures.

19 As a consultant for Northwatch, Ms. Lloyd is eligible for a cost award, as neither the Board's decision dated December 2, 2011, nor section 6.05 of the Board's Practice Direction On Cost Awards preclude me from being eligible to receive a cost award.

20 Ms. Lloyd has received cost awards for her work for Northwatch in various Board proceedings in the past, including, most recently, in the East-West Tie Line proceeding (EB-2011-0140).

C. STATUTORY GROUNDS

21 A proper application of the Practice Direction on Cost Awards Section 6.05 to the correct facts as stated in this motion should result in a full award of costs to Northwatch.

22 Rules 1.01, 2.01, 4.01, 8, 42 and 44 of the Board's *Rules of Practice and Procedure*.

23 Such further and other grounds as Counsel may request and this Board deem just.

THE FOLLOWING DOCUMENTARY EVIDENCE will be used at the hearing of the motion:

1 Affidavit and Exhibits of Brennain Lloyd, sworn November 7, 2012.

2 Such further and other evidence as Counsel may request and this Board deem just.

Dated November 7, 2012

AFFIDAVIT OF BRENNAIN LLOYD (Sworn November 7, 2012)

I, Brennain Lloyd, of the City of North Bay, in the Province of Ontario, MAKE
OATH AND SAY:

1 I am a consultant for Northwatch, and as such, have personal knowledge
of the facts herein deposed to except where otherwise to be by way of
information and belief in which case I verily believe the same to be true.

A. BACKGROUND

2 On November 14, 2011, Willms & Shier Environmental Lawyers LLP
("Willms & Shier"), solicitors for the Intervenor, Northwatch, submitted a letter to
the Ontario Energy Board ("Board") seeking intervenor status on behalf of
Northwatch and indicating Northwatch's intention to seek costs from the
applicants in relation to Northwatch's participation in this proceeding. Attached
hereto and marked as Exhibit "A" to this my affidavit is a true copy of Willms &
Shier's letter dated November 14, 2011.

3 On December 2, 2011, the Board determined that Northwatch was eligible for an award of costs for each of the five initiatives in this proceeding. Attached hereto and marked as Exhibit "B" to this my affidavit is a true copy of the Board's Decision dated December 2, 2011.

4 On March 28 and 29, 2012, I travelled to and attended the Stakeholder Conference in Toronto, in my capacity as a consultant to Northwatch.

5 On July 11, 2012, the Board issued a Notice of Hearing for Cost Awards requesting eligible participants to submit their cost claims by July 25, 2012. Attached hereto and marked as Exhibit "C" to this my affidavit is a true copy of the Notice of Hearing for Cost Awards.

6 On July 25, 2012, Willms & Shier, on behalf of Northwatch, submitted its Application for Cost Award. Northwatch claimed \$22,010.40 in legal/consultant fees plus disbursements in the amount of \$903.95 plus 13% HST in the amount of \$2,978.87 for a total of \$25,893.22. Attached hereto and marked as Exhibit "D" to this my affidavit is a true copy of Northwatch's Application for Cost Award.

7 On August 3, 2012, Susan Frank, on behalf of Hydro One Networks Inc., one of the applicants in this proceeding, filed a letter providing comments on Intervenor Cost Claims. Ms. Frank wrote:

"I write to advise that Hydro One Networks Inc. has received and reviewed the cost claims from....Northwatch....and will raise no issues with their claims."

Attached hereto and marked as Exhibit "E" to this my affidavit is a true copy of Ms. Frank's letter dated August 3, 2012.

8 On October 18, 2012, the Board released its Decision and Order on Cost Awards ("Cost Decision"). Attached hereto and marked as Exhibit "F" to this my affidavit is a true copy of the Cost Decision.

B. COST DECISION

9 In the Board's Cost Decision,

"The Board finds that Northwatch claimed 10 hours for time spent by a Northwatch staff member on consultation activities. The Board's Practice Direction does not allow costs for time spent by employees of a participant. In addition, Northwatch claimed mileage at \$0.41 (which is not appropriate rate of \$0.40 per the Ontario Government) and 'double-counted' HST. Accordingly, the Board is reducing Northwatch's claimed costs by \$3350.63."

Brennain Lloyd is not an employee of Northwatch

10 Northwatch is a public interest organization concerned with environmental protection and social development in northeastern Ontario. Founded in 1988 to provide a representative regional voice in environmental decision-making and to address regional concerns with respect to energy, waste, mining and forestry related activities and initiatives, Northwatch has a long-term and consistent interest in electricity planning in Ontario (see Exhibit "A").

11 In the Board's decision dated December 2, 2011 (see Exhibit "B"), the Board wrote:

"Cost awards are available in relation to the costs associated with external legal and/or expert consultant fees (among others) incurred specifically for the purposes of participating in activities that are eligible for an award of costs. As stated in the Practice Direction, cost awards are not available in relation to time spent by employees or officers of a participant."

12 I work on a contractual basis for Northwatch. I am not a staff member or employee of Northwatch. I am a consultant for Northwatch. In this capacity, I manage and coordinate cases and matters for Northwatch. I manage interaction between steering committee, legal counsel and technical experts. Other

contracts relate to specific deliverables, such as public information products or events. Contracts are for discrete work packages.

13 In the Board's Decision dated December 2, 2011, the Board granted Northwatch eligibility to claim costs for its "*proposed experts in all the initiatives for which [Northwatch has] requested eligibility*", namely each of the five initiatives. In so doing, the Board granted Northwatch's technical expert, William Marcus, eligibility for a cost award.

14 Northwatch went outside of Canada (California) to retain Mr. Marcus, an expert with the technical expertise needed to assist Northwatch in its submissions to the Board. I assisted Northwatch by providing expertise from a regional (northeastern Ontario) perspective. I assisted Mr. Marcus to apply his work to the regional planning context in northeastern Ontario, which is Northwatch's focus.

15 I act, and have acted, as a consultant to many organizations other than Northwatch, as listed in my *curriculum vitae*. In particular, I have acted as a consultant to many organizations through my position as Senior Consultant with Terratoire Environmental Consultancy ("Terratoire"), including the Ontario Health Communities Coalition, the Union of Ontario Indians, Mining Watch Canada, Environment Canada, Mushkegowuk Environmental Research Centre, Serpent River First Nation, and Great Lakes United.

16 I have over 23 years experience as an expert in environment and natural resource management. Attached hereto and marked as Exhibits "G" and "H" to this my affidavit are true copies of my *curriculum vitae* and brochure for Terratoire, respectively.

17 My role as Northwatch's consultant is to provide expertise on a regional level to address regional concerns with respect to energy, waste, mining and forestry related activities and initiatives. I assist Northwatch with policy work relating to electricity planning, including electricity generation and transmission in

northeastern Ontario, conservation and efficiency measures, and rates and rates structures.

18 As a consultant for Northwatch, I am eligible for a cost award, as neither the Board's decision dated December 2, 2011 (see Exhibit "B"), nor section 6.05 of the Board's Practice Direction On Cost Awards preclude me from being eligible to receive a cost award.

19 I have received cost awards for my work for Northwatch in various Board proceedings in the past, including, most recently, in the East-West Tie Line proceeding (EB-2011-0140). Attached hereto and marked as Exhibits "I" and "J" to this my affidavit are true copies of Northwatch's Application for a Cost Award dated August 10, 2012, and the Board's decision and order for Phase 1 of the East-West Tie Line proceeding dated September 17, 2012, respectively.

20 I make this affidavit in support of a motion by Northwatch requesting a review of the Cost Decision.

Willms & Shier Environmental Lawyers LLP (Willms & Shier) is legal counsel to Northwatch.

Northwatch is a public interest organization concerned with environmental protection and social development in northeastern Ontario. Founded in 1988 to provide a representative regional voice in environmental decision-making and to address regional concerns with respect to energy, waste, mining and forestry related activities and initiatives, Northwatch has a long-term and consistent interest in electricity planning in Ontario. In particular, Northwatch's interests are with respect to electricity generation and transmission in northeastern Ontario, conservation and efficiency measures, and rates and rate structures. Northwatch is a coalition of community and district based environmental, social justice and social development organizations.

The purpose of this letter is to identify Northwatch's interest in the renewed regulatory framework for electricity and to seek intervenor status, eligibility for any award of costs and approval for an expert witness.

Northwatch's contact is Ms. Brennain Lloyd, coordinator for Northwatch. Ms. Lloyd's contact information is as follows:

HOW NORTHWATCH IS OR MAY BE AFFECTED BY THE RENEWED REGULATORY FRAMEWORK FOR ELECTRICITY CONSULTATION PROCESS

Northwatch seeks to participate as an intervenor in the renewed regulatory framework for electricity consultation process. Northwatch's interest is in all of the initiatives in the proposed framework and wishes to intervene in all of them. However, Northwatch is particularly interested in the issues raised in this proceeding as they relate to regional planning of electricity infrastructure (EB-2011-0043).

The residents and regions of northeastern Ontario will or may be affected by the renewed regulatory framework for electricity consultation process in as far as it relates to:

- how the electricity framework may evolve in support of and/or counter to Northwatch's interests and objectives, and
- whether and/or how demand and supply of electricity will be balanced at a regional level.

DESCRIPTION OF NORTHWATCH

As indicated above, Northwatch was founded in 1988 as a regional coalition of individuals and organizations concerned with the protection of the environment and with social equity. Northwatch has a diverse membership which includes local and district-

based environmental groups, cottagers associations, naturalist clubs, church-based Aboriginal support groups, women's organizations, and local peace groups.

Individual members include those who self-identify as professionals, trappers, tourist outfitters, paddlers, parents, educators, conservationists, hunters and fishers, and environmentalists. The common thread throughout Northwatch's membership is a deep commitment to the region of northeastern Ontario and to the health, well-being and sustainability of the human and natural communities throughout the region.

Northwatch's membership base and area of interest is the land mass north of the French River, comprised of the districts of Nipissing, Sudbury, Algoma, Manitoulin, Cochrane and Timiskaming, and including the land area north of the road system, generally known as the Hudson's Bay lowlands.

Northwatch is well respected for its policy and research work, public education programs, and its holistic approach to environmental and social planning and decision-making. Through a membership that is geographically dispersed throughout the region and through more than twenty years of work that is regionally based, Northwatch has an extensive knowledge of northeastern Ontario and the diverse and interconnecting issues of energy, natural resource and environmental management.

Northwatch has a history of involvement in energy policy. Recently, Northwatch has actively participated as an intervenor and has been found eligible for an award of costs in the following OEB proceedings:

- The Integrated Power System Plan (IPSP)
- The Transmission Connection Cost Responsibility Review (EB-2008-0003)
- Proposed Amendments to the Distribution System Code (EB-2009-0077)
- The Regulatory Treatment of Infrastructure Investment for Ontario's Electricity Transmitters & Distribution (EB-2009-0152).

Northwatch has most recently engaged with the Ontario Power Authority (OPA) on the current IPSP and provided input to the OPA on the need for regional electricity planning in Ontario, particularly in the northeast region.

NATURE AND SCOPE OF NORTHWATCH'S INTENDED PARTICIPATION

The nature and scope of Northwatch's participation will be that of an intervenor and will include the following contributions to the review process:

- participation in the December 8, 2011 Information Session

- participation in the February, 2012 Stakeholder Conference
- written submissions on the issues identified at the Stakeholder Conference
- retaining of an expert, Mr. Bill Marcus, of JBS Energy Inc. to review one or more of the Board Staff discussion papers and the three expert papers and provide an opinion based on the review.

JBS Energy is a consulting firm specializing in regulatory economics for energy consumers and producers.

William B. Marcus is Principal Economist of JBS Energy, Inc. He has 33 years of experience in analyzing electric and gas utilities. He has reviewed issues related to utility resource planning, cost-effectiveness of energy projects, design of energy efficiency programs, performance-based ratemaking, revenue requirements, rate of return, and cost allocation and rate design for a variety of consumer, environmental, and independent power clients. He has testified as an expert witness before approximately 40 regulatory bodies and courts in North America. Mr. Marcus received his undergraduate degree in economics from Harvard College and an M.A in economics from the University of Toronto. Before becoming a founding member of JBS in 1984, he worked for the Kennedy School of Government at Harvard and for the California Energy Commission. He has previously preparing a detailed analysis of the Demand-Supply Plan of Ontario Hydro filed before the Environmental Assessment Board in 1992 and has appeared before the OEB on Gas Integrated Resource Planning and several cases involving Ontario Hydro and various gas utilities.

Mr Marcus' CV is attached. He can be contact at: JBS Energy Inc, 311 D Street West, Sacramento CA 95605. Tel (916) 372 0534. Email: bill@jbsenergy.com

GROUND'S FOR NORTHWATCH ELIGIBILITY FOR COSTS

Northwatch intends to seek costs from the applicant in relation to its participation in this review. The Ontario Energy Board's "Practice Direction on Cost Awards". Section 3 describes cost eligibility, and Section 4 describes the cost eligibility process.

3.03 A party in a Board process is eligible to apply for a cost award where the party:

(a) primarily represents the direct interests of consumers (e.g. ratepayers) in relation regulated services; (b) primarily represents a public interest relevant to the Board's mandate; or (c) is a person with an interest in land that is affected by the process.

Northwatch meets all three of the eligibility criteria, but as a public interest organization, its primary purpose - and its primary contribution to the stakeholder review process - is with respect to (b).

Northwatch's primary purpose is to represent the public interest with respect to environmental protection and resource management matters in northeastern Ontario. However, as a coalition of interests which includes those represented by social organizations, Northwatch also has an interest and a relevant perspective with respect to consumer concerns, many of which are unique in northeastern Ontario, relative to a provincial or more urban context (ie. criteria a).

Northwatch represents the interests of the environment and of the residents of northeastern Ontario who identify and express environmental concerns; it is within the mandate of the Ontario Energy Board to consider such matters as the effect on the environment (ie. criteria b). Further, our members have an interest in the land that is or may be affected by the process (ie. criteria c). That interest may in some cases be a private interest, but in every case is also a public interest.

Northwatch will make a responsible, unique and beneficial contribution to the renewed regulatory framework for electricity proceeding.

As a not-for-profit organization, Northwatch's participation in this proceeding is dependent on any cost awards it receives.

CO-OPERATION WITH OTHER GROUPS

Northwatch understands the importance of avoiding duplication of effort and any unnecessary differences of opinion on issues of mutual concern to other intervenors. Northwatch will work with the other intervenors to avoid repetition. Northwatch understands that a responsible intervention will add value and is deserving of costs.

Northwatch communicates regularly with other stakeholder groups on electricity related matters. As a coalition with a diverse network of members and associates, Northwatch's experience and perspective is unique to northeastern Ontario, and as such would not be served by joining with other groups for this exercise. However, Northwatch will continue to communicate with other stakeholders and combine efforts where possible in order to bring efficiencies to the Ontario Energy Board's renewed regulatory framework for electricity proceeding.

Contacts for the distribution list are as follows:

- ♦ Brennain Lloyd, coordinator for Northwatch, e-mail: northwatch@onlink.net
- ♦ Juli Abouchar, Counsel, Willms & Shier Environmental Lawyers, e-mail: jabouchar@willmsshier.com

- ♦ Matt Gardner, Counsel, Willms & Shier Environmental Lawyers, e-mail: mgardner@willmsshier.com

Thank you for your consideration. We look forward to a positive response to this expression of interest and to participating in the renewed regulatory framework for electricity proceeding.

Yours truly,

Juli Abouchar

Partner, W+SEL

William B. Marcus

Principal Economist,
JBS Energy, Inc.

William B. Marcus has 32 years of experience in analyzing electric and gas utilities.

Mr. Marcus graduated from Harvard College with an A.B. magna cum laude in economics in 1974 and was elected to Phi Beta Kappa. In 1975, he received an M.A. in economics from the University of Toronto.

In July, 1984, Mr. Marcus became Principal Economist for JBS Energy, Inc. In this position, he is the company's lead economist for utility issues.

Mr. Marcus is the co-author of a book on electric restructuring prepared for the National Association of Regulatory Utility Commissioners. He wrote a major report on Performance Based Ratemaking for the Energy Foundation.

Mr. Marcus has prepared testimony and formal comments submitted to the Federal Energy Regulatory Commission, the National Energy Board of Canada, the Bonneville Power Administration, the U.S. Bureau of Indian Affairs, U.S. District Court in San Diego, Nevada County Municipal Court; committees of the Nevada, Ontario and California legislatures and the Los Angeles City Council; the California Energy Commission (CEC), the Sacramento Municipal Utility District (SMUD), the Transmission Agency of Northern California, the State of Nevada's Colorado River Commission, a hearing panel of the Alberta Beverage Container Management Board; two arbitration cases, environmental boards in Ontario, Manitoba, and Nova Scotia; and regulatory commissions in Alberta, Arizona, Arkansas, British Columbia, California, Colorado, Connecticut, District of Columbia, Hawaii, Iowa, Manitoba, Maryland, Massachusetts, Nebraska, Nevada, New Jersey, New Mexico, North Carolina, Northwest Territories, Nova Scotia, Ohio, Oklahoma, Ontario, Oregon, South Carolina, Texas, Utah, Vermont, Virginia, Washington, Wisconsin, and Yukon. He testified on issues including utility restructuring, stranded costs, Performance-Based Ratemaking, resource planning, load forecasts, need for powerplants and transmission lines, environmental effects of electricity production, evaluation of conservation potential and programs, utility affiliate transactions, mergers, utility revenue requirements, avoided cost, and electric and gas cost of service and rate design.

From 1975 to 1978, Mr. Marcus was a research analyst at the Kennedy School of Government, Harvard University. He prepared public policy case studies on environmental and transportation issues, benefit-cost analysis, and urban policy and finance for use in classes and publication in the Kennedy School Case Series.

From July, 1978 through April, 1982, Mr. Marcus was an economist at the CEC, first in the energy development division and later as a senior economist in the CEC's Executive Office. He prepared testimony on purchased power pricing and economic studies of transmission projects, renewable resources, and conservation programs, and managed interventions in utility rate cases.

From April, 1982, through June, 1984, he was principal economist at California Hydro Systems, Inc., an alternative energy consulting and development company. He prepared

financial analyses of projects, negotiated utility contracts, and provided consulting services on utility economics.

Mr. Marcus is currently the Chair of the Manufactured Home Fair Practices Commission for the City of Woodland, California. This Commission regulates space rents in the City's mobile home parks. He has served on several other local government advisory committees, including a 1991-92 SMUD Rate Advisory Committee, which recommended cost allocation and rate design changes to the SMUD Board.

TESTIMONY AND FORMAL COMMENTS

Arkansas Public Service Commission (PSC) Docket 11-069-U. Entergy Arkansas, Inc. Request to Acquire the Hot Spring Combined Cycle Powerplant. October 2011. For the Arkansas Attorney General (AG).

California Public Utilities Commission (CPUC) Applications 10-12-005/006. Revenue Requirements for San Diego Gas and Electric (SDG&E) and Southern California Gas Company (SoCal Gas). September, 2010. SDG&E for Utility Consumers Action Network (UCAN). SoCal Gas for The Utility Reform Network (TURN).

Arkansas Public Service Commission (PSC) Docket 10-011-U. Regulatory Asset Ratemaking Related to Proposal of Entergy Arkansas, Inc. to Leave the Entergy System Agreement and Join the Midwest ISO. July 2011. For the Arkansas AG.

