

November 27, 2012

Ms. Kirsten Walli Board Secretary Ontario Energy Board 2300 Yonge Street, 27th Floor Toronto, ON M4P 1E4

Dear Ms. Walli:

RE: 2013 ELECTRICITY DISTRIBUTION RATE APPLICATION FOR CANADIAN NIAGARA POWER INC.,

("CNPI") EB-2012-0112 DRAFT RATE ORDER

Please find accompanying this letter two (2) copies of CNPI's Draft Rate Order. In addition, electronic copies of live Excel spreadsheets referenced in the Draft Rate Order are being provided together with this submission.

A PDF version of the Draft Rate Order along with the Excel files will, coincidently with this written submission, be filed via the Board's Regulatory Electronic Submission System.

If you have any questions in connection with the above matter, please do not hesitate to contact the undersigned at (905) 994-3634.

Yours truly,

Original Signed by

Douglas Bradbury P.Eng, Director Regulatory Affairs

Enclosure

IN THE MATTER OF the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15, (Schedule B);

AND IN THE MATTER OF an application by Canadian Niagara Power Inc. ("CNPI") for an order approving just and reasonable rates and other charges for electricity distribution to be effective January 1, 2013.

CANADIAN NIAGARA POWER INC.

DRAFT RATE ORDER

Dated: November 27, 2012

EB-2012-0112

Canadian Niagara Power Inc. Draft Rate Order

Page 2 of 21

Filed: November 27, 2012

INTRODUCTION

Canadian Niagara Power Inc. ("CNPI") is a wholly-owned subsidiary of FortisOntario Inc. CNPI,

an Ontario corporation with its head office in Fort Erie, Ontario carries on the business, among

other things, of owning and operating electricity distribution facilities within Ontario. CNPI carries

on its distribution business in the following three service territories: Fort Erie, Port Colborne and

Gananoque/Eastern Ontario Power ("EOP").

CNPI filed a cost of service application with the Ontario Energy Board (the "Board") on May 11.

2012. The application was filed under section 78 of the Ontario Energy Board Act, 1998 (the

"Act"), seeking approval for changes to the rates that CNPI charges for electricity distribution to

be effective January 1, 2013.

The Board assigned file number EB-2012-0112 to the Application.

The Board issued a Notice of Application and Hearing on May 28, 2012. Energy Probe

Research Foundation ("Energy Probe"), the School Energy Coalition ("SEC") and the Vulnerable

Energy Consumers Coalition ("VECC") applied for intervenor status and cost eligibility; CNPI did

not object to the applications for intervenor status and their requests were approved by the

Board.

In Procedural Order No. 1, issued on June 21, 2012, the Board established a schedule for

submissions on a draft issues list, interrogatories, interrogatory responses, technical

conference, settlement conference and subsequent settlement proposal as well as a date for an

oral hearing. In Procedural Order No. 2, issued on July 6, 2012, the Board issued the Final

Issues List.

On August 16, 2012, Procedural Order No. 3 revised the dates for the settlement conference.

On August 27, 2012, CNPI amended its Application by withdrawing its proposal to disburse a

balance of \$1,119,031 from Account 1562 - Deferred PILs. The basis for CNPI's amendment

was that Section 93 of the Electricity Act, 1998 does not apply to CNPI.

EB-2012-0112 Canadian Niagara Power Inc.

Draft Rate Order

Page 3 of 21

Filed: November 27, 2012

A facilitated settlement conference was held on September 6, 2012. Prior to the

commencement of the settlement conference, the Board notified the parties that issues

regarding the disposition of Account 1562 would be severed from the settlement conference and

dealt with through a hearing. Energy Probe, SEC and VECC participated in the settlement

conference.

In Procedural Order No. 4, the Board stated its intention to determine whether the findings and

instructions established in a combined proceeding to determine the accuracy of the final

account balances with respect to Account 1562 for the period October 1, 2001 to April 30, 2006,

EB-2008-0381, (the "Combined PILs Proceeding") and findings in other cases related to PILs

should apply to CNPI even though it is not subject to section 93 of the Act. The Board

established procedural steps for CNPI's Argument-in-Chief, submissions and reply submission

to address the following threshold question (the "Threshold Question"):

"Should the Board's findings and instructions from the Combined PILs proceeding, and from

other Board decisions pertaining to PILs, be applied to CNPI?"

