

October 24, 2012

Ms. Kirsten Walli Board Secretary Ontario Energy Board 2300 Yonge Street 26th Floor, Box 2319 Toronto, ON M4P 1E4

Dear Ms. Walli

Re: PowerStream Inc. (Licence ED-2004-0420) 2013 Electricity Distribution Rates Application EB-2012-0161

Please find attached the Settlement Proposal that has been prepared and agreed upon by PowerStream and the intervenors ("the Parties"). This document has been sent by email to the Parties and Board staff and has been filed on RESS.

Twenty-six of the thirty issues on the Approved Issues List were fully settled, two issues were partially settled and two issues were not settled. In Procedural Order #3, dated September 10, 2012, the Board indicated that the Settlement Agreement would be presented at the commencement of an Oral Hearing on October 29, 2012 and that the hearing would continue until October 31, 2012 if needed. We will await the Board's further direction on how this matter will proceed.

We trust that this is satisfactory, but please let us know if anything further is required.

Yours truly,

Original signed by

Colin Macdonald Vice President, Rates and Regulatory Affairs

PowerStream Inc. EB-2012-0161 Settlement Agreement Filed: October 24, 2012 Page 3 of 32

INTRODUCTION

This Settlement Agreement is filed with the Ontario Energy Board ("OEB" or "Board") in connection with the application of PowerStream Inc. ("PowerStream") for an order or orders approving or fixing just and reasonable rates, effective January 1, 2013 for distribution service and, in particular, the specific relief that PowerStream requested in Exhibit A1, Schedule 3, Tab 1 in its May 28, 2012 application.

SETTLEMENT CONFERENCE

A Settlement Conference was held on October 3, 4 and 5, 2012 and via teleconference on October 10, 2012, in accordance with Rule 31 of Board's *Rules of Practice and Procedure* and the Board's *Settlement Conference Guidelines*. This Settlement Agreement arises from these discussions.

PowerStream, the following intervenors and the Board's technical staff ("Board Staff") participated in all or a portion of the Settlement Conference:

Association of Major Power Consumers in Ontario ("AMPCO")

Consumers Council of Canada ("CCC");

Energy Probe Research Foundation ("Energy Probe");

School Energy Coalition ("SEC"); and

Vulnerable Energy Consumers Coalition ("VECC").

ISSUES

The Settlement Agreement deals with all of the issues listed in Appendix A to the Board's Procedural Order No. 2 dated July 25, 2012 (the "Issues List"). A copy of the Issues List is provided in Schedule A to this Settlement Agreement.

SETTLEMENT CATEGORIES

Each issue dealt with in this Settlement Agreement falls within one of three categories:

- 1. **complete settlement** an issue in respect of which PowerStream and all of the other parties who discussed the issue agree with the settlement;
- 2. *partial settlement* an issue in respect of which some points were agreed and others were not; and

3. **no** settlement – an issue in respect of which no settlement was reached. PowerStream and the other parties who take a position on the issue may adduce evidence and/or argument at the hearing on the issue.

The following table presents the outcome of the Settlement Conference:

Complete Settlement	Partial Settlement	No Settlement
[26 issues]: 1.1, 1.2,	[2 issues]: 2.1, 6.1	[2 issues]: 4.2, 8.2
1.3, 1.4, 1.5, 2.2, 2.3,		
3.1, 3.2, 3.3, 4.1, 4.3,		
4.4, 4.5, 4.6, 5.1, 5.2,		
5.3, 7.1, 7.2, 8.1, 9.1,		
9.2, 9.3, 9.4, 9.5		

Table 1: Outcome of Settlement Conference

PARAMETERS OF SETTLEMENT AGREEMENT

The Settlement Agreement has been prepared by PowerStream in consultation with AMPCO, CCC, Energy Probe, SEC, and VECC (the "Intervenors") in accordance with Rule 32 of the Board's *Rules of Practice and Procedure* and the Board's *Settlement Conference Guidelines* (the "Guidelines"). Accordingly, PowerStream and the Intervenors are, collectively, the "Parties" to this Settlement Agreement. Board Staff also participated in the Settlement Conference, as contemplated by the Board's Guidelines (p.5), but Board Staff is not a party to this Settlement Agreement. The Parties nevertheless consulted with Board Staff during the preparation of this Settlement Agreement.

The Settlement Agreement describes the agreements reached on the completely and partially settled issues and identifies the partially settled and not settled issues. The description of each issue assumes that all of the Parties participated in the negotiation of the issue.

The Settlement Agreement provides a direct link between each settled issue and the supporting evidence in the record to date. There are Schedules to the Agreement which provide further evidentiary support. The Parties agree that the Schedules form part of, and are an essential component of, this Agreement, and form part of the record of EB-2012-0161. Powerstream prepared the Schedules. The Intervenors are relying on the accuracy and completeness of the Schedules in entering into this Agreement.

The Parties are of the view that the evidence provided is sufficient to support the Settlement Agreement in relation to each settled issue. They are also of the view that the quality and detail of this evidence, together with the corresponding rationale, will allow the Board to make findings on each settlement.

PowerStream Inc. EB-2012-0161 Settlement Agreement Filed: October 24, 2012 Page 5 of 32

According to the Guidelines (p.3), the Parties must consider whether a settlement agreement should include an appropriate adjustment mechanism for any settled issue that may be affected by external factors. The Parties consider that no settled issue requires an adjustment mechanism except as expressly set forth herein.

The Parties explicitly request that the Board consider and accept this Settlement Agreement as a package. None of the matters in respect of which a settlement has been reached is severable. Numerous compromises were made by the Parties with respect to various matters to arrive at this comprehensive Agreement. The distinct issues addressed in this proposal are intricately interrelated, and reductions or increases to the agreed-upon amounts may have financial consequences in other areas of this proposal which may be unacceptable to one or more of the Parties. If the Board does not accept the Agreement in its entirety, then there is no Agreement unless the Parties agree that those portions of the Agreement that the Board does accept may continue as a valid settlement.