California Public Utilities Commission (CPUC) Application 11-03-002. Policy Issues Related to Demand Response Program Design and Implementation Pricing for SDG&E. June 2010. For UCAN.

Arkansas PSC Docket 07-085-TF et al. Need to Include Provisions Related to Avoided Cost Data in Arkansas' Utilities Energy Efficiency Tariffs. June 2011. For the Arkansas AG (written proceeding, no hearing).

CPUC Application 10-11-015. Policy and Revenue Requirements Issues in Southern California Edison Company's (SCE's) 2011 Test Year General Rate Case. June 2011. For TURN.

CPUC Application 10-11-009. Revenue Requirements for SCE's Catalina Island Water Utility. May 2011. For TURN.

Alberta Utilities Commission (AUC) Application 1606549. Business Risk of Gas and Electric Utilities; Management Fees for Contributions in Aid of Construction. March 2011. For the Alberta Utilities Consumer Advocate (UCA).

Arkansas PSC Docket 10-067-U. Revenue Requirement, Cost of Service and Residential Rate Design for Oklahoma Gas and Electric Company (OG&E). March 2011. For the Arkansas AG (case settled).

Public Utilities Commission of Nevada (PUCN). Dockets 10-10024 and 10-10025. Estimating Lost Revenue from Energy Efficiency for Sierra Pacific Power Company (Sierra) and Nevada Power Company (NPC). March 2011. For Nevada Attorney General's Bureau of Consumer Protection (BCP).

California Public Utilities Commission (CPUC) Application 10-07-009. Policy Issues Related to Critical Peak Pricing for SDG&E. February 2011 For UCAN. (case settled)

PUCN Dockets 10-08014 and 10-08015. Time of Use and Critical Peak Pricing Rates for Sierra and NPC. January 2011. For Nevada BCP.

Arkansas PSC Docket 10-052-U. Revenue Requirement, Cost of Service and Residential Rate Design for Empire District Electric Company (Empire). December 2010. For the Arkansas AG (case settled).

Public Utility Commission of Texas (PUCT) Docket 38480. Revenue Requirement, Cost of Service, and Residential Rate Design for Texas New Mexico Power Company (TNMP). November 2010. For the Texas Office of Public Utility Counsel (OPUC). (case settled)

Colorado Public Utilities Commission (PUC). Docket No. 10AL-455G. Capital Structure and Rate of Return for Source Gas Distribution. October 2010. For AM Gas Transport Corp. and Barton Levin. (case settled)

PUCN Docket 10-06001 *et al.* Marginal Cost, Revenue Allocation, and Residential Rate Design for Sierra. October 2010. For Nevada BCP.

CPUC Application 10-03-014. Marginal Cost, Revenue Allocation, and Residential Rate Design for Pacific Gas and Electric Company (PG&E). October 2010. For TURN. (case settled, except residential rate design)

AUC Application No. 1606230. Cost of Service and Rate Design for AltaGas Ltd.. September 2010. For the Alberta UCA. (joint testimony with R. Bruggeman; case settled).

Iowa Utilities Board. Docket No. RPU-2010-0001. Weather Normalization, Cost of Service and Residential Rate Design for Interstate Power Limited. July 2010. For the Iowa Office of Consumer Advocate (OCA).

PUCT Docket 37744. Executive Compensation and other Revenue Requirement issues for Entergy Texas, Inc.. June 2010. For Texas OPUC. (case settled)

AUC Application No. 1605758. Return Margin for Epcor Energy Alberta, Inc. (EEAI) Electric Regulated Rate Tariff (RRT). June 2010. For Alberta UCA. (case settled)

CPUC Application 09-12-020. Policy and Revenue Requirements Issues in PG&E's 2011 Test Year General Rate Case. May 2010. For TURN. (case settled after hearing)

CPUC App. 09-12-002. Choice of Investment Tax Credit versus Production Tax Credit for PG&E's Proposal to Acquire the Manzana Wind Project. April 2010. For TURN.

Arkansas PSC Docket 10-008-U. Securitization of Ice Storm Costs for Entergy Arkansas, Inc. (EAI). March 2010. For the Arkansas AG.

Nebraska PSC Docket No. NG-0061. Weather Normalization, Cost of Service, and Residential Rate Design of Black Hills/Nebraska Gas Utility Company. March, 2010. For the Nebraska Public Advocate.

Arkansas PSC Docket 09-084-U. Formula Rate Plan, Revenue Requirement, Cost of Service, and Residential Rate Design for EAI. February 2010. For the Arkansas AG. (case settled)

PUCT Docket 37364. Construction Work in Progress in the Rate Base and other Revenue Requirement Issues for Southwestern Electric Power Company (SWEPCO). February 2010. For Texas OPUC. (case settled)

AUC Application No. 1605580. Irrigation Rate Design for Fortis Alberta, Inc. January 2010. For Alberta UCA.

Arkansas PSC Dockets 07-077-TF, 07-078-TF, 07-081-TF, and 07-085-TF (Energy Efficiency). Energy Efficiency Incentives; Total Energy Efficiency from Using Gas Instead of Electricity; Efficiency as a Substitute for Smart Meters. September-October, 2009. For the Arkansas AG.

CPUC App. 09-04-004 et al. Economic Assumptions Associated with Nuclear Decommissioning Costs. August 2009. For TURN. (case settled after appearance).

AUC Application 1587092. Cost Allocation and Rate Design for Atco Gas Ltd.. July 2009. For the Alberta UCA. (joint with H. VanderVeen and R. Bruggeman; case settled)

CPUC Application 08-05-023. PG&E's Distribution Reliability Improvement Program. July 2009. For TURN.

Arkansas PSC Docket 09-008-U. Construction Work in Progress in the Rate Base, Revenue Requirement, Cost of Service, and Residential Rate Design for SWEPCO. June 2009. For the Arkansas AG. (case settled)

PUCT. Docket 36025. Revenue Requirement and Hurricane Ike Cost Recovery for TNMP. For Texas OPUC. April 2008 (case settled).

PUCN. Docket 07-12005. Executive Compensation Request of Nevada Power Company (NPC). April 2008. For Nevada BCP.

AUC Application 1587092. Management Fee for Contributions in Aid of Construction for AltaLink Management. . March 2009. For the Consumers' Coalition of Alberta (CCA) and Public Institutional Consumers of Alberta (PICA).

AUC Application 1578571. Business Risk of Alberta Utilities. . March 2009. For the Alberta UCA.

Arkansas PSC Docket 08-103-U. Revenue Requirement, Cost of Service, and Residential Rate Design for OG&E. January 2009. For the Arkansas AG. (case settled)

CPUC App. 08-02-001 Phase 2. Cost of Service and Revenue Allocation for Southern California Gas Company (SoCal Gas). December 2008. For TURN. (case settled)

AUC Application No. 1578371. Management Fee for Contributions in Aid of Construction for Atco Electric Company. . December 2008. For CCA and PICA.

Arkansas PSC Docket 08-139-U Phase IIB. Extraordinary Storm Damage Recovery Request of EAI. November 2007. For the Arkansas AG.

PUCT Docket 35717. Cost of Service and Rate Design for Oncor Delivery Services, Inc. For Texas OPUC. October 2008.

CPUC App. 08-03-002. Cost of Service and Class Revenue Allocation for SCE. October 2008. For TURN. (case settled)

PUCT Docket 35763. Revenue Requirements, Cost of Service, and Rate Design of Southwestern Public Service Company (SPS). For Texas OPUC. October 2008. (case settled)

PUCT Docket 35668. Interruptible Rates and Air Conditioner and Water Heater Cycling Programs of SPS. For Texas OPUC. September 2008. (case settled)

Colorado PUC, Docket 08S-146G. Cost Allocation and Rate Design for Public Service Company of Colorado's Gas Operations. For Energy Outreach Colorado. July 2008.

AUC Application No. 1512069. Evaluation of Ten-Year Formula Based Rate Program of Enmax Power Corporation. July 2008. For the CCA and PICA.

Northwest Territories Public Utilities Board (PUB). Business Risk and Capital Structure for Northland Utilities Limited. April 2008. For the City of Yellowknife and the Town of Hay River.

CPUC App. 07-11-012. Revenue Requirement Issues for SCE. April 2008. For TURN.

PUCN Docket 07-12005. Marginal Cost and Rate Design of Sierra. April 2008. For Nevada BCP.

Arkansas PSC Docket 06-152-U Phase IIB. Capacity Acquisition Rider for the Ouachita Plant of EAI. October 2007. For the Arkansas AG.

CPUC App. 07-07-026. Policy Analysis and Cost-Effectiveness Evaluation of SCE's Advanced Metering Infrastructure Program. January 2008. For TURN.

PUCN Docket 07-09016. Allocation of Gas Pipeline Charges between Sierra's Gas and Electric Departments. December 2007. For Nevada BCP.

Alberta Energy and Utilities Board (Alberta EUB). Application 1512342. Return Margin for Regulated Retail Electric Service provided by Epcor Energy Services. November 2007. For the Alberta UCA.

Washington Utilities and Transportation Commission. Docket Nos. UE-070804/UG-070805. Rate of Return and Revenue Requirement Issues for Avista Energy. October 2007. For Washington Public Counsel. (case settled)

Arkansas PSC Docket 07-129-U. Annual Earnings Review Tariff for EAI. October 2007. For the Arkansas AG.

Arkansas PSC Docket 06-152-U Phase IIA. EAI's Proposed Capacity Acquisition Rider. October 2007. For the Arkansas AG.

Arkansas PSC Docket 04-176-U. Revenue Requirement, Cost of Service, and Residential Rate Design for AWG. July 2005. For the Arkansas AG.

Arkansas PSC Docket 04-121-U. Revenue Requirement, Cost of Service, and Residential Rate Design for Centerpoint Arkla. May 2005. For the Arkansas AG.

Maryland PSC Case No. 8990. Testimony Supporting Settlement on Interruptible Rate Design, Revenue Normalization Mechanism and Future Residential Rate Design for WGL. May 2005. For Maryland OPC.

CPUC App. 04-12-014. Revenue Requirements for SCE. May 2005. For TURN.

Arkansas PSC Docket 04-141-U. Revenue Requirements, Electric Heat Promotion Policy, and Rate Design for Arkansas Electric Co-operative Corp. March 2005. For the Arkansas AG.

CPUC App. 04-06-024. Electric Marginal Cost and Revenue Allocation for PG&E. March 2005. For TURN (case settled).

CPUC App. 04-11-003. Revenue Requirement Settlement for SDG&E's Palomar Combined Cycle Plant. March 2005. For TURN (joint testimony with SDG&E and Office of Ratepayer Advocates' witnesses)

CPUC App. 04-03-021. Gas Marginal Cost and Residential Rate Design for PG&E. January 2005. For TURN. (rate design issues settled)

CPUC App. 04-02-026. Cost-Effectiveness Analysis of Scenarios for Southern California Edison Company's (SCE's) San Onofre Steam Generator Replacement Project. December 2004. For TURN.

Arkansas PSC Docket 04-100-U. Revenue Requirement, Cost of Service, and Residential Rate Design for Empire. November 2004. For the Arkansas AG. (case settled)

PUCN. Docket 04-5021. Consolidation of Sierra's Liquefied Propane Gas Rates with its Natural Gas Rates. August 2004. For Nevada BCP.

CPUC App. 04-01-009. Cost-Effectiveness Analysis of Scenarios for PG&E's Diablo Canyon Steam Generator Replacement Project. August 2004. For TURN.

Northwest Territories PUB. Evaluation of the Snare-Yellowknife Reliability Criteria of the Northwest Territories Power Corporation. July 2004. For the City of Yellowknife (joint testimony with R. L. Bruggeman).

Arkansas PSC Docket 01-041-U. EAI Request for Transition Cost Recovery. April 2004. For the Arkansas AG.

CPUC Apps. 02-12-027/02-12-028, Phase 2. Economic Evaluation of Performance Based Ratemaking (PBR) Framework for Sempra Energy Utilities. April 2004. For TURN.

PUCN Docket 03-12002. Marginal Cost and Rate Design for Sierra. March 2004. For Nevada BCP (case settled)

Arkansas PSC Docket 02-179-U. Gas Procurement Practices of AWG. March 2004. For the Arkansas AG.

City and County of San Francisco vs. Turlock Irrigation District, Non-Binding Arbitration (before Panelists Hanschen, O'Neill and Power). Regulatory Decisions that Led to the California Energy Crisis. March 2004. For the City and County of San Francisco. (case settled after appearance)

PUCN Docket 03-10001. Marginal Cost and Rate Design for NPC. January 2004. For Nevada BCP.

CPUC Rulemaking 01-10-024 (SDG&E Procurement Phase). Comparison of Costs for Palomar project and Otay Mesa, Mountainview, and Sempra DWR Contracts. January 2004. For TURN.

Alberta EUB. Dockets 1306818 and 1306819. Return Margin for Enmax Energy Corporation's Regulated Retail Tariff and Use of Equity Contributions from Ratepayers to Fund Enmax Power Corporation's Distribution Plant. January 2004. For Enmax Consumer Group (five groups of Enmax customers).

PUCN Dockets 03-6040 and 03-6041. Standby Rate Design for NPC and Sierra. November 2003. For Nevada BCP. (case settled)

CPUC Application 03-07-032. Review of SCE's Mountainview Powerplant. September 2003. For TURN.

CPUC Apps. 02-12-027/02-12-028. Revenue Requirement for SDG&E and Southern California Gas (SoCal Gas). September 2003. For TURN and UCAN.

Alberta EUB Docket 1271597 (Generic Cost of Capital). Business Risk of Alberta Utilities. July 2003. For the Consumer Group (nine Alberta electric and gas consumer groups). (joint testimony with Robert Liddle)

Maryland PSC Case No. 8959. Embedded and Marginal Cost of Service, and Review of Tariffed Service Charges for Washington Gas Light (WGL). June 2003. For Maryland OPC.

CPUC App. 02-11-017. Revenue Requirement for PG&E's Electric Generation and Electric and Gas Distribution Operations. May 2003. For TURN. (case settled after appearance)

Arkansas PSC Docket 02-227-U. Revenue Requirement, Cost of Service, and Residential Rate Design for AWG. May 2003. For the Arkansas AG.

CPUC App. 03-07-032. Review of the Future of SCE's Mohave Coal Plant. April and October 2003, June 2004. For TURN.

CPUC Rulemaking 01-10-024. Renewable Portfolio Standard Implementation. April 2003. For TURN.

California Energy Commission (CEC) Integrated Electricity Policy Report. Electric Resource Costs. February 2003. For TURN (formal comment)

CPUC App. 01-10-011. Revenue Requirement and Electric Generation Demand Forecast for PG&E's Gas Transmission Rates. February 2003. For TURN. (case settled)

Alberta EUB Docket 1275494. Business Risk of Atco Electric. February 2003. For the FIRM Group (Alberta Federation of REAs and Alberta Assn. of Municipal Districts and Counties (REA/AAMDC), Alberta Irrigation Projects Assn., CCA, Alberta Urban Municipalities Assn., and PICA).

CPUC App. 02-05-004. Revenue Requirements and Resource Planning for SCE. December, 2002. For TURN.

Oklahoma Corporation Commission Cause No. PUD 200200166. Revenue Requirements, Cost of Service, and Residential Rate Design for Reliant Arkla Gas. October 2002. For the Oklahoma AG. (case settled)

Arkansas PSC Docket 02-024-U. Revenue Requirements, Cost of Service, and Residential Rate Design for AOG. August 2002. For the Arkansas AG.

CPUC Rulemaking 01-05-047. Demographic Analysis of California Residential Users and Proposals for Surcharge Relief for Lower-Middle-Income customers. August 2002. For TURN.

Alberta EUB Docket 1250392. Cost of Service for Aquila Networks Canada (ANCA). July 2002 For REA/AAMDC. (joint testimony with Arnie Reimer)

Maryland PSC Case No. 8920. Embedded and Marginal Cost of Service, and Analysis of Tariffed Service Charges for WGL. June 2002. For Maryland OPC. (case settled)

CPUC Rulemaking 02-01-011. Exit Fees for Direct Access Customers. June 2002. For TURN.

CPUC Rulemaking 01-10-024. Procurement of Renewable Resources by California Investor-Owned Utilities. May 2002. For TURN.

CPUC App. 00-10-045 et al. Ratemaking for Recovery of AB 265 Balances from SDG&E Customers. May, 2002. For UCAN.

Arkansas PSC Docket 01-243-U. Revenue Requirement, Cost of Service, and Residential Rate Design for Reliant Arkla Gas. May 2002. For the Arkansas AG. (case settled)

PUCN Docket 01-11030. Cost of Service and Rate Design for Sierra. March 2002. For Nevada BCP.

Alberta EUB Docket 1250392. Business Risk of ANCA. March 2002. For the FIRM Group. (this part of case settled)

Alberta EUB Docket 1248859. Transmission Congestion Management Policy. For the FIRM Group. March 2002 (joint testimony with Eric Woychik)

PUCN Docket 01-10001. Cost of Service and Rate Design for NPC. January 2002. For Nevada BCP.

Arkansas PSC Docket 01-184U. Ratemaking for Ice Storm Damage for Entergy Arkansas, Inc., December 2001. For the Arkansas AG. (case settled)

Alberta EUB Docket 1244140. Article 24 Module. Payments to Generators for Transmission Must Run Services. For the FIRM Group. November 2001 (joint testimony with Eric Woychik)

PUCN Docket 01-7023. Revenue Requirement, Cost of Service, and Rate Design of Southwest Gas. November 2001. For Nevada AFL-CIO. (revenue requirements settled)

PUCN Docket 01-4047. Southwest Gas' Rules for Switching between Transportation and Sales Service. October 2001. For Nevada BCP.

Arkansas PSC Docket 00-190-U (second phase). Consumer Impacts of Electric Utility Restructuring. September 2001. For the Arkansas AG.

CPUC App. 00-11-038 et al. Department of Water Resources' Revenue Requirement for Service to Utility Customers. August 2001. For TURN (formal comment)

Arizona Commerce Commission, Dockets G-01551A-00-0309 And G-01551A-00-0127. Cost of Service and Rate Design for Southwest Gas. July 2001. For Complainants (Union Club of Arizona, Public Interest Research Group, et al.)

CPUC App. 00-11-038 et al. Ratemaking for Utility Retained Generation. July 2001. For TURN.

Arkansas PSC. Rate Unbundling testimony in 2001 for four co-ops and three investor-owned utilities, where cases were settled without hearing. January-June 2001. For the Arkansas AG. Details available on request.

CPUC App. 00-11-038 et al. Tiered Rate Design for Emergency Rate Surcharge. April 2001. For TURN.

Nevada PUC. Docket 01-1042. Divestiture of Utility Generating Plants. April 2001. For Nevada BCP. (testimony given orally).

CPUC App. 00-07-001. Marginal Cost and Revenue Allocation for Sierra's California System. February 2001. For TURN. (case settled)

CPUC App. 00-11-038 et al. Utility Financial Issues Related to Emergency Rate Relief. February 2001. For TURN.

CPUC App. 00-11-038 et al. Rate Design for Emergency Rate Relief and Ratemaking for Diablo Canyon Nuclear Plant. December 2000. For TURN.

Arkansas PSC. Rate unbundling testimony for 12 cooperatives where cases settled before hearing. (Cases not settled listed below.) For Arkansas AG. January-December 2000. Details available on request.