On September 24, 2012, CNPI filed a letter requesting an extension to file a draft settlement

proposal. A letter granting the request was issued by the Board on September 24, 2012. The

Settlement Proposal, which incorporated a comprehensive settlement of all eligible issues, was

filed with the Board on September 28, 2012.

An oral hearing related to the Threshold Question issue was held on October 2, 2012.

On November 8, 2012, the Board issued its Decision related to the Proposed Settlement

Agreement and the supporting material. The Board accepted the Proposed Settlement

Agreement in its entirety and further accepted its cost and rate consequences as reasonable.

On November 22, 2012, the Board issued its Decision and Order in the matter of EB-2012-

0112. This Decision and Order contains the Board's findings related to the Threshold Question.

The Board found that CNPI is not required to apply the methodology from the Combined

PILs proceeding with respect to its Fort Erie and Eastern Ontario Power service areas.

Further, the Board found that prior to April 2002 Port Colborne may have paid PILs to the

EB-2012-0112 Canadian Niagara Power Inc.

Draft Rate Order

Page 4 of 21

Filed: November 27, 2012

Ministry of Finance. The Board found that CNPI must apply the methodology from the

Combined PILs proceeding and subsequent Board decisions for the Port Colborne Service

Area. The Board has directed CNPI to dispose of the balance in Account 1562 of the

principal amounts recorded to Account 1562 for the Port Colborne service area from

October 1, 2001 to April 15, 2002 as well as carrying charges to December 31, 2012 and

provide the detailed calculations in support of the amounts as part of this Draft Rate Order.

This matter is addressed in this Draft Rate Order under the heading "Disposition of Account

1562 Deferred PILs - Port Colborne".

COST OF CAPITAL PARAMETER UPDATES FOR 2013 COST OF SERVICE APPLICATIONS FOR RATES

EFFECTIVE JANUARY 1, 2013

The Board determines the values for the Return on Equity ("ROE") and the deemed Long-Term

("LT") and Short-Term ("ST") debt rates for use in cost of service applications. The ROE and the

LT and ST debt rates are collectively referred to as the Cost of Capital parameters. The updated

Cost of Capital parameters are calculated based on the formulaic methodologies documented in

the Report of the Board on the Cost of Capital for Ontario's Regulated Utilities, issued

December 11, 2009. The updated Cost of Capital parameters were issued by the Board on

November 15, 2012 and have been incorporated in this Draft Rate Order. This is discussed

further under the heading "Cost of Capital".

DISCUSSION

The impact of the Decision and Order on CNPI's 2013 Test Year Revenue Requirement, as presented in its Application, is a reduction of \$528,260. The Settlement Agreement accepted by the Board reduced the test year revenue requirement by \$378,175 and the impact of the cost of capital parameters issued on November 15, 2012 resulted in an additional reduction of \$150,085. The Settlement Agreement accepted by the Board reduced CNPI's OM&A expenses by \$50,000 in 2013. The average net fixed assets for 2013 were reduced by \$245,000 while the working capital allowance increased by \$280,379 as a result of updated cost of power metrics. The net impact was an increase of \$35,379 to the Rate Base for the 2013 Test Year. The use of the Board's deemed long term debt rate of 4.41% in the Settlement Agreement reduced the deemed interest expense by \$295,012. Detailed accounting of all changes is provided in the Revenue Requirement Workform provided in Appendix A of this Draft Rate Order.

EB-2012-0112 Canadian Niagara Power Inc.

Draft Rate Order

Page 8 of 21 Filed: November 27, 2012

The revenue requirement and rate adjustments arising from this Decision and Order will allow

CNPI to make the necessary investments to serve customers, maintain the integrity of the

distribution system, to maintain and improve the quality of its service and to meet all compliance

requirements during 2013. While CNPI has filed its budget for the Test Year that is illustrative of

how it would achieve these goals, as is always the case with forward test year cost of service

cases, the actual decisions as to how to allocate resources, and in what areas to spend the

agreed upon capital and operations, are ones that must be made by the utility during the course

of the year, subject to the Board's normal review in subsequent proceedings.