None of the Parties can withdraw from the Settlement Agreement except in accordance with Rule 32.05 of the Board's *Rules of Practice and Procedure*. It is also agreed that this Agreement is without prejudice to any of the Parties re-examining these issues in any subsequent proceeding, whether or not Powerstream is a party to that subsequent proceeding, and taking positions inconsistent with the resolution of these issues in this Agreement. However, none of the Parties will, in any subsequent proceeding, take the position that the resolution therein of any issue settled in this Agreement, if contrary to the terms of this Agreement, should be applicable for all or any part of the 2013 Test Year.

These settlement proceedings are subject to the rules relating to confidentiality and privilege contained in the Guidelines. The Parties understand this to mean that the documents and other information provided, the discussion of each issue, the offers and counter-offers and the negotiations leading to the settlement – or not – of each issue during the Settlement Conference, are strictly confidential and without prejudice. None of the foregoing is admissible as evidence in this proceeding, or otherwise, with one exception: the need to resolve a subsequent dispute over the interpretation of any provision of this Agreement. Although Board Staff are not a party to this Agreement, they are bound by the same confidentiality and privilege restrictions as the Parties.

PowerStream Inc. EB-2012-0161 Settlement Agreement Filed: October 24, 2012 Page 6 of 32

OVERVIEW OF SETTLEMENT AGREEMENT

The Parties have achieved a complete settlement on 26 issues, a partial settlement on 2 issues and no settlement on 2 issues

The agreement among the Parties reduces PowerStream's applied-for revenue requirement by \$7.7 million, from \$169.9 million to \$162.2 million. This, in turn, reduces PowerStream's revenue deficiency from \$7.826 million to \$0.044 million.

Table 2 below presents the components of PowerStream's revenue deficiency for the Test Year, incorporating settled issues and the current applied for amounts in respect of not settled or partially settled issues. The "settled" column in the table below does not include the impact of unsettled issues, with the result that the Parties agree the final figures in that column may change depending on the Board's decision on the partially settled and unsettled issues.

			blied-for 1 st update)	Set	tled
		%	\$000	%	\$000

Table 2: Revenue Deficiency, \$000

PowerStream Inc. EB-2012-0161 Settlement Agreement Filed: October 24, 2012 Page 7 of 32

Table 3, below, presents the underpinning causes of the revenue deficiency for the Test Year, on an applied-for and settled basis:

Cause	Application (as filed on May 4, 2012) \$000	Application (as updated on August 31, 2012) \$000	Settlement \$000	Change (Settlement vs. August update) \$000
Increase in Distribution Expenses	32,437	32,777	26,736	(6,041)
Increase in Return on Capital	9,070	8,338	7,582	(756)
Decrease in Amortization Expense	(10,549)	(9,785)	(9,861)	(76)
Load Growth and IRM increase	(8,796)	(8,796)	(8,936)	(140)
SMIRR (Smart Meter Incremental Revenue Requirement)	(7,212)	(7,212)	(7,212)	0
Decrease in Payment in Lieu of Taxes	(7,569)	(7,557)	(7,545)	12
(Decrease)/ Increase in Revenue Offsets	62	62	(720)	(782)
Total 2013 Revenue Deficiency	7,443	7,827	44	(7,782)

 Table 3: Causes of Revenue Deficiency

Tables 4 and 5, below, compare the monthly bill impacts, for a "typical" customer in each rate class, of PowerStream's as-filed revenue requirement (as *per* its August 31, 2013 update in response to Board Staff IR#2) with the revenue requirement negotiated pursuant to this Settlement Agreement. Table 4 compares the filed vs. negotiated impacts on total bill; Table 5 compares the impacts on the distribution portion of the bill.

PowerStream Inc. EB-2012-0161 Settlement Agreement Filed: October 24, 2012 Page 9 of 32

The Parties are of the view that this Settlement Agreement will protect the interests of consumers with respect to prices and the adequacy, reliability and quality of electricity service, promote economic efficiency and cost effectiveness in the distribution of electricity, and maintain the financial viability of PowerStream. The Parties believe that the distribution rates established in accordance with the terms and conditions of the Settlement Agreement are just and reasonable and will permit PowerStream to make the investments that are required in order to serve its customers, protect the integrity of its distribution system, maintain and improve the quality of its service and meet all compliance requirements in 2013.

PowerStream Inc. EB-2012-0161 Settlement Agreement Filed: October 24, 2012 Page 10 of 32

ISSUE-BY-ISSUE SETTLEMENTS

1. **GENERAL**

1.1 Are PowerStream's economic and business planning assumptions appropriate?

Complete Settlement: The Parties accept for the purposes of settlement PowerStream's economic and business planning assumptions for 2013 as reasonable and appropriate.

Evidence: The evidence on this issue includes the following:

Exhibit A3-1 Board Staff Interrogatory #7 CCC Interrogatories #1, 2, 3, 4 SEC Interrogatories #1, 2, 3, 4, 5, 6, 7 Technical Conference Undertaking #JT1.10

1.2 Is service quality, based on the Board specified performance indicators acceptable?

Complete Settlement: The Parties agree for the purposes of settlement that PowerStream's service quality, in relation to OEB-specified performance indicators, is acceptable.

Evidence: The evidence on this issue includes the following:

Exhibit B4-1 Board Staff Interrogatories #2, 3, 4, 5, 6, 8 Energy Probe Interrogatory #1 VECC Interrogatory #1

1.3 Are the proposals to align the rate year with PowerStream's fiscal year, and for rates effective January 1, 2013 appropriate?

Complete Settlement: The Parties agree for the purposes of settlement that PowerStream's proposals to align the rate year with PowerStream's fiscal year and for rates effective January 1, 2013 are appropriate.

Evidence: The evidence on this issue includes the following:

Exhibit A3-1 CCC Interrogatory #5

1.4 Is the proposed Green Energy Act Plan appropriate?

Complete Settlement: PowerStream filed a Basic Green Energy Act Plan for information, but did not request that the Board approve this plan. As such, Powerstream agrees that to be in keeping with Board policy, it hereby withdraws its request for a GEA funding adder of \$0.20 per customer per month. With this withdrawal, the Parties accept the GEA Plan as filed.