CPUC App. 00-05-024. Benefits of Retaining the Palo Verde and Four Corners Powerplants in Regulated Service. November 2000. For TURN and the CPUC's Office of Ratepayer Advocates (ORA). (case rendered moot by legislation)

Alberta EUB. Docket 2000257. Return Margin and Marketing Expenses under Epcor's Regulated Retail Rate Obligation Tariff. October 2000. For the FIRM Group. (case settled)

Alberta EUB Docket 2000136. Cost of Service and Rate Design for Atco Electric Distribution Service. October 2000. For REA/AAMDC.

Alberta EUB Docket 2000258. Testimony on UNCA Distribution Performance-Based Ratemaking (PBR) Proposal. (1) Economic Aspects (Indexing and Sharing). (2) Business Risk of Distribution Wires Business (also filed in Docket 2000136), and (3) Cost of Service. October 2000. For FIRM Group, except cost of service for REA/AAMDC. (case settled)

Arkansas PSC Docket 99-263-U. Rate Unbundling for Southwest Arkansas Electric Cooperative Corporation (ECC). October 2000. For the Arkansas AG. (three-party settlement opposed by industrial intervenor)

CPUC App. 99-03-014. PG&E's Marginal Electric Distribution Cost, Revenue Allocation, and Rate Design. September 2000. For TURN. (case dismissed due to energy crisis)

Arkansas PSC Docket 00-190-U. Consumer Impacts of Electric Utility Restructuring. September 2000. For the Arkansas AG.

CPUC App. 00-04-002. PG&E's Gas Marginal Costs. September 2000. For TURN.

Alberta EUB Docket 2000135. Cost of Service and Rate Design for ESBI Alberta Ltd. Transmission Service. August 2000. For the FIRM Group.

Arkansas PSC Docket 99-249-U. Rate Unbundling for EAI. July 2000. For the Arkansas AG. (settled except rate design)

CPUC App. 99-09-053. Projection of Future Revenue Sharing under Settlement allowing Transfer of PG&E's Hydroelectric Plants to an Affiliate with Revenue Sharing between the Affiliate and Ratepayers. August 2000. For TURN. (testimony never presented, rendered moot by legislation)

Alberta EUB. 2001 GTA for the Transmission Administrator. Rate Design for Reserves and Contribution Policy. August 2000. For the FIRM Group.

Alberta EUB. Ratemaking for Investment Credits for TransAlta's Industrial Customers. June 2000. For the FIRM Group. (joint testimony with J. Nahigian)

California PUC App. 99-09-053. Projection of Valuation and Future Ratemaking Results for Retention of PG&E's Hydroelectric Plants within the Utility. June 2000. For TURN and ORA.

California PUC App. 99-09-006. Ratemaking for Decommissioning of PG&E's Hunters Point Power Plant. June 2000. For City and County of San Francisco.

Wisconsin PSC Docket No. 6630-UR-111. Electric and Gas Cost of Service and Rate Design of Wisconsin Electric Power Company. March, 2000. For the Wisconsin Citizens Utility Board.

New Jersey Board of Public Utilities (BPU). Docket No. EX99090676. Competition and Customer Account Services. March 2000. For the New Jersey Division of the Ratepayer Advocate. (case settled)

CPUC App. 91-11-024 (1999 Rate Design Window). Electric Marginal Cost and Rate Design of SDG&E. March 2000. For UCAN.

CPUC App. 99-03-013 et al. Policy Analysis of Revenue Cycle Services and Energy Service Provider Fees and Charges. February 2000. For TURN.

PUCN Docket 99-7035. Cost Allocation in NPC's Deferred Energy Case. January 2000. For Nevada BCP.

Arkansas PSC. Docket 99-238-U. Unbundled Rates for the Ouachita Electric Cooperative Corp. December 1999. For the Arkansas AG. (case settled)

PUCN Docket 99-4005 Phase 2. Unbundled Distribution Revenue Requirement, Marginal Cost and Rate Design of NPC. November 1999. For Nevada BCP.

Maryland PSC. Case No. 8820. Affiliate Transaction Rules. October 1999. For Maryland OPC. (formal comments)

PUCN. Docket 99-4001 Phase 2. Unbundled Distribution Revenue Requirement, Marginal Costs and Rate Design of Sierra. October 1999. For Nevada BCP.

CPUC App. 99-04-024. SCE's 1997-98 Capital Additions. October 1999. For TURN.

Alberta EUB. Review of Power Purchase Agreements developed by the Independent Assessment Team. Need for Sharing or Reopeners in 20-Year Indexed Generation Contracts. September 1999. For the Consortium (of over 10 Alberta consumer groups and municipalities). (Joint Testimony with Mark Drazen)

PUCN Docket 99-4005 Phase 1. Unbundling Principles and Revenue Requirement Issues of NPC. August, 1999. For Nevada BCP.

PUCN Docket 99-4001 Phase 1. Unbundling Principles and Revenue Requirement Issues for Sierra. July 1999. For Nevada BCP.

CPUC App. 99-01-016 et al. Treatment of Securitized Revenue Bonds and Revenue Allocation Issues in Post Transition Ratemaking, Phase II. July 1999. For TURN and UCAN.

Alberta EUB. 1999-2000 GTA for the Transmission Administrator. Transmission Rate Design for Reserves. July, 1999. For the FIRM Group.

Arkansas PSC. Docket 98-339-U. Testimony in Support of the Cost of Service Settlement for Southwestern Electric Power Company (SWEPCO). July, 1999. For the Arkansas AG.

CPUC App. 99-01-016 et al. Revenue Allocation issues in Post Transition Ratemaking. July, 1999. For TURN.

Hawaii PUC. Docket 98-0013. Reasonableness of Contract Between Hawaii Electric Light Company (HELCO) and Encogen Hawaii, L.P. March, 1999. For Encogen Hawaii, L.P. (case settled)

CPUC App. 98-10-012 and 98-10-031. Marginal Cost and Rate Design for SoCal Gas and Electric Generation Rate Policy for Sempra Energy Gas Utilities. March 1999. For TURN and UCAN.

Alberta EUB. 1999-2000 General Tariff Applications. Differentiation of Risk among Regulated Functions of the Alberta Utilities. February, 1999. For the FIRM Group

Alberta EUB. Alberta Power Ltd. (APL) 1998 General Tariff Application Phase 2. Cost of Service and Rate Design. November, 1998. Generation and transmission costs for the FIRM Group, distribution costs and farm rate design for REA/AAMDC.

Alberta EUB. TransAlta Utilities (TAU) 1998 General Tariff Application Phase 2. October, 1998. Cost of Service and Rate Design. For the FIRM Group.

PUCN Docket No. 98-9038 and 98-8034. Metering and Billing as Potentially Competitive Services for NPC and Sierra. September, 1998. For Nevada BCP. (identical testimony filed in each docket)

Maryland PSC. Case No. 8791. Jurisdictional Allocation, Cost of Service and Rate Design of Potomac Electric Power Company. August, 1998. For Maryland OPC.

CPUC OII 98-09-007. Report on Tree Trimming Expenditures of PG&E 1987-1997. Direct Testimony July, 1998, rebuttal testimony March, 1999. For CPUC Consumer Services Division.

CPUC App. 97-12-020. Expenses and Capital Projects of PG&E. July, 1998. For TURN.

CPUC App. 98-01-016. SDG&E's Cost of Service and Performance Based Ratemaking. July, 1998. For UCAN.

CPUC App. 98-04-012. Transfer of the El Dorado Hydro Project from PG&E to the El Dorado Irrigation District. For El Dorado Irrigation District.

CPUC App. 96-12-009 et al. Revenue Cycle Service Unbundling. April, 1998. For TURN and UCAN.

CPUC App. 97-10-014 et al. Generation Capital Additions for PG&E and SCE. (PG&E settled) February 1998. For TURN.

PUCN. Dockets 97-11018 and 97-11028. Cost Unbundling of NPC and Sierra. February 1998 and December 1997. For Nevada BCP.

Virginia Corporation Commission. Case No. PUE960296. Stranded Costs, Regulatory Assets, and Alternative Ratemaking for Virginia Power. December, 1997. (part settled; part moved to future docket) For Southern Environmental Law Center.

CPUC App. 97-03-002. Gas Marginal Cost and Rate Design for PG&E. December, 1997. For TURN.

New Jersey BPU Docket EO97070456. Stranded Costs of Atlantic City Electric Company. December, 1997. For New Jersey Public Interest Intervenors (NJPII)

New Jersey BPU Docket EO97070462. Stranded Costs of Public Service Electric and Gas Company. November, 1997. For NJPII.

New Jersey BPU Docket EO 97070459. Stranded Costs of General Public Utilities. November, 1997. For NJPII.

Nevada PUC. Docket 97-8001. Structure for Unbundling Costs of Nevada Electric Utilities. September, 1997. For Nevada BCP.

CPUC App. 96-07-018. Impact of Closure of PG&E's El Dorado Hydro Project on PG&E's Revenue Requirement. September, 1997. For El Dorado Irrigation District.

CPUC App. 96-10-038. Economic and Affiliate Transaction Issues in the SoCal Gas-SDG&E merger. August, 1997. For TURN and UCAN.

CPUC App. 96-08-001 et al. Competitive Transition Charges for the California Utilities. May, 1997. For TURN and UCAN.

Nevada County Municipal Court. People v. Pacific Gas and Electric Company (PG&E) Authorized and Actual Tree Trimming Spending; PG&E Profits. April 1997. (testimony given orally) For Nevada County District Attorney.

CPUC App. 96-12-009. Unbundling Rates for the California Utilities. February 1997. For TURN and UCAN.

Nevada PSC. Southwest Gas Advice No. 346. Cost Allocation for Purchased Gas Adjustment Case. February 1997. For Nevada Office of Consumer Advocate (OCA – later renamed BCP)

PUCT Project No. 16536. Unbundling Electric Distribution Functions. January, 1997. For Environmental Defense. (formal comment)

CPUC App. 95-06-002. SoCal Gas' Performance-Based Ratemaking (PBR) Proposal: Indexing, Sharing, Residential Rate Design. October 1996. For TURN and California Department of General Services (DGS).

Washington Utilities and Transportation Commission. Docket UE-960195. Stranded Cost and Other Issues Affecting Merger of Puget Sound Power and Light with Washington Natural Gas. September 1996. For Washington Public Counsel.

CPUC App. 96-03-054. Ratemaking for PG&E's Diablo Canyon Nuclear Plant. September 1996. For TURN.

CEC Docket 95-ER-96. Rate Design Issues in Electric Restructuring. August 1996. For TURN.

CPUC App. 96-02-056. Ratemaking for SCE Share of the Palo Verde Nuclear Plant. August 1996. For TURN.

Alberta EUB. 1996 General Rate Application. Unbundling the Cost of Capital in Alberta's Restructuring. August 1996. For the FIRM Group.

CPUC App. 96-03-031. Marginal Cost and Residential Rate Design of SoCal Gas. July 1996. For TURN.

Northwest Territories PUB. Northwest Territories Power Corporation GRA. Evaluation of Reliability Criteria and the Snare Cascades Hydroelectric Project. May 1996. (case settled) For City of Yellowknife.

PUCT Docket 15000. Generation Market Structure. March 1996. For Environmental Defense (formal comment)

CPUC App. 94-12-005 Phase 2. Marginal Cost, Revenue Allocation, and Residential Rate Design of PG&E. December 1995. For TURN.

Bonneville Power Administration (BPA) 1996 Wholesale Power and Transmission Rate Case. Design of Ancillary Service Rates. September 1995. For Renewable Northwest Project.

CPUC App. 95-05-023 et al. Treatment of Customer Deposits in Utility Capital Structures. August 1995. For TURN.

U.S. District Court, San Diego. James v. Southern California Edison. Case No. 94-1085-J. Ratemaking for Potential Outage for San Onofre 3 before Commercial Operation in 1984. August 1995 (oral testimony). For Glenn James.

CPUC App. 93-12-025. Marginal Cost, Revenue Allocation, and Rate Design for SCE. June 1995. For TURN.

Ontario Energy Board (OEB) Docket HR 23. Cost Allocation and Backup Power Rate Design of Ontario Hydro. June 1995. For Independent Power Society of Ontario (IPPSO).

CPUC App. 94-11-015. Gas Load Forecast and Marginal Cost of PG&E. June 1995. For TURN.

OEB Docket E.B.R.O. 490. Cost Allocation for Ancillary Business Activities of Consumers Gas Company. May 1995. For HVAC Coalition.

CPUC App. 94-12-005. Revenue Requirement Issues for PG&E. May 1995. For TURN.

IN THE MATTER OF the *Ontario Energy Board Act, 1998*,
S.O. 1998, c. 15, Schedule B;

AND IN THE MATTER OF cost award eligibility for
interested parties in a coordinated consultation process
for the development of a renewed regulatory framework
for electricity distributors and transmitters.

BEFORE Paula Conboy
Presiding Member

Karen Taylor
Member

DECISION ON COST ELIGIBILITY

On November 8, 2011, the Board issued a letter announcing further details about its coordinated consultation process to develop a renewed regulatory framework for electricity distributors and transmitters ("RRFE"). The consultation encompasses five inter-related policy initiatives which support RRFE development:

- Distribution Network Investment Planning (EB-2010-0377);
- Regulatory Framework for Regional Planning for Electricity Infrastructure (EB-2011-0043);

- Establishment, Implementation and Promotion of a Smart Grid in Ontario (EB-2011-0004);
- Approaches to Mitigation for Electricity Transmitters and Distributors (EB-2010-0378); and
- Defining and Measuring the Performance of Electricity Transmitters and Distributors (EB-2010-0379).

In earlier communications, the Board had indicated that cost awards would be available to eligible persons under section 30 of the *Ontario Energy Board Act, 1998* in relation to their participation in one or more of the above-noted initiatives. The costs to be awarded will be recovered from licensed rate-regulated electricity distributors and/or licensed rate-regulated electricity transmitters, as applicable depending on the initiative. As discussed below, the Board has already issued a number of decisions pertaining to cost award eligibility in respect of the above-noted initiatives.

The Board's November 8, 2011 letter made provision for the filing of additional requests for cost eligibility. It also made provision for eligible participants to seek eligibility to claim the costs of an expert to produce a separate expert report for consideration by the Board. The deadline for the filing of these new requests was November 14, 2011.

Electricity distributors and transmitters were given until November 21, 2011 to file any objections that they might have in relation to the new cost eligibility requests. The Board did not receive any objections from distributors or transmitters.

Eligibility of Participants

The Board, in various decisions on cost eligibility as noted below, has previously determined the cost award eligibility status of certain participants in respect of each of the five initiatives that comprise this coordinated consultation. Table 1 below reflects the Board's earlier decisions, as well as the requests for cost eligibility received further to the Board's November 8, 2011 letter as follows:

- i. the symbol “✓” denotes that the participant has already been determined by the Board to be eligible in respect of a particular initiative;
- ii. the symbol “✗” denotes that the participant has already been determined by the Board to be ineligible in respect of a particular initiative;
- iii. a blank space indicates that no request for cost eligibility has been received from the participant in respect of a particular initiative; and
- iv. participants that have filed a request for cost eligibility further to the Board’s November 8, 2011 letter are identified using bold-faced type. The “**R**” denotes that the request has been made, and an “**E_x**” denotes that the participant is seeking eligibility to claim the costs of an expert.

This Decision on Cost Eligibility pertains specifically to the requests referred to in (iv) above.

¹ February 1, 2011 Decision on Cost Eligibility and May 16, 2011 Supplemental Decision on Cost Eligibility (EB-2010-0377, EB-2010-0378, EB-2010-0379).

² ibid.

³ ibid.

⁴ May 4, 2011 Decision on Cost Eligibility (EB-2011-0043).

⁵ April 4, 2011 Decision on Cost Eligibility and April 8, 2011 Supplemental Decision on Cost Eligibility (EB-2011-0004).

⁶ While it is not clear whether the EDA is seeking eligibility for one or all of the initiatives comprising this coordinated consultation, the Board's decision applies equally to each initiative.

Based on the criteria set out in section 3 of the Board's *Practice Direction on Cost Awards* (the "*Practice Direction*"), the Board has determined that the following participants are eligible for an award of costs in respect of their participation in all of the initiatives requested by each, in some cases subject to the qualifications noted below:

- Building Owners and Managers Association of the Greater Toronto Area (BOMA)
- Canadian Federation of Independent Business (CFIB)
- Canadian Manufacturers & Exporters (CME)
- Northwatch
- Northwestern Ontario Associated Chambers of Commerce (NOACC)
- Pollution Probe
- School Energy Coalition (SEC)
- Vulnerable Energy Consumers Coalition (VECC)

The Board has also determined that Northwatch and CFIB are eligible to claim costs for their proposed experts in all the initiatives for which they have requested eligibility, as listed in the table above.

The Board's determination on NOACC's eligibility in respect of the smart grid initiative (EB-2011-0004) is subject to the same limitations as those imposed by the Board's June 27, 2011 Decision on Motions to Review regarding cost eligibility for the Regional Planning initiative (EB-2011-0043); namely:

NOACC's cost award eligibility and any costs awarded to them will be limited to participation that is focussed on the interests of small commercial or business consumers in their capacity as ratepayers (for example, in relation to cost responsibility for electricity infrastructure), and not in relation to the broader business interests of this class of consumers in terms of matters such as regional economic development more generally.⁷

⁷ June 27, 2011 Decision on Motions to Review (EB-2011-0043).

The Board takes this opportunity to extend this same limitation to CFIB in relation to its participation in all initiatives for which CFIB has requested eligibility. For greater clarity, the CFIB's cost award eligibility and any costs awarded to them will be limited to participation that is focussed on the interests of the small business community in their capacity as ratepayers, and not in relation to the broader business interests of this class of consumers in terms of matters such as regional economic development more generally.

Common Voice Northwest (CVNW) is a not-for-profit organization whose members represent business (from NOACC), organized labour, post-secondary education facilities, school boards, multicultural associations, townships and cities. In assessing the cost eligibility of an organization such as CVNW, the Board has previously stated that it will consider whether the organization's members would themselves be eligible for an award of costs rather than considering the association as a distinct entity separate and apart from its members.⁸ The Board notes that CVNW's membership consists of, among other entities, municipalities^{9,10} and organized labour. The Board has generally found these entities to be ineligible for an award of costs. The Board finds that CVNW is not eligible for an award of costs under the *Practice Direction* by the virtue of its membership. The Board also notes that NOACC, a member of CVNW, has been found to be eligible for an award of costs in its own right in respect of two of the initiatives for which CNVW is seeking eligibility, and that educational facilities are also already represented in four of the five initiatives that comprise this coordinated

⁸ See the Decision on Issues and Cost Eligibility issued on March 22, 2011 in the Toronto Hydro CDM proceeding (EB-2011-0011). Specifically, the Board stated as follows: "To the extent that an entity's membership is comprised largely of organizations that would themselves be ineligible for cost awards, so too should the entity be considered ineligible absent special circumstances."

⁹ June 27, 2011 Decision on Motions to Review (EB-2011-0043). The Board stated: "Where a municipality is the effective owner of an electricity distributor, the Board likens that municipality to the electricity distributor for cost award purposes, resulting in ineligibility for cost awards absent special circumstances."