CUSTOMER AND LOAD FORECAST

In the Settlement Agreement accepted by the Board, the parties accepted the CNPI's proposed

customer and load forecast as presented in its Application. CNPI has maintained its customer

and load forecast for the purposes of calculating electricity distribution rates effective January 1,

2013 and presented in this Draft Rate Order.

CAPITAL EXPENDITURES

In the Settlement Agreement accepted by the Board, the Parties agreed to the deferral of

\$100,000 in capital expenditures from 2012 to 2013 along with the increase in contributions-in-

aid of construction of \$100,000 in 2012 and another \$190,000 in 2013 resulting in a net

decrease in average gross fixed assets of \$245,000 for rate base calculation purposes.

WORKING CAPITAL ALLOWANCE (WCA)

In the Settlement Agreement accepted by the Board, the Parties agreed that the Cost of Power

will be an RPP price of \$80.69/MWh and a Non-RPP price of \$78.77/MWh based on the April 2.

2012 Regulated Price Plan Price Report for May 1, 2012 to April 30, 2013.

The Parties also agreed that the Working Capital Allowance is calculated based on 13% of the

total OM&A expenses of \$9,835,961 and COP of \$52,454,045 for a total working capital of

\$62,290,006 and a Working Capital Allowance of \$8,097,701.

RATE BASE

The Settlement Agreement accepted by the Board established 2013 Rate Base for the purpose

of calculating 2013 revenue requirement to be \$73,497,788. This Rate Base incorporates the

EB-2012-0112 Canadian Niagara Power Inc.

Draft Rate Order Page 9 of 21

Filed: November 27, 2012

changes to Capital Expenditures and the Working Capital Allowance discussed in the preceding sections.

OPERATIONS, MAINTENANCE AND ADMINISTRATIVE COSTS (OM&A COSTS)

In the Settlement Agreement accepted by the Board, the parties agreed to a reduction of \$50,000 in the 2013 Test year OM&A costs yielding and agreed to an amount of \$9,835,961 (inclusive of property taxes; \$116,700). CNPI has maintained this agreed to amount of \$9,835,961 in the determination of the electricity distribution rates effective January 1, 2013 and presented in this Draft Rate Order.

INCOME TAXES

In the Application, CNPI had included income taxes in the amount of \$641,705. Arising from the reductions noted in the Settlement Agreement accepted by the Board and the implementation of the Board's updated cost of capital parameters, income tax has been reduced to \$612,615.

CAPITAL STRUCTURE

In the Settlement Agreement accepted by the Board, the parties agreed that the capital structure in the Application; 40% equity, 56% long term debt and 4% short term debt is appropriate.

COST OF CAPITAL

In the Settlement Agreement accepted by the Board, the parties agreed that the Board's most recent Cost of Capital Parameters for Return on Equity, short-term debt and long-term debt for cost of service applications will apply. The updated Cost of Capital parameters were issued by the Board on November 15, 2012 and are shown below:

Cost of Capital Parameter	for January 1, 2013 rate changes
Deemed Return on Equity	8.93%
Deemed LT Debt rate	4.03%
Deemed ST Debt rate	2.08%

CNPI has calculated its 2013 Test Year Cost of Long Term Debt using the Board's Deemed Long Term Debt Rate and its Third Party Debt Rate to be 5.67%. The details of the calculation are provided in the following table.

2013 Test Year Cost of Long Term Debt								
\$'000	Coupon Rate	Balance 31 - Dec	Monthly Average	Interest	Debt Issue Costs	Total Costs	Effective Rate	
Third Party Debt	7.092%	30,000	30,000	2,128	32	2,160	7.20%	
Affiliated Debt	4.03%	15,000	15,000	605	-	605	4.03%	
Affiliated Debt	4.03%	5,000	5,000	202	-	202	4.03%	
Affiliated Debt	4.03%	8,000	8,000	322	-	322	4.03%	
		58,000	58,000	3,256	32	3,288	5.67%	

The impact on CNPI's 2013 revenue requirement is shown in the following table:

	Per Settlement Agreement	Per Decision	Change
Total Rate Base	\$73,497,788	\$73,497,788	Nil
Total Operating Expenses	\$13,333,372	\$13,333,372	Nil
Income taxes Grossed Up	\$632,755	\$612,615	(\$20,140)
Long Term Debt Rate	5.85%	5.67%	-0.18
Short Term Debt Rate	2.08%	2.08%	Nil
Deemed Return on Equity	9.12%	8.93%	-0.19
Cost of Capital	7.01%	6.83%	-0.18
Deemed Interest Expense – 60%	\$2,468,938	\$2,394,852	(\$74,086)
Deemed Return on Equity – 40%	\$2,681,199	\$2,625,341	(\$55,858)
Service Revenue Requirement	\$19,116,264	\$18,966,180	(\$150,084)
Revenue Offsets	\$1,403,184	\$1,403,184	Nil
Base Revenue Requirements	\$17,713,080	\$17,562,996	(\$150,084)

SMART METERS

In the Settlement Agreement accepted by the Board, the Parties accepted CNPI's proposed quanta of smart meter costs included in the 2013 Test Year, as well as CNPI's proposed allocation, and 2 year recovery period as appropriate.

EB-2012-0112

Canadian Niagara Power Inc. Draft Rate Order

Page 11 of 21

Filed: November 27, 2012

In the Settlement Agreement accepted by the Board, the Parties accepted the total stranded

meter value of \$1,169,579, as requested in the Application. The Parties accept the proposal for

recovery of that amount through rate riders calculated by rate class, over a two year period,

from January 1, 2013 to December 31, 2014.

CNPI has maintained this agreed upon quanta of smart meter costs included in the 2013 Test

Year and the total stranded meter value of \$1,169,579 in the determination of the electricity

distribution rates effective January 1, 2013 and presented in this Draft Rate Order.

RATE DESIGN

In the Settlement Agreement accepted by the Board, the Parties have agreed to a rate design

based on a harmonized revenue requirement for CNPI's entire service territory with targeted

class revenue to cost ratios and fixed monthly service charge amounts. Final revenue to cost

ratios and class specific monthly service charges are phased-in beginning with the 2013 Test

Year and continuing through the subsequent IRM period. CNPI has maintained this rate design

in this Draft Rate Order. Details of the rate design are provided in Appendix B and a live Excel

version accompanies this Draft Rate Order.

COST ALLOCATION AND REVENUE TO COST RATIOS

In the Settlement Agreement accepted by the Board, the Parties have agreed that the cost

allocation for the 2013 Test Year shown in the following table is appropriate for the 2013

Revenue Requirement and will be used to establish the target revenue to cost ratios for the

2013 rate design as well as subsequent rate designs for the rate years 2014, 2015 and 2016.

Filed:	Novem	ber	27,	2012

Test Year Revenue to Cost Ratios							
as Determined in the Cost Allocation Study							
Customer Class	Allocation of Revenue Requirement including Net Income	Deficiency Factor	Distribution Revenue at Status Quo Rates	Misc. Revenue	Revenue to Cost Ratio		Board's 2011 Policy Range
Residential	11,876,815	1.10940	9,927,778	887,427	91.06%		85% - 115%
GS Less Than 50 kW	2,376,032	1.10940	2,426,082	171,803	109.34%		80% - 120%
GS 50 to 4,999 kW	4,090,319	1.10940	4,608,377	297,618	119.94%		80% - 120%
USL	36,954	1.10940	93,264	3,257	261.19%		80% - 120%
Sentinel Lighting	82,426	1.10940	59,948	5,731	79.68%		80% - 120%
Street Lighting	503,635	1.10940	447,549	37,349	96.28%		70% - 120%
Total	\$ 18,966,182		\$17,562,998	\$ 1,403,184			

There are two customer classes, the Unmetered Scattered Load and Sentinel Lighting, outside the Board's 2011 Policy Range. The process to bring the revenue to cost ratios of the customer classes within the bounds of the Board's Policy is:

- 1. Raise the lower customer class, the Sentinel Lighting ,to the lower boundary of 80% and the beneficiary of the move will be the highest customer class, USL.
- 2. Lower the highest customer class toward its upper boundary of 120% by first shifting cost to the lowest customer class, Sentinel Lighting. Once the Sentinel Lighting customer class reaches the second lowest customer class, Residential, then continue to raise these two in unison until the USL customer class reaches its upper boundary.
- 3. To move the USL customer class from 261.19% to 120% in the four years of the regulatory cycle we would target movement of 35.30 percentage points per annum.