Evidence: The evidence on this issue includes the following:

Exhibit B2-1, Exhibit I-1-11 Responses to Board Staff Interrogatories #9, 10, 11, 12 Response to CCC Interrogatory #6 Response to Energy Probe Interrogatory #2 Response to VECC Interrogatory #2

1.5 Has PowerStream responded appropriately to all relevant Board directions from previous proceedings?

Complete Settlement: For the purpose of settlement, the Intervenors accept PowerStream's evidence that it has responded appropriately to all relevant Board directions from previous proceedings.

Evidence: The evidence on this issue includes the following:

Exhibit A2-1 No IRs

PowerStream Inc. EB-2012-0161 Settlement Agreement Filed: October 24, 2012 Page 12 of 32

2. RATE BASE (Exhibit B)

2.1 Is the proposed Rate Base for Test Year 2013 appropriate? (B1)

Partial Settlement: In its application, PowerStream sought the Board's approval of a forecast rate base of \$842,042,000 for the Test Year. This amount comprised \$719,345,000 in respect of net fixed assets and \$122,697,000 in respect of working capital allowance.

For the purpose of settlement, the Parties agree that the net fixed asset portion of rate base should be adjusted to reflect a \$2,000,000 increase in contributed capital in each of 2012 and 2013, and the Parties further agree that the working capital allowance should be adjusted to reflect the change in the OM&A budget.

The Parties acknowledge that the net fixed assets portion of rate base may be adjusted based on the Board's determination of the unsettled depreciation matters identified in Issue 4.2.

Table 2.1 below identifies the rate base impacts due to the changes in the forecasts for contributed capital and OM&A, before giving effect to the Board's decision with respect to Issue 4.2.

	As filed - Aug. 31, 2012	Settlement Agreement
Net Fixed Assets	719,345	716,408
Working Capital Allowance (13%)	122,697	121,911
Total	842,042	838,319

Table 2.1: Rate Base (\$000)

Evidence: The evidence on this issue includes the following:

Exhibits B1-1, B1-2, B2-1, B3-1, B4-1 Response to CCC Interrogatory #7 Response to Energy Probe Interrogatories #3, 49 Responses to SEC Interrogatories #8, 9, 10, 11, 12, 13, 14 Responses to VECC Interrogatory #62 Responses to Technical Conference Undertakings #JT1.4, JT1.5, JT1.6, JT1.8, JT1.10

2.2 Is the Working Capital Allowance for Test Year 2013 appropriate (B3)

Complete Settlement: For the purpose of settlement, the Parties agree that PowerStream should use the default 13% working capital allowance in the Board's April 12, 2012 letter, Update to Chapter 2 of the Filing Requirements for Transmission and Distribution Applications – Allowance for Working Capital.

Evidence: The evidence on this issue includes the following:

Exhibit B3-1 Response to Energy Probe Interrogatory #4, 50 Responses to SEC Interrogatories #15, 16 Response to VECC Interrogatory #3

2.3 Is the proposed Capital Expenditures forecast for Test Year 2013 appropriate (B1)

Complete Settlement: In its application, PowerStream forecasted capital expenditures of \$114,279,000 for the Test Year. The Parties accept this amount for the purposes of settlement.

Evidence: The evidence on this issue includes the following:

Exhibits B1-1, B1-2 Responses to Board Staff Interrogatories #13, 14, 15, 16 Responses to CCC Interrogatories #8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22 Responses to Energy Probe Interrogatories #5, 6, 7, 8, 9, 10, 11, 12 Responses to SEC Interrogatories #17, 18, 19, 20, 21, 22 Responses VECC Interrogatories #4, 5, 6, 7, 8, 9, 10, 11, 12, 13 Responses to Technical Conference Undertakings #JT1.12, JT1.13, JT1.14, JT1.15

3. OPERATING REVENUE (Exhibit B)

3.1 Is the proposed forecast of 2013 Test Year Throughput Revenue appropriate? (C1)

Complete Settlement: In preparing its load forecast in the Application, PowerStream performed its weather normalization based on an "HDD10" approach (HDD means Heating Degree Days, and "10" refers to the temperature in degrees Celsius.) For the purposes of settlement, PowerStream agrees to use a load forecast that is based on weather normalization of HDD18 (that is, based on 18 degrees Celsius) rather than HDD10. This change increases revenue at current rates by \$140,000.

Evidence: The evidence on this issue includes the following:

Exhibit C1-1 Response to Energy Probe Interrogatory #13 Response to VECC Interrogatory #14

3.2 Are the proposed customers/connections and class-specific load forecasts (both kWh and kW) for Test Year 2013 appropriate, including the impact of CDM and weather normalization? (C1)

Complete Settlement: The Parties agree for the purposes of settlement that PowerStream's forecast of customer additions and the CDM adjustment (shown in Table 3.2-1) for the Test Year are appropriate. As noted above under Issue 3.1, the Parties agree that weather normalization should more appropriately be performed utilizing HDD18 rather than HDD10.

Table 3.2-1 CDM Impacts by Rate ClassRate Class	Consumption, kWh	Demand, kW
Residential	79,242,693	
GS<50 kW	30,444,820	
Unmetered	373,964	
GS>50 kW	131,682,701	350,311
Large Use	2,243,643	6,689

Sentinel	13,755	36
Total	245,751,229	362,176

PowerStream Inc. EB-2012-0161 Settlement Agreement Filed: October 24, 2012 Page 15 of 32

Evidence: The evidence on this issue includes the following:

Exhibit C1-1 Responses to Board Staff Interrogatories #17, 18, 19, 20, 21, 22, 23, 24, 25, 26 Response to CCC Interrogatory #23 Responses to Energy Probe Interrogatories #14, 15, 16, 17, 18, 19, 51 Responses to VECC Interrogatories #15, 16, 17, 18, 19, 20, 21, 22, 23, 53, 54 Responses to Technical Conference Undertakings #JT1.1, JT1.2

3.3 Is the proposed Test Year Forecast of other revenues appropriate? (C2)

Complete Settlement: In its Application, PowerStream has recorded the revenues and costs associated with providing joint services to Shareholders in non-utility accounts. This represents a net total of \$782,000, consisting of \$272,000 mark-up on the services provided (the amount by which revenues for these activities exceed costs), and \$510,000 in late payment charges revenue related to water services. The Parties agree that this amount should be recorded as an offset to revenue requirement.