¹⁰ August 29, 2011 Decision on Motion to Review (EB-2011-0256). The Board made a number of findings: (i) that the Municipality has an enforceable revenue stream through taxation and fees, penalties and grants, that is intended to finance all of its activities, including the participation as an intervenor in the instant proceeding; (2) that the Municipality is accountable to its constituents for whatever point of view it chooses to advance in the course of the proceeding and that the linkage between funding and accountability is an important consideration in determining whether a Municipality should be granted edibility for costs; and (3) allowing Municipal cost recovery from ratepayers would amount to a kind of double-recovery... and compromises the accountability of the Municipality to its taxpayers.

consultation by SEC. Further, the Board does not believe that special circumstances exist such as to warrant extending cost award eligibility to CVNW.

The Electricity Distributors Association (EDA) is an association whose members comprise most, if not all, electricity distributors in the province; “commercial members” that include commercial service providers, and “associate members” that include gas utilities, generators and retailers. It is not clear whether the EDA is seeking: (a) cost award eligibility for all of the initiatives comprising this coordinated consultation, together with eligibility to claim the costs of an expert for one of those initiatives (Defining and Measuring Performance (EB-2010-0379)), or (b) cost award eligibility (including for its expert) only in relation to the initiative on Defining and Measuring Performance.

The EDA’s request for cost eligibility includes the following statement:

The EDA is eligible for a cost award pursuant to section 3 of the Board’s Practice Direction on Cost Awards. In particular, the EDA represents an important public interest relevant to this proceeding, namely, the promotion of a reliable and efficient distribution system to serve Ontario ratepayers.

The EDA is not ineligible for costs as it is neither an applicant in these proceedings, nor a distributor or a group of distributors. It is a distinct organization which presents a unique and independent perspective on matters affecting electricity distribution. It does not represent the interests of a particular distributor or group of distributors. Rather, it presents perspectives and information which ensures the best overall distribution system in the public interest of all Ontarians. It is an entity distinct from individual distributors or group of distributors who frequently intervene separately before the Board. The EDA will assist the Board in determining the public interest by ensuring that the Board understands the implications of potential decisions on the distribution system as a whole and on the public interest as it pertains to the distribution system.

The Board notes that the manner in which the EDA presents itself as set out above does not appear to be consistent with the manner in which it does so on its own website or has done so in proceedings before the Board, including when it notified the Board of its intention to participate in the RRFE consultation in January 2011:

*The Electricity Distributors Association is the voice of Ontario's local electricity distributors, the publicly and privately owned companies that safely and reliably deliver electricity to over four million Ontario homes, businesses and public institutions.*¹¹

*"[The EDA] is the voice of Ontario's local distribution companies (LDCs). The EDA represents the interests of over 80 publicly and privately owned LDCs in Ontario... The EDA engages its members to obtain their feedback in providing input to the Board's consultations."*¹²

*"(t)he Electricity Distributors Association (EDA) is the voice of Ontario's local distribution companies (Distributors). The EDA represents the interests of the over 80 publicly and privately owned Distributors in Ontario."*¹³

In assessing the cost eligibility of an association such as the EDA, the Board will consider whether the association's members would themselves be eligible for an award of costs rather than considering the association as a distinct entity separate and apart from its members. Electricity distributors and other entities regulated by the Board are ineligible for an award of costs under section 3.05 of the *Practice Direction*. It has been the Board's practice that commercial entities such as commercial service providers are generally ineligible for an award of costs. Commercial entities primarily represent their own commercial interests rather than "primarily representing" a public interest, even if they may be in the business of providing services that can be said to serve a public

¹¹ <http://www.eda-on.ca/eda/edaweb.nsf/0/8215DEDEF02AED6A85256D470067B0A3>

¹² Letter dated January 21, 2011 regarding participation in EB-2010-0377, EB-2010-0378 and EB-2010-0379.

¹³ For example, EB-2007-0722 and EB-2010-0215.

interest relevant to the Board's mandate.¹⁴ The Board finds that the Electricity Distributors Association is *prima facie* ineligible for an award of costs by virtue of its membership. The Board's finding in this regard applies whether the EDA is seeking eligibility for one or all of the initiatives comprising this coordinated consultation.

The EDA's request for cost eligibility notes that, if the Board considers the EDA ineligible under section 3.05 of the *Practice Direction*, the Board should nonetheless exercise its discretion and find that the EDA is eligible by virtue of special circumstances under section 3.07 of the *Practice Direction*. The EDA states that:

[T]he broad scope and implications of the issues being considered by the Board in this consultation process requires that the Board facilitate interventions by an organization such as the EDA which has the expertise and perspective to assist the Board in determining the public interest and making optimal decisions with respect to the distribution system and its ongoing regulation.

The EDA also noted that the Board has granted cost eligibility to the Association of Power Producers of Ontario ("APPRO") and the Electrical Contractors Association of Ontario ("ECAO") in respect of certain initiatives that comprise this coordinated consultation, and argued that the Board should extend the same treatment to the EDA. With respect to APPRO, the Board determined that organization to be eligible by virtue of the fact that its members are customers of electricity transmitters and distributors. With respect to the ECAO, the Board determined that, in the context of the distribution planning and performance measurement initiatives, the ECAO represents a public interest that is relevant to the Board's mandate because access to competitive services, as an alternative to utility-provided services, is an important component of ensuring efficient outcomes for ratepayers. The Board did, however, deny ECAO's request for cost eligibility in relation to the Mitigation initiative (EB-2010-0378). The same considerations do not apply to the EDA.

¹⁴ April 4, 2011 Decision on Cost Eligibility (EB-2011-0004).

While the Board is interested in the expert advice of Dr. Adonis Yatchew, the expert proposed by the EDA, the Board does not believe that special circumstances exist as to warrant extending cost award eligibility to the EDA to claim an award of costs in relation to the provision of that expert advice. The Board's finding in this regard applies regardless of whether the EDA is seeking eligibility for one or all of the initiatives comprising this coordinated consultation.

Late Cost Award Eligibility Requests

On November 28, 2011 the Board received a request for cost eligibility from the Ontario Waterpower Association (OWA) and on November 30, 2011 a similar request for cost eligibility was received from the Agrienergy Producers' Association of Ontario (APAO). Both cost eligibility requests were filed with the Board later than the November 14, 2011 date stipulated in the Board's letter of November 8, 2011.

As set out on the OWA's website, the OWA represents the common and collective interests of the waterpower industry, including waterpower generators and other commercial interests.

APAO states in its letter to the Board that it is a member-based organization of approximately 85 members and is the collective voice of Ontario's biogas industry, representing farmer biogas developers, technology suppliers, financial and learning institutions and other interested individuals and organizations. APAO indicates in its letter that given its financial limitations, participation in the Renewed Regulatory Framework for Electricity would be reliant upon successful eligibility for cost awards.

Generators, either as a group or individually, are usually ineligible for a cost award under section 3.05 of the *Practice Direction*. However, in respect of similar cost award eligibility requests from APPrO and OSEA, the Board has found pursuant to section 3.07 of the *Practice Direction* that special circumstances exist that would allow cost eligibility, as set out in Table 1. Specifically the Board has found that generators are

customers of electricity utilities and, in that sense, they can be likened to customers in the circumstances of the consultations for which cost eligibility has been granted.

The Board notes that there are or may be interrelationships between APPrO, OSEA, APAO and OWA. For example, the Board observed that APAO is a member of OSEA and that APPrO is a member of OWA. The Board also notes that while generators, either as a group or individually, can be likened to customers, their relationship with electricity utilities is very different from that of load customers, who generally have an ongoing responsibility to pay for the costs of the system, including the costs of this consultation broadly, through rates.

As such, **by December 9, 2011** the Board invites the OWA and APAO to explain why their respective interests as customers of electric utilities cannot be incorporated into or are distinct from the positions put forth by APPrO and/or OSEA in relationship to each initiative for which cost eligibility is sought. Further, should the Board determine that cost award eligibility for the requested initiatives is appropriate, OWA and APAO should also explain how duplication and overlap will be minimized.

Extension of Time to Claim Costs for an Expert

In its cost eligibility request, CME requested that the Board extend the deadline for participants to determine whether or not to retain and request eligibility to claim the costs of an expert. CME stated that it will be in a better position to determine if an expert should be retained after the Information Session scheduled for December 8 and 9, 2011 has concluded and participants have had further time to consider the staff Discussion Papers and related materials. Although no other participants requested an extension of time, some have indicated that they have not yet determined whether they will retain an expert.

The Board believes that CME's request is reasonable, given that the purpose of the Information Session is to allow stakeholders the opportunity to better understand the

consultation materials. The Board will therefore extend the deadline by which eligible participants may request eligibility to claim the costs of an expert to **December 16, 2011**. Participants should follow the filing instructions set out in the Board's November 8, 2011 letter in relation to such further eligibility requests.

All requests for cost eligibility in respect of the costs of an expert will be posted on the Board's website. Licensed electricity distributors and transmitters will be provided with an opportunity to object to any of these requests for cost award eligibility. If an electricity distributor or transmitter has any objections to any of the requests for cost eligibility, such objections must be filed with the Board by **December 30, 2011**. Any objections will be posted on the Board's website. The Board will then make a final determination on the cost eligibility of the requesting participants.

Cost Awards Generally

Based on the content of some of the requests for cost eligibility, the Board considers it desirable to confirm the following in relation to cost awards generally:

- i. The Board's expectation is that experts whose costs are funded through cost awards will, in addition to providing commentary on the staff discussion papers, prepare separate expert reports to assist the Board by providing objective and impartial expert advice on the issues in this coordinated consultation.
- ii. The Board cautions participants that cost awards are available only in respect of issues that are clearly within the scope of the initiative(s) in which they are participating, and not in respect of issues that, while perhaps related, are already addressed by existing Board policies (such as conservation and demand management).
- iii. Where similar interests are shared by participants that are eligible for cost awards, the Board expects that reasonable efforts will be made to combine participation or

to cooperate. As stated in the Practice Direction, the Board will consider any lack of cooperation when determining the amount of a cost award.

- iv. Cost awards are available in relation to the costs associated with external legal and/or expert consultant fees (among others) incurred specifically for the purposes of participating in activities that are eligible for an award of costs. As stated in the Practice Direction, cost awards are not available in relation to time spent by employees or officers of a participant.
- v. Except as may otherwise be expressly provided by the Board at the relevant time, the hourly limits for eligible activities apply to each participant that is eligible for an award of costs, and not to each individual that may be acting on behalf of an eligible participant.

**Re: Notice of Hearing for Cost Awards
Coordinated Consultation Process to Develop a Renewed Regulatory
Framework for Electricity Distributors and Transmitters ("RRFE")
Board File Nos.: EB-2010-0377; EB-2010-0378; EB-2010-0379; EB-2011-
0004; EB-2011-0043**

Background

On December 17, 2010 the Board issued a [letter](#) initiating a consultation process to develop three key elements of a Renewed Regulatory Framework for Electricity:

- Distribution Network Investment Planning (EB-2010-0377);
- Approaches to Mitigation for Electricity Transmitters and Distributors (EB-2010-0378); and
- Defining and Measuring the Performance of Electricity Transmitters and Distributors (EB-2010-0379).

On November 8, 2011 the Board issued a [letter](#) announcing an expanded scope of the RRFE to include two related consultations that were already underway:

- Establishment, Implementation and Promotion of a Smart Grid in Ontario (EB-2011-0004); and
- Regulatory Framework for Regional Planning for Electricity Infrastructure (EB-2011-0043).

The Board has stated that cost awards would be available to eligible persons under section 30 of the *Ontario Energy Board Act, 1998* ("the Act") in relation to their participation in each of the five initiatives comprising this consultation process, and that any costs awarded would be recovered from rate-regulated licensed electricity distributors and electricity transmitters.¹ In a number of letters² issued over the course of the RRFE consultation to date, the Board identified the activities eligible for cost awards as well as the maximum number of hours for which cost awards would be available for most of those eligible activities. By way of exception, the Board had not previously indicated the maximum number of hours in relation to participation in Working Group meetings within the context of the smart grid initiative (EB-2011-0004). The maximum number of hours that has now been established in that regard is 10 hours per meeting day, covering preparation for, attendance at and reporting on each meeting. For convenience, the eligible activities for the period ending May 31, 2012 and the maximum number of hours for each are listed in **Appendix A** to this Notice.

In a series of Decisions³ issued over the course of the RRFE consultation to date, the Board found various participants to be eligible for an award of costs in relation to some or all of the five initiatives. The table in **Appendix B** lists the participants that the Board has found to be eligible for an award of costs in relation to each RRFE initiative (collectively, the "eligible participants").

For convenience, the table in **Appendix C** combines information from Appendices A and B to identify the consultation activities for which each eligible participant is eligible to claim costs. The Board reminds eligible participants that they are eligible for an award of costs for their participation in consultation activities which took place subsequent to the date of filing of their request for cost eligibility.

¹ The class(es) of entity from which cost awards are recoverable, and how the cost awards are apportioned amongst and within the classes, varies depending on the initiative. Details are provided in **Appendix A** to this Notice.

² [December 17, 2010](#); [January 13, 2011](#); [April 1, 2011](#); [November 8, 2011](#); [February 22, 2012](#); [April 5, 2012](#)

³ [May 3, 2012](#); [April 10, 2012](#); [February 1, 2012](#); [December 8, 2011](#); [December 7, 2011](#); [December 2, 2011](#); [May 16, 2011](#); [May 4, 2011](#); [April 4, 2011](#); [April 8, 2011](#); [February 1, 2011](#)

This consultation process is an ongoing one. However, the Board considers it expedient to address the issue of cost awards for the period ending May 31, 2012 at this time. Cost awards in relation to eligible consultation activities that take place in the future will be addressed at the relevant time.

Notice of Hearing

The Board is initiating this hearing on its own motion in order to determine the cost awards that will be made in accordance with section 30 of the Act in relation to eligible RRFE consultation activities that occurred on or before May 31, 2012. The file numbers for this hearing are **EB-2010-0377, EB-2010-0378, EB-2010-0379, EB-2011-0004, and EB-2011-0043.**

The Board intends to proceed by way of written hearing unless a party can satisfy the Board that there is a good reason for not holding a written hearing. If a party wants to object to a written hearing, the objection must be received by the Board no later than **7 days** after the date of this Notice.

Assuming that the Board does not receive any objections to a written hearing, the hearing will follow the process set out below.

1. Eligible participants shall submit their cost claims by **July 25, 2012**. The cost claim must be filed with the Board and one copy is to be served on each rate-regulated licensed electricity distributor and rate-regulated licensed electricity transmitter. The cost claims must be completed in accordance with section 10 of the Board's *Practice Direction on Cost Awards*. As contemplated in the *Practice Direction on Cost Awards*, the cost claim form has been customized for this consultation. Participants must use the customized form that is attached as Appendix D to this Notice.
2. Electricity distributors and electricity transmitters will have until **August 7, 2012** to object to any aspect of the costs claimed. The objection must be filed with the Board and one copy must be served on the eligible participant against whose claim the objection is being made.
3. An eligible participant whose cost claim was objected to will have until **August 14, 2012** to make a reply submission as to why its cost claim should be allowed. A copy of the reply submission must be filed with the Board and one copy is to be served on the objecting electricity distributor or electricity transmitter.
4. The Board will then issue its decision on cost awards. The Board's costs to May 31, 2012 may also be addressed in the cost awards decision.

Service of cost claims, objections and reply submissions on other parties may be effected by courier, registered mail, facsimile or e-mail.

Parties must file two paper copies and one electronic copy of their filings with the Board Secretary by **4:45 pm** on the required dates. The Board requests that parties make every effort to provide electronic copies of their filings in searchable / unrestricted Adobe Acrobat (PDF) format, and to submit their filings through the Board's web portal at www.errr.ontarioenergyboard.ca. A user ID is required to submit documents through the Board's web portal. If you do not have a user ID, please visit the "e-filings services" webpage on the Board's website at www.ontarioenergyboard.ca, and fill out a user ID password request. Additionally, interested parties are requested to follow the document naming conventions and document submission standards outlined in the document entitled "RESS Document Preparation – A Quick Guide" also found on the e-filing services webpage. If the Board's web portal is not available, electronic copies of filings may be filed by e-mail at boardsec@ontarioenergyboard.ca. Persons that do not have internet access should provide a CD or diskette containing their filing in PDF format.

All filings must quote file numbers **EB-2010-0377, EB-2010-0378, EB-2010-0379, EB-2011-0004, and EB-2011-0043** and include your name, address telephone number and, where available, your e-mail address and fax number.

All filings in this hearing (i.e., cost claims, objections, or replies), will form part of the public record. Copies of the filings will be available for inspection at the Board's office during normal business hours and the filings may be placed on the Board's website.

If the filing is from a private citizen (i.e., not a lawyer representing a client, not a consultant representing a client or organization, not an individual in an organization that represents the interests of consumers or other groups, and not an individual from a regulated entity), before making the filing available for viewing at the Board's offices or placing the filing on the Board's website, the Board will remove any personal (i.e., not business) contact information from the filing (i.e., the address, fax number, phone number, and e-mail address of the individual). However, the name of the individual and the content of the filing may be available for viewing at the Board's offices and will be placed on the Board's website.

If you do not file a letter objecting to a written hearing or do not participate in the hearing by filing written materials in accordance with this Notice, the Board may proceed without your participation and you will not be entitled to further notice in this proceeding.

Yours truly,

Appendix A: Consolidated List of Consultation Activities for Which Cost Awards are Available and Maximum Number of Hours

As set out in the Board's December 17, 2010 letter, and clarified in the Board's November 8, 2011 letter, participants eligible for cost awards are required to provide a breakdown of their claims by EB number because costs awarded will be recovered as follows:

- For **integrated consultation activities** as identified in the table below, costs awarded will be recovered from all rate-regulated licensed electricity distributors (65% of the costs awarded) and all rate-regulated licensed transmitters (35% of the costs awarded).
- For **activities specific to initiative(s)** as identified in the table below, costs awarded will be recovered as follows:
 - EB-2010-0377, from all rate-regulated licensed electricity distributors; and
 - EB-2010-0378, EB-2010-0379, EB-2011-0004 and EB-2011-0043, from all rate-regulated licensed electricity distributors (50% of the costs awarded) and all rate-regulated licensed transmitters (50% of the costs awarded).

In all cases, costs awarded will be apportioned within each class based on distribution or transmission revenues, as applicable.

