Dear Ms. Walli:

**Re: E.L.K. Energy Inc. – 2012 Cost of Service Distribution Rate Application
Board File No. EB-2011-0099**

It has come to our attention that EnWin Utilities Ltd. ("EnWin") has written to the Board requesting intervenor status in E.L.K. Energy Inc's ("E.L.K.'s") 2012 Cost of Service distribution rate application. EnWin's licensed service area does not abut that of E.L.K., nor is E.L.K. an embedded or host distributor in relation to EnWin. E.L.K.'s licensed service area is surrounded by that of Hydro One Networks Inc. ("HONI"), and E.L.K. is both an embedded and a host distributor in relation to HONI.

EnWin's November 21, 2012 letter requesting intervenor status indicates that its intention is to observe the proceeding. Based on the limited nature of EnWin's intended participation in this matter (EnWin states that its interest is in "observing the cost of service applications being presented to the Board, in particular those in neighbouring service areas"), there is no apparent need to grant intervenor status to EnWin, but E.L.K. will not object to the granting of observer status to EnWin.

Should you have any questions or require further information in respect of this matter, please do not hesitate to contact me.

Yours very truly,

Mark Danelon, C.A.