Evidence: The evidence on this issue includes the following:

Exhibit C2-1 Responses to Board Staff Interrogatories #27, 28 Responses to CCC Interrogatories #24, 25 Responses Energy Probe Interrogatories #20, 21, 22, 23 Responses to VECC Interrogatories #24, 25, 26 Responses to Technical Conference Undertakings #JT1.17, JT1.18

4. OPERATING COSTS (Exhibit D)

4.1 Is the overall Test Year 2013 OM&A forecast appropriate? (D1)

Complete Settlement: In its application, as updated on August 31, 2012 in response to Board Staff IR#2, PowerStream sought approval of forecast Operation, Maintenance and Administration ("OM&A") expenses for the Test Year of \$86,041,000. The Parties have agreed for the purposes of settlement that PowerStream will reduce its forecast of 2013 OM&A expenses to \$80,000,000.

The Parties accept PowerStream's assertion that it can safely and reliably operate the distribution system based on the total OM&A budget proposed. The Parties have agreed that the adjustment will be based on an "envelope" approach, so that any determination of potential budget reductions to reflect the Board-approved 2013 OM&A will be at the discretion of PowerStream. PowerStream has prepared a preliminary OM&A allocation at the agreed level, which is shown below. This is a preliminary allocation and PowerStream continues to work on determining the best allocation of the available OM&A envelope. Notwithstanding the preliminary OM&A allocation, the Parties acknowledge that under the forward test year approach to rate-setting, PowerStream will retain the responsibility to make actual spending decisions during the Test Year, which may include variances from that presented below.

4.2 Is the proposed level of the Depreciation/Amortization expense for 2013 appropriate? (D1)

No Settlement: The Parties did not settle two matters related to depreciation.

In its Application, PowerStream requested a full year of depreciation for capital additions in the 2013 Test Year in order to increase revenue requirement to more adequately fund capital additions. This increased depreciation by \$1,883,000 and revenue requirement by \$2,527,000 compared to the use of the half-year approach. The Parties agreed that this request should be determined by the Board.

The second matter relates to the accounting method PowerStream used to calculate depreciation for 2010 and 2011, and proposes to continue to use for 2012 and forward. This has three components. First, for the 2010 and 2011 actual years, PowerStream has calculated depreciation based on an assets' in-service date, which Parties agree is a more accurate approach than the half year depreciation approach. Had PowerStream used the half-year approach in 2010 and 2011, which is the method used in setting base rates which were subsequently adjusted for those years, depreciation would have been \$1,263,000 higher, in total for those two years, with a corresponding reduction in net book value of property, plant and equipment ("PP&E") as of January 1, 2013. This fact has no impact on the forecast Second, for purposes of forecasting depreciation for this 2013 depreciation. Application, PowerStream applied the half-year depreciation rule for all 2012 capital additions. In its response to Energy Probe IR#32, PowerStream provided the depreciation expense for 2010 and 2011 based on the half-year rule. The Intervenors have proposed that the 2012 depreciation expense will also be \$500,000 lower than the figure set forth in the application, reflecting an estimate of the difference between using in-service dates and the half-year rule in 2012. This would increase the \$1,263,000 PP&E differential accordingly. Third, the issue remains whether if the in-service method will be used in the 2013 Test Year and beyond, the forecast of depreciation expense for the Test Year should be adjusted to reflect an in-service month approach. The Parties agreed that the determination of the three elements of this matter should be decided by the Board.

Evidence: The evidence on this issue includes the following:

Exhibit D1-4 Response to Board Staff Interrogatory #33 Response to Energy Probe Interrogatory #32 Responses to SEC Interrogatories 38, 39 Responses to Technical Conference Undertakings #JT1.3, JT1.5, JT1.7

4.3 Is the Test Year 2013 Forecast of PILs appropriate? (D2)

Complete Settlement: In its Application, PowerStream sought approval to include in revenue requirement an amount of \$2,461,000 in respect of Payments in Lieu of Taxes ("PILs").

The Parties have agreed for the purposes of settlement that PowerStream should reduce the PILs amount to reflect a \$17,000 Federal Job Creation Tax Credit and should otherwise update the PILs amount to reflect changes resulting from this Settlement Agreement. PowerStream has also updated its PILs calculation to reflect the increases in contributed capital of \$2,000,000 for each of 2012 and 2013 per the agreement on issue 2.1. The increase in contributed capital reduces the additions for purposes of capital cost allowance (CCA) and the amounts deducted for CCA in arriving at taxable income. The revised taxable income and PILs amount is set out below in Table 4.3.

Table 4.3:	Payments in Lieu of Taxes (PILs) \$000
------------	--

	As Filed	Settlement Agreement
Taxable Income	9,635	9,733
PILs	2,461	2,474

Please see Schedule B for complete details.

Evidence: The evidence on this issue includes the following:

Exhibit D2-1

Responses to Energy Probe Interrogatories 33, 34, 35, 36, 37, 55, 56

4.4 Is the proposed allocation of shared services and corporate costs appropriate? (A4)

Complete Settlement: For the purposes of settlement, the Parties accept the proposed allocation of shared services and corporate costs subject to the increased revenue offset in the amount of \$782,000 identified in Issue 3.3 above.

Evidence: The evidence on this issue includes the following:

Exhibit A4-1 Responses to Board Staff Interrogatories #34, 35, 36, 37, 38 Responses to CCC Interrogatories #44, 45, 46, 47, 48, 49, 50, 51, 52 Responses Energy Probe Interrogatories #38, 39, 40 Responses to SEC Interrogatories #40, 41, 42 Responses to Technical Conference Undertakings #JT1.16, JT1.17, JT1.18, JT1.27, JT1.28

4.5 Are the 2013 compensation costs and employee levels appropriate? (D1)

Complete Settlement: For the purposes of settlement, the Parties have agreed that after giving effect to the settlement of overall OM&A costs in issue 4.1, the 2013 compensation costs and employee levels are appropriate.