Activity Eligible for Cost Awards		Maximum Number of Hours	Date of Relevant Letter
EB-2011-0043 only	Preparation for, attendance at and reporting on Stakeholder Meeting (May 12, 2011)	actual meeting time plus 50% of meeting time	April 1, 2011
EB-2011-0004 only	Preparation for, attendance at and reporting on the Working Group Meetings (March 1, 15 & 29, April 12 & 27, and May 10, 2011)	10 hours per day	January 13, 2011
Integrated consultation activity	Preparation for, attendance at, and reporting on Stakeholder Meeting (Feb 2, 2011)	8 hours	December 17, 2010
Integrated consultation activity	Review of staff's discussion papers and staff's consultants' reports prior to the Information Session	50 hours	November 8, 2011
Integrated consultation activity	Attendance at the Information Session (Dec. 8 & 9, 2011)	10 hours per day	November 8, 2011
Integrated consultation activity	Preparation for, attendance at, and reporting on Stakeholder Conference (Mar 28, 29 & 30, 2012)	10 hours per day	February 22, 2012
Activity specific to initiative(s).	Written comments on staff discussion papers and Stakeholder Conference issues	25 hours <u>per EB number</u>	February 22, 2012

Activity Eligible for Cost Awards		Maximum Number of Hours	Date of Relevant Letter
Integrated consultation activity	Written comments on Issues identified by the Board	20 hours	April 5, 2012
	<u>For each expert retained by an eligible participant:</u>		
Integrated consultation activity	Attendance at the Information Session (Dec. 8 & 9)	10 hours per day	November 8, 2011
Activity specific to initiative(s).	Preparation of separate expert report	40 hours <u>per EB number</u>	November 8, 2011
Integrated consultation activity	Participation at the Stakeholder Conference (Mar 28, 29 & 30, 2012)	10 hours per day	February 22, 2012
	<u>For each expert retained by a collaborative (i.e. group of eligible participant):</u>		
Integrated consultation activity	Attendance at the Information Session (Dec. 8 & 9)	10 hours per day	November 8, 2011
Activity specific to initiative(s).	Preparation of separate expert report	40 hrs + (20 hrs * number of additional members in collaborative) <u>per EB number</u>	November 8, 2011
Integrated consultation activity	Participation at the Stakeholder Conference (Mar 28, 29 & 30, 2012)	10 hours per day	February 22, 2012

Ontario Energy Board
P.O. Box 2319
27th Floor
2300 Yonge Street,
Toronto, ON M4P 1E4

Attention: Ms. Kirsten Walli, Board Secretary

Dear Ms. Walli:

**Re: Northwatch Application for Cost Award
Renewed Regulatory Framework for Electricity
Board File Numbers: EB-2010-0377, EB-2010-0378, EB-2010-0379, EB-2011-0043 and EB-2011-0004**

In accordance with the Board's Practice Direction on Cost Awards, Northwatch hereby applies for cost awards for its contribution and the contribution of its expert, Mr. William B. Marcus of JBS Energy Inc., in this proceeding. As a not-for-profit organization, Northwatch depends on cost awards to remunerate counsel, its representative, Ms. Brennain Lloyd, and its expert for their participation in this proceeding.

Value to the Proceeding

As a public interest organization concerned with environmental protection and social development in northeastern Ontario, Northwatch has a long-term and consistent interest in electricity planning in Ontario. In particular, Northwatch's interests are with respect to electricity generation and transmission in northeastern Ontario, conservation and efficiency measures, and rates and rate structures.

Northwatch serves as an invaluable representative of the residents and regions of northeastern Ontario. These regions and residents will or may be affected by the renewed regulatory framework for electricity proceeding in as far as it relates to:

- how the electricity framework may evolve in support of and/or counter to Northwatch's interests and objectives, and

- whether and/or how demand and supply of electricity will be balanced at a regional level.

Northwatch demonstrated its value throughout this proceeding, through Northwatch's participation in the Staff Information Session, participation and presentation at the Stakeholder Conference and written submissions regarding EB-2010-0378, EB-2010-0379, EB-2011-0043 and EB-2011-0004. Throughout the above, Northwatch represented the residents and regions of northeastern Ontario by devoting significant attention to the regional planning issues identified by the Board, and specifically the interface between transmission and distribution utilities to provide least-cost regional solutions. Northwatch also addressed each of the other four issue areas identified by the Board. Northwatch specifically provided suggestions regarding:

- the need for broader regional planning of supply and demand across regions, including generation planning
- ways to improve distribution planning, and more specifically ways to improve on issues regarding plans for growth, aging infrastructure, information technology and smart grid, in order to promote sustainable development while assuring money is spent wisely
- the necessity for creation of incentives and plans for utility system investment to reduce energy use on distribution systems, including reductions of distribution losses and control of customer voltage.

Northwatch submits that its costs claimed in this proceeding are representative of Northwatch's value to this proceeding. Northwatch was an integral part of the Stakeholder Conference and provided helpful and comprehensive written submissions on each of EB-2010-0378, EB-2010-0379, EB-2011-0043 and EB-2011-0004.

Northwatch avoided incurring costs wherever possible. Northwatch's costs as submitted to the Board are minimal and reasonable.

Promotion of Efficiency and Avoidance of Duplication

Northwatch was an active participant in the proceeding and successfully coordinated its efforts with other intervenors throughout same.

Northwatch communicates regularly with other stakeholder groups on electricity related matters. As a coalition with a diverse network of members and associates, Northwatch's experience and perspective is unique to northeastern Ontario, and as such coordination with other intervenors was not possible on all issues. However, Northwatch collaborated with like-minded intervenors to the extent possible and necessary throughout the proceeding to minimize duplication of effort.

Delegation of Tasks

Northwatch co-ordinated roles and responsibilities between and among Northwatch's representative, legal counsel and expert in order to avoid duplication and to minimize costs.

Northwatch minimized legal costs by having junior associate counsel prepare and/or revise correspondence, review correspondence from the Board and the parties, assist in preparing Northwatch's presentation, revise Northwatch's written submissions and coordinate with other intervenors.

Northwatch minimized administrative costs by employing legal counsel's assistant to perform filing and formatting of correspondence and submissions to the Board, and all other administrative tasks whenever possible, free of charge.

Northwatch retained Mr. William B. Marcus of JBS Energy to provide expert advice and opinions to Northwatch in this proceeding. Mr. Marcus is an expert in energy policy. Mr. Marcus has reviewed issues related to utility resource planning, cost-effectiveness of energy projects, design of energy efficiency programs, performance-based ratemaking, revenue requirements, rate of return, and cost allocation and rate design for a variety of consumer, environmental, and independent power clients. He has testified as an expert witness before approximately 40 regulatory bodies and courts in North America.

Mr. Marcus reviewed the Board Staff discussion papers and the expert papers, assisted counsel and Northwatch's representative, Ms. Lloyd, with strategy in preparing for the Stakeholder Conference and prepared written submissions based on his review of the Board Staff discussion papers and the expert papers.

We enclose the Cost Claim of Northwatch and respectfully request that its contribution be acknowledged in this proceeding.

Yours truly,

Matt Gardner

Encl.

Document #: 534691

Ontario Energy Board
COST CLAIM FOR CONSULTATIONS

Affidavit and Summary of Fees and Disbursements

This form should be used by a party (defined in the Practice Direction on Cost Awards as including a participant in a consultation process) in a consultation before the Board to identify the fees and disbursements that form the party's cost claim. Paper and electronic copies of this form and itemized receipts must be filed with the Board and served on one or more other parties as directed by the Board in the applicable Board Notice of Hearing for Cost Awards. Please ensure all required fields are filled in and the Affidavit portion is signed and sworn or affirmed.

Instructions

- Required data input is indicated by yellow-shaded fields. Formulas are present in the document to assist with the calculation of the cost claim.
- All claims must be in Canadian dollars. If applicable, state exchange rate and country of initial currency.
Rate: _____ Country: _____
- A separate "Statement of Disbursements Being Claimed" is required for each consultant or lawyer/articling student/paralegal. However only one "Statement of Fees Being Claimed" and one "Summary of Fees and Disbursements Being Claimed" covering the whole of the party's cost claim should be provided.
- The cost claim must be supported by a completed Affidavit signed by a representative of the party.
- A CV for each consultant must be attached unless, for a given consultant, a CV has been provided to the Board in another process within the last 24 months.
- Except as provided in section 7.03 of the Practice Direction on Cost Awards, itemized receipts must be provided.

Affidavit

I, MATTHEW GARDNER, of the City/Town of BURLINGTON
in the Province/State of ONTARIO, swear or affirm that:

1. I am a representative of the above-noted party (the "Party") and as such have knowledge of the matters attested to herein.
2. I have examined all of the documentation in support of this cost claim, including the attached "Summary of Fees and Disbursements Being Claimed", "Statement of Fees Being Claimed" and "Statement(s) of Disbursements Being Claimed".
3. The attached "Summary of Fees and Disbursements Being Claimed", "Statement of Fees Being Claimed" and "Statement(s) of Disbursements Being Claimed" include only costs incurred and time spent directly for the purposes of the Party's participation in the Ontario Energy Board process referred to above.
4. This cost claim does not include any costs for work done, or time spent, by a person that is an employee or officer of the Party as described in sections 6.05 and 6.09 of the Board's Practice Direction on Cost Awards.

Process

Renewed Regulatory Framework for Electricity

Eligible Participant

Northwatch

HST Rate:

13%

As set out in the Board's December 17, 2010 letter, and clarified in the Board's November 8, 2011 letter, participants eligible for cost awards are required to provide a breakdown of their claims by EB number because costs awarded will be recovered as follows:

For integrated consultation activities as identified in the table below, costs awarded will be recovered from all rate-regulated licensed electricity distributors (65% of the costs awarded) and all rate-regulated licensed transmitters (35% of the costs awarded).

For activities specific to initiative(s) as identified in the table below, costs awarded will be recovered as follows:

► EB-2010-0377, from all rate-regulated licensed electricity distributors; and

► EB-2010-0378, EB-2010-0379, EB-2011-0004 and EB-2011-0043, from all rate-regulated licensed electricity distributors (50% of the costs awarded) and all rate-regulated licensed transmitters (50% of the costs awarded).

In all cases, costs awarded will be apportioned within each class based on distribution or transmission revenues, as applicable.

JBS Energy, Inc.

William B. Marcus has 32 years of experience in analyzing electric and gas utilities.

Mr. Marcus graduated from Harvard College with an A.B. magna cum laude in economics in 1974 and was elected to Phi Beta Kappa. In 1975, he received an M.A. in economics from the University of Toronto.

In July, 1984, Mr. Marcus became Principal Economist for JBS Energy, Inc. In this position, he is the company's lead economist for utility issues.

Mr. Marcus is the co-author of a book on electric restructuring prepared for the National Association of Regulatory Utility Commissioners. He wrote a major report on Performance Based Ratemaking for the Energy Foundation.

Mr. Marcus has prepared testimony and formal comments submitted to the Federal Energy Regulatory Commission, the National Energy Board of Canada, the Bonneville Power Administration, the U.S. Bureau of Indian Affairs, U.S. District Court in San Diego, Nevada County Municipal Court; committees of the Nevada, Ontario and California legislatures and the Los Angeles City Council; the California Energy Commission (CEC), the Sacramento Municipal Utility District (SMUD), the Transmission Agency of Northern California, the State of Nevada's Colorado River Commission, a hearing panel of the Alberta Beverage Container Management Board; two arbitration cases, environmental boards in Ontario, Manitoba, and Nova Scotia; and regulatory commissions in Alberta, Arizona, Arkansas, British Columbia, California, Colorado, Connecticut, District of Columbia, Hawaii, Iowa, Manitoba, Maryland, Massachusetts, Nebraska, Nevada, New Jersey, New Mexico, North Carolina, Northwest Territories, Nova Scotia, Ohio, Oklahoma, Ontario, Oregon, South Carolina, Texas, Utah, Vermont, Virginia, Washington, Wisconsin, and Yukon. He testified on issues including utility restructuring, stranded costs, Performance-Based Ratemaking, resource planning, load forecasts, need for powerplants and transmission lines, environmental effects of electricity production, evaluation of conservation potential and programs, utility affiliate transactions, mergers, utility revenue requirements, avoided cost, and electric and gas cost of service and rate design.

From 1975 to 1978, Mr. Marcus was a research analyst at the Kennedy School of Government, Harvard University. He prepared public policy case studies on environmental and transportation issues, benefit-cost analysis, and urban policy and finance for use in classes and publication in the Kennedy School Case Series.

From July, 1978 through April, 1982, Mr. Marcus was an economist at the CEC, first in the energy development division and later as a senior economist in the CEC's Executive Office. He prepared testimony on purchased power pricing and economic studies of transmission projects, renewable resources, and conservation programs, and managed interventions in utility rate cases.

From April, 1982, through June, 1984, he was principal economist at California Hydro Systems, Inc., an alternative energy consulting and development company. He prepared

financial analyses of projects, negotiated utility contracts, and provided consulting services on utility economics.

Mr. Marcus is currently the Chair of the Manufactured Home Fair Practices Commission for the City of Woodland, California. This Commission regulates space rents in the City's mobile home parks. He has served on several other local government advisory committees, including a 1991-92 SMUD Rate Advisory Committee, which recommended cost allocation and rate design changes to the SMUD Board.

TESTIMONY AND FORMAL COMMENTS

Arkansas Public Service Commission (PSC) Docket 12-012-U. Arkansas Electric Cooperative Corporation (AECC) Plan to Purchase a Combined Cycle Powerplant. July 2011. For the Arkansas Attorney General (AG).

California Public Utilities Commission (CPUC) Application 11-11-002 (Pipeline Safety Phase). Sempra Energy Utilities' Pipeline Safety Enhancement Plan). June, 2012. For The Utility Reform Network (TURN)..

CPUC App. 11-10-002. Marginal Cost, Revenue Allocation and Rate Design for San Diego Gas and Electric Company (SDG&E). January, 2012. For Utility Consumers Action Network (UCAN)..

Public Utilities Commission of Nevada (PUCN) Docket No. 09-06029. Economic and Demographic Factors Relating to Residential Electric Use in Northern and Southern Nevada. For the Nevada Attorney General's Bureau of Consumer Protection (BCP). May 2012. (formal comment)

Arkansas PSC Docket 07-085-TF et al. Avoided Cost and Other Issues Related to Energy Efficiency. May 2011. For the Arkansas AG.

Arkansas PSC Docket No. 10-011-U. Increased Costs Resulting from the combination of the Interstate Transmission Corporation (ITC) Acquisition of Entergy's Transmission and Entergy Arkansas Inc (EAI) Proposal to Leave the Entergy System Agreement and Join the Midwest ISO. April 2012. For the Arkansas AG.

CPUC App. 11-06-007. Revenue Allocation and Rate Design for Southern California Edison Company (SCE). February 2012. For TURN..

CPUC Rulemaking 11-02-019. Ratemaking Issues Relating to Pacific Gas and Electric Company's (PG&E's) Pipeline Safety Enhancement Plan. January, 2012. For TURN.

Arkansas PSC Docket No. 11-050-U. American Electric Power Proposal to Establish Southwest Transmission Company and Asset Transfer from Southwestern Electric Power Company (SWEPCO). November 2011. For the Arkansas AG.

Arkansas PSC Docket No. 11-069-U. Entergy Arkansas, Inc. (EAI) Proposal to Acquire Hot Spring Combined Cycle Powerplant. October 2011. For the Arkansas AG.

CPUC Applications 10-12-005 and 10-12-006. Policy and Revenue Requirements Issues in Southern California Gas Company's (SoCal's) and San Diego Gas and Electric Company's (SDG&E's) 2012 Test Year General Rate Cases. September 2011. For TURN for SoCal and Utility Consumers Action Network (UCAN) for SDG&E.

Colorado Public Utilities Commission (PUC). Docket No. 11AL-151G. Cost Allocation and Rate Design for Public Service Company of Colorado's Gas Operations. October 2010. For Energy Outreach Colorado. (case settled)

Arkansas PSC Docket No. 10-011-U. Regulatory Asset Ratemaking Related to EAI's Proposal to Leave the Entergy System Agreement and Join the Midwest ISO. July 2011. For the Arkansas AG.

CPUC App. 11-03-002. Policy Issues Related to Demand Response Program Design and Implementation Pricing for SDG&E. June 2010. For UCAN. (case settled)

Arkansas PSC Docket 07-085-TF et al. Need to Include Provisions Related to Avoided Cost Data in Arkansas' Utilities Energy Efficiency Tariffs. June 2011. For the Arkansas AG (written proceeding, no hearing).

CPUC Application 10-11-015. Policy and Revenue Requirements Issues in SCE's 2011 Test Year General Rate Case. June 2011. For TURN.

CPUC Application 10-11-009. Revenue Requirements for SCE's Catalina Island Water Utility. May 2011. For TURN.

Alberta Utilities Commission (AUC) Application 1606549. Business Risk of Gas and Electric Utilities; Management Fees for Contributions in Aid of Construction. March 2011. For the Alberta Utilities Consumer Advocate (UCA).

Arkansas PSC Docket 10-067-U. Revenue Requirement, Cost of Service and Residential Rate Design for Oklahoma Gas and Electric Company (OG&E). March 2011. For the Arkansas AG (case settled).

PUCN. Dockets 10-10024 and 10-10025. Estimating Lost Revenue from Energy Efficiency for Sierra Pacific Power Company (Sierra) and Nevada Power Company (NPC). March 2011. For Nevada BCP.

CPUC App. 10-07-009. Policy Issues Related to Critical Peak Pricing for SDG&E. February 2011. For UCAN. (case settled)

PUCN Dockets 10-08014 and 10-08015. Time of Use and Critical Peak Pricing Rates for Sierra and NPC. January 2011. For Nevada BCP.

Arkansas PSC Docket 10-052-U. Revenue Requirement, Cost of Service and Residential Rate Design for Empire District Electric Company (Empire). December 2010. For the Arkansas AG (case settled).

Public Utility Commission of Texas (PUCT) Docket 38480. Revenue Requirement, Cost of Service, and Residential Rate Design for Texas New Mexico Power Company (TNMP). November 2010. For the Texas Office of Public Utility Counsel (OPUC). (case settled)

Colorado PUC. Docket No. 10AL-455G. Capital Structure and Rate of Return for Source Gas Distribution. October 2010. For AM Gas Transport Corp. and Barton Levin. (case settled)

PUCN Docket 10-06001 *et al.* Marginal Cost, Revenue Allocation, and Residential Rate Design for Sierra. October 2010. For Nevada BCP.

CPUC Application 10-03-014. Marginal Cost, Revenue Allocation, and Residential Rate Design for PG&E. October 2010. For TURN. (case settled, except residential rate design)

AUC Application No. 1606230. Cost of Service and Rate Design for AltaGas Ltd.. September 2010. For the Alberta UCA. (joint testimony with R. Bruggeman; case settled).

Iowa Utilities Board. Docket No. RPU-2010-0001. Weather Normalization, Cost of Service and Residential Rate Design for Interstate Power Limited. July 2010. For the Iowa Office of Consumer Advocate (OCA).

PUCT Docket 37744. Executive Compensation and other Revenue Requirement issues for Entergy Texas, Inc.. June 2010. For Texas OPUC. (case settled)

AUC Application No. 1605758. Return Margin for Epcor Energy Alberta, Inc. (EEAI) Electric Regulated Rate Tariff (RRT). June 2010. For Alberta UCA. (case settled)

CPUC Application 09-12-020. Policy and Revenue Requirements Issues in PG&E's 2011 Test Year General Rate Case. May 2010. For TURN. (case settled after hearing)

CPUC App. 09-12-002. Choice of Investment Tax Credit versus Production Tax Credit for PG&E's Proposal to Acquire the Manzana Wind Project. April 2010. For TURN.

Arkansas PSC Docket 10-008-U. Securitization of Ice Storm Costs for EAI. March 2010. For the Arkansas AG.

Nebraska PSC Docket No. NG-0061. Weather Normalization, Cost of Service, and Residential Rate Design of Black Hills/Nebraska Gas Utility Company. March, 2010. For the Nebraska Public Advocate.

Arkansas PSC Docket 09-084-U. Formula Rate Plan, Revenue Requirement, Cost of Service, and Residential Rate Design for EAI. February 2010. For the Arkansas AG. (case settled)

PUCT Docket 37364. Construction Work in Progress in the Rate Base and other Revenue Requirement Issues for Southwestern Electric Power Company (SWEPCO). February 2010. For Texas OPUC. (case settled)

AUC Application No. 1605580. Irrigation Rate Design for Fortis Alberta, Inc. January 2010. For Alberta UCA.

