Attention: Ms. Kirsten Walli, Board Secretary

Dear Ms. Walli,

**RE: LONDON HYDRO INC.
2013 Cost of Service Rate Application (EB-2012-0146)**

On September 28, 2012, London Hydro Inc. filed its 2013 Cost of Service rate application (EB-2012-0146) by both the uploading the application to the OEB RESS System and by utilization of a courier service delivery.

Recently, during the review by Board staff of our evidences, it was identified that in the OEB Cost Allocation model, filed with the London Hydro rate application, data was erroneously entered to a line above to where it was needed to be recorded. Although the correction does not significantly impact the rate application, and after welcomed recommendation by Board staff, London Hydro is requesting that the rate application be corrected and resubmitted before further proceedings of this Application are made.

The intent in re-filing of some of the documents pertaining to this rate application is to permit the stakeholders as this rate application with have the appropriate evidences in order to study and analyze London's submission.

The documents requested for resubmission include, the Cost Allocation Model, Appendix 2-W Bill Impacts, Appendix 2-V Revenue Reconciliation, Appendix 2-P Cost Allocation, and adjustments to Volume #1 and #4 of our Application.

London Hydro apologizes for any inconveniences in association with this matter.

Yours truly,

Mike Chase
Director of Finance and Regulatory

cc: David Arnold, Chief Financial Officer, London Hydro