Evidence: The evidence on this issue includes the following:

Exhibit D1-5 Responses to Board Staff Interrogatories 39, 40, 41, 42, 43 Responses to CCC Interrogatories 53, 54, 55, 56, 57, 58 Responses to Energy Probe Interrogatories 41, 42, 43 Responses to SEC Interrogatories 43, 44, 45, 46, 47, 48, 49, 50

PowerStream Inc. EB-2012-0161 Settlement Agreement Filed: October 24, 2012 Page 21 of 32

4.6 Have the savings due to the merger with Barrie Hydro been properly reflected in the test year? (D1)

Complete Settlement: For the purposes of settlement, the parties accept that the OM&A and capital savings due to the merger with Barrie Hydro have been properly reflected in the Test Year.

Evidence: The evidence on this issue includes the following:

Exhibit D1-5 Responses to Board Staff Interrogatory #44 Responses to Energy Probe Interrogatories 44, 45 Responses to Technical Conference Undertakings #JT1.19, JT1.20

5. DEFERRAL AND VARIANCE ACCOUNTS (Exhibit I)

5.1 Is the proposed clearance of deferral and variance account balances appropriate?

Complete Settlement: For the purposes of settlement, the Parties agree that PowerStream's proposed clearance of deferral and variance account balances, including a credit balance in Account 1562 Deferred PILs of \$4,084,566, is appropriate. PowerStream has recalculated the regulatory asset rate riders proposed in its Application to reflect a decrease due to the removal of an amount of \$337,923 related to the Late Payment Penalty (LPP) settlement as a result of recent Board guidance that the amounts related to the LPP settlement are not to be included in account 1595. The revised rate riders are set out in Schedule C of this Agreement. For the purposes of settlement, the parties accept, as appropriate, the revised rate riders.

Evidence: The evidence on this issue includes the following:

Exhibit I-1 Responses to Board Staff Interrogatories 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58 Responses to CCC Interrogatories 59, 60 Responses to SEC Interrogatories 51, 52

5.2 Are the proposed new and existing deferral and variance accounts for the test year appropriate?

Complete Settlement: PowerStream agrees to withdraw its request for a variance account to capture the difference between the actual costs of derecognition of assets under Modified International Financial Reporting Standards ("MIFRS") and the estimate used for the Test Year.

PowerStream requested a deferral account for changes in amounts related to post retirement employee benefits ("P&OPEB") as a result of IFRS, upon transition to IFRS and up to rebasing under MIFRS. PowerStream also requested a variance account to track significant changes in the P&OPEB under IFRS after rebasing. The Parties have agreed that the deferral and variance accounts requested related to post retirement employee benefits ("P&OPEB") shall be combined into a single deferral account. PowerStream has not made a request for disposition in this Application. At the next valuation a further adjustment (if required) will be made, and the net balance in the deferral account will be recalculated. When PowerStream

PowerStream Inc. EB-2012-0161 Settlement Agreement Filed: October 24, 2012 Page 23 of 32

requests disposition, recovery will be based on amounts being amortized over the average remaining service lives of the employees. The effect is to smooth the adjustments over a long time.

Evidence: The evidence on this issue includes the following:

Exhibit I-1 Responses to Board Staff Interrogatories 59, 60, 61 Response to SEC Interrogatory #53

5.3 Is the proposal related to the recovery of stranded meter costs appropriate?

Complete Settlement: For the purposes of settlement, the parties agree that PowerStream's recovery of stranded meter costs should be allocated to the Residential and GS<50 kW demand classes in the same proportion as the stranded meter costs provided in the response to CCC Interrogatory #59. See Appendix C for additional details.

Evidence: The evidence on this issue includes the following:

Exhibits I-1 Responses to VECC Interrogatories 51, 52

PowerStream Inc. EB-2012-0161 Settlement Agreement Filed: October 24, 2012 Page 24 of 32

6. COST OF CAPITAL (Exhibit E)

6.1 Are the proposed Test Year cost of capital parameters appropriate?

Partial Settlement: The Parties agree that the Board's deemed interest rate should be applied to the debt in the amount of \$66,327,000 that PowerStream will refinance in 2013 (items 4-10 in the table 6.1). This rate is currently 4.41% but will be updated by the Board before the end of 2012. Assuming a rate of 4.41%, this will reduce interest expense in the 2013 Test Year by \$520,000. The following calculation shows the weighted average cost of debt with that adjustment, and before any adjustment to the interest rates on the notes held by PowerStream's three shareholders.

No.	Description	Debt Holder	Is the Debt Holder Affiliated with the LDC? (Y/N)	Date of Issuance of Debt (Date)	Principal (\$)		Term (Years)	Actual /Forecasted Rate (%)	Debt Rate Used for Weighted Debt Rate Cost
1	Promissory Note	City of Vaughan	Y	1-Jun-2004	\$	78,236,285	20	5.58%	5.58%
2	Promissory Note	Town of Markham	Y	1-Jun-2004	\$	67,866,202	20	5.58%	5.58%
3	New Debt	Bonds	N	15-Aug-2012	\$	200,000,000	30	3.99%	3.99%
4	Deferred interest	Markham	Y	1-Oct-2006	\$	954,515	7	4.41%	4.41%
5	Deferred interest	Vaughan	Y	1-Oct-2006	\$	1,100,367	7	4.41%	4.41%
6	Deferred interest	Markham	Y	1-Jan-2007	\$	3,786,934	6	4.41%	4.41%

9	Deferred interest	Vaughan	Y	1-Jan-2008	\$	3,277,179	5	4.41%	4.41%
10	Bank loan	TD	N	26-Feb-2008	\$	50,000,000	5	4.41%	4.41%
11	New debt	TBD	N	1-Aug-2012	\$	45,000,000	5	4.41%	4.41%
12	Promissory Note	City of Barrie	Y	1-Jan-2009	\$	20,000,000	16	5.58%	5.58%
	Weighted Average Deb	ot Cost - 2013						4.64%	4.64%

 Table 6.1 PowerStream's 2013 Test Year Long-term Debt

The parties did not resolve the matter of the appropriate rate for the promissory notes held by PowerStream's three shareholders (items 1,2 and 12 in the table above). This issue is to be determined by the Board.