Changes resulting from the Settlement Agreement

Application Revenue Requirement \$ 19,494,443
Draft Rate Order \$ 18,966,182
Difference -\$ 528,261

Appendix C to the Draft Rate Order provides excerpted sections of the 2013 Test Year Cost Allocation; a live Excel version accompanies this Draft Rate Order.

The Board has also accepted that the Revenue to Cost Ratios set out for the rate years 2013 to 2016 are based on the 2013 Cost Allocation and are shown in the following tables. The highlighted cells in the "Target Revenue to Cost Ratio" column is intended to draw attention to the customer classes whose revenue to cost ratios will continue to change throughout the subsequent IRM period. The USL customer class is targeted to decrease to 120% by 2016. The adjusted distribution revenue resulting from the decreased revenue to cost ratio for the USL

customer class will be allocated to those customer classes with the lowest revenue to cost ratios; the Residential and Sentinel Lighting classes.

2013 Target Revenue to Cost Ratios						
Customer Class	Allocation of Revenue Requirment including Net Income	Misc. Revenue	Allocation of Distribution Revenue Requirment including Net Income	Distribution Revenue at Status Quo Rates	Taget Revenue to Cost Ratio	Adjusted Distribution Revenue

RETAIL TRANSMISSION SERVICE RATES

In the Settlement Agreement accepted by the Board, the Parties accepted the determination of the harmonized Retail Transmission Service Rates for CNPI.

OTHER CHARGES

In the Settlement Agreement accepted by the Board, the Parties accepted the Other Charges as presented for CNPI in its Application.

EB-2012-0112

Canadian Niagara Power Inc. Draft Rate Order

Page 15 of 21 Filed: November 27, 2012

LOSS ADJUSTMENT FACTORS

In the Settlement Agreement accepted by the Board, the Parties accepted the determination of

the harmonized Loss Adjustment Factors for CNPI.

DISPOSITION OF ACCOUNT 1562 DEFERRED PILS - PORT COLBORNE

In its Application filed on May 12, 2102, CNPI submitted evidence relating to the disposition of

Account 1562 - Deferred PILs; this evidence was presented in the PILs Binder of the

Application, specifically Exhibit 4. In Exhibit 4, Tab 2, CNPI presented the Port Colborne

monthly_continuity_schedule_with_interest_improvement. The PILs recoveries utilized in the

continuity schedule are the Board approved rate slivers that had been determined as per the

methodology used by applicants in the Combined PILs Proceeding; EB-2008-0381.

Determination of the recovery amounts are detailed in Exhibit 4, Tab 4, Schedules 1 through 4.

In its Decision and Order dated November 22, 2012, the Board directed CNPI to dispose of the

balance in Account 1562 of the principal amounts recorded to Account 1562 for the Port

Colborne service area for the period of October 1, 2001 to April 15, 2002 as well as carrying

charges to December 31, 2012 and provide the detailed calculations in support of the

amounts as part of this Draft Rate Order. Appendix D to this Draft Rate Order details the

Port Colborne 1562 Deferred PILs Continuities of principle amounts with interest

improvement for the period of October 2001 through to April 30, 2002 with continuing

interest improvement shown through to December 31, 2012. A summary of these

continuities is provided in the following table.

Principle Amounts

Period Ending	PILS Entitlement Amount	PILs Revenue	Variance	Cumulative
Oct. '01	\$42,832.67		\$42,832.67	\$42,832.67
Nov. '01	\$42,832.67		\$42,832.67	\$85,665.33
Dec. '01	\$42,832.67		\$42,832.67	\$128,498.00
Jan. '02	\$42,532.42		\$42,532.42	\$171,030.42
Feb. '02	\$42,532.42		\$42,532.42	\$213,562.83
Mar. '02	\$42,532.42	\$25,369.88	\$17,162.54	\$230,725.37
Apr. 15 '02	\$21,266.21	\$25,970.43	-\$4,704.22	\$226,021.15

Interest Improvement

Period Ending	Cumulative	Interest rate	Interest	Total Variance
Oct. '01	\$42,832.67	7.25%	\$ -	\$42,832.67
Nov. '01	\$85,665.33	7.25%	\$258.78	\$85,924.11
Dec. '01	\$128,498.00	7.25%	\$517.56	\$129,274.34
Jan. '02	\$171,030.42	7.25%	\$776.34	\$172,583.10
Feb. '02	\$213,562.83	7.25%	\$1,033.31	\$216,148.83
Mar. '02	\$230,725.37	7.25%	\$1,290.28	\$234,601.64
Apr. '02	\$226,021.15	7.25%	\$1,393.97	\$231,291.39

Additional interest improvement accruing from April 16, 2002 through to December 31, 2012 at the prevailing prescribed interest rates is \$120,992.18 for a total variance of \$334,283.57 debit balance. Details of the total variance are provided in Appendix D.