Arkansas PSC Dockets 07-077-TF, 07-078-TF, 07-081-TF, and 07-085-TF (Energy Efficiency). Energy Efficiency Incentives; Total Energy Efficiency from Using Gas Instead of Electricity; Efficiency as a Substitute for Smart Meters. September-October, 2009. For the Arkansas AG.

CPUC App. 09-04-004 *et al.* Economic Assumptions Associated with Nuclear Decommissioning Costs. August 2009. For TURN. (case settled after appearance).

AUC Application 1587092. Cost Allocation and Rate Design for Atco Gas Ltd.. July 2009. For the Alberta UCA. (joint with H. VanderVeen and R. Bruggeman; case settled)

CPUC Application 08-05-023. PG&E's Distribution Reliability Improvement Program. July 2009. For TURN.

Arkansas PSC Docket 09-008-U. Construction Work in Progress in the Rate Base, Revenue Requirement, Cost of Service, and Residential Rate Design for SWEPCO. June 2009. For the Arkansas AG. (case settled)

PUCT. Docket 36025. Revenue Requirement and Hurricane Ike Cost Recovery for TNMP. For Texas OPUC. April 2009 (case settled).

PUCN. Docket 07-12005. Executive Compensation Request of Nevada Power Company (NPC). April 2008. For Nevada BCP.

AUC Application 1587092. Management Fee for Contributions in Aid of Construction for AltaLink Management. . March 2009. For the Consumers' Coalition of Alberta (CCA) and Public Institutional Consumers of Alberta (PICA).

AUC Application 1578571. Business Risk of Alberta Utilities. . March 2009. For the Alberta UCA.

Arkansas PSC Docket 08-103-U. Revenue Requirement, Cost of Service, and Residential Rate Design for OG&E. January 2009. For the Arkansas AG. (case settled)

CPUC App. 08-02-001 Phase 2. Cost of Service and Revenue Allocation for SoCal Gas. December 2008. For TURN. (case settled)

AUC Application No. 1578371. Management Fee for Contributions in Aid of Construction for Atco Electric Company. . December 2008. For CCA and PICA.

Arkansas PSC Docket 08-139-U Phase IIB. Extraordinary Storm Damage Recovery Request of EAI. November 2007. For the Arkansas AG.

PUCT Docket 35717. Cost of Service and Rate Design for Oncor Delivery Services, Inc. For Texas OPUC. October 2008.

CPUC App. 08-03-002. Cost of Service and Class Revenue Allocation for SCE. October 2008. For TURN. (case settled)

PUCT Docket 35763. Revenue Requirements, Cost of Service, and Rate Design of Southwestern Public Service Company (SPS). For Texas OPUC. October 2008. (case settled)

PUCT Docket 35668. Interruptible Rates and Air Conditioner and Water Heater Cycling Programs of SPS. For Texas OPUC. September 2008. (case settled)

Colorado PUC, Docket 08S-146G. Cost Allocation and Rate Design for Public Service Company of Colorado's Gas Operations. For Energy Outreach Colorado. July 2008.

AUC Application No. 1512069. Evaluation of Ten-Year Formula Based Rate Program of Enmax Power Corporation. July 2008. For the CCA and PICA.

PUCN Docket 07-12005. Marginal Cost and Rate Design of Sierra. April 2008. For Nevada BCP.

Arkansas PSC Docket 06-152-U Phase IIB. Capacity Acquisition Rider for the Ouachita Plant of EAI. October 2007. For the Arkansas AG.

CPUC App. 07-07-026. Policy Analysis and Cost-Effectiveness Evaluation of SCE's Advanced Metering Infrastructure Program. January 2008. For TURN.

PUCN Docket 07-09016. Allocation of Gas Pipeline Charges between Sierra's Gas and Electric Departments. December 2007. For Nevada BCP.

Alberta Energy and Utilities Board (Alberta EUB). Application 1512342. Return Margin for Regulated Retail Electric Service provided by Epcor Energy Services. November 2007. For the Alberta UCA.

Washington Utilities and Transportation Commission. Docket Nos. UE-070804/UG-070805. Rate of Return and Revenue Requirement Issues for Avista Energy. October 2007. For Washington Public Counsel. (case settled)

Arkansas PSC Docket 07-129-U. Annual Earnings Review Tariff for EAI. October 2007. For the Arkansas AG.

Arkansas PSC Docket 06-152-U Phase IIA. EAI's Proposed Capacity Acquisition Rider. October 2007. For the Arkansas AG.

Arkansas PSC Docket 07-026-U. Revenue Requirement, Cost of Service, and Residential Rate Design for Arkansas Oklahoma Gas Corporation (AOG). September 2007. For the Arkansas AG. (case settled)

CPUC App. 07-01-041. Marginal Cost and Revenue Allocation for SDG&E. August 2007. For UCAN. (case settled)

CPUC App. 07-05-003 et al. Pension and Decommissioning Fund Returns as Related to Cost of Capital of California Energy Utilities. August 2007. For Aglet Consumer Alliance (Aglet), TURN, and UCAN.

Arkansas PSC Docket 06-161-U. Revenue Requirement and Cost of Service for Centerpoint Arkla. July 2007. For the Arkansas AG. (case settled)

CPUC App. 06-12-009/010. Revenue Requirements Issues for SoCal Gas and SDG&E. July 2007. For TURN (SoCal Gas) and UCAN (SDG&E). (SoCal Gas portion of case settled)

Maryland PSC Case No. 9104. Cost of Service, Revenue Allocation, and Service Quality issues for Washington Gas Light Company (WGL). July 2007. For Maryland Office of People's Counsel (OPC).

CPUC Rulemaking 06-04-010. Inappropriateness of Avoided Supply-Side Equity Returns as the Basis for Energy Efficiency Incentives. May 2007. For TURN.

Alberta EUB. Application 1492697. Return Margin for Regulated Retail Gas Service provided by Direct Energy Regulated Services. April 2007. For the Alberta UCA.

Alberta Beverage Control Management Board Hearing Review Panel. Return Margin for Bottle Recycling Depots. For Canada's National Brewers. March 2007.

Arkansas PSC Docket 06-124-U. Revenue Requirement and Cost of Service, for Arkansas Western Gas Company (AWG). February 2007. For the Arkansas AG (case settled).

Arkansas PSC Docket 06-101-U. Revenue Requirement, Cost of Service, and Residential Rate Design for EAI. February 2007. For the Arkansas AG.

Alberta EUB. Application 1468565. Policy Testimony Regarding the Establishment of a Uniform System of Accounts for Alberta Electric Utilities. November 2006. For the Alberta Federation of REAs Ltd and Alberta Association of Municipal Districts and Counties (REA/AAMDC), CCA, and PICA.

CPUC App. 06-03-005. Marginal Cost and Class Revenue Allocation for PG&E. October. 2006. For TURN (case settled).

PUCN. Docket 06-06007. Special Contract to Extend Service from Nevada Power to MGM Mirage Project. October 2006. For Nevada BCP.

Arkansas PSC Docket 06-070-U. Revenue Requirement, Cost of Service, and Residential Rate Design for OG&E. October 2006. For the Arkansas AG. (case settled)

CPUC App. 05-03-015. Value of Demand Response and Policy Issues Associated with SDG&E's Proposed Automatic Metering Infrastructure Program. August 2006. For UCAN.

CPUC App. 06-04-012. Ratemaking and Performance Requirements for Two Proposed PG&E Powerplants. August 2006. For TURN.

(PUCN Docket 06-05007. Inquiry on Electric Marginal Cost Methods. July and October 2006. For Nevada BCP (formal comments).

Alberta EUB. Applications 1455025 and 1457764. Return Margin for Regulated Retail Electric Service provided by Direct Energy Regulated Services and Enmax Energy Services. July 2006. For Alberta UCA and several other organizations representing Alberta consumers.

CPUC App. 05-12-005. Revenue Requirements for PG&E's Electric Generation and Electric and Gas Distribution Activities. April. 2006. For TURN.

Alberta EUB. Application 1434992. Allocation of Transmission Costs of Fortis Alberta, Inc. to Customer Classes. April 2006. For REA/AAMDC.

Arkansas PSC Docket 06-028-R. Principles for Integrated Resource Planning. April 2006. For the Arkansas AG. (formal opening and reply comments, prepared jointly with C.K. Mitchell)

PUCN. Docket 05-10003/10005. Electric and Gas Cost of Service and Residential Rate Design for Sierra. February 2006. For Nevada BCP.

CPUC App. 05-05-023. Marginal Cost and Revenue Allocation of SCE. January 2006. For TURN. (case settled)

CPUC App. 05-06-028. Value of Demand Response in PG&E's Advanced Metering Infrastructure (AMI) Program. January 2006. For TURN.

CPUC App. 05-06-028. Impact of Pending Municipal Annexation Proposal in Yolo County on PG&E's AMI Program. January 2006 (deployment) and June 2005 (pre-deployment). For Yolo County and cities of Davis, West Sacramento, and Woodland.

CPUC App. 05-06-018. Revenue Requirements, Marginal Cost, Revenue Allocation, and Residential Rate Design for Sierra's California Operations. November-December 2005. For TURN (two separate pieces of testimony; case settled)

Arkansas PSC Docket 05-111-P. AWG's Proposed Weatherization Program. November 2005. For the Arkansas AG.

CPUC Rulemakings 04-04-025 and 04-04-003. Avoided Cost Policy for Qualifying Facilities. September 2005. For TURN.

Arkansas PSC Docket 05-006-U. Revenue Requirement, Cost of Service, and Residential Rate Design for AOG. August 2005. For the Arkansas AG.

Arkansas PSC Docket 04-176-U. Revenue Requirement, Cost of Service, and Residential Rate Design for AWG. July 2005. For the Arkansas AG.

Arkansas PSC Docket 04-121-U. Revenue Requirement, Cost of Service, and Residential Rate Design for Centerpoint Arkla. May 2005. For the Arkansas AG.

Maryland PSC Case No. 8990. Testimony Supporting Settlement on Interruptible Rate Design, Revenue Normalization Mechanism and Future Residential Rate Design for WGL. May 2005. For Maryland OPC.

CPUC App. 04-12-014. Revenue Requirements for SCE. May 2005. For TURN.

Arkansas PSC Docket 04-141-U. Revenue Requirements, Electric Heat Promotion Policy, and Rate Design for Arkansas Electric Co-operative Corp. March 2005. For the Arkansas AG.

CPUC App. 04-06-024. Electric Marginal Cost and Revenue Allocation for PG&E. March 2005. For TURN (case settled).

CPUC App. 04-11-003. Revenue Requirement Settlement for SDG&E's Palomar Combined Cycle Plant. March 2005. For TURN (joint testimony with SDG&E and Office of Ratepayer Advocates' witnesses)

CPUC App. 04-03-021. Gas Marginal Cost and Residential Rate Design for PG&E. January 2005. For TURN. (rate design issues settled)

CPUC App. 04-02-026. Cost-Effectiveness Analysis of Scenarios for Southern California Edison Company's (SCE's) San Onofre Steam Generator Replacement Project. December 2004. For TURN.

Arkansas PSC Docket 04-100-U. Revenue Requirement, Cost of Service, and Residential Rate Design for Empire. November 2004. For the Arkansas AG. (case settled)

PUCN. Docket 04-5021. Consolidation of Sierra's Liquefied Propane Gas Rates with its Natural Gas Rates. August 2004. For Nevada BCP.

Nevada PUC. Docket 01-1042. Divestiture of Utility Generating Plants. April 2001. For Nevada BCP. (testimony given orally).

CPUC App. 00-07-001. Marginal Cost and Revenue Allocation for Sierra's California System. February 2001. For TURN. (case settled)

CPUC App. 00-11-038 et al. Utility Financial Issues Related to Emergency Rate Relief. February 2001. For TURN.

CPUC App. 00-11-038 et al. Rate Design for Emergency Rate Relief and Ratemaking for Diablo Canyon Nuclear Plant. December 2000. For TURN.

Arkansas PSC. Rate unbundling testimony for 12 cooperatives where cases settled before hearing. (Cases not settled listed below.) For Arkansas AG. January-December 2000. Details available on request.

CPUC App. 00-05-024. Benefits of Retaining the Palo Verde and Four Corners Powerplants in Regulated Service. November 2000. For TURN and the CPUC's Office of Ratepayer Advocates (ORA). (case rendered moot by legislation)

Alberta EUB. Docket 2000257. Return Margin and Marketing Expenses under Epcor's Regulated Retail Rate Obligation Tariff. October 2000. For the FIRM Group. (case settled)

Alberta EUB Docket 2000136. Cost of Service and Rate Design for Atco Electric Distribution Service. October 2000. For REA/AAMDC.

Alberta EUB Docket 2000258. Testimony on UNCA Distribution Performance-Based Ratemaking (PBR) Proposal. (1) Economic Aspects (Indexing and Sharing). (2) Business Risk of Distribution Wires Business (also filed in Docket 2000136), and (3) Cost of Service. October 2000. For FIRM Group, except cost of service for REA/AAMDC. (case settled)

Arkansas PSC Docket 99-263-U. Rate Unbundling for Southwest Arkansas Electric Cooperative Corporation (ECC). October 2000. For the Arkansas AG. (three-party settlement opposed by industrial intervenor)

CPUC App. 99-03-014. PG&E's Marginal Electric Distribution Cost, Revenue Allocation, and Rate Design. September 2000. For TURN. (case dismissed due to energy crisis)

Arkansas PSC Docket 00-190-U. Consumer Impacts of Electric Utility Restructuring. September 2000. For the Arkansas AG.

CPUC App. 00-04-002. PG&E's Gas Marginal Costs. September 2000. For TURN.

Alberta EUB Docket 2000135. Cost of Service and Rate Design for ESBI Alberta Ltd. Transmission Service. August 2000. For the FIRM Group.

Arkansas PSC Docket 99-249-U. Rate Unbundling for EAI. July 2000. For the Arkansas AG. (settled except rate design)

CPUC App. 99-09-053. Projection of Future Revenue Sharing under Settlement allowing Transfer of PG&E's Hydroelectric Plants to an Affiliate with Revenue Sharing between the Affiliate and Ratepayers. August 2000. For TURN. (testimony never presented, rendered moot by legislation)

Alberta EUB. 2001 GTA for the Transmission Administrator. Rate Design for Reserves and Contribution Policy. August 2000. For the FIRM Group.

Alberta EUB. Ratemaking for Investment Credits for TransAlta's Industrial Customers. June 2000. For the FIRM Group. (joint testimony with J. Nahigian)

California PUC App. 99-09-053. Projection of Valuation and Future Ratemaking Results for Retention of PG&E's Hydroelectric Plants within the Utility. June 2000. For TURN and ORA.

California PUC App. 99-09-006. Ratemaking for Decommissioning of PG&E's Hunters Point Power Plant. June 2000. For City and County of San Francisco.

Wisconsin PSC Docket No. 6630-UR-111. Electric and Gas Cost of Service and Rate Design of Wisconsin Electric Power Company. March, 2000. For the Wisconsin Citizens Utility Board.

CPUC App. 04-01-009. Cost-Effectiveness Analysis of Scenarios for PG&E's Diablo Canyon Steam Generator Replacement Project. August 2004. For TURN.

Northwest Territories PUB. Evaluation of the Snare-Yellowknife Reliability Criteria of the Northwest Territories Power Corporation. July 2004. For the City of Yellowknife (joint testimony with R. L. Bruggeman).

Arkansas PSC Docket 01-041-U. EAI Request for Transition Cost Recovery. April 2004. For the Arkansas AG.

CPUC Apps. 02-12-027/02-12-028, Phase 2. Economic Evaluation of Performance Based Ratemaking (PBR) Framework for Sempra Energy Utilities. April 2004. For TURN.

PUCN Docket 03-12002. Marginal Cost and Rate Design for Sierra. March 2004. For Nevada BCP (case settled)

Arkansas PSC Docket 02-179-U. Gas Procurement Practices of AWG. March 2004. For the Arkansas AG.

City and County of San Francisco vs. Turlock Irrigation District, Non-Binding Arbitration (before Panelists Hanschen, O'Neill and Power). Regulatory Decisions that Led to the California Energy Crisis. March 2004. For the City and County of San Francisco. (case settled after appearance)

PUCN Docket 03-10001. Marginal Cost and Rate Design for NPC. January 2004. For Nevada BCP.

CPUC Rulemaking 01-10-024 (SDG&E Procurement Phase). Comparison of Costs for Palomar project and Otay Mesa, Mountainview, and Sempra DWR Contracts. January 2004. For TURN.

Alberta EUB. Dockets 1306818 and 1306819. Return Margin for Enmax Energy Corporation's Regulated Retail Tariff and Use of Equity Contributions from Ratepayers to Fund Enmax Power Corporation's Distribution Plant. January 2004. For Enmax Consumer Group (five groups of Enmax customers).

PUCN Dockets 03-6040 and 03-6041. Standby Rate Design for NPC and Sierra. November 2003. For Nevada BCP. (case settled)

CPUC Application 03-07-032. Review of SCE's Mountainview Powerplant. September 2003. For TURN.

CPUC Apps. 02-12-027/02-12-028. Revenue Requirement for SDG&E and Southern California Gas (SoCal Gas). September 2003. For TURN and UCAN.

Alberta EUB Docket 1271597 (Generic Cost of Capital). Business Risk of Alberta Utilities. July 2003. For the Consumer Group (nine Alberta electric and gas consumer groups). (joint testimony with Robert Liddle)

Maryland PSC Case No. 8959. Embedded and Marginal Cost of Service, and Review of Tariffed Service Charges for Washington Gas Light (WGL). June 2003. For Maryland OPC.

CPUC App. 02-11-017. Revenue Requirement for PG&E's Electric Generation and Electric and Gas Distribution Operations. May 2003. For TURN. (case settled after appearance)

Arkansas PSC Docket 02-227-U. Revenue Requirement, Cost of Service, and Residential Rate Design for AWG. May 2003. For the Arkansas AG.

CPUC App. 03-07-032. Review of the Future of SCE's Mohave Coal Plant. April and October 2003, June 2004. For TURN.

CPUC Rulemaking 01-10-024. Renewable Portfolio Standard Implementation. April 2003. For TURN.

California Energy Commission (CEC) Integrated Electricity Policy Report. Electric Resource Costs. February 2003. For TURN (formal comment)

CPUC App. 01-10-011. Revenue Requirement and Electric Generation Demand Forecast for PG&E's Gas Transmission Rates. February 2003. For TURN. (case settled)

Alberta EUB Docket 1275494. Business Risk of Atco Electric. February 2003. For the FIRM Group (Alberta Federation of REAs and Alberta Assn. of Municipal Districts and Counties (REA/AAMDC), Alberta Irrigation Projects Assn., CCA, Alberta Urban Municipalities Assn., and PICA).

CPUC App. 02-05-004. Revenue Requirements and Resource Planning for SCE. December, 2002. For TURN.

Oklahoma Corporation Commission Cause No. PUD 200200166. Revenue Requirements, Cost of Service, and Residential Rate Design for Reliant Arkla Gas. October 2002. For the Oklahoma AG. (case settled)

Arkansas PSC Docket 02-024-U. Revenue Requirements, Cost of Service, and Residential Rate Design for AOG. August 2002. For the Arkansas AG.

CPUC Rulemaking 01-05-047. Demographic Analysis of California Residential Users and Proposals for Surcharge Relief for Lower-Middle-Income customers. August 2002. For TURN.