The calculation of PowerStream's rate of return on rate base for 2013, based on the item that was settled, but before any adjustment to the interest rates on the notes held by PowerStream's three shareholders, is set out in Table 6.2 below

PowerStream Inc. EB-2012-0161 Settlement Agreement Filed: October 24, 2012 Page 25 of 32

Table 6.2: Weighted Average Cost of Capital

	Deemed Capital Structure	Rate	Weighted Average Cost of Capital
Long-term debt	56%	4.64%	2.60%
Short-term debt	4%	2.08%	0.08%
Equity	40%	9.12%	3.65%
Total	100%		6.33%

Evidence: The evidence on this issue includes the following:

Exhibit E-1

Responses to Board Staff Interrogatories 62, 63 Responses to CCC Interrogatories #61, 62, 63, 64 Response to Energy Probe Interrogatory #46, 58 Responses to SEC Interrogatories #54, 55 Response to VECC Interrogatory #41 PowerStream's undertakings filed on October 12, 2012

7. COST ALLOCATION (Exhibit G)

7.1 Is PowerStream's proposed cost allocation methodology for 2013 appropriate?

Complete Settlement: PowerStream calculated 2013 revenue-to-cost ratios for each customer class on the basis of an updated cost allocation model (its "2013 Cost Allocation Model"). Some ratios were then adjusted to bring them within the "ranges of tolerance" established by the Board in its report on the *Application of Cost Allocation for Electricity Distributors (November 28, 2007)*. The resulting revenue-to-cost ratios were set out in Exhibit G-1 in PowerStream's Application.

As a result of the settlement of this issue, PowerStream has further updated its 2013 Cost Allocation Model to reflect agreed-upon adjustments to rate-base, OM&A and, consequently, revenue requirement. The resultant revenue-to-cost ratios were then adjusted in order to bring them within the "ranges of tolerance" as follows:

- (i) the "Large Use" rate class revenue-to-cost ratio was adjusted to 85%;
- (ii) the additional revenue of \$161,000 allocated to the Large Use class was used to reduce the revenue allocated to the two rate classes with revenue-to-cost ratios above 100%, Residential and Unmetered Scattered Load. This amount was allocated based on the status quo revenue resulting in a reduction of \$160,166 for Residential and \$832 for Unmetered Scattered Load;
- (iii) the average number of Street Lighting connections was decreased from 4.85 to 2.88. The resulting revenue-to-cost ratio was within the Board Approved range.

Table 7.1 below compares the revenue-to-cost ratios, for each rate class, as proposed in PowerStream's Application with the adjustments made to reflect the settlement of this issue.

PowerStream Inc. EB-2012-0161 Settlement Agreement Filed: October 24, 2012 Page 27 of 32

Table 7.1: Revenue-to-Cost Ratios

	2009 EDR Final Approved	2013 EDR CA model at "status quo" rates	OFB PROPOSED RANGE		Proposed per Settlement	
	2009	2013	Low	High	2013	
Revenue /Expenses Ratio						
Residential	92.9%	102.5%	85%	115%	102.3%	
GS Less Than 50 kW	116.7%	98.3%	80%	120%	98.3%	
GS 50 to 4,999 kW GS 50 to 4,999 kW Legacy	106.5%	97.5%	80%	120%	97.5%	
Large Use	115.0%	41.4%	85%	115%	85.2%	
Unmetered Scattered Load	119.9%	103.9%	80%	120%	103.8%	
Sentinel Lighting	75.4%	94.7%	80%	120%	94.7%	
Street Lighting	74.5%	89.2%	70%	120%	89.2%	

For the purposes of settlement, the Parties accept PowerStream's cost allocation methodology and the resultant revenue-to-cost ratios, for each rate class, as revised to reflect this Settlement Agreement.

Please see Schedule D for further details.

Evidence: The evidence on this issue includes the following:

Exhibit G-1 Responses to Board Staff Interrogatories #64, 65, 66, 67, 68 Responses to VECC Interrogatories #42, 43, 44, 45, 59 Response to AMPCO Interrogatory #1 Responses to Technical Conference Undertakings #JT1.11, KT1.2

7.2 Are the revenue to cost ratios in the cost allocation for Test Year 2013 appropriate?

Complete Settlement: See the settlement of Issue 7.1

Evidence: The evidence on this issue includes the following:

Exhibit G-1 Response to Board Staff Interrogatory #69 Response to Energy Probe Interrogatory #47 Response to VECC Interrogatory #46

8. MODIFIED INTERNATIONAL FINANCIAL REPORTING SYSTEM (Exhibits A & F)

8.1 Is the proposed service revenue requirement calculated using modified IFRS appropriate?

Complete Settlement: The parties accept for the purposes of settlement that the proposed service revenue requirement calculated using modified IFRS, as modified by the terms of this Settlement Agreement, and subject to the Board's decision on the unsettled issues, is appropriate.

Evidence: The evidence on this issue includes the following:

Exhibits A3-1, F-1 Response to CCC Interrogatory #65

8.2 Is the treatment of property, plant and equipment due to the transition to the new accounting standard appropriate?

No Settlement: PowerStream has included the difference in overheads capitalized between CGAAP and MIFRS on both rate base and CWIP as of the end of 2012 in the calculation of the amount to be recorded in account 1575 IFRS-CGAAP Transitional PP&E Amounts. The Parties agree that the calculation of the amount to be recorded in account 1575 should be brought the Board for resolution.

Evidence: The evidence on this issue includes the following:

Exhibits A3-1, F-1 No Interrogatories Response to Technical Conference Undertaking #JT1.4 PowerStream's undertakings filed on October 12, 2012

9. RATE DESIGN (Exhibit H)

9.1 Is the full Tariff of Rates and Charges as proposed appropriate?

Complete Settlement: Schedule E to this Settlement Agreement sets out PowerStream's proposed 2013 distribution rates, adjusted to reflect the provisions of the Agreement. The Parties accept these rates as appropriate for the 2013 rate year subject to resolution of the unsettled issues.

Evidence: The evidence on this issue includes the following:

Exhibits H-1, H-2, H-3, H-4, H-5, H-6, H-7, A2-1 Responses to CCC Interrogatories 66, 67, 68, 69 Response to VECC Interrogatory #47 Response to Technical Conference Undertaking #JT1.9

9.2 Is the derivation of the proposed base distribution rates appropriate?

Complete Settlement: See settlement of Issue 9.1 above.

