Written Submission

On September 14, 2012, Entegrus Powerlines Inc. (“Entegrus”) submitted an application (the “Application”) for proposed distribution and transmission rates under the 3rd Generation Incentive Regulation Mechanism (“IRM”) to be effective May 1, 2013.

The Ontario Energy Board (“Board”) issued its Letter of Direction on September 27, 2012. Entegrus completed all directives requested by the Board including the publication of the Notice of Application and Hearing. No parties requested intervenor status and no letters of comments were received.

On October 25, 2012, Board Staff submitted interrogatories in respect of the Application. Full responses to the interrogatories were filed by Entegrus on November 8, 2012.

Subsequently, on November 21, Board Staff filed its submission. Board Staff noted that it had “...reviewed Entegrus’ 2013 IRM application and its responses to the interrogatories and has no concerns with the application and the changes agreed to by the applicant.”

Entegrus concurs with Board Staff and has no further submissions.

All of which is respectfully submitted.