CNPI is proposing to allocate the total variance on the basis of the current allocation of distribution revenue; this is detailed in the table below. The 2013 proposed distribution of revenues is taken from the 2013 Reconciliation Tab of the Rate Design provided in Appendix B.

Customer Class Allocation

				Allocated 1562 Disposition Value
		2013	Allocation	(including interest to
Rate Class	Pro	posed DRR	%	Dec 31, 2012)
Residential	\$	3,187,625	54.02%	180,595.80
General Service < 50 kW	\$	773,275	13.11%	43,810.14
General Service > 50 kW	\$	1,785,421	30.26%	101,153.55
Sentinel Lights	\$	2,660	0.05%	150.72
Street Lights	\$	127,045	2.15%	7,197.76
Unmetered Scattered Load	\$	24,280	0.41%	1,375.60
Total	\$	5,900,306	100.00%	334,283.57

CNPI is proposing to use the variable billing determinants associated with the Port Colborne service territory to determine the appropriate rate riders to dispose the balance. Also, CNPI is proposing a four year recovery period to coincide with the IRM period, calculation of the rate riders is shown below.

Rate Rider Calculations

		Recovery		2013 Proposed				
	Allocated 1562	Period	Annual Recovery	Billing Determinant	Proposed Rate			
Rate Class	Value	(years)	Amount	(kWh/kW)	Rider			
Residential	180,595.80	4	45,148.95	64,161,933	0.0007 per kWh			
General Service < 50 kW	43,810.14	4	10,952.54	23,558,821	0.0005 per kWh			
General Service > 50 kW	101,153.55	4	25,288.39	311,664	0.0811 per kW			
Sentinel Lights	150.72	4	37.68	40	0.9420 per kW			
Street Lights	7,197.76	4	1,799.44	4,119	0.4369 per kW			
Unmetered Scattered Load	1,375.60	4	343.90	581,815	0.0006 per kWh			
Total	334,283.57	4	83,570.89					

TARIFF OF RATES AND CHARGES

The proposed Tariff of Rates and Charges effective January 1, 2013 is provided in Appendix E to the Draft Rate Order.

BILL IMPACTS

A copy of the Bill Impacts is provided in Appendix F to this Draft Rate Order. Shown below are delivery charge and total bill impacts for selected typical customers.

Notes:

General Data inputs are required on Sheets 3, 10A and 10B. Data from Sheet 3 will automatically complete calculations on sheets 4 through 9 (Rate Base through Revenue Requirement). Sheets 4 through 9 do not require any inputs except for notes that the Applicant may wish to enter to support the results. Pale green cells are available on sheets 4 through 9 to enter both footnotes beside key cells and the related text for the notes at the bottom of each sheet.

- All inputs are in dollars (\$) except where inputs are individually identified as percentages (%)
- 4.0% unless an Applicant has proposed or been approved for another amount. (2)
- (3) Net of addbacks and deductions to arrive at taxable income.
- (4) Average of Gross Fixed Assets at beginning and end of the Test Year
- (5) Average of Accumulated Depreciation at the beginning and end of the Test Year. Enter as a negative amount.
- (6) Select option from drop-down list by clicking on cell M10. This column allows for the application update reflecting the end of discovery or Argument-in-Chief. Also, the outcome of any Settlement Process can be reflected.
- Input total revenue offsets for deriving the base revenue requirement from the service revenue requirement (7)

There are two customer classes, the Unmetered Scattered Load and Sentinel Lighting, outside the Board's 2011 Policy Range. The process to bring the revenue to cost ratios of the customer classes within the bounds of the Board's Policy is:

- 1. Raise the lower customer class, the Sentinel Lighting ,to the lower boundary of 80% and the beneficiary of the move will be the highest customer class, USL.
- 2. Lower the highest customer class toward its upper boundary of 120% by first shifting cost to the lowest customer class, Sentinel Lighting. Once the Sentinel Lighting customer class reaches the second lowest customer class, Residential, then continue to raise these two in unison until the USL customer class reaches its upper boundary.
- 3. To move the USL customer class from 261.19% to 120% in the four years of the regulatory cycle we would target movement of 35.30 percentage points per annum.