Evidence: The evidence on this issue includes the following:

Exhibits H-1, H-2, H-3, H-4, H-5, H-6, H-7, G-1

Responses to VECC Interrogatories 48, 49, 50, 60

9.3 Are the proposed changes to LV rates appropriate?

Complete Settlement: For the purposes of settlement, the Parties accept, as appropriate, the Low Voltage and Retail Transmission Service Rates set out in PowerStream's Application.

Evidence: The evidence on this issue includes the following:

Exhibit H-3 No Interrogatories

PowerStream Inc. EB-2012-0161 Settlement Agreement Filed: October 24, 2012 Page 30 of 32

9.4 Are the proposed Total Loss Factors appropriate?

Complete Settlement: For the purposes of settlement, the Parties accept, as appropriate, the Total Loss Factors set out in PowerStream's Application.

Evidence: The evidence on this issue includes the following:

Exhibit H-3

Response to Energy Probe Interrogatory #48

9.5 Is PowerStream's proposed rate harmonization appropriate?

Complete Settlement: For the purposes of settlement, and subject to the changes in revenue requirement and rates set forth in this Agreement or to be determined by the Board on the unsettled issues, the Parties accept, as appropriate, the rate harmonization proposal set out in PowerStream's Application.

Evidence: The evidence on this issue includes the following:

Exhibits H-1, H-2, H-3, H-4, H-5, H-6, H-7 Response to Board Staff Interrogatory #70 Response to CCC Interrogatory #70

1. General

- 1.1 Are PowerStream's economic and business planning assumptions appropriate?
- 1.2 Is service quality, based on the Board specified performance indicators acceptable?
- 1.3 Are the proposals to align the rate year with PowerStream's fiscal year, and for rates effective January 1, 2013 appropriate?
- 1.4 Is the proposed Green Energy Act Plan appropriate?
- 1.5 Has PowerStream responded appropriately to all relevant Board directions from previous proceedings?

2. Rate Base (Exhibit B)

- 2.1 Is the proposed Rate Base for Test Year 2013 appropriate? (B1)
- 2.2 Is the Working Capital Allowance for Test Year 2013 appropriate? (B3)
- 2.3 Is the proposed Capital Expenditures forecast for Test Year 2013 appropriate? (B1)

3. Operating Revenue (Exhibit C)

- 3.1 Is the proposed forecast of 2013 Test Year Throughput Revenue appropriate? (C1)
- 3.2 Are the proposed customers/connections and class-specific load forecasts (both kWh and kW) for Test Year 2013 appropriate, including the impact of CDM and weather normalization? (C1)
- 3.3 Is the proposed Test Year forecast of other revenues appropriate? (C2)

4. Operating Costs (Exhibit D)

- 4.1 Is the overall Test Year 2013 OM&A forecast appropriate? (D1)
- 4.2 Is the proposed level of the Depreciation/Amortization expense for 2013 appropriate? (D1)
- 4.3 Is the Test Year 2013 forecast of PILs appropriate? (D2)
- 4.4 Is the proposed allocation of shared services and corporate costs appropriate? (A4)
- 4.5 Are the 2013 compensation costs and employee levels appropriate? (D1)
- 4.6 Have the savings due to the merger with Barrie Hydro been properly reflected in the test year? (D1)

5. Deferral and Variance Accounts (Exhibit I)

- 5.1 Is the proposed clearance of deferral and variance account balances appropriate?
- 5.2 Are the proposed new and existing deferral and variance accounts for the test year appropriate?
- 5.3 Is the proposal related to the recovery of stranded meter costs appropriate?

6. Cost of Capital (Exhibit E)

6.1 Are the proposed Test Year cost of capital parameters appropriate?

7. Cost Allocation (Exhibit G)

7.1 Is PowerStream's proposed cost allocation methodology for 2013 appropriate?7.2 Are the revenue to cost ratios in the cost allocation for Test Year 2013 appropriate?

8. Modified International Financial Reporting System (Exhibits A and F)

- 8.1 Is the proposed service revenue requirement calculated using modified IFRS appropriate?
- 8.2 Is the treatment of property, plant and equipment due to the transition to the new accounting standard appropriate?

9. Rate Design (Exhibit H)

- 9.1 Is the full Tariff of Rates and Charges as proposed appropriate?
- 9.2 Is the derivation of the proposed base distribution rates appropriate?
- 9.3 Are the proposed changes to LV rates appropriate?
- 9.4 Are the proposed Total Loss Factors appropriate?
- 9.5 Is PowerStream's proposed rate harmonization appropriate?

EB-2012-0161 PowerStream Inc. Settlement Agreement Appendix B Page 25 of 25 Filed: October 24, 2012

Deferral and Variance Accounts

As part of the Settlement Agreement, the Parties agreed to changes in the proposed recoveries of the balances in account 1595 and account 1555, related to the Late Payment Penalty and Stranded meters respectively, as discussed further below.

Update to remove Late Payment Penalty (LPP) Settlement Recovery Amounts

The Board approved the recovery of the LLP Settlement amounts in PowerStream's 2011 rate application. Upon this approval, PowerStream transferred this amount to account 1595 Recoveries. Similarly PowerStream recorded the recoveries billed to customers in account 1595. PowerStream's claim for disposition included an amount of \$337,923 in account 1595 related to the LPP recovery.

In July 2012, the Board released an Accounting Procedures Handbook Frequently Asked. Q.8 provided guidance on the accounting treatment of the late payment penalty amounts approved by the Board. This guidance specifies that the settlement payment is to be charged to account 6215 Penalties and the amounts recovered from customers are to be recorded in account 4080 distribution revenues.

Accordingly, PowerStream is adjusting its claim for recovery related to account 1595, by removing the amounts related to the LPP settlement. The changes are summarized in Table App.C-1below.

Account 1595 Claim	South	Barrie	Total			
As filed:	\$ 309,406	\$ 12,953	\$	322,359		
adjustment	\$ (273,946)	\$ (63,977)	\$	(337,923)		
Revised amount	\$ 35,460	\$ (51,024)	\$	(15,564)		

Table App.C-1: Adjustment to Account 1595 Claim for Recovery

Update to Allocation of Stranded Meter Costs to Rate Classes:

On issue 5.3 regarding the disposition of stranded meter cost, the Parties agreed that these costs should be allocated to rate classes in the same proportion as the stranded meter costs provided in response to CCC interrogatory #59 shown in Table App.C-2 below.