Alberta EUB Docket 1250392. Cost of Service for Aquila Networks Canada (ANCA). July 2002 For REA/AAMDC. (joint testimony with Arnie Reimer)

Maryland PSC Case No. 8920. Embedded and Marginal Cost of Service, and Analysis of Tariffed Service Charges for WGL. June 2002. For Maryland OPC. (case settled)

CPUC Rulemaking 02-01-011. Exit Fees for Direct Access Customers. June 2002. For TURN.

CPUC Rulemaking 01-10-024. Procurement of Renewable Resources by California Investor-Owned Utilities. May 2002. For TURN.

CPUC App. 00-10-045 et al. Ratemaking for Recovery of AB 265 Balances from SDG&E Customers. May, 2002. For UCAN.

Arkansas PSC Docket 01-243-U. Revenue Requirement, Cost of Service, and Residential Rate Design for Reliant Arkla Gas. May 2002. For the Arkansas AG. (case settled)

PUCN Docket 01-11030. Cost of Service and Rate Design for Sierra. March 2002. For Nevada BCP.

Alberta EUB Docket 1250392. Business Risk of ANCA. March 2002. For the FIRM Group. (this part of case settled)

Alberta EUB Docket 1248859. Transmission Congestion Management Policy. For the FIRM Group. March 2002 (joint testimony with Eric Woychik)

PUCN Docket 01-10001. Cost of Service and Rate Design for NPC. January 2002. For Nevada BCP.

Arkansas PSC Docket 01-184U. Ratemaking for Ice Storm Damage for Entergy Arkansas, Inc., December 2001. For the Arkansas AG. (case settled)

Alberta EUB Docket 1244140. Article 24 Module. Payments to Generators for Transmission Must Run Services. For the FIRM Group. November 2001 (joint testimony with Eric Woychik)

PUCN Docket 01-7023. Revenue Requirement, Cost of Service, and Rate Design of Southwest Gas. November 2001. For Nevada AFL-CIO. (revenue requirements settled)

PUCN Docket 01-4047. Southwest Gas' Rules for Switching between Transportation and Sales Service. October 2001. For Nevada BCP.

Arkansas PSC Docket 00-190-U (second phase). Consumer Impacts of Electric Utility Restructuring. September 2001. For the Arkansas AG.

CPUC App. 00-11-038 et al. Department of Water Resources' Revenue Requirement for Service to Utility Customers. August 2001. For TURN (formal comment)

Arizona Commerce Commission, Dockets G-01551A-00-0309 And G-01551A-00-0127. Cost of Service and Rate Design for Southwest Gas. July 2001. For Complainants (Union Club of Arizona, Public Interest Research Group, et al.)

CPUC App. 00-11-038 et al. Ratemaking for Utility Retained Generation. July 2001. For TURN.

Arkansas PSC. Rate Unbundling testimony in 2001 for four co-ops and three investor-owned utilities, where cases were settled without hearing. January-June 2001. For the Arkansas AG. Details available on request.

CPUC App. 00-11-038 et al. Tiered Rate Design for Emergency Rate Surcharge. April 2001. For TURN.

New Jersey Board of Public Utilities (BPU). Docket No. EX99090676. Competition and Customer Account Services. March 2000. For the New Jersey Division of the Ratepayer Advocate. (case settled)

CPUC App. 91-11-024 (1999 Rate Design Window). Electric Marginal Cost and Rate Design of SDG&E. March 2000. For UCAN.

CPUC App. 99-03-013 et al. Policy Analysis of Revenue Cycle Services and Energy Service Provider Fees and Charges. February 2000. For TURN.

PUCN Docket 99-7035. Cost Allocation in NPC's Deferred Energy Case. January 2000. For Nevada BCP.

Arkansas PSC. Docket 99-238-U. Unbundled Rates for the Ouachita Electric Cooperative Corp. December 1999. For the Arkansas AG. (case settled)

PUCN Docket 99-4005 Phase 2. Unbundled Distribution Revenue Requirement, Marginal Cost and Rate Design of NPC. November 1999. For Nevada BCP.

Maryland PSC. Case No. 8820. Affiliate Transaction Rules. October 1999. For Maryland OPC. (formal comments)

PUCN. Docket 99-4001 Phase 2. Unbundled Distribution Revenue Requirement, Marginal Costs and Rate Design of Sierra. October 1999. For Nevada BCP.

CPUC App. 99-04-024. SCE's 1997-98 Capital Additions. October 1999. For TURN.

Alberta EUB. Review of Power Purchase Agreements developed by the Independent Assessment Team. Need for Sharing or Reopeners in 20-Year Indexed Generation Contracts. September 1999. For the Consortium (of over 10 Alberta consumer groups and municipalities). (Joint Testimony with Mark Drazen)

PUCN Docket 99-4005 Phase 1. Unbundling Principles and Revenue Requirement Issues of NPC. August, 1999. For Nevada BCP.

PUCN Docket 99-4001 Phase 1. Unbundling Principles and Revenue Requirement Issues for Sierra. July 1999. For Nevada BCP.

CPUC App. 99-01-016 et al. Treatment of Securitized Revenue Bonds and Revenue Allocation Issues in Post Transition Ratemaking, Phase II. July 1999. For TURN and UCAN.

Alberta EUB. 1999-2000 GTA for the Transmission Administrator. Transmission Rate Design for Reserves. July, 1999. For the FIRM Group.

Arkansas PSC. Docket 98-339-U. Testimony in Support of the Cost of Service Settlement for Southwestern Electric Power Company (SWEPCO). July, 1999. For the Arkansas AG.

CPUC App. 99-01-016 et al. Revenue Allocation issues in Post Transition Ratemaking. July, 1999. For TURN.

Hawaii PUC. Docket 98-0013. Reasonableness of Contract Between Hawaii Electric Light Company (HELCO) and Encogen Hawaii, L.P. March, 1999. For Encogen Hawaii, L.P. (case settled)

CPUC App. 98-10-012 and 98-10-031. Marginal Cost and Rate Design for SoCal Gas and Electric Generation Rate Policy for Sempra Energy Gas Utilities. March 1999. For TURN and UCAN.

Alberta EUB. 1999-2000 General Tariff Applications. Differentiation of Risk among Regulated Functions of the Alberta Utilities. February, 1999. For the FIRM Group

Alberta EUB. Alberta Power Ltd. (APL) 1998 General Tariff Application Phase 2. Cost of Service and Rate Design. November, 1998. Generation and transmission costs for the FIRM Group, distribution costs and farm rate design for REA/AAMDC.

Alberta EUB. TransAlta Utilities (TAU) 1998 General Tariff Application Phase 2. October, 1998. Cost of Service and Rate Design. For the FIRM Group.

PUCN Docket No. 98-9038 and 98-8034. Metering and Billing as Potentially Competitive Services for NPC and Sierra. September, 1998. For Nevada BCP. (identical testimony filed in each docket)

Maryland PSC. Case No. 8791. Jurisdictional Allocation, Cost of Service and Rate Design of Potomac Electric Power Company. August, 1998. For Maryland OPC.

CPUC OII 98-09-007. Report on Tree Trimming Expenditures of PG&E 1987-1997. Direct Testimony July, 1998, rebuttal testimony March, 1999. For CPUC Consumer Services Division.

CPUC App. 97-12-020. Expenses and Capital Projects of PG&E. July, 1998. For TURN.

CPUC App. 98-01-016. SDG&E's Cost of Service and Performance Based Ratemaking. July, 1998. For UCAN.

CPUC App. 98-04-012. Transfer of the El Dorado Hydro Project from PG&E to the El Dorado Irrigation District. For El Dorado Irrigation District.

CPUC App. 96-12-009 et al. Revenue Cycle Service Unbundling. April, 1998. For TURN and UCAN.

CPUC App. 97-10-014 et al. Generation Capital Additions for PG&E and SCE. (PG&E settled) February 1998. For TURN.

PUCN. Dockets 97-11018 and 97-11028. Cost Unbundling of NPC and Sierra. February 1998 and December 1997. For Nevada BCP.

Virginia Corporation Commission. Case No. PUE960296. Stranded Costs, Regulatory Assets, and Alternative Ratemaking for Virginia Power. December, 1997. (part settled; part moved to future docket) For Southern Environmental Law Center.

CPUC App. 97-03-002. Gas Marginal Cost and Rate Design for PG&E. December, 1997. For TURN.

New Jersey BPU Docket EO97070456. Stranded Costs of Atlantic City Electric Company. December, 1997. For New Jersey Public Interest Intervenors (NJPII)

New Jersey BPU Docket EO97070462. Stranded Costs of Public Service Electric and Gas Company. November, 1997. For NJPII.

New Jersey BPU Docket EO 97070459. Stranded Costs of General Public Utilities. November, 1997. For NJPII.

Nevada PUC. Docket 97-8001. Structure for Unbundling Costs of Nevada Electric Utilities. September, 1997. For Nevada BCP.

CPUC App. 96-07-018. Impact of Closure of PG&E's El Dorado Hydro Project on PG&E's Revenue Requirement. September, 1997. For El Dorado Irrigation District.

CPUC App. 96-10-038. Economic and Affiliate Transaction Issues in the SoCal Gas-SDG&E merger. August, 1997. For TURN and UCAN.

CPUC App. 96-08-001 et al. Competitive Transition Charges for the California Utilities. May, 1997. For TURN and UCAN.

Nevada County Municipal Court. People v. Pacific Gas and Electric Company (PG&E) Authorized and Actual Tree Trimming Spending; PG&E Profits. April 1997. (testimony given orally) For Nevada County District Attorney.

CPUC App. 96-12-009. Unbundling Rates for the California Utilities. February 1997. For TURN and UCAN.

Nevada PSC. Southwest Gas Advice No. 346. Cost Allocation for Purchased Gas Adjustment Case. February 1997. For Nevada Office of Consumer Advocate (OCA – later renamed BCP)

PUCT Project No. 16536. Unbundling Electric Distribution Functions. January, 1997. For Environmental Defense. (formal comment)

CPUC App. 95-06-002. SoCal Gas' Performance-Based Ratemaking (PBR) Proposal: Indexing, Sharing, Residential Rate Design. October 1996. For TURN and California Department of General Services (DGS).

Washington Utilities and Transportation Commission. Docket UE-960195. Stranded Cost and Other Issues Affecting Merger of Puget Sound Power and Light with Washington Natural Gas. September 1996. For Washington Public Counsel.

CPUC App. 96-03-054. Ratemaking for PG&E's Diablo Canyon Nuclear Plant. September 1996. For TURN.

CEC Docket 95-ER-96. Rate Design Issues in Electric Restructuring. August 1996. For TURN.

CPUC App. 96-02-056. Ratemaking for SCE Share of the Palo Verde Nuclear Plant. August 1996. For TURN.

Alberta EUB. 1996 General Rate Application. Unbundling the Cost of Capital in Alberta's Restructuring. August 1996. For the FIRM Group.

CPUC App. 96-03-031. Marginal Cost and Residential Rate Design of SoCal Gas. July 1996. For TURN.

Northwest Territories PUB. Northwest Territories Power Corporation GRA. Evaluation of Reliability Criteria and the Snare Cascades Hydroelectric Project. May 1996. (case settled) For City of Yellowknife.

PUCT Docket 15000. Generation Market Structure. March 1996. For Environmental Defense (formal comment)

CPUC App. 94-12-005 Phase 2. Marginal Cost, Revenue Allocation, and Residential Rate Design of PG&E. December 1995. For TURN.

Bonneville Power Administration (BPA) 1996 Wholesale Power and Transmission Rate Case. Design of Ancillary Service Rates. September 1995. For Renewable Northwest Project.

CPUC App. 95-05-023 et al. Treatment of Customer Deposits in Utility Capital Structures. August 1995. For TURN.

U.S. District Court, San Diego. James v. Southern California Edison. Case No. 94-1085-J. Ratemaking for Potential Outage for San Onofre 3 before Commercial Operation in 1984. August 1995 (oral testimony). For Glenn James.

CPUC App. 93-12-025. Marginal Cost, Revenue Allocation, and Rate Design for SCE. June 1995. For TURN.

Ontario Energy Board (OEB) Docket HR 23. Cost Allocation and Backup Power Rate Design of Ontario Hydro. June 1995. For Independent Power Society of Ontario (IPPSO).

CPUC App. 94-11-015. Gas Load Forecast and Marginal Cost of PG&E. June 1995. For TURN.

OEB Docket E.B.R.O. 490. Cost Allocation for Ancillary Business Activities of Consumers Gas Company. May 1995. For HVAC Coalition.

CPUC App. 94-12-005. Revenue Requirement Issues for PG&E. May 1995. For TURN.

BY COURIER

Ms. Kirsten Walli
Board Secretary
Ontario Energy Board
2300 Yonge Street
Suite 2700,
Toronto, ON.
M4P 1E4

Dear Ms. Walli:

EB-2011-0004 – OEB Consultation on Developing Guidance for the Implementation of Smart Grid in Ontario – Hydro One Networks Comments on Intervenor Cost Claims

I write to advise that Hydro One Networks Inc. has received and reviewed the cost claims from Retail Council of Canada, Ontario Water Power Association, Ontario Sustainable Energy Association, Northwatch, National Chiefs Office, London Property Management Association, Energy Probe, Electrical Contractors Association of Ontario, Canadian Federation of Independent Business, Canadian District Energy Association, Consumers Council of Canada, Canadian Wind Energy Association, Canadian Solar Industries Association, Association of Power Producers of Ontario, Pollution Probe, Building Owners and Managers Association, Council of Canadians, and Agri-Energy Producers Association of Ontario and will raise no issues with their claims.

With respect to the costs claim from Association of Major Power Consumers in Ontario, Hydro One requests that the Assessment Officer ensure that the all the disbursements are in compliance with the OEB Practice Direction on Cost Awards.

With respect to the costs claim from Canadian Manufacturers and Exporters, Hydro One requests that the Assessment Officer ensure that the Form 1 match Form 3.

Sincerely,

ORIGINAL SIGNED BY ODED HUBERT FOR SUSAN FRANK

Susan Frank

Ken Quesnelle
Member

DECISION AND ORDER ON COST AWARDS

October 18, 2012

Background

On December 17, 2010 the Board issued a [letter](#) initiating a consultation process to develop a Renewed Regulatory Framework for Electricity ("RRFE") that included three elements:

- Distribution Network Investment Planning (EB-2010-0377);
- Approaches to Mitigation for Electricity Transmitters and Distributors (EB-2010-0378); and
- Defining and Measuring the Performance of Electricity Transmitters and Distributors (EB-2010-0379).

On November 8, 2011 the Board issued a [letter](#) announcing an expanded scope of the RRFE to include two related consultations that were already underway:

- Establishment, Implementation and Promotion of a Smart Grid in Ontario (EB-2011-0004); and
- Regulatory Framework for Regional Planning for Electricity Infrastructure (EB-2011-0043).

In these letters, the Board stated that cost awards would be available to eligible persons under section 30 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15, Schedule B (“the Act”) in relation to their participation in each of the five initiatives comprising this consultation process, and that any costs awarded would be recovered from rate-regulated licensed electricity distributors and electricity transmitters. In a number of letters¹ issued over the course of the RRFE consultation to date, the Board identified the activities eligible for cost awards as well as the maximum number of hours for which cost awards would be available for most of those eligible activities.

In a series of Decisions² issued over the course of the RRFE consultation, the Board found the following participants to be eligible for an award of costs in relation to some or all of the five initiatives:

- Agrienergy Producers’ Association of Ontario (“APAO” – now the Biogas Association)
- Association of Major Power Consumers in Ontario (“AMPCO”)
- Association of Power Producers in Ontario (“APPrO”)
- Building Owners & Managers Association of the Greater Toronto Area (“BOMA”)
- Canadian District Energy Association (“CDEA”)
- Canadian Federation of Independent Business (“CFIB”)
- Canadian Manufacturers & Exporters (“CME”)
- Canadian Solar Industries Association (“CanSIA”)
- Canadian Wind Energy Association (“CanWEA”)
- Consumer Council of Canada (“CCC”)
- Council of Canadians (“COC”)
- Electrical Contractors Association of Ontario (“ECAO”)
- Energy Probe Research Foundation (“EPRF”)

¹ [December 17, 2010](#); [January 13, 2011](#); [April 1, 2011](#); [November 8, 2011](#); [February 22, 2012](#); [April 5, 2012](#)

² [May 3, 2012](#); [April 10, 2012](#); [February 1, 2012](#); [December 8, 2011](#); [December 7, 2011](#); [December 2, 2011](#); [May 16, 2011](#); [May 4, 2011](#); [April 4, 2011](#); [April 8, 2011](#); [February 1, 2011](#)

- Federation of Rental-housing Providers of Ontario (“FRPO”)
- London Property Management Association (“LPMA”)
- Low-Income Energy Network (“LIEN”)
- National Chief’s Office (“NCO”)
- Nishnawbe Aski Nation (“NAN”)
- Northwatch
- Northwestern Ontario Associated Chambers of Commerce (“NOACC”)
- Ontario Sustainable Energy Association (“OSEA”)
- Ontario Waterpower Association (“OWA”)
- Pollution Probe
- Retail Council of Canada (“RCC”)
- School Energy Coalition (“SEC”)
- Vulnerable Energy Consumers Coalition (“VECC”)
(collectively, the “eligible participants”).

The Board notes that while work is ongoing on this initiative, the consultation process covered by the cost eligibility decisions referenced above has concluded.

Consequently, on July 11, 2012 the Board issued a [Notice of Hearing](#) for Cost Awards (“the Notice”) for the consultation activities up to May 31, 2012; the end date of the consultation process.

All eligible participants submitted cost claims by July 24, 2012, the due date set out in the Notice. No objections to the filed cost claims were received.

Board Findings

The Board has reviewed the cost claims and finds that the claims filed by the following participants are within the approved overall limits set by the Board: APAO (now the Biogas Association); AMPCO; APPRO; CDEA; CanSIA; CanWEA; CCC; COC; EPRF; LPMA; LIEN; NCO; NOACC; OSEA; OWA; Pollution Probe; RCC; SEC; and VECC. The Board therefore finds that these participants are entitled to 100% of their reasonably incurred costs of participating in this consultation process.

The Board finds that certain disbursements in some of the eligible participants’ cost claims exceeded the allowable amounts or were not appropriately supported by receipts as directed in the Board’s *Practice Direction on Cost Awards* (“the Practice Direction”), s7.02. As a result, the Board is reducing the following claimed costs:

- BOMA’s claimed cost is reduced by \$13.55 due to missing courier receipts.

- CFIB's claimed cost is reduced by \$255.12 due to exceeding meal allowances and missing receipts for telephone charges.
- CME's claimed cost is reduced by \$207.32 due to: a) exceeding meal allowances, b) adjusting amount claimed for taxis to match the amount shown in the receipts provided, and c) disallowing an administrative fee for couriering documents.
- ECAO's claimed cost is reduced by \$161.39 due to missing receipts for couriers and parking.
- FRPO's claimed cost is reduced by \$10.35 due to 'double counting' of HST on parking.
- NAN's claimed cost is reduced by \$11.30 due to missing courier receipts.
- NOACC's claimed cost is reduced by \$607.61 due to: a) missing receipts for courier, telephone, and postage charges, b) 'double counting' of HST on air travel and taxis, and c) exceeding meal allowances.

The Board finds that Northwatch claimed 10 hours for time spent by a Northwatch staff member on consultation activities. The Board's Practice Direction does not allow costs for time spent by employees of a participant. In addition, Northwatch claimed mileage at \$0.41 (which is not the appropriate rate of \$0.40 per the Ontario Government) and 'double counted' HST. Accordingly, the Board is reducing Northwatch's claimed costs by \$3350.63.

