Dear Ms. Walli:

RE: Application for an Amendment to Solar Sunbelt General Partnership's Electricity Generation Licence (EG-2012-0259)

Solar Sunbelt General Partnership (the "Partnership") is an entity established for the purpose of developing renewable electricity generation projects including those contemplated by subsection 71(3) of the *Ontario Energy Board Act, 1998* (the "Act").

On August 1, 2012, the Partnership filed an Application (the "Application") with the Ontario Energy Board ("OEB" or the "Board") for an amendment to its Generation Licence (EG-2012-0259). The Board assigned Board File Number EB-2012-0341 to the Application. On September 27, 2012, the OEB issued its Decision and Order in the above-noted proceeding, amending the Partnership's Generation Licence.

By way of this letter, the Partnership wishes to advise the Board that it is in receipt of the final Notice to Proceed ("NTP") from the Ontario Power Authority ("OPA") for Feed In Tarrif ("FIT") projects, attached herewith as Appendix 1. Consequently, the Partnership is filing this Application for a further Amendment to its Generation Licence (EG-2012-0259).

The information in Appendix 2 attached herewith should update Schedule 1 and amend the Generator Licence. By way of this letter, the Partnership requests an amendment to the Licence to include the project related to the NTP.

The Partnership wishes to request that the Board dispose of this matter without a hearing, pursuant to Section 21 (4) b of the *Ontario Energy Board Act, 1998*. The Partnership identifies that no other parties will be affected by the outcome of the proceeding and consents to its disposition without a hearing.

Should you have any questions, please do not hesitate to contact me. Two hard copies of this letter will be submitted by courier.

Yours truly,