Table App.C-2: December 31, 2011 Stranded Meter Cost by Rate Class (\$000)

Class	Units	Cost					
Residential	260,431	\$	8,725				
GS<50 kW	25,391	\$	4,064				
Total	285,822	\$	12,789				

The actual account 1555 Stranded Meter amount proposed to be recovered as at December 31, 2012 is \$11,548,784, after recording depreciation on these meters for 2012. As per this agreement, the Deferral and Variance Account Rate Rider calculation models have been updated to allocate this amount in the same proportion as the costs in Table App.C-2 resulting in the amounts in Table App.C-3.

Class	South	Barrie	Total
Residential	\$ 5,972,442	\$ 1,906,449	\$ 7,878,891
GS<50 kW	\$ 2,781,892	\$ 888,001	\$ 3,669,893
Total	\$ 8,754,334	\$ 2,794,450	\$ 11,548,784

 Table App.C-3: Stranded Meter Recovery by Rate Class

Rate Rider Calculation:

PowerStream has updated the Rate Rider Calculation model for each of these rate zones to reflect the adjusted amounts for account 1595 and account 1555. These are attached to this Appendix. The global adjustment rate riders and the rate riders for the shared pool previously calculated are unchanged. App.C-4 summarizes the updated rate riders.

				-
PowerStream South	South	Shared	Total	Per
Residential	\$ 0.0001	\$ (0.0006)	\$ (0.001)	\$/kWh
GS<50 kW	\$ 0.0005	\$ (0.0006)	\$ (0.0001)	\$/kWh
GS>50 kW	\$ (0.3391)	\$ (0.2148)	\$ (0.5539)	\$/kW
Large Use	\$ (0.1128)	\$ (0.0829)	\$ (0.1957)	\$/kW
Unmetered Scattered Load	\$ (0.0016)	\$ (0.0006)	\$ (0.0022)	\$/kWh
Sentinel Lighting	\$ (0.5616)	\$ (0.2135)	\$ (0.7751)	\$/kW
Street Lighting	\$ (0.4112)	\$ (0.2320)	\$ (0.6432)	\$/kW
Global Adjustment (non-RPP)	\$ 0.0016	\$ 0.0001	\$ 0.0017	\$/kWh

Table App.C-4: Deferral and Variance Account Rate Riders Summary

Global Adjustment rate rider applies to non-RPP customers in all classes.

Barrie	Barrie	Shared	Total	
Residential	\$ 0.0009	\$ (0.0006)	\$ 0.0003	\$/kWh
GS<50 kW	\$ 0.0012	\$ (0.0006)	\$ 0.0006	\$/kWh
GS>50 kW	\$ (0.3538)	\$ (0.2148)	\$ (0.5686)	\$/kW
Large Use			\$ -	\$/kW
Unmetered Scattered Load	\$ (0.0009)	\$ (0.0006)	\$ (0.0015)	\$/kWh
Street Lighting	\$ (0.2228)	\$ (0.2320)	\$ (0.4548)	\$/kW
Global Adjustment (non-RPP) ¹	\$ 0.0029	\$ 0.0001	\$ 0.0030	\$/kWh

Global Adjustment rate rider applies to non-RPP customers in all classes except Barrie Large Use as there were no Large Use customers in the Barrie rate zone during the period that this global adjustment balance arose.

PROPOSED TARIFF OF RATES AND CHARGES Effective January 1st, 2013

This schedule supersedes and replaces all previously approved schedules of Rates, Charges, and Loss Factors

EB-2012-0161

SERVICE CLASSIFICATIONS

Residential

This classification refers to an account taking electricity at 750 volts or less where the electricity is used exclusively in a separately metered living accommodation. Customers shall be residing in single-dwelling units that consist of a detached house or one unit of a semi-detached, duplex, triplex or quadruplex house, with a residential zoning. Separately metered dwellings within a town house complex or apartment building also qualify as residential customers. Multi-unit residential establishments such as apartment buildings supplied through one service (bulk metered) shall be classified as general service.Further servicing details are available in the distributor's Conditions of Service.

General Service Less Than 50 kW

This classification refers to a non residential account taking electricity at 750 volts or less whose monthly average peak demand is less than, or is forecast to be less than, 50 kW. Further servicing details are available in the distributor's Conditions of Service.

General Service 50 to 4,999 kW

This classification refers to a non residential account whose monthly average peak demand is equal to or greater than, or is forecast to be equal to or greater than, 50 kW but less than 5,000 kW, both regular and interval metered.

Further servicing details are available in the distributor's Conditions of Service.

Large Use

This classification refers to an account whose monthly average peak demand is equal to or greater than, or is forecast to be equal to or greater than, 5,000 kW. Further servicing details are available in the distributor's Conditions of Service.

Unmetered Scattered Load

This classification refers to an account taking electricity at 750 volts or less whose average monthly peak demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The customer will provide detailed manufacturer information/ documentation with regard to electrical demand/consumption of the proposed unmetered load. Further servicing details are available in the distributor's Conditions of Service.

Sentinel Lighting

This classification refers to an unmetered lighting load supplied to a sentinel light. Further servicing details are available in the distributor's Conditions of Service.

Street Lighting

This classification applies to an account for roadway lighting with a Municipality, Regional Municipality, Ministry of

Transportation and private roadway lighting operation, controlled by photo cells. The consumption for these customers will be based on the calculated connected load times the required lighting times established in the approved OEB street lighting load shape template. Further servicing details are available in the distributor's Conditions of Service.

Stand By Power - Approved on an Interim Basis

This classification refers to an account that has Load Displacement generation and requires the distributor to provide back-up service. Further servicing details are available in the utility's Conditions of Service.

microFIT Generator

This classification applies to an electricity generation facility contracted under the Ontario Power Authority's micoFIT program and connected to the distributor's distribution system. Further servicing details are available in the distributor's Condition of Service.