The amount payable by each individual rate-regulated licensed electricity distributor and transmitter in relation to costs awarded to each eligible participant is listed in Appendix A to this Decision and Order.

Process for Paying the Cost Awards

The Board notes that as a result of merging five separate consultation initiatives that were already underway adherence to the proposed apportionment for recovering costs awarded, as set out in the Board's November 8, 2011 [letter](#), would require further information gathering from the claimants and an undue level of analytical effort. In the interest of administrative efficiency the Board has determined that the costs awarded in this Decision will be recovered from all rate-regulated licensed electricity distributors (65% of the costs awarded) and all rate-regulated licensed transmitters (35% of the costs awarded). Apportioning of 65% of the costs to electricity distributors is appropriate, given that the majority of the issues addressed affect them. In all cases,

costs awarded will be apportioned within each class based on distribution or transmission revenues, as applicable.

The Board will use the process set out in section 12 of the Practice Direction to implement the payment of the cost awards. Therefore, the Board will act as a clearing house for all payments of cost awards relating to this consultation process. Invoices will be issued to distributors at the same time as the invoices for cost assessments are made under section 26 of the Act. The practice of the Board is to issue to each rate-regulated licensed distributor and transmitter one invoice that covers all cost awards payable by the distributor/transmitter for the relevant period. As a result, the invoice may cover cost awards payable in relation to a number of consultations, including this one.

THE BOARD THEREFORE ORDERS THAT:

1. The amounts to be paid by each individual rate-regulated licensed distributor and transmitter in relation to the costs awarded to each eligible participant are as set out in **Appendix A** to this Decision and Order.
2. The individual distributors listed in **Appendix A** to this Decision and Order shall pay the costs awarded to each of the eligible participants as set out in **Appendix A**.
3. The individual distributors listed in **Appendix A** to this Decision and Order shall pay the Board's costs of, and incidental to, this consultation.
4. Payment of cost awards and of the Board's costs referred to in paragraphs 2 and 3 shall be made to the Ontario Energy Board in accordance with the invoice issued to the individual distributor, and shall be due at the same time as cost assessments under section 26 of the Act are due.

DATED at Toronto, October 18, 2012

ONTARIO ENERGY BOARD

This is Exhibit "G" referred to in the Affidavit of
Brennain Lloyd, sworn November 7, 2012

A handwritten signature in blue ink, appearing to read "Mark F. [unclear]", is written over a horizontal line.

Commissioner for Taking Affidavits (or as may be)

Currently

Researcher, analyst, writer-editor, facilitator, working in the areas of environment and natural resource management; case manager for federal reviews of nuclear waste management, new mine development

Professional Work

Terratoire Environmental Consultancy, Senior Consultant, established 2009, 2009 to present

Forests and Community Support Program, Northwatch, 2002 to 2008.

Regional Consultant, Ontario Healthy Communities Coalition, 2008 to 2012

Researcher/Writer, Boreal Program, Mining Watch Canada, 2001, 2007-2008

Researcher/Writer, Literature Review of Relevant Forestry Policies and Programs, Union of Ontario Indians, 2005

Researcher/Writer, Energy Action Agenda, Great Lakes United, 2002

Forests and Community Support Program, Northwatch, 2000

Field Research and Data Collection, Ministry of the Environment Tolerant Hardwood Decline Study, 1998, 1999, 2000, 2001, 2002

Regional Outreach Coordinator for "Lands for Life" land use planning exercise, Partnership for Public Lands, 1997-1998

Case manager, Adams Mine Intervention Coalition, Adams Mine Environmental Assessment Hearing, 1998

Commissioner for Taking Affidavits (or as may be)

Terratoire's visual marker is lichen on a granite boulder, representing the resilience and interdependence of the natural and human communities of northern Ontario.

What is a lichen?

Lichens are not a single plant.

A lichen is a complex group of plants depending on a close association between a fungus and algae - a symbiotic relationship.

Environmental
Consultancy**

www.terratoire.com

Terratoire Environmental Consultancy

Terratoire Environmental is an environmental consultancy established in 2009 in response to a growing demand for flexible and responsive service and support related to environmental and natural resource policy, program and project review and development. While formally established in 2009, the consulting group has its roots in more than two decades of practice in northeastern Ontario.

Terratoire Environmental was formed to provide services primarily

to non-profit organizations and First Nations in northeastern Ontario.

Terratoire's services include research, writing, editing, policy and project review, facilitation and strategic planning, presentations and seminars structured for the adult-learner, and popular education programs. Areas of focus include natural resource and environmental management, land use planning (both urban and non-urban), energy conservation at community and household scales, and volunteerism.

Service and Experience

Terratoire's services include research, writing, editing, policy and project review, event management, facilitation and strategic planning, presentations and seminars structured for the adult-learner, and popular education programs. Areas of focus include natural resource and environmental management, land use planning (both urban and non-urban), energy conservation at community and household scales, and volunteerism.

Terratoire's depth of experience and knowledge about the region of northeastern Ontario and the interplay between communities, the public interest, and natural resource policy and projects makes it uniquely qualified to provide its primary services. While other options might exist in the form of high-cost multinational consulting firms with desks in northern Ontario, no other consulting firm provides Terratoire's blend of skills, experience, and understanding of the region.

Terratoire's Name

Terratoire's name conveys a sense of two of its key attributes: an environmental sensibility and a regional character. A play on the French word "territoire" which roughly translates as "home place" and conveys a regional sensibility, the name "Terratoire" blends this sense of regionality with the latin term "terra", meaning land or earth.

By Electronic Mail, Courier and RESS Filing

August 10, 2012

Ontario Energy Board
P.O. Box 2319
27th Floor
2300 Yonge Street,
Toronto, ON M4P 1E4

Attention: Ms. Kirsten Walli, Board Secretary

Dear Ms. Walli:

**Re: Northwatch Application for Cost Award
Board File No. EB-2011-0140 - East-West Tie Line**

In accordance with the Board's Practice Direction on Cost Awards, Northwatch hereby applies for a cost award for its contribution in this proceeding. As a not-for-profit organization, Northwatch depends on cost awards to remunerate counsel and its representative, Ms. Brennain Lloyd, for their participation in this proceeding.

On August 3, 2012, Northwatch respectfully requested, by way of letter to the Board, an extension of time to file its cost claim in this proceeding. Northwatch respectfully requests that the Board allow Northwatch to apply late for a cost award for the reasons set out in Northwatch's letter. Northwatch appreciates the Board's understanding in this matter.

Value to the Proceeding

As a public interest organization concerned with environmental protection and social development in northeastern Ontario, Northwatch has a long-term and consistent interest in electricity planning in Ontario. In particular, Northwatch's interests are with respect to electricity generation and transmission in northeastern Ontario, conservation and efficiency measures, and rates and rate structures.

Northwatch serves as an invaluable representative of the residents and regions of northeastern Ontario. These regions and residents will or may be affected by the East-West Tie Line in as far as it relates to:

- how the project may support and/or counter Northwatch's interests and objectives, and
- whether and/or how the balance of demand and supply of electricity at a regional level will be affected.

Northwatch demonstrated its value throughout this proceeding, through Northwatch's review of all documents relating to this proceeding, including the documents provided by Hydro One and GLPT, participation in the All Parties Meeting, preparation of written submissions regarding the draft Issues List and preparation of a reply to the submissions of other intervenors and applicants. Throughout the above, Northwatch represented the residents and regions of northeastern Ontario by devoting significant attention to the decision criteria and issues necessary to ensure that the transmitters will be evaluated in a way that demonstrates which transmitter will best mitigate the effects of the East-West Tie line on northeastern Ontario and its residents.

Northwatch submits that its costs claimed in this proceeding are representative of Northwatch's value to this proceeding. Northwatch was an integral part of Phase 1 process and provided helpful and comprehensive written submissions.

Northwatch avoided incurring costs wherever possible. Northwatch's costs as submitted to the Board are minimal and reasonable.

Delegation of Tasks

Northwatch co-ordinated roles and responsibilities between and among Northwatch's representative and legal counsel in order to avoid duplication and to minimize costs.

Northwatch minimized legal costs by having junior associate counsel prepare and/or revise correspondence, review correspondence from the Board and the parties, review documents provided by the parties, attend the All Parties Meeting and prepare Northwatch's written submissions.

Northwatch minimized administrative costs by employing legal counsel's assistant to perform filing and formatting of correspondence and submissions to the Board, and all other administrative tasks whenever possible, free of charge.

Northwatch's representative, Ms. Lloyd, assisted with strategy in preparing for the All Parties Meeting and Northwatch's written submissions.

We enclose the Cost Claim of Northwatch and respectfully request that its contribution be acknowledged in this proceeding.

Yours truly,

A handwritten signature in blue ink, appearing to read 'Matt F. Gardner', with a stylized flourish at the end.

Matt Gardner

Document #: 540945

Ontario Energy Board
COST CLAIM FOR HEARINGS

Affidavit and Summary of Fees and Disbursements

This form should be used by a party to a hearing before the Board to identify the fees and disbursements that form the party's cost claim. Paper and electronic copies of this form and itemized receipts must be filed with the Board and served on one or more other parties as directed by the Board in the applicable Board order. Please ensure all required fields are filled in and the Affidavit portion is signed and sworn or affirmed.

Instructions

- Required data input is indicated by yellow-shaded fields. Formulas are present in the document to assist with the calculation of the cost claim.
- All claims must be in Canadian dollars. If applicable, state exchange rate and country of initial currency.
Rate: _____ Country: _____
- A separate "Detail of Fees and Disbursements Being Claimed" (comprising a "Statement of Fees Being Claimed" and a "Statement of Disbursements Being Claimed") is required for each consultant or lawyer/articling student/paralegal. However, only one "Summary of Fees and Disbursements" covering the whole of the party's cost claim should be provided.
- The cost claim must be supported by a completed Affidavit signed by a representative of the party.
- A CV for each consultant must be attached unless, for a given consultant, a CV has been provided to the Board in another process within the last 24 months.
- Except as provided in section 7.03 of the Practice Direction on Cost Awards, itemized receipts must be provided.

Affidavit

I, **Matt Gardner**, of the City/Town of **Burlington**
in the Province/State of **Ontario**, swear or affirm that:

1. I am a representative of the above-noted party (the "Party") and as such have knowledge of the matters attested to herein.
2. I have examined all of the documentation in support of this cost claim, including the attached "Summary of Fees and Disbursements Being Claimed", "Statement(s) of Fees Being Claimed" and "Statement(s) of Disbursements Being Claimed".
3. The attached "Summary of Fees and Disbursements Being Claimed", "Statement(s) of Fees Being Claimed" and "Statement(s) of Disbursements Being Claimed" include only costs incurred and time spent directly for the purposes of the Party's participation in the Ontario Energy Board process referred to above.
4. This cost claim does not include any costs for work done, or time spent, by a person that is an employee or officer of the Party as described in sections 6.05 and 6.09 of the Board's Practice Direction on Cost Awards.

Signature of Affiant

Sworn or affirmed before me at the City/Town of **Toronto**,
in the Province/State of **Ontario**, on **August-10-12**,

EB-2011-0140

IN THE MATTER OF sections 70 and 78 of the
Ontario Energy Board Act 1998, S.O.1998, c.15,
(Schedule B);

AND IN THE MATTER OF a Board-initiated
proceeding to designate an electricity transmitter to
undertake development work for a new electricity
transmission line between Northeast and Northwest
Ontario: the East-West Tie Line.

BEFORE: Cynthia Chaplin
Presiding Member and Vice-Chair

Cathy Spoel
Member

**PHASE 1 DECISION AND ORDER
COST AWARDS**

September 17, 2012

Background

On February 2, 2012, the Ontario Energy Board issued notice that it was initiating a proceeding to designate an electricity transmitter to undertake development work for a new electricity transmission line between Northeast and Northwest Ontario:

the East-West Tie line. The Board assigned File No. EB-2011-0140 to the designation proceeding.

On March 30, 2012, the Board issued its Decision on Intervention and Cost Award Eligibility. Procedural Order No. 2 issued on April 16, 2012 also dealt with the issues of interventions and cost award eligibility. As a result of these orders, certain parties are eligible to apply for cost awards in both phases of this designation proceeding and certain other parties are eligible to apply for limited cost awards relating to their attendance at an all party conference in Phase 1 of this designation proceeding.

In total, nine parties have been determined to be eligible to apply for cost awards in both phases of this designation proceeding. They are:

- the coalition representing the City of Thunder Bay, Northwestern Ontario Associated Chambers of Commerce and Northwestern Ontario Municipal Association (“City of Thunder Bay Coalition”);
- the coalition representing the Municipality of Wawa and the Algoma Coalition (“Algoma Coalition”);
- Consumers Council of Canada (“CCC”);
- Métis Nation of Ontario (“MNO”);
- National Chief's Office on Behalf of the Assembly of First Nations (“NCO”);
- Nishnawbe-Aski Nation (“NAN”);
- Northwatch;
- Ojibways of Pic River First Nation (“PRFN”); and
- School Energy Coalition (“SEC”).

Each of the following parties has been granted eligibility for an award of costs up to a maximum of 12 hours if it attended the all party conference in Phase 1 of this proceeding on March 23, 2012:

- Association of Major Power Consumers in Ontario (“AMPCO”);
- Building Owners and Managers Association Toronto (“BOMA”);
- Canadian Manufacturers and Exporters (“CME”); and

- Energy Probe Research Foundation (“Energy Probe”).

The cost awards to the eligible parties and the Board’s own costs will be recovered from licensed transmitters whose revenue requirements are recovered through the Ontario Uniform Transmission Rates, namely:

- Canadian Niagara Power Inc. (“CNPI”);
- Five Nations Energy Inc. (“FNEI”);
- Great Lakes Power Transmission LP (“GLPT”); and
- Hydro One Networks Inc. (“HONI”).

The costs will be apportioned between these licensed transmitters based on their respective transmission revenues as contained in the Uniform Transmission Rates and Revenue Disbursement Allocators attached as Exhibit 4.0 to rate order EB-2011-0268 dated December 20, 2011.

On July 12, 2012, the Board issued its Phase 1 Decision and Order, in which it set out the process for intervenors to file their cost claims and to respond to any objections raised by CNPI, FNEI, GLPT and HONI.

The Board received cost claims from all of the eligible participants listed above, except CME.

Board Findings on the Cost Claims of the Eligible Participants

The Board has reviewed the cost claims filed to ensure that they are compliant with the Board’s *Practice Direction on Cost Awards*, and reviewed the objections from HONI and the replies filed in answer to those objections.

The Board finds that the cost claims filed by the Algoma Coalition, CCC, MNO, NAN, NCO, SEC, AMPCO, BOMA and Energy Probe are within the approved limits set by the Board in its Decision on Intervention and Cost Award Eligibility.

City of Thunder Bay Coalition

The Board finds that it will reduce the cost claim made by the City of Thunder Bay Coalition. The costs claimed by the City of Thunder Bay Coalition amount to \$32,806.57, inclusive of \$1,533.82 in disbursements, and are based on 132.2 hours in aggregate.

In reviewing this claim the Board has taken the following factors into account. First, the Board finds that the cost claim includes disbursements that do not comply with the Board's *Practice Direction on Cost Awards*, as no receipts were provided for courier, telephone and postage charges. Second, the Board finds that the City of Thunder Bay Coalition demonstrated relatively limited participation in Phase 1 of the proceeding. While the Board appreciates the efforts of the Coalition to coordinate the participation of its varied and geographically distant membership, the Board finds that the Coalition's contributions to the proceeding were not commensurate with its cost claim. The Coalition's brief written submission addressed only a few issues and, although given the opportunity, the Coalition did not file a reply submission.

For these reasons, the Board finds that cost claim submitted by the City of Thunder Bay Coalition is disproportionate to its participation in Phase 1 of the proceeding. Accordingly, the Board will reduce the City of Thunder Bay Coalition's claim by \$5,000.00 and finds that the Coalition is awarded \$27,806.57.

Northwatch

The Board finds that Northwatch's cost claim includes disbursements that do not comply with the Board's *Practice Direction on Cost Awards* as no receipts were provided for telephone charges. The Board has accordingly reduced Northwatch's claim by \$26.98 and finds that Northwatch is awarded \$13,509.44.

PRFN

For several reasons, the Board will reduce the cost claim made by PRFN. PRFN's claimed costs are \$68,796.00, inclusive of \$3,126.00 in disbursements. The claim is based on 258.6 hours in aggregate. PRFN employed the services of four lawyers, three of whom are senior counsel.

The cost claim is reduced, in part, because it improperly includes disbursements that do not comply with the Board's *Practice Direction on Cost Awards*, as no receipts were provided for courier, telephone, postage and Westlaw service charges.

The cost claim is further reduced because it improperly includes disbursements for two employees of PRFN, Mr. Daryl Desmoulin and Mr. Joel Krupa. In accordance with section 6.05 of the *Practice Direction on Cost Awards*, a party will not be compensated for time spent by its employees or officers in preparing for or attending at Board processes.

PRFN's claim is more than double the next highest claim, more than triple the average amount of the claims of those participants focusing on similar issues in this proceeding (i.e. MNO, NCO, and NAN), and more than four times the average amount of all of the other eligible participants' cost claims. As well, PRFN's total number of hours claimed is almost twice that of the next highest and more than four times the average of the other eligible participants' total hours. Upon review of PRFN's dockets, it appears to the Board that there was unnecessary repetition of work, and an excessive number of hours spent, with several lawyers acting on behalf of PRFN on the same issues. While it is appropriate for senior lawyers to delegate tasks to more junior ones, this should result in fewer hours being spent by the senior lawyer. That was not the result in this case. The Board finds that the costs claimed by PRFN to be excessive and disproportionate to the value of its participation in Phase 1 of the proceeding.

The Board will reduce PRFN's claim by fifty percent and finds that PRFN is awarded \$34,398.00. The Board notes that this cost award is still substantially higher than any other award granted for Phase 1 of the designation proceeding.

Amounts Payable by the Licensed Transmitters

The amount payable by the licensed transmitters in relation to the costs awarded to each eligible participant is listed in Appendix A to this Decision and Order.

Process for Paying Cost Awards

The Board will use the process set out in section 12 of its *Practice Direction on Cost Awards* to implement the payment of the cost awards. Therefore, the Board will act as a clearing house for the payments of the cost award relating to this consultation process. Invoices will be issued to each transmitter at the same time as are invoices for cost assessments made under section 26 of the Act. The practice of the Board is to issue to each transmitter one invoice that covers all cost awards payable by the eligible participant for the relevant period. As a result, the invoice may cover cost awards payable in relation to a number of matters, including this one.

THE BOARD THEREFORE ORDERS THAT:

1. The amounts to be paid by each transmitter in relation to the costs awarded to each eligible participant are as set out in Appendix A to this Decision and Order.
2. The individual transmitters listed in Appendix A to this Decision and Order shall pay the costs awarded to each of the eligible participants as set out in Appendix A.
3. The individual transmitters listed in Appendix A to this Decision and Order shall pay the Board's costs of, and incidental to, this proceeding.
4. Payment of cost awards and of the Board's costs referred to in paragraphs 2 and 3 shall be made to the Ontario Energy Board in accordance with the invoice issued to the individual transmitter, and shall be due at the same time as cost assessments under section 26 of the Act are due.

DATED at Toronto, September 17, 2012.

ONTARIO ENERGY BOARD