Street Lighting	\$	0.12	\$	11.17		\$ 4.76	TRUE		

Notes:

- 1. Two customer classes, GS 50 to 4,999 kW and USL, have monthly service charges exceeding the recommended ceiling.
- 2. For the GS 50 to 4,999 kW customer class, CNPI will target the ceiling amount of \$145.28 as the final harmonized monthly service charge.
- 3. For the USL customer class, CNPI currently bills these accounts on a per customer basis. CNPI will target 50% of the design rate (\$63.31) which is \$31.66 per month as the final harmonized monthly service charge.
- 4. For the remaining customer classes, CNPI will target the design rates shown above as the final harmonized monthly service charge.

APPENDIX E

CNPI 2013 TARIFF OF RATES AND CHARGES

Effective and Implementation Date January 1, 2013

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2012-0112

Fort Erie Service Area

RESIDENTIAL SERVICE CLASSIFICATION

The Residential Class (Regular) refers to a service taking electricity normally at 750 volts or less where the electricity is used for domestic and household purposes in a single family unit. A single family unit being a permanent structure located on a single parcel of land and approved by a civic authority as a dwelling and occupied for that purpose by a single customer. Residential rates are also applied to apartment buildings with 6 units or less that are bulk metered. Apartment buildings with more than 6 units that are bulk metered are deemed to be General Service. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

GENERAL SERVICE LESS THAN 50 kW SERVICE CLASSIFICATION

This classification refers to the supply of electrical energy to single commercial or industrial customer and whose average peak demand is (or is forecasted to be) less than 50 kW. Single commercial or industrial customers are interpreted as a structure or structures on a single parcel of land occupied by one customer. An apartment building with more than 6 units that is bulk metered and has an average peak demand less than 50 kW is deemed to be General Service less than 50 kW. The common area of a separately metered apartment building having a demand less than 50 kW is also deemed to be General Service less than 50 kW. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification refers to the supply of electrical service to a customer that is deemed to have a constant load over a billing period, normally with minimum electrical consumption and the consumption is unmetered. Energy consumption is based on connected wattage and calculated hours of use. Examples of unmetered scattered load are cable television amplifiers, billboards, area lighting. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

RETAIL SERVICE CHARGES (if applicable)

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Board, and amendments thereto as approved by the Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Board, and amendments thereto as approved by the Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments or credits that are required by law to be invoiced by a distributor and that are not subject to Board approval, such as the Debt Retirement Charge, the Global Adjustment, the Ontario Clean Energy Benefit and the HST.

Retail Service Charges refer to services provided by a distributor to retailers or customers related to the supply of competitive electricity

One-time charge, per retailer, to establish the service agreement between the distributor and the retailer	\$	100.00
Monthly Fixed Charge, per retailer	\$	20.00
Monthly Variable Charge, per customer, per retailer	\$/cust.	0.50
Distributor-consolidated billing monthly charge, per customer, per retailer	\$/cust.	0.30
Retailer-consolidated billing monthly credit, per customer, per retailer	\$/cust.	(0.30)
Service Transaction Requests (STR)		, ,
Request fee, per request, applied to the requesting party	\$	0.25
Processing fee, per request, applied to the requesting party	\$	0.50
Request for customer information as outlined in Section 10.6.3 and Chapter 11 of the Retail		
Settlement Code directly to retailers and customers, if not delivered electronically through the		
Electronic Business Transaction (EBT) system, applied to the requesting party		
Up to twice a year	\$	no charge
More than twice a year, per request (plus incremental delivery costs)	\$	2.00

LOSS FACTORS

If the distributor is not capable of prorating changed loss factors jointly with distribution rates, the revised loss factors will be implemented upon the first subsequent billing for each billing cycle.

Total Loss Factor – Secondary Metered Customer < 5,000 kW	1.0542
Total Loss Factor – Primary Metered Customer < 5,000 kW	1.0437
